# ACADEMIC CALENDAR

## 2007 Summer Term I\*

May 25	Last day to register for first term and pay fees, 5 p.m.
May 28	Memorial Day. Faculty and Staff holiday.
May 29	First day of first term classes.
June 1	Last day for adding/dropping courses for the first term, 5 p.m. Last day to apply for degrees to be awarded in August for students completing degree requirements in the first term, 5 p.m.
June 18	Last day for all students to drop courses with no penalty for the first term (Q-drop), 5 p.m. Last day to change KINE 198/199 grade type for first term on the website <i>myrecord.tamu.edu</i> , 5 p.m. Last day to officially withdraw from the University for first term, 5 p.m.
June 29	Last day of first term classes.
July 2	First term final examinations. Last day to register for the second term and pay fees, 5 p.m.
July 6	First term final grades due in Admissions and Records, 10 a.m.
August 10	Last day for August undergraduate degree candidates to apply for Tuition Rebate, 5 p.m.

## 2007 Summer Term II\*

July 2	Last day to register for the second term and pay fees, 5 p.m.
July 3	First day of second term classes.
July 4	Independence Day holiday.
July 6	Last day to apply for degrees to be awarded in August for students completing degree requirement in the second term, 5 p.m.
July 9	Last day for adding/dropping courses for the second term, 5 p.m.
July 24	Last day for all students to drop courses with no penalty for the second term (Q-drop), 5 p.m. Last day to change KINE 198/199 grade type for second term at website <i>myrecord.tamu.edu</i> , 5 p.m. Last day to officially withdraw from the University for second term, 5 p.m.
August 6	Last day of second term classes.
August 7-8	Second term final examinations for all students.
August 9	Grades for degree candidates from departments due in Admissions and Records, 10 a.m.
August 10	Last day for August undergraduate degree candidates to apply for Tuition Rebate, 5 p.m.
August 11	Commencement.
August 13	Final grades for second term due in Admissions and Records, 10 a.m.

## 2007 10-Week Summer Semester\*

May 25	Last day to register for 10-week semester and pay fees, 5 p.m.
May 28	Memorial Day. Faculty and Staff Holiday.
May 29	First day of 10-week semester classes.
June 1	Last day for adding/dropping courses for the 10-week semester, 5 p.m.
July 2	No 10-week semester classes.
July 4	Independence Day holiday.
July 6	Last day to apply for degrees to be awarded in August for students completing degree requirements in the 10-week semester, 5 p.m.
July 18	Last day for all students to drop courses with no penalty for the 10-week semester (Q-drop), 5 p.m. Last day to officially withdraw from the University for the 10-week semester.
August 6	Last day of 10-week semester classes.
August 7-8	10-week semester final examinations for all students.
August 9	Grades for degree candidates from departments due in Admissions and Records, 10 a.m.
August 10	Last day for August undergraduate degree candidates to apply for Tuition Rebate, 5 p.m.
August 11	Commencement.
August 13	Final grades for 10-week semester due in Admissions and Records, 10 a.m.

\* These dates are subject to change.

## 2007 Fall Semester\*

August 24	Last day to register for fall semester classes and pay fees, 5 p.m.
August 27	First day of fall semester classes.
August 31	Last day for adding/dropping courses for the fall semester, 5 p.m.
September 7	Last day to apply for all degrees to be awarded in December, 5 p.m.
October 15	Mid-semester grades due in Admissions and Records, 10 a.m.
November 2	Last day for all students to drop courses with no penalty (Q-drop), 5 p.m. Last day to change KINE 198/199 grade type, 5 p.m. Last day to officially withdraw from the University, 5 p.m.
November 18	Bonfire 1999 Remembrance Day.
November 12	Preregistration begins for 2008 spring semester.
November 22-23	Thanksgiving holiday.
December 3	Redefined day, students attend their Friday classes. Dead day, classes meet. No regular course exams (except for laboratory and one-hour classes) shall be given on these days.
December 4	Last day of fall semester classes. Redefined day, students attend their Thursday classes. Dead day, classes meet. No regular course exams (except for laboratory and one-hour classes) shall be given on these days.
December 5-6	Reading days, no classes.
December 7, 10-12	Fall semester final examinations for all students.
December 14	Last day for December undergraduate degree candidates to apply for Tuition Rebate, 5 p.m.
December 15	Commencement and Commissioning.
December 17	Final grades for all students due in Admissions and Records, 10 a.m.
December 24-Jan 1	Faculty and Staff holiday.

## 2008 Spring Semester\*

January 11	Last day to register for spring semester classes and pay fees, 5 p.m.
January 14	First day of spring semester classes.
January 18	Last day for adding/dropping courses for the spring semester, 5 p.m.
January 21	Martin Luther King, Jr. Day. Faculty and Staff holiday.
January 25	Last day to apply for all degrees to be awarded in May, 5 p.m.
March 3	Mid-semester grades due in Admissions and Records, 10 a.m.
March 10-14	Spring break.
March 13-14	Faculty and Staff holiday.
March 21	Reading day, no classes.
April 1	Last day for all students to drop courses with no penalty (Q-drop), 5 p.m. Last day to change KINE 198/199 grade type, 5 p.m. Last day to officially withdraw from the University, 5 p.m.
April 7	Preregistration begins for the 2008 first term, second term, 10-week summer semester and fall semester.
April 21	Muster. Campus ceremony.
April 28	Dead day, classes meet. No regular course exams (except for laboratory and one-hour classes) shall be given on these days.
April 29	Last day of spring semester classes. Redefined day, students attend their Friday classes. Dead day, classes meet. No regular course exams (except for laboratory and one-hour classes) shall be given on these days.
April 30-May 1	Wednesday-Thursday. Reading days, no classes.
May 2, 5-7	Friday, Monday-Wednesday. Spring semester final examinations for all students.
May 9	Friday, 5 p.m. Last day for May undergraduate degree candidates to apply for Tuition Rebate.
May 10	Saturday. Commencement and Commissioning.
May 12	Monday. Final grades for all students due in Admissions and Records, 10 a.m.

\*All dates and times are subject to change.

**2008 Summer Term I\***

May 23	Last day to register for first term and 10-week semester and pay fees, 5 p.m.
May 26	Memorial Day. Faculty and Staff holiday.
May 27	First day of first term and 10-week semester classes.
May 30	Last day for adding/dropping courses for the first term and the 10-week semester, 5 p.m. Last day to apply for degrees to be awarded in August for students completing degree requirements in the first term, 5 p.m.
June 16	Last day for all students to drop courses with no penalty for the first term (Q-drop), 5 p.m. Last day to change KINE 198/199 grade type for first term, 5 p.m. Last day to officially withdraw from the University for first term, 5 p.m.
June 27	Last day of first term classes.
June 30	First term final examinations.
July 3	First term final grades due in Admissions and Records, 10 a.m.

**2008 Summer Term II\***

June 30	Last day to register for the second term and pay fees, 5 p.m.
July 1	First day of second term classes.
July 3	Last day to apply for degrees to be awarded in August for students completing degree requirements in the second term, 5 p.m.
July 4	Independence Day holiday.
July 7	Last day for adding/dropping courses for the second term, 5 p.m.
July 22	Last day for all students to drop courses with no penalty for the second term (Q-drop), 5 p.m. Last day to change KINE 198/199 grade type for second term, 5 p.m. Last day to officially withdraw from the University for second term, 5 p.m.
August 4	Last day of second term classes.
August 5-6	Second term final examinations for all students.
August 7	Grades for degree candidates from departments due in Admissions and Records, 10 a.m.
August 8	Last day for August undergraduate degree candidates to apply for Tuition Rebate, 5 p.m.
August 9	Commencement and Commissioning.
August 11	Monday. Final grades for second term due in Admissions and Records, 10 a.m.

**2008 10-Week Summer Semester\***

May 23	Last day to register for 10-week semester and pay fees, 5 p.m.
May 26	Memorial Day. Faculty and Staff holiday.
May 27	First day of 10-week semester classes.
May 30	Last day for adding/dropping courses for the 10-week semester, 5 p.m.
June 30	No 10-week semester classes.
July 3	Last day to apply for degrees to be awarded in August for students completing degree requirements in the 10-week semester, 5 p.m.
July 4	Independence Day holiday.
July 16	Last day for all students to drop courses with no penalty for the 10-week semester (Q-drop), 5 p.m. Last day to officially withdraw from the University for 10-week semester, 5 p.m.
August 4	Last day of 10-week semester classes.
August 5-6	10-week semester final examinations for all students.
August 7	Grades for degree candidates from departments due in Admissions and Records, 10 a.m.
August 8	Last day for August undergraduate degree candidates to apply for Tuition Rebate, 5 p.m.
August 9	Commencement and Commissioning.
August 11	Final grades for 10-week semester due in Admissions and Records, 10 a.m.

\*These dates are subject to change.

# ADMINISTRATION

## The Texas A&M University System

---

### Board of Regents\*

John D. White (Chairman)	Houston, Texas
Bill Jones (Vice Chairman)	Austin, Texas
Phillip D. Adams	Bryan, Texas
Lupe Fraga	Houston, Texas
Wendy Gramm	Helotes, Texas
Lowry Mays	San Antonio, Texas
Erle Nye	Dallas, Texas
Gene Stallings	Powderly, Texas
Ida Clement Steen	San Antonio, Texas
Cassidy Ann Daniel (Student Regent)	Hereford, Texas

### System Administrative Officers\*

Chancellor	Michael D. McKinney
Vice Chancellor for Academic and Student Affairs	Frank B. Ashley, III
Vice Chancellor for Administration	James A. Fletcher
Vice Chancellor for Governmental Relations	Stanton C. Calvert
Vice Chancellor for Health Affairs	Nancy W. Dickey
Vice Chancellor for Research and Federal Relations	K. Lee Peddicord
Vice Chancellor for Technology Commercialization	Guy K. Diedrich
Vice Chancellor and Dean of Agriculture and Life Sciences	Elsa A. Murano
Vice Chancellor and Dean of Engineering	G. Kemble Bennett
General Counsel	Cullen M. (Mike) Godfrey
Deputy General Counsel	Jay T. Kimbrough
Director of Communications	Terri H. Parker
Chief Auditor	Catherine A. Smock
Chief of Staff	Janet Smalley

Interim President, Texas A&M University	Eddie J. Davis
President, Texas A&M University-Commerce	Keith D. McFarland
President, Texas A&M University-Corpus Christi	Flavius C. Killebrew
President, Texas A&M International University	Ray M. Keck III
President, Texas A&M University-Kingsville	Rumaldo Z. Juárez
President, Prairie View A&M University	George C. Wright
President, Tarleton State University	Dennis P. McCabe
President, Texas A&M University-Texarkana	Stephen R. Hensley
President, West Texas A&M University	J. Patrick O'Brien

President, Texas A&M University System Health Science Center	Nancy W. Dickey
--	-----------------

Director, Texas Agricultural Experiment Station	Elsa A. Murano
Director, Texas Cooperative Extension	Edward G. Smith
Director, Texas Engineering Experiment Station	G. Kemble Bennett
Interim Director, Texas Engineering Extension Service	Gary R. Sera
Director, Texas Forest Service	James B. Hull
Director, Texas Transportation Institute	Dennis L. Christiansen
Executive Director, Texas Veterinary Medical Diagnostic Laboratory	Lelve G. Gayle

## Texas A&M University at Galveston

---

### Board of Visitors

William W. Pickavance, Jr. (Chairman)	Cape Canaveral, Florida
B. Greg Mitchell (Vice Chairman)	La Jolla, California
Tony Buzbee	Galveston, Texas
Christopher S. Cahill	Galveston, Texas
James C. Card	Houston, Texas
Jonathan W. Cook	The Woodlands, Texas
Eddie J. Davis (Ex-Officio Member)	College Station, Texas
James T. Edmonds	Houston, Texas
Robert A. Fry, Jr.	Pasadena, Texas
Billy Greer (Ex-Officio Member)	Beaumont, Texas
John W. Lyons, Jr. (Emeritus Member)	Texas City, Texas
James P. McGregor	Houston, Texas
George P. Mitchell (Emeritus Member)	The Woodlands, Texas
Frank M. Muller, Jr.	Houston, Texas
Victor R. Pierson	Jamaica Beach, Texas
John F. Reinhart	Norfolk, Virginia
William G. Schubert	Pinehurst, Texas
Robert Smith, III	Houston, Texas
Susanne H. Sullivan	Galveston, Texas
Steven P. Valerius	Houston, Texas
Deepak Varshney (Ex-Officio Member)	New Orleans, Louisiana
Kris Anne Vogelpohl	Galveston, Texas

### Administrative Officers

Vice President and Chief Executive Officer	R. Bowen Loftin
Associate Vice President for Student Affairs and Administration	William C. Hearn
Associate Vice President for Research and Graduate Studies and Interim Associate Vice President for Academic Affairs	William A. Seitz
Superintendent, Texas Maritime Academy	Allen B. Worley
Assistant Vice President for Academic Affairs	Donna Lang
Assistant Vice President for Administration	Brad McGonagle
Assistant Vice President for Student Affairs and Auxiliary Services	Grant Shallenberger
Assistant Vice President for Research and Graduate Studies	Tammy Holliday
Director of Media Relations and Communications	Karen Bigley
Director, Computing and Information Resources	Steve Conway
Director, Financial Management Services	Susan H. Lee

# GENERAL INFORMATION

Texas A&M University at Galveston (TAMUG) is an ocean-oriented campus offering academic degrees, research, continuing education and public service in marine science, engineering, business and transportation. Because TAMUG is a branch campus of Texas A&M University in College Station, students receive their degrees from Texas A&M University. TAMUG includes the Texas Maritime Academy, one of only six state maritime training academies in the United States and the only one located on the Gulf of Mexico. It is also the only training academy affiliated with a comprehensive research and teaching university.

TAMUG is located near the mouth of Galveston Bay with close access to the Gulf of Mexico. The University has facilities at three separate campus locations. Most instructional programs are taught at the 130-acre Mitchell Campus on Pelican Island (with housing for 600+ students). Research and classroom work are conducted at the three-acre Ft. Crockett Campus on Galveston Island, including an additional 15,200 sq. ft. of space leased from the National Marine Fisheries Services (which together provide approximately 90,000 sq. ft. for marine laboratory research). The 10-acre Offatts Bayou Campus houses the Center for Marine Training and Safety and student recreational facilities.

Students who complete the academic programs of Texas A&M University at Galveston (TAMUG) are awarded the degree of Texas A&M University (College Station). Therefore, students enrolled in Texas A&M University at Galveston must adhere to the same basic academic requirements as students enrolled at Texas A&M University (College Station). Students are advised of these requirements and are encouraged to be familiar with the Texas A&M University at Galveston University Rules.

Students are required to complete the courses listed in a curriculum; however, the display of a curriculum does not necessarily indicate the length of time required to complete the degree requirements. Rather, this display is intended as a guide to indicate the preferred order for completion of degree requirements. Exceptions to certain requirements may be made by petition, through the Department Head to the Vice President or designee.

## Purpose of Catalog

This catalog was prepared in advance of its effective date; therefore, some course descriptions may vary from actual course content due to advancements in the discipline, interests of individual professors or recent decisions to change the scope of a course. The catalog is not intended to be a contract, but simply an information bulletin and the University reserves the right to change any of the provisions. Some new courses and changes to existing courses are included in this catalog pending their approval by the Texas Higher Education Coordinating Board. A separate class schedule giving course offerings and other pertinent information is published on the web at [www.tamug.edu](http://www.tamug.edu) each semester. Students should refer to the class schedule for the offerings in any given semester. For various administrative reasons, such as insufficient enrollment, some scheduled courses might not be offered in the announced semester.

## Academic Programs

TAMUG provides undergraduate academic instruction in marine and maritime-related degree programs in Marine Biology (MARB), Marine Sciences (MARS), Marine Engineering Technology (MARR), Marine Transportation (MART), Marine Fisheries (MARF), Maritime Systems Engineering (MASE), Maritime Administration (MARA), Maritime Studies (MAST), Ocean and Coastal Resources (OCRE) and University Studies. All students complete the University Core Curriculum requirements set by TAMU to ensure a broad-based education.

TAMUG also administers a Master of Marine Resources Management (MARM) degree. Other cooperative graduate degree programs, at both the master and doctorate levels, are in place with the departments of Wildlife and Fisheries Sciences, Oceanography and Biology at TAMU. The Texas Maritime Academy is headquartered on the Galveston Campus. A Teacher Certification program is offered via distance education through a collaborative program.

A certificate program in Marine Biology/Biomedical Sciences prepares the graduate for careers in aquatic animal health, seafood technology and various marine related disciplines, as well as advanced studies in veterinary medicine, human medicine, allied health, biological oceanography and related biological disciplines.

## Academic Facilities

Classrooms, laboratories and meeting spaces are housed within 15 major buildings on the Mitchell Campus. There are three residence halls on campus, a physical education facility, and the Mary Moody Northen Student Center with cafeteria services. The Jack K. Williams Library contains over 43,000 books, 35,000 bound volumes of journals and a collection of charts and maps. Public access computers in the Library guide the user to the holdings of the Williams Library, the Galveston Bay bibliography and many other library catalogs and computerized databases. The University training ship, in addition to being a floating campus during summer cruises, provides additional classroom, meeting and training space during the school year. TAMUG has telecommunications systems established to communicate statewide within the Texas A&M University System universities and agencies. TAMUG has direct access to the TAMU computer network in College Station via remote job entry connect lines.

## Research Programs

TAMUG faculty, post-doctoral fellows, research staff and students are actively involved in research throughout the world from Alaska to Antarctica to American Samoa to Asia. Research is conducted under the direction of more than 35 faculty members with funding from federal, state, private and university sources including the National Science Foundation, National Oceanic and Atmospheric Administration, National Aeronautics and Space Administration, Minerals Management Service, Environmen-

tal Protection Agency, Department of Energy, Texas Commission on Environmental Quality, Texas General Land Office, Texas Department of State Health Services, Welch Foundation, Alaska Sea Life Center, CONACYT, Schlumberger, Texas Institute of Oceanography and Research Development Fund. Externally funded research expenditures for FY06 were over 4.6 million dollars. Research encompasses both the basic and applied aspects of fields such as marine biology, oceanography, coastal/ocean engineering, marine geology, marine policy and management, environmental studies, conservation, business, admiralty law and coastal zone management. Research is focused largely in the areas of coastal and beach processes (e.g., physical profiling of coastal regions and erosion processes and control), marine life studies (e.g., marine mammal, fish, shellfish, algae and sea turtle biology and ecology), bay and estuary ecosystems (e.g., wetlands management and toxic contaminant analysis), geochemical cycling in marine/aquatic/atmospheric systems and offshore/deepwater environments.

Many of the faculty researchers have graduate appointments in TAMUG and/or TAMU departments. Approximately 65 M.S. and Ph.D. graduate students from the TAMU departments of Wildlife and Fisheries Sciences, Oceanography, Ecosystem Science and Management, Ocean/Civil Engineering, Biology and Anthropology are conducting their research under a TAMUG faculty member. TAMUG also offers the Marine Resource Management degree which now has a thesis option. There are approximately 30 students participating in this program.

Undergraduate students at TAMUG have many opportunities to participate in research, such as the Texas Institute of Oceanography Undergraduate Student Research Program, working as student workers and technicians on funded research programs, taking 485 classes or participating in the Undergraduate Research Scholars Program. Undergraduate students may work in the laboratory and at field sites throughout the world, participate in research cruises, present results at local, national and international meetings, and serve as authors on publications. For more information, please visit the website at <http://www.tamug.edu/research/overview.htm>.

### **Accreditation**

Texas A&M University at Galveston is fully accredited by the Southern Association of Colleges and Schools. Maritime Systems Engineering is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.

Documents certifying accreditation may be viewed in the Office of the CEO.

### **Mission Statement**

Texas A&M University at Galveston is a special-purpose institution of higher education for undergraduate and graduate instruction in marine and maritime studies in science, engineering and business and for research and public service related to the general field of marine resources. The institution is under the management and control of the Board of Regents of The Texas A&M University System, with degrees offered under the name and authority of Texas A&M University at College Station.

### **Compliance Policy**

Within published requirements for admission, Texas A&M University at Galveston does not discriminate in admission of students to study at TAMUG, enrollment in classes, housing or use of facilities in the academic program because of race, color, religion, sex, age, marital status, national origin, condition of handicap, veteran or disabled veteran status. TAMUG does not, and will not, discriminate against any employee or applicant for employment because of race, color, religion, sex, age, marital status, national origin, condition of handicap, veteran or disabled veteran status.

TAMUG embraces affirmative action practices to ensure that applicants are hired fairly, and that employees are treated during their employment without regard to race, color, religion, sex, age, marital status, national origin, condition of handicap, veteran or disabled veteran status. Such action includes, but is not limited to, employment, upgrading, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for employment training, including apprenticeship. Any questions or complaints relative to discrimination should be referred to the Human Resources Office.

Limited services and facilities are available to students with handicaps. Individuals should contact the Office of Student Affairs if they have special needs before they commit to enrollment.

### **Continuing Education Programs**

The outreach programs of the University include Sea Camp (a marine biology summer camp for youths 10-18 years of age) and Elderhostel (a marine environment-oriented camp for senior citizens). The Oil Spill School and the Oil Spill Response Center both serve to provide protection from disasters. Marine safety programs, radar observer schools, workshops on beach ecology and summer programs are regularly offered. The Center for Marine Training and Safety offers broad-based professional development to employees of coastal and offshore maritime industries. Computer Simulation systems for ship operations (bridge, engine room, radar, oil spill management and communications) provide realistic hands-on experiences for undergraduate and continuing education programs.

**Public Service Programs**

The Galveston Bay Information Center has developed a Galveston Bay bibliography which is linked with a local network including an interactive model of Galveston Bay circulation and Compass, an information system developed by NOAA. The Texas Agricultural Experiment Station (TAES) helps TAMUG serve the educational needs of the Galveston area agricultural community. The Texas Marine Mammal Stranding Network is linked statewide to aid in the recovery and study of stranded marine mammals. The Texas Transportation Institute regional office is established to link waterway components to the state's intermodal transportation research and it houses the Center for Ports and Waterways.

**Academic Year**

The academic year of Texas A&M University at Galveston is divided into the fall and spring semesters and the summer session which consists of either two terms of five weeks each or one 10-week summer semester.

During the summer session, most departments offer courses which are selected to meet the needs of regular university students.

# University Core Curriculum

The University Core Curriculum at Texas A&M University assures that all undergraduate programs provide for breadth of understanding. The Core Curriculum emphasizes competence in the process of learning, the capacity to engage in rigorous and analytical inquiry and the ability to communicate clearly and effectively. It supports the development of extensive knowledge about and appreciation for our social and moral responsibilities, our cultural heritage and our interactions with the economies and cultures of the international community. The University Core Curriculum acts to enrich and broaden the University's tradition of providing thorough preparation in each student's academic major.

University Core Curriculum requirements are described in the sections that follow. **These requirements must be met by every student pursuing a baccalaureate degree program at Texas A&M University, regardless of his or her major.** Individual degree programs may require that specific courses from the general University list be used to satisfy University Core Curriculum requirements. Please check with individual program advisors for details (see notes 1, 2, 3 and 6).

## Specific Requirements:

In addition to the University Core Curriculum and degree specific requirements, Texas A&M University has criteria that must be met by all students in order to receive a degree, see the Degree Information section of this catalog.

1. The ability to communicate through the use of the spoken or written word requires the development of speech and writing skills.

Communication (6 hours) A course used to satisfy this requirement shall have as its primary focus the improvement of student expression in communication. This focus on student expression should be demonstrated both in course instruction and assessment. Acceptable forms of student expression may range from creative to technical. Acceptable courses may include those embedded in subject areas other than writing. This requirement must be satisfied by ENGL 104 (3 hours) and one of the following: AGJR 404, COMM 203, COMM 205, COMM 243, ENGL 203, ENGL 210, ENGL 235, ENGL 236, ENGL 241 and ENGL 301,

2. Without knowledge of mathematics, the language of science; and logic, the art of critical inquiry; it is not possible to understand or participate in the development of knowledge.

Mathematics (6 hours, at least 3 of which must be in mathematics). To be selected from any mathematics course except: MATH 102, MATH 103, MATH 150, MATH 365 and MATH 366. Also may select 3 hours from: PHIL 240, PHIL 341 and PHIL 342.

3. Knowledge and appreciation of science as a significant human activity, rather than merely a listing of results or collection of data, is acquired only by engaging in the activities of science.

Natural Sciences (8 hours) Two or more natural sciences courses which deal with fundamental principles and in which critical evaluation and analysis of data and processes are required. A minimum of one course shall include a corresponding laboratory. Non-technical courses are specifically excluded.

Four hours to be selected from: BIOL 101, BIOL 107, BIOL 111, BIOL 113/123, CHEM 101, CHEM 103/113, CHEM 107, GEOL 101, PHYS 201 and PHYS 218.

Remaining hours to be selected from courses listed and/or: AGRO 105, AGRO 301, AGRO 405, ANTH 225, ATMO 201/202, BESC 201, BIOL 112, BIOL 225, CHEM 102, CHEM 104/114, CHEM 106/116, CHEM 222/242, ENGR 101, ENTO 322, FRSC 304, GENE 301, GENE 310, GEOG 203/213, GEOL 106, GEOL 307, GEOS 410, HORT 201/202, OCNG 251/252, PHYS 202, PHYS 208, PHYS 219, PHYS 306/307 and RENR 205/215.

4. Knowledge of our culture and its ideals makes possible both social integration and selfrealization (see note 4).

A. Humanities (3 hours) Courses used to satisfy this requirement shall address one of the following subject areas: history, philosophy, literature, the arts, culture or language (exclusive of courses devoted predominantly to acquiring language skills in a student's native language).

Acceptable courses are: AMST 300, AMST 320, ANTH 202, ANTH 205, ANTH 301, ANTH 302, ANTH 303, ANTH 306, ANTH 308, ANTH 313, ANTH 315, ANTH 316, ANTH 317, ANTH 318, ANTH 324, ANTH 350, ANTH 351, ARCH 345, ARCH 430, ARCH 434, ARTS 149, ARTS 150, ARTS 329, ARTS 330, ARTS 335, ARTS 349, ARTS 350, ARTS 445, CLAS 351, COMM 301, COMM 327, COMM 425, ENDS 149, ENDS 150, ENDS 250, ENDS 329, ENGL 203, ENGL 204, ENGL 205, ENGL 212, ENGL 221, ENGL 222, ENGL 227, ENGL 228, ENGL 231, ENGL 232, ENGL 235, ENGL 236, ENGL 251, ENGL 308, ENGL 310, ENGL 312, ENGL 313, ENGL 314, ENGL 315, ENGL 316, ENGL 317, ENGL 319, ENGL 321, ENGL 322, ENGL 323, ENGL 329, ENGL 330, ENGL 333, ENGL 334, ENGL 335, ENGL 336, ENGL 337, ENGL 338, ENGL 339, ENGL 340, ENGL 345, ENGL 346, ENGL 347, ENGL 348, ENGL 350, ENGL 351, ENGL 352, ENGL 353, ENGL 354, ENGL 355, ENGL 356, ENGL 360, ENGL 361, ENGL 362, ENGL 365, ENGL 374, ENGL 375, ENGL 376, ENGL 377, ENGL 378, ENGL 385, ENGL 390, ENGL 392, ENGL 393, ENGL 394, ENGL 396, ENGL 401, ENGL 412, ENGL 414, ENGL 415, ENGL 431, ENGL 474, ENGL 481, ENGR 482, GEOG 202, GEOG 301, GEOG 305, GEOG 323, HIST (any course), HORT 203, HUMA 211, HUMA 213, HUMA 303, HUMA 304, LAND 240, LAND 340, LBAR 203, LBAR 331, LBAR 332,

LBAR 333, LING 307, LING 310, MAST 371, MAST 411, MODL\*, MUSC 200, MUSC 201, MUSC 311, MUSC 312, MUSC 315, MUSC 319, MUSC 321, MUSC 324, PHIL (any course except 240, 341, 342), RELS 211, RELS 213, RELS 303, RELS 304, RELS 317, RELS 351, RELS 360, RELS 392, THAR 101, THAR 155, THAR 201, THAR 280, THAR 281, WMST 200, WMST 333, WMST 374, WMST 461, WMST 473, WMST 474 and WMST 477.

\* or any course in the Department of Hispanic Studies or the Department of European and Classical Languages and Cultures (see note 5).

B. Visual and Performing Arts\* (3 hours). Acceptable courses are: ANTH 324, ARCH 430, ARCH 434, ARCH 437, ARTS 103, ARTS 111, ARTS 112, ARTS 149, ARTS 150, ARTS 305, ARTS 312, ARTS 329, ARTS 330, ARTS 335, ARTS 349, ARTS 350, ARTS 445, CARC 335, CLAS 352, ENDS 101, ENDS 115, ENDS 149, ENDS 150, ENDS 250, ENDS 311, ENGL 212, ENGL 219, ENGL 251, ENGL 312, ENGL 317, ENGL 340, ENGL 351, ENGL 356, ENGL 385, ENGL 412, FILM 201, FILM 301, FILM 394, FREN 425, GERM 334, GERM 432, HORT 203, KINE 160, KINE 161, KINE 162, KINE 163, KINE 164, KINE 165, KINE 166, KINE 167, KINE 168, KINE 169, KINE 170, KINE 171, KINE 172, KINE 173, KINE 174, KINE 311, LAND 240, MODL 352, MUSC 200, MUSC 201, MUSC 280, MUSC 302, MUSC 311, MUSC 312, MUSC 315, MUSC 319, MUSC 321, MUSC 324, PERF 301, PHIL 330, PHIL 375, SPAN 410, SPAN 413, THAR 101, THAR 110, THAR 155, THAR 201, THAR 210, THAR 280, THAR 281 and THAR 407.

\* Note: Students graduating from the Galveston Campus may choose to complete 3 additional hours of the Humanities in place of Visual and Performing Arts.

5. As the human social environment becomes more complex, it is increasingly important for individuals to understand the nature and function of their social, political and economic institutions (see note 4).

A. Social and Behavioral Sciences (3 hours) Courses used to satisfy this requirement shall address one of the following subject areas: anthropology, economics, political science, geography, psychology, sociology or communication.

Acceptable courses are: ADEV 340, ADEV 400, ADEV 440, AGEC 105, AGEC 350, AGEC 429, AGEC 430, AGEC 452, AGEC 453, ANTH 201, ANTH 210, ANTH 225, ANTH 300, ANTH 314, ANTH 403, ANTH 404, ANTH 410, BIOL 225, COMM 315, COMM 320, COMM 325, COMM 335, ECON (any course), ENGL 209, ENGL 311, ENGR 400, EPSY 320, EPSY 321, GEOG 201, GEOG 304, GEOG 306, GEOG 311, GEOG 330, GEOG 401, GEOG 440, HLTH 236, HORT 335, INST 310, INST 322, JOUR 102, JOUR 301, JOUR 401, JOUR 440, KINE 304, KINE 319, KINE 336, KINE 337, LBAR 204, LING 209, LING 311, LING 402, MARS 210, MGMT 475, POLS (any course except 206 and 207), PSYC (any course except 203, 204), RELS 403, SOCI (any course except 220, 420), VTPB 221, WMST 207, WMST 300, WMST 316, WMST 317, WMST 404, WMST 424 and WMST 462.

B. U.S. History and Political Science (12 hours, 6 hours of history, and 6 hours of political science). To be a responsible citizen of the world, it is necessary, first, to be a responsible citizen of one's own country and community.

POLS 206 and 207 and HIST 105 and 106 or other courses in American and Texas history, except those courses pertaining solely to Texas history may not comprise more than 3 hours.

6. As individual and national destinies become progressively more interconnected, the ability to survive and succeed is increasingly linked to the development of a more pluralistic, diverse and globally-aware populace. Two courses from the following list are to be taken by the student. If a course listed below also satisfies another University Core Curriculum requirement, it can be used to satisfy both requirements if the student wishes to do so. For example, a course that satisfies the Social and Behavioral Sciences requirement may be used to satisfy the International and Cultural Diversity requirement if that course also appears on the list.

International and Cultural Diversity (6 hours) Acceptable courses are: ACCT 445, ADEV 422, AGEC 452, AGEC 453, AGRO 489, ANTH 205, ANTH 210, ANTH 300, ANTH 301, ANTH 306, ANTH 314, ANTH 315, ANTH 319, ANTH 324, ANTH 403, ANTH 404, ANTH 426, ARCH 345, ARTS 150, ARTS 350\*, BUSN 289, CARC 301, CARC 311, CARC 321, CARC 331, CARC 335, COMM 327, COMM 335, COMM 407, COMM 425, COSC 484\*, COSC 494\*, DCED 301, ECON 312, ECON 319, ECON 320, ECON 324, ECON 330, EHRD 408, ENDS 101, ENDS 150, ENDS 484\*, ENDS 494\*, ENGL 204, ENGL 205, ENGL 222, ENGL 232, ENGL 251, ENGL 333, ENGL 336, ENGL 337, ENGL 338, ENGL 339, ENGL 340, ENGL 352, ENGL 362, ENGL 374, ENGL 378, ENGL 393, ENGL 474, EURO 223, EURO 323, FINC 445, FREN 301, FREN 322, FREN 336, FREN 418, FREN 425, GEOG 202, GEOG 301, GEOG 305, GEOG 306, GEOG 311, GEOG 320, GEOG 321, GEOG 323, GEOG 402, GERM 305, GERM 322, HISP 489, HIST 210, HIST 214, HIST 258, HIST 301, HIST 305, HIST 307, HIST 319, HIST 324, HIST 336, HIST 339, HIST 342, HIST 343, HIST 345, HIST 346, HIST 348, HIST 352, HIST 355, HIST 356, HIST 402, HIST 405, HIST 407, HIST 412, HIST 439, HIST 440, HIST 441, HIST 449, HIST 451, HIST 455, HIST 460, HIST 461, HIST 464, HIST 473, HIST 477, HLTH 236, HLTH 334, HORT 335, HUMA 303, HUMA 304, IBUS 401, IBUS 445, IBUS 446, IBUS 450, IBUS 452, IBUS 455, IBUS 456, IBUS 457, IBUS 458, IBUS 459, IBUS 460, INST 310, INST 322, JOUR 406, KINE 336, KINE 337, LAND 240, LBAR 331, LBAR 332, LBAR 333, LING 307, LING 402, MARS 210, MARS 280, MAST 411, MGMT 430, MGMT 450, MGMT 452, MKTG 330, MKTG 401, MODL 222, MODL 352, MODL 362, MODL 363, MUSC 312, MUSC 315, MUSC 319, MUSC 324, PHIL 283, PHIL 416, PHIL 419, PLAN 415, POLS 317, POLS 322, POLS 323, POLS 324, POLS 326, POLS 328, POLS 329, POLS 331, POLS 338, POLS 365, POLS 366, POLS 424, POLS 432, POLS 462, PSYC 300, RELS 303, RELS 304, RELS 403, RLEM 314, RPTS 340, SOCI 207,

SOCI 316, SOCI 317, SOCI 321, SOCI 323, SOCI 324, SOCI 325, SOCI 329, SOCI 330, SOCI 340, SOCI 350, SOCI 403, SOCI 419, SOCI 423, SOCI 424, SPAN 312, SPAN 320, SPAN 410, SPAN 411, SPAN 412, SPAN 421, SPAN 450, TEFB 271, TEFB 273, THAR 201, THAR 281, VTPB 221, WMTS 200, WMST 300, WMST 316, WMST 317, WMST 333, WMST 374, WMST 404, WMST 407, WMST 424, WMST 430, WMST 461, WMST 462, WMST 473, WMST 391, WMST 474 and WMST 477. \* See note 7.

7. As the ancient scholars knew and as modern research has confirmed, the development of the body as well as the mind is an integral part of the educational process.

Kinesiology requirements are to be fulfilled by completing KINE 198 Health and Fitness and any other one KINE 199 course. KINE 199 used to fulfill University Core Curriculum requirements must be taken S/U. KINE 199 courses not included in the University Core Curriculum can be taken for a grade in accordance with the student's college policy. Transfer students with fewer than 2 hours of kinesiology credit must meet the KINE 198 requirement either by transfer of credit or by taking the course at Texas A&M.

#### **Notes:**

1. Individual degree programs may impose more restrictive requirements in any of these areas. Students should consult the degree listing in this catalog and their academic advisors to ensure that they are satisfying all requirements of their majors.
2. With the exception of courses satisfying the International and Cultural Diversity requirement (see Section 6), no course shall be counted twice by the same student toward satisfaction of the University Core Curriculum requirements. For example, if a student elects to use ARCH 349 to satisfy the Visual and Performing Arts requirement, the student may not use the course to satisfy the Humanities requirement.
3. Courses numbered 285 or 485 do not satisfy University Core Curriculum requirements. Individual Special Topics (289 and 489) courses may be approved for use in the University Core Curriculum.
4. No student may satisfy all 12 hours of University Core Curriculum requirements in the categories of Humanities, Visual and Performing Arts, and Social and Behavioral Sciences by courses having the same prefix.
5. If courses in MODL are used to fulfill the Humanities requirement, they must be in a different language than taken in high school or, if in the same language, at the 200-level or higher. For example, if the student took Spanish in high school, then the student may not use SPAN 101 or 102 in satisfying the Humanities requirement.
6. Students transferring course credit to satisfy the University Core Curriculum requirements should refer to the Texas Common Course Numbering System (last section of this catalog) and the Transfer Course Credit Policies in this catalog.
7. Courses taken abroad, which are conducted in another country by a TAMU faculty member, completed as reciprocal education exchange programs (REEP), or completed in another country through direct enrollment in another institution, can be used to satisfy the Core Curriculum requirement for International and Cultural Diversity. This includes credits earned through 285, 291, 485, 484, and 491 courses conducted abroad for which grades are determined by a TAMU faculty member.
8. Courses approved as satisfying one or more areas of the University Core Curriculum become effective the semester or summer session immediately following approval by the Faculty Senate.

# DEGREE INFORMATION

## Which Catalog to Follow

In meeting the requirements for a baccalaureate degree, a student is normally expected to complete the course and hour requirements as outlined in the catalog in effect at the time of his or her declaration of a major or change in major, or those of any later catalog of the student's choice. Normally, a student will not be granted a degree based upon completion of the requirements set forth in a catalog more than seven years old. Before changing catalogs, the student must consult his or her academic advisor. A student changes catalogs by filing a written notification with his or her dean. It is incumbent on the student to verify that the change has been made.

The Texas A&M University at Galveston University Student Rules (including periodic revisions) is published each year at [www.tamug.edu/studentlife](http://www.tamug.edu/studentlife) for the benefit of the student body. This is the governing document in case of conflicts between this catalog and Texas A&M University at Galveston University Student Rules. It is the responsibility of the individual student to read this information carefully and to use it as a reference.

Whereas each college must retain the flexibility to improve its curriculum, course offerings may be changed during the student's education. If a course required under a previous catalog is no longer offered, a student eligible to graduate according to that catalog should consult his or her academic advisor to identify another course that may be used to fulfill the requirement. Course substitutions in the degree program are permitted only with the approval of the Associate Vice President for Academic Affairs, through the department head or program director. The University reserves the right to make any changes in requirements by due notice in the catalog.

Students are required to take the courses listed in a curriculum; however, the display of a curriculum does not in any way indicate the length of time required to finish degree requirements. Rather, this display is intended as a guide to indicate the preferred order for completion of degree requirements. Exceptions to certain requirements may be petitioned through the department head to the Associate Vice President for Academic Affairs.

## Degrees Offered

The following degrees are offered by Texas A&M University for the satisfactory completion of resident study in the appropriate curriculum at Texas A&M University at Galveston:

- Bachelor of Science in Marine Biology
- Bachelor of Science in Marine Engineering Technology
- Bachelor of Science in Marine Fisheries
- Bachelor of Science in Marine Sciences
- Bachelor of Science in Marine Transportation
- Bachelor of Science in Maritime Administration
- Bachelor of Science in Maritime Systems Engineering
- Bachelor of Arts in Maritime Studies
- Bachelor of Science in Ocean and Coastal Resources
- Bachelor of Arts in University Studies
- Bachelor of Science in University Studies
- Master of Marine Resources Management

## Requirements for a Baccalaureate Degree

The diploma of the University, with the appropriate degree, will be granted to the student who has made formal application for the degree by the published official deadline, has all grades on record in the Office of Admissions and Records, including grades pertaining to graduation with honors, by no later than 5 p.m., Friday, the first week of classes of the succeeding semester or summer term following commencement and has satisfied the requirements outlined in the following:

1. A curriculum leading to a baccalaureate degree shall contain a minimum of 120 credit hours including the required physical activity courses.
2. The undergraduate student must complete with at least a 2.0 grade point ratio all undergraduate course work attempted at Texas A&M University at Galveston.
3. The undergraduate student must complete with a 2.0 grade point ratio all courses included in the major field of study (see 7).
4. The student is required to successfully complete one semester of KINE 198 and one semester of KINE 199 (taken satisfactory/unsatisfactory), unless a substitution for this requirement is petitioned through the student's dean.
5. The undergraduate student must satisfy all areas of the University Core Curriculum as outlined in the student's catalog.
6. The total number of grade points earned at this institution in courses must be at least twice the number of hours that the student carried in courses at this institution. Grades of F and U shall be included.

- a. The number of credit hours associated with grades of S in courses taken on a satisfactory/unsatisfactory basis are not included in this computation.
  - b. The number of credit hours associated with grades of U in courses taken on a satisfactory/unsatisfactory basis are included in this computation.
  - c. With the approval of a student's dean, grades in courses not applying to the degree may be waived for the purpose of graduation only.
  - d. The waiver of grades in courses as indicated in item c. will not affect the student's official grade point ratio or entitlement to graduation with honors.
  - e. The provisions of item c. will not affect a student's probationary status prior to graduation.
7. The total number of grade points earned at this institution in courses in the student's major department must be at least twice the number of hours that he or she carried at this institution in his or her major department.
  8. Grades made in courses elected in excess of a student's degree requirements shall be counted, but if failed, such courses need not be repeated.
  9. First year grade exclusion cannot be invoked after a baccalaureate degree has been conferred upon the student. First Year Grade Exclusion requests for all degree candidates must be received in the Office of Admissions and Records not later than 5 p.m. the day midterm grades are due when the student is graduating in a fall or spring semester or not later than 5 p.m. Friday of the third week of class for the second summer session when the student is graduating in August.
  10. The student must be formally recommended for graduation by the Faculty Senate after consideration of his or her complete record.
  11. The student must have settled all financial obligations to the University.
  12. Graduate and undergraduate students who plan to attend a commencement ceremony must do so the semester they apply for graduation and complete the degree requirements.
  13. To be a candidate for a degree at the end of the semester or summer term, a student must be registered for or have completed all degree requirements by the 50th class day in the fall and spring semesters, the 15th class day for summer I and II and the 35th class day for the 10-week summer term of the academic calendar of Texas A&M University either in residence or at another college or university. Proof of registration must be provided to the Admissions and Records Office by the deadline. A student must be enrolled in his or her degree-granting college(s) and major(s) at the beginning of the student's last semester or summer term at Texas A&M to be a candidate for a degree from that college.
  14. Foreign Language: A year of foreign language is required in many degree programs from Texas A&M. This degree requirement can be satisfied by the satisfactory completion in high school of two units of the same foreign language or one year of college work.
    - a. International students are not permitted to enroll in courses to satisfy this degree requirement if those courses are taught in their native language.
    - b. Bachelor of Arts degrees require an additional 6 semester hours at the 200-level.
    - c. Students who wish to demonstrate foreign language proficiency without taking acceptable high school or college courses may do so through the existing credit by examination process. In cases where students wish to demonstrate proficiency in a language not taught at Texas A&M, the following procedures shall apply. The student shall request an examination from the Office of Academic Enhancement. This department will coordinate the administration of special examinations to demonstrate foreign language proficiency. This will include finding an appropriate examination to test the student's proficiency, informing the student how to arrange to take that examination and certifying the results to the student's advisor. All arrangements shall be made and fees paid by the student.
    - d. American Sign Language (ASL) may be used to fulfill the foreign language degree requirement unless otherwise specified by the student's college or department. Students may either transfer ASL credits or arrange to be tested at another institution. (Texas A&M does not offer courses in ASL.)
  15. All students must take at least two courses in their major that are designated as writing intensive (W). The requirement may not be met by any course listed as a University Core Curriculum communication requirement, nor may it be met through credit-by-examination. It may be met by a course transferred from another institution of higher learning, with the approval of the academic department head, the Associate Vice President for Academic Affairs and the Associate Provost for Academic Services. Upon request, students will provide a course description, syllabus or writing sample from the course being transferred.

## **Residence Requirement**

A minimum of 36 semester hours of 300- and/or 400- level course work must be successfully completed in residence at Texas A&M to obtain a baccalaureate degree. A minimum of 12 of these 36 semester hours must be in the major.

To fulfill degree requirements for graduation that semester, transfer courses taken during a student's final semester must be completed and cited on an official transcript in the Office of Admissions and Records by the stated deadline.

## **Tuition Charged for Excess Credit Hours**

The State of Texas will not provide funds to state institutions of higher education for excess semester credit hours earned by a resident student. Because funding will not be provided by the State, and as permitted by State law, Texas A&M University will charge tuition at the non-resident rate to all students who exceed the semester credit hour limit for their program. Excess semester credit hours are those which accrue after the student exceeds by 30 hours the number of semester credit hours required for the completion of the degree program in which the student is enrolled. Thus, the student may accumulate up to 30 hours beyond those required for the chosen degree program and not exceed the limitation. The limitation on excess credit hours applies only to those undergraduate students who first enter higher education in the fall 1999 and thereafter. The semester credit hours counted toward the limitation include all hours attempted except:

- Semester credit hours earned by the student before receiving a baccalaureate degree that has been previously awarded.
- Semester credit hours earned by the student by examination or other procedure by which credit is earned without registering for a course for which tuition is charged.
- Credit for remedial education courses, technical courses, workforce education courses funded according to contact hours or other courses that would not generate academic credit that could be applied toward a degree program at Texas A&M University.
- Semester credit hours earned by the student at a private or an out-of-state institution.

## **Requirement in Political Science (Government) and History**

In order to meet the legal requirements for a baccalaureate degree, all students must have at least 6 credit hours in political science (government) and at least 6 credit hours in American history. POLS 206 (American National Government) and POLS 207 (State and Local Government with emphasis on Texas) fulfill the political science requirement. Both the political science and American history requirements may be met, in whole or in part, by equivalent course work satisfactorily completed at another accredited college or university.

State law permits the substitution of 3 hours of history and 3 hours of political science for a student in the program of an approved senior ROTC unit. With the approval of the dean of the appropriate college, students successfully completing the required 12 hours of upper-level ROTC courses will be deemed to have completed the equivalent of Political Science 206 or 207 plus History 105 or 106 (or another appropriate course) for a total of 6 hours. Students pursuing teacher certification are not allowed to substitute ROTC credits for this requirement.

## **Supplementary Fee for Courses Attempted More than Twice**

A course that is repeated by a student more than twice at a public institution of higher education in Texas may not be reported for state funding. As a result, the institution must either pass the non-funded portion to all students, or charge a supplementary fee to the student who is repeating the course. Texas A&M has chosen to assess a supplementary fee to those students repeating a course more than twice. A student attempting certain courses more than twice at Texas A&M University will be subject to a supplementary fee of \$125 per semester credit hour (\$375 for a 3 hour course) for the repeated course, in addition to tuition and required fees associated with the course. The general criteria for determining which courses are subject to the supplementary fee are:

- A course is subject to the fee if a student has completed it twice at Texas A&M University with a grade of A, B, C, D, F, F\* (academic dishonesty), S (satisfactory), U (unsatisfactory), I (incomplete), Q (authorized drop after the add/drop period) or X (no grade submitted).
- Courses identified by the University as repeatable for credit are not subject to the fee. A schedule of repeated courses can be found at [www.tamu.edu/admissions/records/3peat.html](http://www.tamu.edu/admissions/records/3peat.html).
- Courses dropped with no record (NR), no grade (NG) and withdrawals (W) are not counted as repeated courses. Students will be notified at the time they register for a course that it has been taken twice at TAMU and is subject to the supplementary fee.

## Graduation Requirements in Foreign Language

Foreign Language. To understand the major cultures of the world as expressed in art, philosophy, politics or economy, it is necessary to know and appreciate languages other than one's native language. Therefore, some proficiency in a foreign language is also required to graduate from Texas A&M University. This requirement can be met by:

- completing two units (two full years) of high school course work in the same foreign language;
- completing two semesters (one full year) of course work at the college level in the same foreign language; or
- demonstrating proficiency in a foreign language by examination.

Notes:

a. International students are not permitted to enroll in courses which satisfy the foreign language requirement if those courses are taught in their native language.

b. Students who wish to demonstrate foreign language proficiency without taking acceptable high school or college courses may do so through the existing credit by examination process for the first two college courses in the foreign language. In cases where students wish to demonstrate proficiency in a language not taught at Texas A&M, the following procedures shall apply. The student shall request an examination from the Office of Academic Enhancement. This department will coordinate the administration of special examinations to demonstrate foreign language proficiency. This will include finding an appropriate examination to test the student's proficiency, informing the student how to arrange to take that examination and certifying the results to the student's advisor. All arrangements shall be made and fees paid by the student.

c. American Sign Language (ASL) may be used to fulfill the foreign language requirement unless otherwise specified by the student's college or department. Students may either transfer ASL credits or arrange to be tested at another institution. (Texas A&M does not offer courses in ASL.)

## Application for a Degree

Formal application for degrees must be submitted online by the deadline stated in the academic calendar and online degree application. Under unusual circumstances, an application for a degree may be accepted after the stated deadline; however, no application will be accepted after grade sheets for graduating students have been produced for the faculty. The student must apply online at <http://degreeapp.tamu.edu>.

The buying, selling, creating, duplicating, altering, giving or obtaining the Texas A&M diploma or other academic record is prohibited by state law. A person who violates this statute or who aids another person in violation is guilty of a misdemeanor and is subject to a fine and/or confinement if convicted.

The University has the right to rescind a previously granted degree if the University becomes aware of information indicating that the degree never should have been granted.

## Special Examinations

An undergraduate student who has completed all the requirements for graduation, both in hours and grade points, except for a passing grade in one course undertaken and failed during his or her last two semesters may be given, with proper approval, one special examination in that course. Before a student will be considered for a special examination, he or she must have substantially completed the work of the course. A request for such special examination should be initiated by the student, through the head of the department offering the course and the dean of the student's college, and submitted to the Office of Admissions and Records for approval after the close of the semester or summer term. No special examination shall be given without the approval of both the head of the department in which the course was offered and the dean of the student's college.

If a passing grade is made on an authorized special examination, the head of the department will notify the Office of Admissions and Records, who will record on the student's permanent academic record a notation of credit by special examination with the appropriate number of semester hours of credit.

## Two Degrees

A candidate pursuing a second baccalaureate degree must have completed all the essential work of the second curriculum not covered in the first. In all such cases, the total semester hours required must be at least 30 hours additional to the greater number required for either degree. The student must have a minimum of 36 hours of 300–400 level courses, 12 hours of which must be in the major field of study, in residence at Texas A&M. The student must also meet the citizenship requirements for history and political science.

## **Undergraduate Minor Programs**

A minor is a concentration of courses that focus on a single area or an interdisciplinary perspective as developed by the department or program that offers the minor. The department or program offering the minor is responsible for setting enrollment limits and deciding which courses are used to meet the minor. Course work consists of 15–18 hours with a minimum of 6 in residence at the 300–400 level.

If a minor is offered by a department or academic unit, then the minor is considered to be available to all students as resources permit. The academic advisor in the major-granting department will add the minor for the student on SIMS. In some cases, approval by the advisor of the minor-granting department is required before the minor is added by the advisor in the student's major. Substitutions in a minor can be initiated by either the major- or minor- granting department, but must be approved by both departments. Students must declare a minor no later than the date on which they apply for graduation. A maximum of two minors can be completed by students. A minor is displayed on the transcript after graduation but not displayed on the diploma.

## **Graduation with Honors**

To be eligible for graduation with honors, a student seeking a baccalaureate degree must enroll in and complete a minimum of 60 undergraduate semester hours preceding graduation at this institution. Course credit received by examination and for graduate level courses is not included in this total. The grade point ratio of all college hours attempted, excluding transfer hours, must equal that required at Texas A&M for the appropriate category of honors.

Categories for honors shall be designated as follows:

- Summa Cum Laude: A student may be graduated Summa Cum Laude with a grade point ratio of 3.90 or above.
- Magna Cum Laude: A student may be graduated Magna Cum Laude with a grade point ratio range of 3.70 through 3.899.
- Cum Laude: A student may be graduated Cum Laude with a grade point ratio range of 3.50 through 3.699.

# ADMISSION

Texas A&M University at Galveston has a strong institutional commitment to the principle of diversity in all areas. In that spirit, admission to the University and any of its sponsored programs is open to all qualified individuals. To be admitted, an applicant must meet the admission requirements in effect for the desired term of entry. Texas A&M University at Galveston reserves the right to defer the initial registration of newly admitted applicants if it appears their enrollment for a given semester will exceed the physical capabilities of the TAMUG campus and jeopardize the quality of education offered students to whom the University is already committed.

You can apply to TAMUG and all other Texas public universities using only one application. You can find this application “on the web” at [www.applytexas.org](http://www.applytexas.org) (see instructions below). Acceptance by the Office of Admissions and Records does not constitute admission to the U.S. Maritime Service Corps of Cadets (separate application required).

When admission requirements have been satisfied, the Office of Admissions and Records will send the new student a letter of acceptance and an acceptance packet with a housing application, test information and New Student Conference registration information.

## Application Information

TAMUG has no deadline for admissions and will accept applications throughout the year until all seats in the class are full. However, for Fall admission, it is advantageous to gain acceptance before March 1 to be eligible for many scholarships and for on-campus housing. The application for Spring 2008, Summer 2008 and Fall 2008 are not available on-line until after September 1, 2007. The applications for undergraduate admission in the year 2008 are the State of Texas Common Application for Admission to Texas Public Universities for freshman, transfer and international admission. While a paper application should be available from any high school or community college in Texas, we recommend you access the appropriate application from the State of Texas Common Application Internet address ([www.applytexas.org](http://www.applytexas.org)) or the TAMUG internet address ([www.tamug.edu](http://www.tamug.edu)).

A paper application may be obtained from the Office of Student Relations by calling toll free at 1-877-322-4443 or by email at [seaaggie@tamug.edu](mailto:seaaggie@tamug.edu). International students are encouraged to return a paper copy of the application to the Office of Admissions and Records.

The admission guidelines presented in this catalog are for admission to the Spring, Summer and Fall 2008 semesters. While they are the best guide available, admission criteria are subject to change.

## Types of Admission

A Freshman student is an applicant who is a citizen or permanent resident of the United States\*; is a degree-seeking applicant and is without college credit\*\*; or is still in high school, with or without college credit.

\* - Someone who has applied for permanent residency, or who qualifies for Texas residency based on SB 1528.

\*\* - An applicant who has enrolled in a post-secondary institution since high school graduation, with or without credit received, must apply as a transfer applicant.

A Transfer student is an applicant who is a citizen or permanent resident of the United States; is a degree-seeking applicant; has graduated from high school or equivalent; has enrolled in a post-secondary institution after graduation from high school; does not have a bachelor’s degree; and does not qualify for readmission.

An International student is an applicant who is not a citizen or permanent resident of the United States; and has never enrolled at Texas A&M as an undergraduate degree-seeking student; or is someone who has not graduated from a Texas high school after three years of residence in Texas (if this applies to you, please apply as a U.S. freshman or U.S. transfer applicant). International students may apply during the following date periods:

To apply for Summer 2008 - Sept. 1, 2007 to Nov. 1, 2007.

To apply for Fall 2008 - Sept. 1, 2007 to Feb. 1, 2008.

To apply for Spring 2009 - April 1, 2008 to Aug. 1, 2008.

A Readmission student is an applicant who is a former degree-seeking Texas A&M undergraduate student (including an international student); does not have a bachelor’s degree; did not officially register for the previous semester (excluding summer sessions) at Texas A&M. Readmission does not include applicants whose only previous enrollment at Texas A&M has been as a non-degree student.

A Postbaccalaureate Undergraduate student is an applicant who has a bachelor’s degree and wishes to pursue a second undergraduate degree. These may apply during the following date periods:

A Non-degree Seeking student is an applicant who wishes to take specific undergraduate course work and does not wish to pursue a degree at Texas A&M. These may apply during the following date periods:

## Items Necessary to Complete an Application File

Please see the Readmission, International, Postbaccalaureate or Non-degree sections for other items required to complete the transfer application for those types of admission. U.S. citizens completing a non-U.S. high school program should refer to the

Texas A&M University Office of International Admissions for questions concerning transcripts, examination results and foreign credentials.

An application is reviewed to make a decision about admission after all items listed below have been received. The items must be received by the appropriate closing date to assure consideration (please see deadlines on the previous page).

Texas Common Application - The application is at [www.applytexas.org](http://www.applytexas.org). We prefer that the applicant submit electronically. Fax applications will not be accepted. The applicant must sign the completed application if submitted in paper form.

Application Fee (check, money order, Visa, MasterCard, Discover or American Express)

- Domestic fee is \$45, International fee is \$75. Graduate application fee is \$50.
- If payment of the application fee creates an extreme financial hardship, please enclose verification of need for a fee waiver. Freshmen should provide a letter from the school counselor verifying need criteria or SAT/ACT fee waiver form. Transfer/Readmission students should provide a letter from post-secondary school financial aid counselor verifying need or a letter verifying state/federal financial assistance (i.e. Pell Grant). No waiver of the international application fee is available.
- Checks or money orders are accepted provided they display an agency bank in the United States and have magnetic ink character recognition (MICR) routing numbers at the bottom of the check. Make checks and money orders payable to Texas A&M University at Galveston. The applicant's name and Social Security Number should be included on the face of the check or money order. Do not send cash.

Essays

- Freshmen are required to complete Essay Topics A and B.
- Transfer applicants are required to complete Essay Topic A.

SAT or ACT Scores

- Required of all freshman applicants, including international freshman applicants.
- Applicants must take the SAT with the writing component or the ACT with the writing component.
- Scores should be sent directly from the testing agency.
- The SAT code is 6835; the ACT code is 6592.
- Test scores with the writing component must be from a test date within five years of the date of planned enrollment.

Official High School Transcripts

- Freshman applicants who have not graduated from high school at the time of application must submit an official transcript indicating course work, credits earned, grades and class rank at least through their junior year.
- If the applicant's high school does not rank its students, a school profile from the high school must be provided as part of the application file.
- Freshman and transfer applicants who have graduated from high school at the time of application are to submit an official high school transcript that includes class rank and date of graduation, or a certificate verifying completion of a GED program.
- If admitted, you will be required to submit a final transcript with graduation data.
- Readmit and postbaccalaureate applicants are not required to submit a high school transcript as part of the application file.
- To be considered official, a transcript must bear an original signature of a school official or an original school seal.
- Transcripts in a language other than English must be accompanied by an official English translation. Applicants who have attended high school both in the U.S. and out of the country should submit official transcripts from each school attended.
- For students enrolled in the United States, copies of official transcripts from other countries will be accepted provided the copies are on file and verified by the U.S. institution.
- Fax copies are not official.

Official College Transcripts:

- An official transcript is required from every post-secondary institution attended even if the applicant did not earn credit, receive a course grade or the course is not transferable. Course work from one college posted on the transcript of another college will not satisfy this requirement.
- Official transcripts on paper are to be sent by the sending institution in a sealed envelope. The transcript will not be considered official if the student has had access to the actual transcript.
- Transcripts in a language other than English must be accompanied by an official English translation.
- Fax copies are not official.
- Copies of official foreign transcripts on file at a previously attended U.S. institution are accepted, provided that the copies are verified by the U.S. institution as those accepted for admission.

Permanent Resident Card

An applicant who has permanent resident status in the United States must include a copy of both sides of the permanent resident card with the application to complete the application file. If their parent is also a permanent resident, a copy of

the parent's card will be necessary to determine residency. If permanent resident card is not available, provide a copy of the I-485.

### **Notification of Application Status**

You may email the Office of Admissions and Records at *TAMUGadmissions@tamug.edu* or phone 877-322-4443 or 409-740-4414 to verify that your application has been received and to determine if any credentials are missing. Please allow two weeks for admissions processing.

The Office of Admissions and Records will make every effort to inform applicants of incomplete files through the applicant website. If incomplete applications are received within one month of the closing date, there may not be sufficient time for the Office of Admissions to notify applicants. All items necessary to complete an application must be received by the Office of Admissions and Records by the closing date to assure consideration for admission.

### **Freshman Admissions**

When all credentials necessary to complete a freshman applicant's file are received during the admission application period, one of the following criteria will be used to determine who will be offered admission:

#### **1. Top 10% Applicants from Texas High Schools**

Applicants who are Texas residents or who are enrolled in recognized public or private high schools in Texas with a rank in the top 10% of their high school graduating class will be automatically admitted to TAMUG.

#### **2. Academic Admits**

Domestic applicants who rank in the top 25% of their high school graduating class, achieve a combined SAT math and SAT critical reading score of at least 1300, with a test score of at least 600 in each of these components of the SAT, or a composite ACT score of at least 30 with a test score of at least 27 in ACT math and ACT English, and meet minimum course work will be automatically admitted to Texas A&M University. These applicants must submit all required credentials by the deadline to qualify for automatic admission.

#### **3. Other Applicants**

Applicants not meeting the above requirement will have their complete application file reviewed to make an admission decision. Factors considered are:

##### **A. Minimum Required Coursework**

- Four years of English.
- Three and a half years of mathematics to include Algebra, Geometry, Algebra II and at least one-half year of advanced math.
- Three years of science with at least two courses from Biology I, Chemistry I or Physics I.

Only in exceptional cases will students be admitted without these minimum requirements. Most applicants who are offered admission will have taken courses well beyond the minimum and will have taken advantage of the most challenging courses their high schools offer.

We also recommend:

- Two years of the same foreign language.  
Graduation from Texas A&M University requires that a student complete two years of the same foreign language in high school or one year of the same foreign language at the college or university level. Completion of these courses in high school is highly recommended.

##### **B. Information Presented in the Application**

- Extracurricular activities including time commitment and duration of involvement.
- Leadership and/or exceptional talent as shown in extracurricular activities and/or work.
- Community/volunteer work including time commitment and duration of involvement.
- Awards and achievements earned while in high school.
- Employment and/or internships including dates of work and hours per week.
- Family educational background and household income.

##### **C. Essay Topic A and B**

Applicants must submit Essay Topics A and B from the Texas Common Application.

### **Information for all Freshman Applicants**

All applicants should use the application questions and the essays to present their academic background and personal strengths as well as personal circumstances.

Letters of recommendation are not required. If an applicant chooses to submit letters of recommendation, be sure they validate or certify leadership, exceptional talent, or special circumstances. The most helpful letters are from individuals who know the applicant well and who can write about what distinguishes the applicant from other applicants. Please submit no more than two letters of recommendation. Photocopies are acceptable.

A limited number of applicants who do not have the college preparatory course work or strong academic credentials may be offered provisional admission that requires the successful completion of a Bridge program at Texas A&M University at Galveston.

### **Notice of Admission Decision**

Admission decisions are made throughout the application period and announced as soon as possible. The decision may be to admit, deny or hold the application for additional review. Decisions are made on a rolling basis and are generally made upon file completion. Bridge Program admissions decisions are usually made in early February.

### **Suspected Fraudulent Admission Applications**

Applicants for admission to Texas A&M University should be aware that the information submitted will be relied upon by University officials to determine their status for admission and residency for tuition purposes. By signing and submitting an admission application, the applicant certifies that the information in, and submitted with, the application is complete and correct and may be verified by Texas A&M University. The submission of false or incomplete information is grounds for rejection of the application, withdrawal of any offer of acceptance, cancellation of enrollment, or any other appropriate disciplinary action.

For prospective students (admitted but not enrolled), or for enrolled students, the initial determination of whether an individual has submitted a fraudulent application will be made by the Director of Admissions and Records, with a final right of appeal to the Associate Vice President for Academic Affairs.

Any University official who suspects that a prospective student or enrolled student has submitted a fraudulent admission application must notify the Director of Admissions and Records.

### **Transfer Admissions**

Transfer applicants are admitted to a specific major and are required to follow the curriculum of that major. Students who begin a set of courses which have a two-semester sequence are encouraged to complete both courses in the sequence before transferring to Texas A&M.

### **Admission Criteria**

Most transfer admission decisions are made through a competitive review process. A transfer student is deemed as one who has registered at another college or university. An applicant may not disregard the academic record of any previous education received at another institution, other than exceptions stipulated under the Texas Academic Fresh Start Program.

- Transfer applicants must have at least a 2.5 grade point ratio (GPR) on at least 24 graded semester hours of transferable course work at the time of application to be considered.
- Applicants who drop or withdraw from courses frequently and who do not achieve satisfactory grades routinely will be at a disadvantage in the review for admission.
- Spring grades may be used in the fall admission decision if received by June 1.
- The entire application, including Essay Topic A, is considered to identify admissible candidates.

Admission may be granted to undergraduate students who have begun their work at other colleges or universities and have also satisfied the requirements as set forth below.

- An applicant must be eligible to return to the institution from which the transfer is sought.
- Applicants seeking admission to the license-option curricula who have attended another maritime academy or college must provide a letter to the Superintendent of the Texas Maritime Training Program from the Superintendent of the other academy or college verifying that the student is eligible to return to that institution.
- Transfer applicants are required to submit an official high school transcript.

Applicants must also submit a formal application for admission as well as official transcripts of their record at each college or university previously attended as early as possible. This material should be sent to the Office of Admissions and Records, Texas A&M University at Galveston, P.O. Box 1675, Galveston, Texas 77553-1675.

The applicant must have achieved an overall grade point ratio of 2.5 or better on the work attempted and must meet or surpass this same standard for each of the last two semesters of attendance, if in attendance two or more semesters. A 10-week summer session with a normal load of course work will be considered a full semester. To assist preparation for admission and enrollment at Texas A&M, the following foundation course pattern has been developed. Texas A&M course equivalencies to the Texas Common Course Numbering System (TCCNS) may be found at <http://www.tccns.org/matrix/index.htm>.

The number of hours and the grades earned on transferable courses in the foundation are the primary criteria used to make transfer admissions decisions. Priority will be given to students with a minimum of 24 semester credit hours. However, applicants with a minimum of 12 semester credit hours will be considered.

## Foundation Courses for Transfer Students

Texas Common Course Numbering System	Texas A&M Course	Hours	Chosen Degree Program
ENGL 1301	ENGL 104	3	All majors
HIST 1301, 1302	HIST 105, 106	6	All majors
GOVT 2305, 2306	POLS 206, 207	6	All majors
MATH 1324, 1325	MATH 141, 142	6	MARA majors
MATH 2413	MATH 151, 166	4	MARB, MARF majors
MATH 2412, 2413	MATH 150, 151	8	MARR majors
MATH 2413, 2414	MATH 151, 152	8	MASE majors
MATH 1316, 2413	MATH 106, 151	8	MART major
MATH 2314, 2314	MATH 151, 161	7	MARS majors
BIOL 1406, 1407	BIOL 111, BIOL 112	8	MARB, MARF, MARS and OCRE majors
PHYS 1401, 1402	PHYS 201 and 202	8	MART majors
PHYS 2425, 2426	PHYS 218, 208	8	MASE and MARR majors
Any science		8	MAST and MARA majors
Humanities electives		6	Refer to your degree listing for options
Social science electives		6	Refer to your degree listing for options

On the basis of the credentials submitted, credit will be given for work completed satisfactorily at another properly accredited college or university as long as the work is equivalent in character and extent to similar work at Texas A&M University at Galveston or Texas A&M University. Credits given by transfer are provisional and may be canceled at any time if the student's work at the University is unsatisfactory. See the section entitled "Transfer of Credits" for additional information. Students will be classed by the number of credits transferred. Depending on the number of transferred credits used in the student's degree plan, a student could be classed as a senior but be a curriculum sophomore.

Transfer students should read carefully the next section of this catalog entitled "Residency Requirements for a Baccalaureate Degree," which explains residency requirements.

### Residence Requirement for Baccalaureate Degree

A candidate for a baccalaureate degree at Texas A&M University at Galveston must successfully complete a minimum of 36 semester hours of 300- and/or 400-level course work in residence at Texas A&M University at Galveston or College Station to qualify for a baccalaureate degree. A minimum of 12 of these semester hours must be in the major.

Candidates for license-option curricula must complete the last two years of the minimum three-year training requirement at Texas A&M University at Galveston and participate in the Corps of Cadets. Students enrolled in a license-option curriculum are required to participate in the Corps of Cadets every semester they are registered. Generally this will be eight regular semesters and three summer cruises.

### Change of Curriculum to Another Campus

Texas A&M offers course work off campus. Participation in such programs or course work does not give the participant automatic campus enrollment privileges. Students are eligible to change to another campus, center or location only after completion of a minimum of 30 hours earned with at least a 2.5 GPA while enrolled as a student in residence at the campus, center or location of admission. For a change of curriculum to be approved, students must meet the conditions of their desired curriculum and space must be available at the campus, center or location of desired enrollment. Final approval is granted by the academic dean of the college that administers the curriculum.

### Transfer Course Credit Policies

Transfer credit on course work complete at the time of application to Texas A&M University is transferable only when an official transcript from the originating institution is presented as part of the application for admission or readmission process.

The transfer of course credit will be determined by the Office of Admissions and Records on a course-by-course basis. Credit submitted for transfer must be on an official transcript received by the Office of Admissions and Records from the registrar of the institution where the credit was earned. Course content will be determined from the catalog description or the syllabus. The transfer of credit decision will be based on the following criteria. All criteria are to be considered together; for example, criteria 10 may be qualified by criteria 7.

### Credit from Institutions Accredited by One of the Regional Accrediting Associations

1. A course that is normally considered as part of a bachelor's degree program (not including the bachelor of technology or similar terminal degree) may be transferred. The following criteria, taken together, are used:
  - a. The course is applicable to a bachelor's degree at TAMUG.
  - b. The course is similar to a course or courses offered for degree credit by TAMUG.
  - c. The course content is at or above the level of the beginning course in the subject matter offered by TAMUG.

2. A course that is intended for use in a vocational, technical or occupational program will normally not transfer. In certain cases, credit for occupational skill courses will be considered. Transfer of this credit requires either that the student's Texas A&M major is engineering technology or industrial distribution or that the student's major department and dean approve the course for use in the student's degree program.
3. Credit for support courses such as math, science and English intended specifically for use in an occupational program will not be transferred.
4. Credit for the course must be shown on the official transcript in semester hours or in units that are readily converted to semester hours.
5. A graduate-level course will not be transferred for undergraduate credit unless approved for use in the student's undergraduate degree program by the student's major department and dean. This also applies for a course offered in a professional degree program such as nursing, law or medicine.
6. Credit by examination courses which are transcribed from other colleges or universities may be transferred if sequential course work with credit is also indicated. If there is evidence that the credit by examination courses are part of the student's program of study at that institution, credit will be awarded for those courses that meet the transfer guidelines.
7. Courses similar to ones offered by the Colleges of Agriculture and Life Sciences, Business, Geosciences, Engineering or TAMUG at the junior or senior level transfer by title only. Such courses may be used in the student's degree program only if approved by the department head and dean of the student's major field. Validation of such credit, either by examination or the completion of a higher level course, may be required.
8. A field experience, internship or student teaching course may be transferred by title only.
9. Credit for cooperative education will not be transferred.
10. A course that is substantially equivalent to a TAMUG course transfers as an equivalent course. Two or more courses may be combined to form one or more equivalent courses. If there is doubt about the equivalency of a course, the TAMUG department offering the course subject matter is asked to determine if the course is equivalent.
11. As a general policy, credit for admission will be given for transfer work satisfactorily completed with a passing grade at another properly accredited institution.
12. Grade Point Ratio (GPR) for any period shall be computed by dividing the total number of semester hours of transferable courses for which the student received grades into the total number of grade points earned in that period. Credit hours to which grades equivalent to TAMUG grades of W, WF, F, I or U are assigned shall be included; those having grades equivalent to TAMUG grades of WP, Q, S, X and NG shall be excluded.
13. In any case where a decision cannot be made using the above criteria, the Office of Admissions and Records will determine the transfer of credit based on University policy, previous actions of the University and prior experience.

### **Resolution of Transfer Disputes for Lower Division Courses Between Public Institutions in Texas**

The following procedures shall be followed by public institutions of higher education in the resolution of credit transfer disputes involving lower-division courses:

1. If an institution of higher education does not accept course credit earned by a student at another institution of higher education, the receiving institution shall give written notice to the student and to the sending institution that transfer of the course credit is denied. A receiving institution shall also provide written notice of the reasons for denying credit for a particular course or set of courses at the request of the sending institution.
2. A student who receives notice as specified in subsection 1 may dispute the denial of credit by contacting a designated official at either the sending or the receiving institution.
3. The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with Board rules and guidelines.
4. If the transfer dispute is not resolved to the satisfaction of the student or the sending institution within 45 days after the date the student received written notice of denial, the institution that denies the course credit for transfer shall notify the Commissioner of its denial and the reasons for the denial.

The Commissioner of Higher Education or the Commissioner's designee shall make the final determination about the dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institutions.

### **Credit from Nonaccredited Schools**

Students who transfer to TAMUG from an institution of higher education that is not accredited by one of the regional accrediting associations may validate the work taken at the institution by one of the following methods:

1. Successful completion of a comprehensive departmental examination or nationally standardized examination that is approved by the department.

2. Successful completion of a higher level course in the same subject area when approved by the head of the department and the dean of the college.

Credit will be given to students transferring from nonaccredited public colleges in Texas for work completed with grades of C or better if they earn a grade point of 2.0 C average) on the first 30 hours of residence work at TAMUG.

### **Credit from Abroad**

Transfer work from institutions following other than the United States educational system with instruction in English will be evaluated on an individual basis. A-level examinations will transfer. Baccalaureate II examinations will not transfer; however, these students may take placement and proficiency examinations to receive credit by examination. Credit will be given for work satisfactorily completed at international institutions offering programs recognized by Texas A&M. Official credentials submitted directly from the Office of the Registrar and a listing of courses completed and grades awarded must accompany any request for transfer credit. Transfer work will be awarded by course title unless previous arrangements have been made using the Texas A&M University Study Abroad Transfer Credit Agreement Form. Courses must be equivalent in character and content to courses offered at Texas A&M.

No English composition courses will be transferred from institutions located in non-English speaking countries. American history and American political science (government) courses will not transfer from foreign institutions. Courses taken at language training centers or institutes are generally not awarded transfer credit. A transcript from such an institution must be issued through the office of a Texas A&M recognized university, institute or language training center. Carefully check the credentials of all language centers and language institutes.

### **Credit for Military Experience**

The University follows, with limitations, the recommendations of the American Council on Education (ACE) as published in the Guide to the Evaluation of Educational Experiences in the Armed Forces in granting credit for military service schools. At a minimum, the following guidance applies:

Courses must be in the “baccalaureate/associate degree category” as defined by the ACE guide. This precludes acceptance of almost all of vocational, technical or certificate category courses, or military occupational specialties or job experience.

Students who have completed one year of active duty in the armed forces of the United States may be given academic credit for 4 semester hours for basic ROTC and 4 semester hours of Physical Activity (KINE 199).

For consideration of credit for military service schools, the applicant may submit the following military records:

1. A certified original of the DD Form 295, or
2. A copy of the DD Form 214, or
3. Course completion certificates.
4. Army/ACE Registry Transcript System (AARTS).
5. Sailor/Marine ACE Registry Transcript System (SMARTS).

## **Extension and Correspondence Courses**

Students may apply a maximum total of 30 semester hours of approved extension class work and correspondence study toward a degree. Students may apply up to 12 hours of correspondence credit earned through an accredited institution toward the requirements for an undergraduate degree, even though Texas A&M does not offer courses by correspondence. The Office of Academic Enhancement is authorized to act as an agent to receive correspondence courses.

Correspondence courses taken through the Defense Activity for Nontraditional Education Support (DANTES) may be accepted and included in the 12 hours allowed.

In order for a student in residence at Texas A&M to receive credit for correspondence work toward a bachelor's degree, he or she should:

- obtain advance written permission from the dean of his or her college;
- present appropriate evidence of having completed the course.

## **International Student Admissions**

International students (non-U.S. citizens) with superior academic records will be considered for admission to Texas A&M University at Galveston through the International Admissions Office of Texas A&M University (College Station). For information about application requirements, deadlines, admissions criteria, expenses and English language proficiency, international students should refer to the Texas A&M University Catalog or contact International Admissions, Texas A&M University, P. O. Box 30014, College Station, TX 77842-3014. Phone: 979-845-1071. Email: *international-admission@tamu.edu*.

## **Transcripts/Examination Results**

Official academic records (transcripts, marksheets, etc.) are required for all secondary and any university work completed. Records should include all courses taken in high school and every college or university the applicant has attended. Official records require the original seal or signature of the registrar, principal, headmaster or director of student records. Official records should be mailed from the school directly to Texas A&M University, Office of Admissions and Records.

Examination results should be sent directly from the examination agency. In addition to the original records in a language other than English, Texas A&M requires official translations in English. Translations sent directly from the institution attended or from a recognized translator will be accepted. For students enrolled in the United States, we will accept copies of official transcripts from other countries that are on file and verified by the U.S. institution. Unofficial photocopies, fax copies, notarized copies of records, examination results or translations will not be accepted.

## **Admission Criteria for International Applicants with U.S. Based Credentials**

International applicants that are completing their education at an institution that is accredited by the U.S. will be reviewed in accordance with the guidelines determined for domestic admission. However, these applicants must still meet international deadlines and testing requirements. (See item 2 below.)

## **Admission Criteria for International Applicants with Foreign Credentials**

International applicants that are completing their education at an institution that is not accredited by the U.S. will be reviewed based on the following criteria:

1. Academic Achievement
  - International applicants are expected to complete an educational program that will permit them to be considered for admission to a university in their home country. Examples include the completion of Grade 13, Form 6 or 3A-level exams following O-levels. Predicted A-level exam results must be received by the application closing date.
  - Successful applicants will rank near the top of their country's educational system (B average or better) and score well above average on national exams.
  - Secondary school courses: Appropriate college preparatory course work is required.
2. Testing: SAT or ACT scores (with writing component) will be considered in the review criteria for international freshman applicants. Applicants whose native language is not English are required to demonstrate English proficiency by meeting any one of the following requirements:
  - TOEFL scores of 550 paper-based test, 213 computer-based test, or 80 internet-based test
  - IELTS with a 6.0 overall band score
  - SAT Critical Reading score of 480 or higher
  - ACT English score of 19 or higher
  - Completed all four years of high school from a U.S. accredited high school.
3. Individual Achievement and Recognition
  - Leadership positions held
  - Honors/awards received
  - Major national, state or Texas A&M scholarships received

Unofficial photocopies, fax copies and notarized copies of records, examination results or translations will not be accepted.

## **Additional Requirements for International Applicants After Admission**

If admitted, international applicants must fulfill the following additional requirements before enrollment:

### 1. Declaration and Certification of Finances and Transfer-In Form

A Financial Resource Statement is sent with a letter of acceptance. This form must be completed and returned to Texas A&M University before the Certificate of Eligibility (I-20 or DS-2019) is issued. The Transfer-In Form is also mailed with the acceptance letter to all international applicants who are attending a school in the United States.

### 2. Advance Deposit

Because of monetary restrictions in some countries, a full year's expenses may be required as a deposit from some accepted applicants. When the student enrolls, the deposit is applied to the first semester expenses. The deposit is refunded to admitted applicants who do not attend Texas A&M.

### 3. English Verification/Certification

Texas A&M requires International undergraduate students to demonstrate the ability to speak, write and understand the English language. Undergraduate students may meet this requirement in **one** of five ways:

- A. official TOEFL score of 600 paper-based test, 250 computer-based test, or 100 internet-based test;
- B. official IELTS score of 7.0 overall band;
- C. have an official SAT Verbal of 480, or ACT English score of 19 and attended grades nine through twelve of U.S. secondary education and graduate from an accredited U.S. high school;
- D. transfer from an accredited U.S. institution of higher education with at least 30 semester credit hours, including the equivalent to Texas A&M ENGL 104; or
- E. achieve English Language Proficiency Verification by taking the English Language Proficiency Examination (ELPE) prior to registration for the first semester at Texas A&M University. If remedial English classes are necessary, it will extend the time required to complete a degree.

## Scholarship Information for International Students

Texas law allows a limited number of admitted applicants who are citizens of Mexico and who can document financial need to receive an award which allows them to pay the same tuition as residents of the State of Texas. Some scholarships are not available for first-time international students. All students are encouraged to complete on-line scholarship applications through the student Financial Aid Office. Additional information and application forms are available from International Student Services/Texas A&M University, 1226 TAMU, College Station, TX 77843-1226. Phone: 979-845-1825. Email: [iss@tamu.edu](mailto:iss@tamu.edu). Website: [international.tamu.edu/iss](http://international.tamu.edu/iss)

For additional information, please contact International Admissions/Texas A&M University, P.O. Box 40002, College Station, TX 77842-4002. Phone 979-845-1071. Email: [international-admissions@tamu.edu](mailto:international-admissions@tamu.edu).

## Other Types of Admissions

---

### Provisional Admission Criteria

Using the application questions and essay topic, all applicants should present complete information about their academic background, personal strengths and circumstances to the best of their ability. A limited number of applicants who do not have all of the college preparatory course work or strong academic credentials may be offered provisional admission that requires the successful completion of a Bridge program at TAMUG. This program requires attendance on campus at TAMUG.

### Readmission Criteria

Admission decisions for readmission are based on the following:

- GPR on Texas A&M course work;
- GPR on course work since leaving Texas A&M;
- Desired major; and
- Information presented in the application.
- If you were previously admitted but did not attend class through the official census date, you must apply as either a freshman or transfer student.

Transcripts from institutions attended since the last enrollment at Texas A&M are required as follows:

If desired Readmission Term is	Must have transcripts through
2008 Spring semester	2007 Summer session;
2008 Summer semester	2007 Fall semester;
2008 Fall semester	2007 Fall semester if applying by June 1; or 2008 Spring semester if applying after June 1.

### Postbaccalaureate Undergraduate Student

Admission is limited and is intended for applicants with a degree who wish to apply for further study at the undergraduate level to pursue a second bachelor's degree.

Additional requirements to complete a postbaccalaureate application:

- An official transcript indicating the receipt of a recognized baccalaureate degree.

- A statement explaining why enrollment at Texas A&M is necessary.
- Official transcripts from all colleges attended (official high school transcript not required).

Admission decisions for postbaccalaureate undergraduates consider:

- GPR on transferable college course work.
- Completion of prerequisite course work.
- Information presented in the application.

Priority is given to qualified applicants for their initial degree; therefore, postbaccalaureate undergraduate admission may be limited or may not be available. See the Classification section of this catalog for the enrollment rights and privileges of this classification.

### **Undergraduate Non-degree Criteria**

Admission is limited and is intended for applicants with a high school diploma (with the exception of high school concurrent enrollment participants) or for degree applicants who do not intend to pursue a baccalaureate degree at Texas A&M. This includes:

- Local residents or University employees taking courses on a part-time basis.
- Applicants completing established Texas A&M University requirements for teacher or other certification.
- Applicants completing a prescribed set of courses as preparation for application to graduate studies or professional programs (i.e., medical school, veterinary school, law school or CPA exam).
- Others as deemed appropriate by the Office of Admissions and Records and the college or program of admission.

Additional requirements to complete an undergraduate non-degree application:

- A statement explaining why enrollment at Texas A&M is desired.
- A complete, official transcript showing high school graduation or the highest and latest collegiate course work attempted or completed.
- Additional information presented in the application may be considered.

Priority is given to qualified applicants for their initial bachelor's degree; therefore, non-degree admission may be limited or not available. See the Classification section of this catalog for the enrollment rights and privileges of this classification.

### **Transient Session Only Criteria**

Admission is considered for applicants who wish to attend one specific session only and who present appropriate credentials for the level of specified course work and apply within the processing period for the specific session.

Additional requirements to complete transient session only application are:

- A statement explaining why enrollment at Texas A&M is desired.
- A complete, official transcript showing the highest and latest collegiate course work attempted or completed.

### **Academic Fresh Start Policy**

Applicants for admission or readmission to Texas A&M may choose to have academic course work that was completed at least 10 years prior to their term of application removed from consideration in the admission decision (Texas residents only). All other admission requirements apply. Should a Fresh Start applicant be admitted, he or she will forfeit all credit earned prior to 10 years from the term of admission.

Admitted Fresh Start applicants have "Academic Fresh Start" indicated on their official Texas A&M transcript, are required to satisfy THEA requirements, and will follow the academic requirements of the Undergraduate Catalog of record for the term of admission.

Forfeited course work cannot be considered as prerequisites, but placement examinations are allowed for courses which were not considered for admission because of the Fresh Start Policy. Once admitted on Academic Fresh Start, the applicant or student cannot subsequently request that the Fresh Start policy restrictions be removed.

If an applicant has used the Academic Fresh Start Policy at a previous school, the Academic Fresh Start will remain in effect at Texas A&M upon transfer.

# COURSE CREDIT AND TESTING

## Credit by Examination

Undergraduate students at Texas A&M may earn course credits by demonstrating superior achievement on tests offered through several examination programs. Credit by examination is available to freshmen who plan to enter the University and to students who are currently enrolled. Credit earned by examination does not contribute to a student's grade point ratio. The University awards credit for scores on certain tests published by the Advanced Placement Program (AP), the College Level Examination Program Computer-Based Testing (CLEP CBT), the International Baccalaureate (IB) Program, the DANTES Subject Standardized Tests (DSST), and the SAT Subject Tests. Texas A&M also offers qualified students opportunities to earn credits by taking departmental examinations prepared by the faculty. Information concerning credit by examination may be obtained from the Office of Academic Enhancement, 409-741-4341.

## College Level Examination Program Computer-Based Testing (CLEP CBT)

CLEP CBT tests are designed to evaluate nontraditional college-level education such as independent study, correspondence work, etc. Both enrolled undergraduate students and entering freshmen may receive CLEP CBT credit for the courses which are listed below. Only examination titles below are currently accepted. The minimum scores listed below are based on the current version of CLEP CBT Examinations.

CLEP CBT Subject Examination	Minimum Score Required	Texas A&M Course(s)	Credit Hours
American Government	50	POLS 206	3
American History I	65	HIST 105	3
American Literature	52*	ENGL 228	3
Calculus with Elementary Functions	50	MATH 151 or MATH 171	4
College Algebra	50	MATH 102	3
College French	50**	FREN 101	4
College German	50**	GERM 101	4
College-Level Spanish Language	50**	SPAN 101	4
English Literature	53*	ENGL 231	3
Financial Accounting	50	ACCT 209	3
Freshman College Composition	50†*	ENGL 104	3
General Biology	50	BIOL 111, BIOL 112	8
General Chemistry	45	CHEM 101	4
	50	CHEM 101, 102	8
History of the United States II	65	HIST 106	3
Human Growth and Develop.	50	EPSY 320 or PSYC 307	3
Introduction to Psychology	50	PSYC 107	3
Principles of Accounting	52	ACCT 209, 210	6
Principles of Macroeconomics	50	ECON 203	3
Principles of Microeconomics	50	ECON 202	3
Introductory Sociology	50	SOCI 205	3
Trigonometry	50	MATH 103	3
Western Civilization I	65	HIST 101	3
Western Civilization II	65	HIST 102	3

\* Students must qualify on both the objective and essay parts of the CLEP CBT test.

\*\* Students who score 50 or higher are encouraged to attempt the departmental examination for the opportunity of obtaining additional credit.

† Students are not eligible to earn ENGL 104 credit by examination if they have earned more than 90 semester credit hours.

## Advanced Placement Program (AP)

Examinations offered by the AP are administered during late spring by high schools. Students usually take the examinations after completing Advanced Placement courses, although experience in an AP course is not required. Interested students should contact their high school counselors for information concerning registration and test sites. High school students and currently enrolled students should have the College Board forward their scores to the Office of Academic Enhancement. Advanced Placement scores of entering freshmen are generally received in late July.

The following list includes all AP examinations currently accepted for credit.

AP Examination	Minimum Score Required	Texas A&M Course(s)	Credit Hours
Art History	4	ARTS 149, 150	6
Biology	4	BIOL 111, BIOL 112	8
Calculus AB	4*	MATH 151	4
Calculus BC	3*	MATH 151	4
	4*	MATH 151, 152	8
Chemistry	3	CHEM 101	4
	4	CHEM 101, 102	8
Comparative Governments	4	POLS 329	3
Computer Science A	4	CPSC 110	4
Computer Science AB	4	CPSC 110	4
Economics: Macroeconomics	4	ECON 203	3
Economics: Microeconomics	4	ECON 202	3
English Lang. and Comp.	3	ENGL 104	3
	4	ENGL 104, 241	6
English Lit. and Comp.	3	ENGL 104	3
	4	ENGL 104, 203	6
Environmental Science	3	GEOS 105	3
European History	4	HIST 102	3
French Language	3	FREN 101, 102	8
	5	FREN 101, 102, 201	11
German Language	3	GERM 101, 102	8
	5	GERM 101, 102, 201	11
Human Geography	3	GEOG 201	3
Latin: Vergil	3	CLAS 121, 122	8
	5	CLAS 121, 122, 221	11
Music Theory	4	MUSC 102	3
Physics B	3	PHYS 201, 202	8
Physics C: Mechanics	3†	PHYS 201 or 218	4
Physics C: Elec. and Magnetism	3†	PHYS 202 or 208 or 219	4
Psychology	3	PSYC 107	3
Spanish Language	3	SPAN 101, 102	8
	5	SPAN 101, 102, 201	11
Spanish Literature	3	SPAN 202	3
	5	SPAN 202, 320	6
Statistics	3	STAT 301, 302, or 303	3
Studio Art: Drawing	4	ARTS 103, 111	9
Studio Art: 2-D	4	ARTS 103, 111, 112	9
U.S. Government and Politics	3	POLS 206	3
U.S. History	4	HIST 105, 106	6
World History	4	HIST 104	3

\* Credit in MATH 151 may be substituted for MATH 131, 142 or 171. Credit in MATH 152 may be substituted for credit in MATH 172.

† Credit in physics is based on the curriculum of a student's intended major.

## International Baccalaureate (IB)

Texas A&M University, in compliance with SB111, will grant at least 24 semester credit hours of course-specific college credit in subject-appropriate areas on all International Baccalaureate (IB) exam scores of 4 or above as long as the incoming freshman has earned an IB diploma. While some course credit will be awarded regardless of a student's IB diploma status, some course credit at Texas A&M University may be subject to the successful completion of the IB diploma.

Entering freshman students should submit their International Baccalaureate transcript to Texas A&M University, score recipient code: 01355, for review. Students should contact the Office of Academic Enhancement regarding their eligibility for course credit. Students should work with an academic advisor to determine the use of the IB credits in their individual degree plan and the impact accepting the credit may have upon tuition rebate eligibility, tuition charges for excessive total hours, and preparedness for sequential course work based on IB test scores. Students will need to contact the Office of Academic Enhancement in order to accept or deny the credit earned via IB tests.

Texas A&M University will notify IB applicants of their eligibility to receive credit by posting information on the website, [www.tamu.edu/mars/testing/HTMLfiles/highschool.htm](http://www.tamu.edu/mars/testing/HTMLfiles/highschool.htm), and by establishing links to other web pages that are relevant to applicant students. The evaluation of IB courses in order to identify the appropriate course credit is continuing and will be posted as it becomes available.

IB Higher Level Examination	Minimum Score Required	Texas A&M Course(s)	Credit Hours
Biology SL	4 w/diploma	BIOL 113, 123	4
Biology HL	4	BIOL 111	4
	5	BIOL 111, 112	8
Chemistry SL	4 w/diploma	CHEM 106, 116	4
Chemistry HL	4	CHEM 101	4
	5	CHEM 101, 102	8
Economics	4	ECON 203	3
English Language A	4	ENGL 104	3
	5	ENGL 104, 222	6
French: Language A or B	4	FREN 101, 102	8
	5	FREN 101, 102, 201, 202	14
Fundamentals of Music	5	MUSC 102, 202	6
Further Mathematics SL	4 w/diploma	MATH 102	3
	5	MATH 150	4
German: Language A or B	4	GERM 101, 102	8
	5	GERM 101, 102, 201, 202	14
Italian: Language A or B	4	ITAL 101, 102	8
	5	ITAL 101, 102, 201, 202	14
Japanese: Language A or B	4	JAPN 101, 102	8
	5	JAPN 101, 102, 201, 202	14
Mathematics SL	4	MATH 150	4
Mathematics HL	4	MATH 150	4
	5	MATH 150, 151	8
Mathematical Methods SL	4 w/diploma	MATH 102	3
	5	MATH 150	4
Mathematical Studies SL	4 w/diploma	MATH 102	3
	5	MATH 150	4
Philosophy	4	PHIL 251	3
Physic SL	4 w/diploma	PHYS 205	4
Physics HL	4	PHYS 201, 202	4
Psychology	4	PSYC 107	3
Spanish: Language A or B	4	SPAN 101, 102	8
	5	SPAN 101, 102, 201, 202	14
Visual Arts	5	ARTS 103	3

\* Credit for MATH 151 may be substituted for MATH 131, 142 or 171.

## Dantes Subject Standardized Tests (DSST) Program

The DSST Program is available to all interested persons. These tests are untimed. Enrolled undergraduate students and entering freshmen may receive DSST credit for the courses listed below. For more information about the test, please contact the Office of Academic Enhancement.

DSST Examination	Minimum Score Required	Texas A&M Course(s)	Credit Hours
Art of the Western World	50	ARTS 149, 150	6
Astronomy	48	PHYS 306	3
Business Law II	52	MGMT 212	3
Lifespan Develop. Psyc.	47	PSYC 307	3
Physical Geology	46	GEOL 103	3
Principles of Statistics	48	STAT 201 or PSYC 203	3

## SAT Subject Tests

Credits are offered to entering freshmen who score high on the SAT Subject Tests. High school students who are interested in taking these tests should contact their school counselors or write College Board ATP, Box 592, Princeton, NJ 08541.

Subject Test	Minimum Score Required*	Texas A&M Course(s)	Credit Hours
Chemistry	630	CHEM 101	4
French	640	FREN 101	4
	740	FREN 101, 102	8
German	630	GERM 101	4
	740	GERM 101, 102	8
Italian	630	ITAL 101	4
	750	ITAL 101, 102	8
Latin	630	CLAS 121	4
	730	CLAS 121, 122	8
Physics	680	PHYS 201, 202	8
Spanish	630	SPAN 101	4
	750	SPAN 101, 102	8

\* The minimum score required is based on the recentered scale. Students who took tests before April 1, 1995 should contact the Office of Academic Enhancement to determine the minimum score required.

## Departmental Examinations for Entering Freshmen and Currently Enrolled Students

Qualified entering freshmen may take departmental tests during New Student Conferences prior to initial enrollment at Texas A&M University at Galveston. Entering freshmen and currently enrolled students can also take the exams throughout the year. Check the Academic Enhancement website (<http://www.tamug.edu/acen/>) for eligibility requirements. A testing date may be reserved when registering for a Conference. All new and currently enrolled students should contact the Office of Academic Enhancement for registration information to seek credit for the following courses:

CHEM 101, 102      PHYS 201, 202, 208, 218, 219  
 CPSC 110      POLS 206, 207  
 Foreign Languages (up to four semesters of course work in French, German, Italian, Japanese, Latin, Russian and Spanish)

Please note these regulations concerning credit by examination:

1. Test scores and/or credit eligibility must be reported formally to Office of Academic Enhancement for credit by examination to be awarded. Credit is posted to the academic record once appropriate scores are received by the Office of Academic Enhancement and the student has officially enrolled in the University.
2. Students may not receive credit by examination for courses that are prerequisites to courses for which they already have credit except with the approval of the department authorizing the examination.
3. A student may not have credit posted for credit by examination for a course in which he or she is currently registered or has acquired a grade other than Q, W or NG.

## **Texas Success Initiative (TSI)**

---

The Texas Success Initiative (TSI) was instituted to ensure that students enrolled in Texas public colleges and universities possess the necessary academic skills to perform effectively in college and to provide diagnostic information about reading, writing and mathematics skills of each student. All undergraduate students who did not meet one of the allowed exemptions must take the Texas Higher Education Assessment (THEA) test or an approved alternative.

Students who do not meet established cutoff scores or other approved exemptions for the THEA test are required by Texas law to be enrolled in, and actively attend, an academic skills course and/or program each semester prior to completing all TSI requirements. Academic skills courses in each of the three TSI areas are offered by Texas A&M. Failure to meet the attendance requirements of the academic skills course will result in withdrawal from Texas A&M. The hours for these courses will not count toward any degree program but may count toward determining full-time status. Students required to take the THEA test should have their scores sent by the testing agency to Texas A&M University at Galveston.

More information can be obtained from testing centers at most Texas public colleges and universities or by contacting:

National Evaluation Systems, Inc.

P. O. Box 140347

Austin, TX 78714-0347

512-927-5397

<http://www.thea.nesinc.com>

or

TAMUG Office of Academic Enhancement

P.O. Box 1675

Galveston, TX 77553-1675

409-741-4343

## **Senior Citizens**

---

Senior citizens, 65 years old or older, may, with the permission of the instructor, audit courses if space is available in the assigned classroom. It is not necessary for senior citizens to be admitted to the University and academics records of their attendance will not be maintained.

# REGISTRATION AND ACADEMIC STATUS

Registration for the fall and spring semesters is accomplished at several times. In the preceding fall and spring semester (during November and April), a preregistration period is held for currently enrolled and readmitted students to register for the next semester. There are periods of announced open registration for students who were unable to preregister during the scheduled preregistration period. New Student Conferences serve as an opportunity for new undergraduate students to register. During the week before classes begin for a particular semester, there is a delayed registration period for students who have not already registered. Further information concerning registration may be obtained from the academic calendar published in this catalog or from the Office of Admissions and Records. The Class Schedule is posted at [www.tamug.edu](http://www.tamug.edu) (available shortly before pre-registration periods).

## Academic Advising

Academic advising is coordinated and supervised by the academic department. Within departments, faculty members or advising specialists are available to assist students with course selection, academic program planning and curriculum-related advising in general. If a student has special problems, the department head may be consulted.

## Full-Time Student

A full-time undergraduate student is defined as one who is registered for 12 semester hours during a fall or spring semester, 4 hours in a five-week summer term and 8 hours in a 10-week summer semester. A Q grade or W grade does not count toward the certification of enrollment status. Only hours for which a student is currently enrolled at Texas A&M University at Galveston can be used toward certification of enrollment. A license option student registered for summer cruise (NAUT 200, 300, 400 or MARE 200, 300, 400) will be considered a full time student.

## Undergraduates Registering for Graduate Courses

A senior undergraduate student with a cumulative grade point ratio of at least 3.00 or approval of his/her academic dean, is eligible to enroll in a graduate course and reserve it for graduate credit by filing a petition obtained from the student's undergraduate department and approved by the course instructor, the student's major department head and the Assistant Vice President for Academic Affairs.

An academically superior undergraduate student with a cumulative grade point ratio of at least 3.25 or approval of his/her academic dean, is eligible to apply graduate credit hours toward his/her undergraduate degree program by filing a petition obtained from the student's undergraduate department and approved by the course instructor, the student's major department head and the Assistant Vice President for Academic Affairs. Graduate credit hours used to meet the requirements for a baccalaureate degree may not be used to meet the requirements for a graduate degree.

## Maximum Schedule

An undergraduate student with an overall grade point ratio of 3.0 or better may register for a course load in excess of 19 hours in a fall or spring semester or 6 hours (7 if part is laboratory) in a summer term with the approval of his or her advisor. An undergraduate student with an overall grade point ratio of less than 3.0 must obtain approval of his or her undergraduate department head before registering for a course load in excess of 19 hours in a fall or spring semester or 6 hours (7 if part is laboratory) in a summer term.

## Classification

Each student has a classification which indicates the type of degree program in which the student is enrolled (undergraduate, graduate or professional), and reflects the student's progress within that program at the undergraduate and professional levels. The classifications are:

---

Code	Classification Definition
------	---------------------------

U0	Undergraduate Non-degree
----	--------------------------

Students with a high school diploma (with the exception of high school concurrent enrollment participants) who do not intend to pursue a baccalaureate degree at Texas A&M University. This includes:

- Summer session only students.
- Local residents or University employees taking courses on a part-time basis.
- Others as may be deemed appropriate by the Office of Admissions and Records and the college or program of admission.

Undergraduate non-degree students are not permitted to enroll in courses until all degree seeking students have had the opportunity to enroll. Undergraduate non-degree enrollment begins on the first day of open registration. Enrollment may be limited by college or program policies. Undergraduate non-degree students are limited to part time status except for summer session or because of extenuating circumstances which result in the approval of full-time status at the time of admission. Admitted students are not eligible for refund of the admission processing fee regardless of course availability.

An undergraduate non-degree student must maintain a 2.0 GPR on all course work attempted to remain eligible to register. Enrollment is subject to review at the end of each semester of enrollment. Enrollment beyond two years of attendance will be approved only in exceptional cases.

Should an undergraduate non-degree student desire admission to a degree program, regular formal application is necessary, including: a complete application for admission, the required application processing fee, the submission of all required credentials, and the meeting of all admission requirements.

An undergraduate non-degree student may not take graduate-level course work.

Undergraduate non-degree students are subject to TSI and English proficiency requirements.

An undergraduate non-degree student does not qualify for financial aid through the University.

With few exceptions, undergraduate non-degree status is not available to international students.

<b>Code</b>	<b>Classification</b>	<b>Definition</b>
-------------	-----------------------	-------------------

U1	Freshman	0–29 hours
----	----------	------------

U2	Sophomore	30–59 hours
----	-----------	-------------

U3	Junior	60–94 hours
----	--------	-------------

U4	Senior	95+ hours
----	--------	-----------

U5	Postbaccalaureate Undergraduate	
----	---------------------------------	--

Students with a recognized baccalaureate degree who wish to complete requirements for a second baccalaureate degree at Texas A&M University or to complete established Texas A&M University certification requirements.

The postbaccalaureate undergraduate classification (U5) has all the privileges and responsibilities of a senior classification (U4).

Recipients of a Texas A&M University baccalaureate degree are not eligible for continued enrollment unless they have the specific approval of the college offering the second bachelor's degree or certification. Should they break enrollment, they must apply for readmission as second bachelor's degree candidates.

A candidate for a second baccalaureate degree must complete all the essential work of the second degree not covered in the first. In all such cases, the total semester hours required must be at least 30 semester hours additional to the greater number required for either degree (see the section on Two Degrees in this catalog). To pursue a second baccalaureate degree concurrently with the pursuit of the initial degree, all essential work required for a second degree must be defined in advance in writing by the dean of the college granting the second degree. To pursue a second baccalaureate degree sequentially requires admission to a second bachelor's degree classification. Pursuit of a second baccalaureate degree may be limited or may not be allowed by some colleges.

E0	Extension, Undergraduate	
----	--------------------------	--

Up to 30 hours of extension work may apply toward an undergraduate degree.

I0	English Language Institute Only	
----	---------------------------------	--

## Academic Status

---

### Distinguished Student and Dean's Honor Roll\*

An undergraduate student who completes a semester schedule of at least 15 hours or a summer session schedule of at least 12 hours with no grade lower than C and with a grade point ratio of not less than 3.5 for the semester or for a summer session shall be designated "distinguished student." A student who, under the same circumstances, achieves a grade point ratio of at least 3.75 shall also be designated as a member of the "dean's honor roll." First semester freshmen must complete a semester schedule of at least 15 hours with no grade lower than a C, no Q-drops and with a grade point ratio of not less than 3.5 for "distinguished student" designation and a 3.75 for "dean's honor roll." Official notification of these designations will be issued to the student by the dean of the student's college. The hours earned with a grade of S shall not be included in determining minimum hours required for the designation of "distinguished student" or "dean's honor roll." A grade of I or U disqualifies a student from being considered as a "distinguished student" or for the "dean's honor roll." Students who use grade exclusion must still meet the minimum of requirements in hours and grades to qualify for the appropriate honors. Grades of Q, W and NG may not be included in the 15 graded hours. Only undergraduate courses or graduate courses used for the undergraduate degree will be used in either honors calculation.

### Scholastic Probation

Scholastic probation is a conditional permission for an undergraduate student to continue in the University after he or she has become scholastically deficient. For University policy regarding scholastic deficiency and scholastic probation, see the Texas A&M University at Galveston University Student Rules at [www.tamug.edu/stulife](http://www.tamug.edu/stulife).

### Withdrawal from the University

A student wishing to withdraw from the University before the completion of a semester or summer term is required to comply with the official withdrawal procedure. This process is initiated with the Office of Admissions and Records. Students may not withdraw after the Q-drop deadline. The Associate Vice President for Academic Affairs will retain the authority to support a student withdrawal after the deadline.

During the summer session, a student must withdraw from the University under the following circumstances:

1. If the student is currently enrolled in only one of the following terms and decides to drop to zero hours (withdraw) in that term:
  - first 5-week summer term
  - second 5-week summer term
  - 10-week summer semester
2. If the student is currently enrolled in the 10-week summer semester and either of the 5-week terms and decides to drop to zero hours (withdraw) in both terms.

When a student withdraws from the University between the first class day, but before the Q-drop deadline, the Office of Admissions and Records will assign a grade of W to all courses enrolled in that semester. Any courses previously graded for that semester will be changed to W, and the W grades will be displayed on the permanent record.

### Correct Addresses

It is necessary to have a correct residence address on file with the University. Students may change their address on the website [myrecord.tamu.edu](http://myrecord.tamu.edu). International students must have a correct physical and permanent address. International students must go to the International Student Services Office to change the physical and the permanent address. The University assumes no obligation for failure of a student to receive communications. Texas A&M uses Neo for official communications with currently enrolled students. It is each student's responsibility to claim his/her Neo account at [neo.tamu.edu](http://neo.tamu.edu).

# GRADING SYSTEM

Because students attend a college or university to extend their education, grades are usually taken as an indication of the proficiency of their endeavors. The student's semester grade in a course shall be based upon performance and/or participation in class, exercises and tests, laboratory work and final examination as applicable to the course. The proportionate weight assigned to each of the factors shall be determined by the department administering the course. The basis upon which the final grade will be determined shall be distributed in written form to the class during the first two weeks of a semester and during the first week of a summer term. There are five passing grades at the undergraduate level, A, B, C, D and S, representing varying degrees of achievement; these letters carry grade points and significance as follows:

- A Excellent, 4 grade points per semester hour
- B Good, 3 grade points per semester hour
- C Satisfactory, 2 grade points per semester hour
- D Passing, 1 grade point per semester hour
- F Failing, no grade points (hours included in GPR)
- I Incomplete, no grade points (hours not included in GPR)
- NG No grade, course dropped without penalty (hours not included in GPR)
- Q Dropped course with no penalty (hours not included in GPR)
- S Satisfactory (C or above), hours not included in GPR
- U Unsatisfactory (D or F), no grade points (hours included in GPR)
- X No grade submitted (hours not included in GPR)
- W Withdrew, hours not included in GPR (effective Spring 1996)
- F\* Aggie Honor Code violation

There are two failing grades, F and U, indicating work of unsatisfactory quality.

## Repetition of a Course to Improve Grade

Any undergraduate student who wishes to repeat a course must do so before he or she completes a more advanced course in the same subject. What constitutes a more advanced course will be determined by the head of the department offering the course.

Credit for a course failed may be obtained only by registering and repeating the course in class. The original grade will remain on the student's permanent record, and both grades will be used in computing the GPR. A F or U previously made is not removed once the course is passed. Credit for each repeated course may only be used once toward degree requirements.

A student repeating a course in which a grade of B or better has been earned will not receive grade points for the repeated course, unless the catalog states the course may be repeated for credit.

## First Year Grade Exclusion Policy

A fully admitted, currently enrolled Texas A&M undergraduate student as defined by the Texas Higher Education Coordinating Board as "first time in college"\* may elect to exclude from his/her undergraduate degree and cumulative GPR calculation grades of D, F or U. This exclusion shall be permitted for up to a maximum of three courses taken for credit at Texas A&M University during the twelve month period beginning with the student's initial enrollment at Texas A&M.

The first year grade exclusion option may be used by current "first time in college" freshmen for courses taken in the twelve months beginning with their initial enrollment at Texas A&M. Sophomores, juniors and seniors also may use the exclusions for courses taken in their first twelve months as "first time in college" freshmen, dating from initial enrollment. All courses chosen for first year grade exclusion shall remain on the official transcript and be designated on the transcript as excluded. First year grade exclusion cannot be invoked after a baccalaureate degree has been conferred upon the student. First Year Grade Exclusion requests for degree candidates must be received in the Office of Admissions and Records not later than 5 p.m. the day midterm grades are due when the student is graduating in a fall or spring semester or not later than 5 p.m. Friday of the third week of class for the second summer session when the student is graduating in August. Additional information may be found at [student-rules.tamu.edu](http://student-rules.tamu.edu) or [admissions.tamu.edu/Registrar/Current/GradeEXPolicy.aspx](http://admissions.tamu.edu/Registrar/Current/GradeEXPolicy.aspx).

\*First time in college: an undergraduate, degree seeking, student who applied and enrolled in college for the first time regardless of whether the student has acquired college level credit through testing, advanced placement or summer enrollment.

## I and X Grades

A temporary grade of I (incomplete) at the end of a semester or summer term indicates that the student (graduate or undergraduate) has completed the course with the exception of a major quiz, final examination or other work. The instructor shall give this grade only when the deficiency is due to an authorized absence or other cause beyond the control of the student. When an instructor reports an incomplete grade to the Office of Admissions and Records, he or she will fill out an "Incomplete Grade Report," which is filed with the department head. Copies are sent to the student and to the Associate Vice President for Academic Affairs. This report includes (1) a statement of the instructor's reason for awarding the incomplete grade and (2) a statement concerning the remaining work to be completed before the last day of scheduled classes of the next fall or spring semester in which the student enrolls in the University unless the student's academic dean, with the consent of the instructor (in the absence of the instructor, the department head), grants an extension of time for good reason. If the incomplete work is not completed within this time or if the student registers for the same course again, the I will be changed to an F by the Office of Admissions and Records. Grades of I assigned to 684, 691, 692 or 693 are excluded from this rule.

The X notation is assigned to a course by the Office of Admissions and Records at the end of a semester or summer term only when a grade is not submitted by the instructor.

The Office of Admissions and Records will notify the department head of the department offering the course that an X notation has been made. The department head of the department offering the course will request that the instructor submit a Grade Change Report Form removing the X notation and assigning a letter grade with a Grade Change Report. The instructor will have 30 days from the beginning of the succeeding semester or summer term to report a change of grade to the Office of Admissions and Records. If a Change of Grade Report is not received during this time period, the Office of Admissions and Records will automatically remove the X notation and assign a grade of F. Grades of X assigned to 684, 691 or 692 are excluded from this rule.

### **Q-Drop and Add and Drop**

1. A student may enroll in a class during the first five class days during the fall or spring semester or during the first four class days of the summer terms or a 10-week summer semester. A student requesting to add a course after these deadlines must have the approval of the student's dean and department.
2. A student may drop a course with no record during the first five class days of a fall or spring semester and during the first four class days of a summer term or a 10-week summer semester. Following this period, if approved by the dean of the student's college, a student may drop a course without penalty through the 50th class day of a fall or spring semester, the 15th class day of summer term or the 35th class day of a 10-week summer semester. The symbol Q shall be given to indicate a drop without penalty. Undergraduate students will normally be permitted three Q-drops during their undergraduate studies. Additional Q-drops will be allowed only in unusual circumstances as determined by a student's dean.
3. Any course taught on a shortened format or between regularly scheduled terms will have add/drop, Q-grade and withdrawal dates proportionally the same as if the course were offered in a regular term. These dates will be determined by the Office of Admissions and Records.
4. A student who drops a course after Q-drop period has elapsed will receive a grade of F unless unusual circumstances exist as determined by the student's dean. A grade of W may be recorded by the dean of the student's college if it is determined such circumstances do exist.

### **Satisfactory/Unsatisfactory**

1. Students must register for courses on a S/U basis during official registration periods and shall not be permitted to change the basis on which their grades will be recorded on their official transcripts, except for unusual circumstances and with the approval of the student's academic dean. All students entering Texas A&M University at Galveston in the Fall 2001 semester or later must enroll in their first KINE 199 on a S/U basis. Students registered for KINE 198 or additional classes of KINE 199 who wish to change the grade type from a graded course to S/U or from S/U to a graded course, may do on the website *myrecord.tamu.edu*. All requests for KINE 198 and KINE 199 changes must be completed on or before the Q-drop deadline for the fall, spring or summer semester.
2. Undergraduate Students
  - a. Undergraduate students may be permitted to take courses in their degree programs at Texas A&M University on a satisfactory/unsatisfactory (S/U) basis consistent with the requirements of the student's college.
  - b. The hours for which a student receives a grade of satisfactory shall not be included in the computation of the student's semester or cumulative grade point ratio; a grade of unsatisfactory shall be included in the computation of the student's grade points per credit hour as an F. A grade of satisfactory will be given only for grades of C and above; a grade of unsatisfactory will be given for grades D and F. The hours earned on a satisfactory/unsatisfactory basis shall not be included in the designation of distinguished student or dean's honor roll.
  - c. Students on probationary standing may be required to take KINE 199 or electives on an S/U basis as determined by published college policies.
3. Graduate students
  - a. Graduate students will not receive graduate degree credit for undergraduate degree courses taken on a satisfactory/unsatisfactory basis. Graduate students may take any graduate courses that are not used on their degree plans on an S/U basis.
  - b. A grade of satisfactory (S) will be given only for grades of A and B in graduate courses, and for grades of C and above in undergraduate and professional courses; a grade of unsatisfactory (U) will be given for grades of C and below in graduate courses, and for D and F grades in undergraduate and professional courses.
  - c. S/U grades are not included in the grade point ratio calculation for graduate students.
4. Courses numbered 681, 684, 690, 691, 692, 693, 695 and 697 are graded on an S/U basis only.

## **Semester Credit Hour**

A lecture course which meets one hour per week for 15 weeks is worth 1 semester credit hour. Thus, a course worth 3 semester credit hours, meets three hours per week. Credit hours for laboratory courses are determined to be some fraction of the number of hours spent in class.

## **Grade Point Ratio (GPR)**

For undergraduate students, only the grade made in course work for which the student was registered in this institution shall be used in determining his or her grade point ratio. Students anticipating graduating with honors should refer to that section of this catalog for information concerning the computation of grade point ratios for that purpose.

An undergraduate student's grade point ratio for any period shall be computed by dividing the total number of semester hours for which he or she received grades into the total number of grade points earned in that period. Semester credit hours to which grades of F or U are assigned shall be included; those involving grades of W, Q, S, X, NG and I shall be excluded.

## **Classification**

Classification for academic purposes shall be based solely on scholastic progress as shown by the official records in the Office of Admissions and Records. Sophomore, junior and senior classification will be granted students who have passed 30, 60 and 95 semester hours, respectively.

## **Grade Reports**

---

### **Midsemester Report**

Near the middle of the fall and spring semesters, a preliminary report, showing the current progress of all undergraduate students at Texas A&M at Galveston will be available at the website *myrecord.tamu.edu*. Preliminary grades are not recorded on the student's permanent record.

### **Final Grade Report**

End of semester final grades are available at the website *myrecord.tamu.edu*. No student grade that is personally identifiable may be posted unless the student has given written consent in advance.

By means of reports at regular intervals and frequent conferences with the deans, the Office of Admissions and Records and members of the teaching staff keep in close touch with the student's progress. Advice and counsel are offered from time to time as seem justified in each case. For failure to keep up with studies, the student may at any time be dropped from the rolls of the University.

### **Parent/Guardian Access to Grades**

A parent or guardian may access midterm and final grades at the website *myrecord.tamu.edu* after the student sets the parent access password. Please discuss this with your student. The Office of Admissions and Records cannot see the passwords created by students for parental access; therefore, you must receive a password from your student.

### **Degree Audit**

Degree audits will be produced on all undergraduate students during the semester that their total registered hours and earned hours are equal to or greater than 95 semester hours. The audit shows degree requirements completed or in progress, requirements remaining and completed courses which will not apply toward this degree without approval of the department head. The audit is intended for use in advising and may contain errors. It remains the responsibility of the student to fulfill all published catalog requirements. Degree audits can be obtained from the student's academic department or the Office of Admissions and Records.

### **Transcripts**

Students applying for admission to TAMUG are required to submit transcripts of previous academic work and in some cases, results of standardized tests. The submission of altered documents or the failure to furnish complete and accurate information on admission forms will be grounds for disciplinary action.

Individuals who have attended the University may obtain an official transcript of their completed work, provided they have no financial obligations to the University. A fee, which, according to state law must be paid in advance, will be charged for each copy. During grading and degree posting at the end of a semester or summer term, official transcripts may be produced for currently enrolled students only if all courses for that semester or term are shown as in progress (IP) or have all final grades posted. If both grades and IP are on the transcript, it will not be produced until all grades are available and the official GPR is calculated. Students and former students may request an official transcript by mail, by fax or by completing the transcript request form at *myrecord.tamu.edu* or in person in the Office of Admissions and Records. A faxed or internet request must be paid by using a credit card from a United States bank. Requests made by mail may be paid with check, money order or a credit card.

# TUITION, FEES AND OTHER FINANCIAL INFORMATION

## General Information

The expenses for each semester will vary according to the personal needs of the student and the course of study pursued. The tuition rate differs according to which of the three following categories a student qualifies: resident of Texas, non-resident of Texas, or pursuing a license-option curriculum.

The tuition and fee amounts provided in this catalog represent the most accurate figures available at the time of publication and are subject to change due to economic conditions, legislative requirements, or actions of the Texas A&M University System Board of Regents.

## Payments

Students must meet all financial obligations to the University by their due dates to avoid late penalties. Failure to pay amounts owed may result in cancellation of the student's registration and their being barred from future enrollment and receiving official transcripts. State law requires that tuition and fees be paid prior to the first day of classes. Students may choose to pay fees in installments which is explained below.

Payments to Financial Management Services may be in the form of cash, cashier's check, personal check, or money order payable to Texas A&M University at Galveston (or TAMUG). All checks and money orders are accepted subject to final payment. Discover, Mastercard and American Express credit cards and E-checks are accepted for tuition and fee payments over the web at <http://epay-tamug.tamu.edu> or <http://myrecord.tamu.edu>.

No tuition and fee statements will be mailed. Notices of amounts owed should be obtained through <http://epay-tamug.tamu.edu> or <http://myrecord.tamu.edu>. An e-mail will be sent to a student's official campus e-mail address through NEO e-mail when the tuition and fee statement is available to view on line. Students must use their NEO e-mail Net ID and password to log into these two programs.

Students who plan to pay their bill in full by the due date will receive notification through their NEO e-mail that the fee statement is available to view on-line and when tuition is due and payable.

Students on the installment plan will receive notification through their NEO e-mail account that the fee statement is available to view on line and when each installment payment is due and payable. In addition, students will be notified through this medium when any changes have occurred to their tuition and fee statement and if and when they have a refund check available.

## Installment Plan

Tuition, most fees, room, board, and parking may be paid in three installments with one-half payable prior to the first day of classes and the remainder payable in two equal payments during the fall or spring semester. A \$15 service charge will be assessed each student who chooses to use the installment plan. Students who wish to pay fees in installments must select the installment plan option during registration.

Students who have paid at least 50%, but not 100% of tuition and fees, will be given the option to choose the installment plan by the end of the second class day in the fall and spring terms.

## **Tuition and Fees: Texas Residents (undergraduate and graduate students)**

Texas residents, except those in license-option curricula, pay \$50 per semester credit hour for tuition, plus additional University Authorized Tuition (currently \$106 per semester credit hour) and fees. The schedule listed below is for all Texas resident students except those in license-option curricula or graduate programs. Graduate students pay an additional \$50 per credit hour (\$750 total for 15 hours). This is based on a student registered for 15 credit hours during the regular school year and 6 credit hours during a summer term.

	<b>Fall Semester</b>	<b>Spring Semester</b>	<b>Summer Term (5 weeks)*</b>
Tuition	\$750.00	\$750.00	\$300.00
University Authorized Tuition***	1,590.00	1,590.00	636.00
Student Services	142.80	142.80	71.40
Room (Double)	1,075.00	1,075.00	420.00
21 Meal Plan**	1,526.33	1,526.33	508.78
Room Deposit	250.00		
Identification Card	5.00	5.00	3.00
Computer Use Fee	187.50	187.50	75.00
General Property Deposit	10.00		
Health Center Fee	36.00	36.00	18.00
Library Use Fee	150.00	150.00	60.00
Student Center Complex Fee	30.00	30.00	15.00
Orientation Fee	75.00		
Software License Fee	18.75	18.75	7.50
Recreation Sports Fee	20.00	20.00	10.00
Utility Fee	97.50	97.50	39.00
<b>Total</b>	<b>\$5,963.88</b>	<b>\$5,628.88</b>	<b>\$2,163.68</b>

\*The fees for one summer session should be doubled if you enroll for both sessions for the same number of credit hours.

\*\*Includes state and city tax of 8.25%.

## **Tuition and Fees: License Option Students**

License-option students (Cadets) pay \$62.50 per semester credit hour for tuition, plus additional University Authorized Tuition (currently \$106 per semester credit hour), and fees. The following is based on 15 hours during the regular school year and 4 hours for summer cruise (excluding international students):

	<b>Fall Semester</b>	<b>Spring Semester</b>	<b>Summer Cruise</b>
Tuition	\$937.50	\$937.50	\$250.00
University Authorized Tuition	1,590.00	1,590.00	424.00
Student Services	142.80	142.80	47.60
Room	1,075.00	1,075.00	845.00
21 Meal Plan*	1,526.33	1,526.33	1,120.39
Room Deposit	250.00		
General Property Deposit	10.00		
Identification Card	5.00	5.00	3.00
Computer Use Fee	187.50	187.50	50.00
Cruise Fee (Summer Cruise only)			875.00
Fuel Fee (Summer Cruise only)			150
Health Center Fee	36.00	36.00	36.00
Library Use Fee	150.00	150.00	40.00
Student Center Complex Fee	30.00	30.00	30.00
Software Licensing Fee	18.75	18.75	5.00
Recreational Sports Fee	20.00	20.00	
Utility Fee	97.50	97.50	26.00
<b>Total**</b>	<b>\$6,076.38</b>	<b>\$5,816.38</b>	<b>\$3,901.99</b>

\*Includes state and city tax of 8.25%.

\*\* Other expenses may include uniforms with an initial outlay of \$1,440, special training and incidentals.

Students who are dismissed or withdraw from a license-option curriculum after the semester begins will have fees adjusted to the appropriate resident or nonresident rate retroactive to the beginning of the semester.

License-option students who are granted a leave of absence for the summer and who enroll in the onshore summer program at the Mitchell Campus instead of the summer training cruise will pay license-option fees as appropriate for that period. License-option students must complete all three cruises within four summers. Under special circumstances, non-license option students may be granted permission to participate in the Corps of Cadets. Non-license option students in the Corps of Cadets are not eligible for the special license-option tuition and will pay normal resident or nonresident fees as applicable.

## **Tuition and Fees: Nonresident Students (undergraduate and graduate students)**

Nonresident students, except those pursuing a license option curriculum, pay \$328 per semester credit hour plus additional University Authorized Tuition (currently \$106 per semester credit hour) and fees. Graduate students pay an additional \$50 per credit hour (\$750 total for 15 hours). The fees listed below are based on a student registered for 15 credit hours during the regular school year and 6 credit hours during a summer term.

	<b>Fall Semester</b>	<b>Spring Semester</b>	<b>Summer Term (5 weeks)*</b>
Tuition	\$4,920.00	\$4,920.00	\$1,968.00
University Authorized Tuition	1,590.00	1,590.00	636.00
Student Services	142.80	142.80	71.40
Room (Double)	1,075.00	1,075.00	420.00
21 Meal Plan**	1,526.33	1,526.33	508.78
Room Deposit	250.00		
Identification Card	5.00	5.00	3.00
Computer Use Fee	187.50	187.50	75.00
General Property Deposit	10.00		
Health Center Fee	36.00	36.00	18.00
Library Use Fee	150.00	150.00	60.00
Student Center Complex Fee	30.00	30.00	15.00
Orientation Fee	75.00		
Software License Fee	18.75	18.75	7.50
Recreational Sports Fee	20.00	20.00	10.00
Utility Fee	97.50	97.50	39.00
<b>Total</b>	<b>\$10,133.88</b>	<b>\$9,798.88</b>	<b>\$3,831.68</b>

\*The fees for one summer session should be doubled if you enroll for both sessions for the same number of credit hours.

\*\*Includes state and city tax of 8.25%.

### **Late Fees and Penalties**

Penalties include:

- \$20 late payment penalty for failure to make payment on the scheduled due date.
- \$100 late registration/re-registration penalty for registration/re-registration between the 1st and 12th class days.
- \$200 late registration penalty for registration after the census day (12th class day).
- \$50 late class-add penalty for adding a course after the census day (12th class day) when a net result of the change is an increase in the number of credit hours.
- \$50 reinstatement fee.

These penalties will apply to all students, including those who are dropped for nonpayment and are required to reregister for classes. Please refer to Payment Due Date table published in the online Class Schedule.

### **Student Financial Responsibility**

Students are responsible for the balance in their accounts. Late payments and delinquent balances (tuition and fees, installments, student loans, returned checks) remaining at the end of the semester will cause a student to be blocked from registering for the next semester or from obtaining a transcript.

### **Students Dropped for Non-Payment: Fall and Spring Terms**

Students that have not paid their tuition and fees in full or have not paid their first installment payment by the due date will be “administratively dropped” from their classes on the Friday before the first day of classes each semester. Students may still attend classes after they have been administratively dropped, but a \$100 Late Registration Fee will be assessed and students must make the required payment for their classes to be restored. Students that have not paid their tuition and fees in full or have not paid their first installment payment by the 20th class day will be “hard” dropped from their classes. At this point in time, students may no longer attend classes in the current term.

### **Students Dropped for Non-Payment: Summer Terms**

Students that have not paid their tuition in full by the due date (there is no installment plan for the summer terms) will be “administratively dropped” from their classes on the Friday before the first day of classes each summer term. Students may still attend classes after they have been administratively dropped, but a \$100 Late Registration Fee will be assessed and students must make the required payment for their classes to be restored.

Students that have not paid their tuition and fees in full by the 15th class day will be “hard” dropped from their classes. At this point in time, students may no longer attend classes in the current term.

## Emergency Tuition and Fee Loans:

Emergency Tuition and Fee Loans are available through the Student Financial Services office. There are limited funds available, so they are offered on a first-come, first-served basis. Loans are available for residents, non-residents and students enrolled in the License Option curricula. These loans are ~~90~~<sup>30</sup>-day, short term loans for fall and spring terms and 30-day short term loans for summer terms. Only one loan is available for the summer. Students that anticipate their financial aid or some other third party payment may be delayed are encouraged to pursue an emergency tuition and fee loan so they will not get dropped from their classes or incur additional fees.

## Unpaid Check

If a check accepted by Financial Management Services, the bookstore or any other campus department is returned unpaid by the bank on which it is drawn, a penalty of \$30 in the form of cash or money order will be assessed. If not redeemed, the student may be dropped from the University. The student is eligible for reinstatement after payment of penalties that include a \$50 reinstatement fee and redemption of the check.

## Computer Use Fee

The computer use fee is charged at the rate of \$12.50 per semester credit hour. This fee will be used to compensate for services provided by various microcomputer facilities on campus.

## General Property Deposit

Every student, unless registered in-abstentia, must make a property deposit to protect the University from damage to or loss of University property. This deposit, less any outstanding charges, will be returned to the student graduating or withdrawing from school. Deposits not requested within four years from date of last attendance will be forfeited into a student deposit scholarship account.

## Health Center Fee

This fee is required of all students enrolled in undergraduate classes at the rate of \$36 for each regular semester, \$36 for the summer training cruise, and \$18 per five-week summer term (all fees pending approval). This fee will finance health services provided by a local clinic, and a physician and two medical assistants on the summer training cruise.

## Housing and Meal Plans

All undergraduate students enrolled in more than nine credit hours are required to reside in campus housing if available and are required to purchase a 15 or 21 meal plan. The limited exceptions are detailed in the Housing section of this catalog. All changes must be made through Housing/Residential Services. Any student living off campus at the beginning of the semester who adds enough hours to require living on campus must pay for room and board for the entire semester. Residence hall fees are included in the fee schedules listed earlier.

## Meal Plan Fees

Students requesting to change meal plans during the semester will have 30 days from the first day of classes to make any change. Requests for changes to a meal plan after that time will not be permitted. All changes must be made through the Food Service Office.

### Fall and Spring

15 Meal Plan - Mon. - Sun., 3 meal/day limit, \$1,315 + \$108.49 tax = \$1,423.49

21 Meal Plan - Mon. - Sun., no limit on meals per day, \$1,410 + 116.33 tax = \$1,526.33

### Each 5-Week Summer Session

15 Meal Plan - Mon. - Sun., 3 meal/day limit, \$430 + \$35.48 tax = \$465.48

21 Meal Plan - Mon. - Sun., no limit on meals per day, \$470 + \$38.78 tax = \$508.78

**Summer Cruise** - \$1,035 + \$85.39 tax = \$1,120.39

Two optional meal plans are available for off-campus students.

### Fall and Spring

Any 5 meals per week \$585 + \$48.26 tax = \$633.26

Any 10 meals per week \$1,015 + \$83.74 tax = \$1,098.74

### Summer (Optional meal plan)

Any 5 meals \$130 + \$10.73 tax = \$140.73

Any 10 meals \$290 + \$23.93 tax = \$313.93

### **Identification Card Maintenance Fee**

All students must have an identification card. This card is used in registration procedures, collection of fees, cashing of checks, for dining hall privileges, etc. During the fall and spring semesters, the identification card fee will be \$5.00. Summer identification card fee is \$3.00. Replacement cards will be issued upon payment of an \$8.00 fee.

### **Library Use Access Fee**

The library use fee is assessed at the rate of \$10 per semester credit hour. Funds collected for this fee are devoted to enhancement of library holdings and services.

### **New Student Conference Fee**

The New Student Conference fee is required of all new freshmen and transfer students enrolling in fall or spring semesters and selected summer terms at the rate of \$75 per student. This fee supports the provision of advanced materials to accepted students, the conduct of professional orientations and student activities.

### **Housing Deposit**

A deposit of \$250 is required to apply for a room in a residence hall. This fee will be retained as a deposit against damage or late cancellation, or to keep the application on active file. Upon withdrawal from TAMUG or graduation, any charges associated with damage to the dorms by the student may be withheld from the housing deposit. A reservation may be canceled and the deposit refunded upon written request prior to July 1 for the fall semester, December 15 for the spring semester, May 10 for the first summer session and June 20 for the second summer session. Any cancellation after the above dates will result in forfeiture of the deposit. A refund may be made in accordance with the TAMUG policy for a student graduating or withdrawing from school, upon request, after clearance by the Residential Services and the Student Life Offices. The balance of the refund due will be issued through Financial Management Services after deducting all room damage charges owed by the student to the University. Seniority in campus housing and on the residence hall waiting list will be based upon the date of receipt of the room deposit; however, the deposit does not guarantee assignment to on-campus housing. Housing deposits can be paid by cash, cashiers check, money order or personal check only.

### **Student Center Complex Fee**

The student center complex fee is required for all students at the rate of \$30 per semester (\$15.00 per five-week summer term or cruise). This fee will be used for the operation, maintenance, programming improvement, and purchase of equipment for the student center complex and for the acquisition or construction of additions to the complex.

### **Student Services Fee**

The student service fee is required of all students at the rate of \$11.90 per semester credit hour not to exceed \$142.80 per semester or \$71.40 per five-week summer term. Student services fees finance recreational activities, student government, student publications, student organizations, campus movies, intramural athletic programs, and social activities. The fee also provides counseling, graduate placement, financial aid and multicultural services.

### **University Authorized Tuition**

This fee of \$106 per semester credit hour is assessed to compensate for occupancy, services, use and/or availability of all or any of the property, buildings, structures, activities, operations and other facilities of the campus.

### **Software License Fee**

This fee funds campus-wide software site licenses for students as well as the associated administrative costs of managing these licenses. This fee is assessed at \$1.25 per semester credit hour. It provides students with many software programs at greatly reduced prices.

### **Supplementary Fee for Courses Attempted More than Twice**

A course that is repeated by a student more than twice at a public institution of higher education in Texas may not be reported for state funding. As a result, the institution must either pass the non-funded portion to all students, or charge a supplementary fee to the student who is repeating the course. Texas A&M has chosen to assess a supplementary fee to those students repeating a course more than twice. A student attempting certain courses more than twice at Texas A&M University will be subject to a supplementary fee of \$125 per semester credit hour (\$375 for a 3 hour course) for the repeated course, in addition to tuition and required fees associated with the course. The general criteria for determining which courses are subject to the supplementary fee are stated in the Degree Information section of this catalog.

## **Fees for other Services**

**Academic Enhancement Fee for the Texas Success Initiative:** This \$50 per course fee will be used to provide tutoring, classroom materials and textbooks to students required to take academic enhancement developmental courses in math, reading and/or writing (for CAEX or MATH 102 courses) in compliance with Texas Success Initiative regulations.

**Application Fee:** Students who submit an application for undergraduate studies pay a \$45 fee. Students who submit an application for graduate studies pay a \$50 fee.

**Career Center Fee:** This \$35 fee is required of students in the semester they register for on-campus interviews to support full-time and internship placement services.

**Cruise Fee:** Students pursuing a license-option curriculum pay a \$875 fee for each cruise attended. This fee is assessed to compensate for activities, services, and general operations of the Texas Clipper.

**Distance Education Fee:** \$50 per semester credit hour is assessed to students taking courses using distance education resources.

**Engineering Instructional Enhancement Fee:** A student registering in certain engineering courses may be required to pay a Engineering Equipment Access Fee (between \$0 and \$200).

**Field Trip Fees:** A field trip fee ranging from \$15 to \$2,000 may be charged for courses that include field trips.

**Graduation Fee:** A non-refundable fee of \$40 per degree sought is assessed the semester a student applies for graduation. This must be paid within the first 15 class days of the student's final semester. Late payment of the Graduation Fee will result in a \$50 late charge.

**Instructional Enhancement Fee:** This fee is used for the purchase and maintenance of equipment, visual aids, supplemental materials and educational supplies to provide students with a rich learning environment. The fee will not exceed \$200 per course.

**International Student Service Fee:** International students who are not sponsored are assessed a \$20 fee each semester to defray administrative support costs.

**Laboratory Fees:** A laboratory fee ranging from \$8 to \$30 is charged for each laboratory course each semester.

**Mail Service Fee:** The university operates a mail service for students living on campus wishing to receive mail on campus. The fee is \$20 per semester for each student and \$20 per 10-week summer term.

**Parking Permit:** All students parking an automobile or motorcycle on the campus pay a fee of \$66 for the academic year. A \$33 summer parking fee, independent of the academic year fee, is assessed for the entire summer term. All Cadets leaving a vehicle on campus during the summer cruise must purchase a summer permit.

**P.E. Service Fee:** All students taking Physical Education (kinesiology) courses are required to pay a \$20 service fee for each Physical Education course.

**Recreational Sports Center Fee:** This \$20 fee assessed for the fall and spring terms and \$10 for each 5-week summer term will provide building maintenance and programming support for the Recreational Sports Center at the Offatts Bayou Campus.

**Sailing Course Fee:** This \$110 fee is charged only to students registered in P.E. sailing courses to cover the costs of maintaining the boats, fuel for the instructor's boat, and safety equipment.

**Scuba Tank Rental Fee:** \$110 will be charged to students enrolled in a scuba diving course who require the University to supply tanks for the course. This fee is used to maintain tanks, regulators, and compressors.

**Software Licensing Fee:** This \$1.25 per semester credit hour is charged to allow students to purchase certain software at a reduced price due to licensing options afforded the University.

**Testing Administrative Fee:** This \$5 per test fee will be used to pay for personnel to proctor credit-by-exams and THEA tests and to pay shipping costs to send tests to testing centers.

**Utility Fee:** The \$6.50 per semester credit hour fee is required of all students to cover rising utility costs for educational and general facilities on the Texas A&M University at Galveston campus.

**10-Week Summer Semester:** Students may register for 10-week summer semester courses during the first summer term registration. All mandatory and/or optional fees will be based on the number of hours taken.

## **Expenses**

**Textbooks and Supplies:** The cost of textbooks and supplies will vary with the quality of items purchased and with the course of study pursued. Students can expect to pay an amount ranging from \$650 to \$800. These amounts are estimates for the combined fall and spring semesters. Expenses for the summer term should amount to approximately one-half of the above estimates.

**License Option Expenses:** License-option students must purchase uniforms with initial outfitting estimated at \$1,440. Other items such as caps, belt buckles, name tags may be required to be purchased from the TAMUG Bookstore.

Tickets to Texas A&M University home games may also be purchased at registration. Refunds are not allowed for individual games or games missed.

The University operates a bookstore which supplies textbooks, stationary, drawing instruments, toiletries and other supplies. All merchandise is sold at retail prices prevailing in the area. Major credit cards are accepted in the bookstore. For more information regarding the bookstore, please call (409) 740-4488.

## **Refunds and Adjustments**

### **Withdrawal from the University**

Once the University has accepted a fee payment, a student is considered officially enrolled. Stopping payment on a check for fees or allowing the check to be returned unpaid by the bank for any reason does not constitute official withdrawal. A \$30 unpaid check fee will be applicable in this instance. Students wishing to withdraw should contact the Admissions and Records Office. Failure to follow procedures for withdrawing from the University may result in financial penalties and difficulty with future enrollment in the University.

Refunds of fees shall be made to students officially withdrawing according to the following schedule: Tuition, University Authorized Tuition, Computer Access Fee, Student Services Fee, Student Center Complex Fee, Health Center Fee, Equipment Access Fee, P.E. Service Fee, Laboratory Fee, Residence Hall Rent, and Meal Plans:

**Fall or Spring Semester:**

Prior to the first class day	100 percent
During the first five class days	80 percent
During the second five class days	70 percent
During the third five class days	50 percent
During the fourth five class days	25 percent
After the fourth five class days	None

**Five-week Summer Term**

Prior to the first class day	100 percent
During first, second, third class day	80 percent
During fourth, fifth, or sixth class day	50 percent
Seventh day of class and thereafter	None

### **Meal Plan Refunds**

Meal fees are refundable in full prior to the first day of classes, after which time refunds will be made on a percentage basis according to the University's refund schedule. In case of a consecutive absence of 10 or more days due to illness of the student or member of his or her family or for some other unavoidable cause, a pro-rata refund will be made, computed on a daily basis.

### **Financial Aid Recipients Refunds**

Students receiving financial aid may owe some portion of any refund back to the appropriate federal or state programs. Financial aid refunds are determined prior to the release of any funds to the student who has withdrawn.

### **Drop/Add Refunds**

A student may drop courses during the first 5 class days of a fall or spring semester or 4 days of a summer semester. For Fall or Spring Semesters, students may also drop classes with special permission of the dean/department head between the 6th and 12th class days. Full refunds will be given for courses dropped during these periods. For a Summer semester, a Student may add classes during the first 4 days of a summer semester. All fees must be received in Financial Management Services on the day the course is added. Students may drop classes during the 1st through 5th class day with full refunds. Refunds will not be issued for classes dropped after the 5th class day.

Remember, to be eligible for drop refunds, you must remain enrolled for the semester. Otherwise, please refer to the "Withdrawal Refund" section of this book. Refunds will not be issued for classes dropped after the 12th class day. As of the first day of the semester, students may not drop all of their classes through the drop/add process because that would constitute withdrawal from the University. Students must go through the official withdrawal process to drop all courses and withdraw from the University. To withdraw, contact the Admission and Records office.

A student may add courses during the first 5 days of a Fall or Spring semester. You must pay the additional tuition and fees immediately; otherwise your registration will be subject to cancellation.

### **Exemptions**

Certain students in the following classifications are exempt from paying tuition and some of the required fees by action of the State of Texas and the Texas A&M University System Board of Regents. Specific eligibility requirements under these provisions can be obtained from Financial Management Services.

Dependent children of disabled or killed-on-duty firemen are exempt from paying tuition and laboratory fees.

Blind and deaf students who are eligible for the rehabilitation services of the State Commission for the Blind and/or Division of Vocational Rehabilitation of the Texas Education Agency are exempt from tuition and laboratory fees.

Certain veterans (and dependents of veterans who died in active service), who are not eligible for federal educational benefits, who are Texas citizens and who were honorably discharged, may be exempt from paying tuition and laboratory fees. Orphans of members of the Texas National Guard and Texas Air National Guard killed since January 1, 1946, while on active duty either in the service of their State or the United States may also be eligible under this provision.

Officers, enlisted persons, selectees, or draftees of the Army, Army Reserve, Army National Guard, Air National Guard, Air Force, Air Force Reserve, Marine Corps, Marine Corps Reserve, Coast Guard, or Coast Guard Reserve of the United States, who are assigned to duty in Texas and their spouses and children, are entitled to pay the tuition fee required of Texas residents.

Teachers or professors employed at least one-half time on a regular monthly salary basis by institutions of higher education in Texas, and their spouses and children, are entitled to pay the tuition fee required of Texas residents.

Most non-resident students who are awarded competitive academic scholarships of at least \$1,000 by the TAMUG Scholarship and Awards Committee for the academic year are entitled to pay Texas resident tuition for the academic year that the scholarship covers. Waivers are limited to 5% of the total number of students enrolled. The non-resident status is unchanged.

Students registered only in courses which have been designated as “off campus” will be charged tuition and fees based on their specific distance education courses category. Please check with Financial Management Services for the required tuition and fees for each category.

Students registering concurrently at two Texas public institutions of higher education are subject to the following tuition procedure:

1. A student must register at the institution with the lower minimum tuition and pay the full tuition charge.
2. Generally, only the hourly rate is paid at the second institution. However, if the minimum amount is less at the first institution, then the student must pay the difference in the two minimums to the second institution, but not less than the hourly rate.

### **Fee Schedules for Special Circumstances**

DE (Distance Education Instruction): This group includes traditional off-campus classes, all university centers and telecommunications, video and other nontraditional Distance Education Instruction delivery models.

IA (In Absentia): The traditional student who is performing individual research or completing degree requirements that do not require classroom instruction.

OC (Off-Campus): Courses offered in person at an off-campus location or courses comprised solely of field trips. Students enrolled in these courses do not have physical access to campus resources.

SA (Study Abroad): Students participating in Texas A&M University at Galveston Study Abroad programs.

GG (Galveston Graduate Students): Texas A&M University graduate students who are enrolled at College Station, but who are taking courses exclusively at Galveston.

## **Tuition Rebates After Graduation**

Certain undergraduate students who attempt no more than three hours in excess of the minimum number of semester credit hours required to complete the degree under the catalog which they were graduated may be entitled to a \$1,000 tuition rebate after graduation. Several conditions apply and students must meet all of the specified criteria. Please see website [http://finance.tamu.edu/sbs/tuition/tuition\\_rebate.asp](http://finance.tamu.edu/sbs/tuition/tuition_rebate.asp) for a complete set of institutional and student responsibilities and other criteria.

## **STUDENT FINANCIAL AID**

The purpose of student financial aid at TAMUG is to assist students in meeting the reasonable costs of their education. Financial aid is available to eligible U.S. citizens and resident aliens who are enrolled in degree granting programs making satisfactory academic progress toward a baccalaureate degree.

Financial aid may include federal and state grants, scholarships, work opportunities, and student loans. Students submitting a complete application will be considered for all types of need-based assistance.

To apply for financial aid, please submit the Free Application for Federal Student Aid (FAFSA). Use Title IV Code 003632, Texas A&M, College Station.

If your application is selected for Verification, you will be asked to substantiate the information you reported on the FAFSA.

### **Costs of Attendance**

TAMUG uses average costs of attendance in determining the financial need budget. These costs include tuition and fees (30 hours per year FTE), room and board, books and supplies, personal expenses, transportation and loan fees (if applicable). Additional costs may be added for child care or disability-related expenses. There are three major categories of student budgets: Texas resident, non-Texas resident, and license-option students (based on 12 months and includes summer cruise).

### **General Priority**

Priority Deadlines: The Federal Supplemental Educational Opportunity Grant (FSEOG) program requires financial aid applicants to be prioritized by Pell Grant eligibility and Expected Family Contribution (EFC) and awarded based, generally, on Pell eligibility and the lowest EFC. In order to fulfill this requirement, Texas A&M University at Galveston has the following FSEOG priority deadlines for the academic year:

April 1 for the following Fall semester.

October 1 for the following Spring semester.

March 1 for the following Summer semester.

If FSEOG funds remain after the initial awards are made, an additional deadline will be made to award the remaining funds. This deadline applies only to the FSEOG program. Students who do not meet the deadline are still eligible for other financial aid.

### **General Information**

The Financial Aid Office at Texas A&M University at Galveston follows the same general policies and procedures as Texas A&M University. A complete general listing may be found at website <http://financialaid.tamu.edu/>. Information specific to TAMUG may be found at website [www.tamug.edu/finaid](http://www.tamug.edu/finaid). For information, call 409-740-4500 or email [4finaid@tamug.edu](mailto:4finaid@tamug.edu).

### **Satisfactory Academic Progress Policy**

The purpose of the TAMUG Satisfactory Academic Progress (SAP) Policy for financial aid is to ensure that students benefiting from financial assistance make reasonable and consistent progress toward a baccalaureate degree. TAMUG's policy is consistent with U. S. Department of Education and Texas Higher Education Coordinating Board guidelines. The policy measures both qualitative and quantitative progress and is the applicable minimum standard for all types of financial assistance awarded by TAMUG.

The Department of Student Financial Aid must monitor the progress of each student toward the completion of a certificate or degree in order to meet federal and state guidelines governing the administration of student financial assistance. Students who fall behind in their coursework, or fail to achieve minimum standards for grade point average and completion of classes, may lose their eligibility for all types of federal, state, and university aid administered by the Department of Student Financial Aid.

There are three components to SAP. Failure to comply with any component may result in a loss of aid eligibility. The three components are as follows:

1. Minimum Grade Point Ratio (GPR):

- Undergraduates is 2.0.
- Graduate students is 3.0.

2. Deficit Hours:

While students are expected to enroll full-time to be eligible for financial aid, each student must complete at least 75% of all credit hours attempted at Texas A&M University. This percentage includes all credit hours attempted at Texas A&M University, regardless of whether or not financial aid was received. Grades of W, F, I, U, Q, X, NG, repeated courses, and grade exclusions are not considered to be adequate grades for completion.

### 3. Excessive Hours:

Undergraduate students are eligible to receive financial assistance for a limited period of time while pursuing a degree. A student should not exceed 150 percent of the number of credits that it takes to obtain their degree. Our policy for Excessive Hours is based on the minimal credit hours an undergraduate student must have in order to be eligible to receive a baccalaureate degree. The minimum hours required to receive a degree is 120 credits based on the TAMUG 2007-2008 *Undergraduate Catalog*. Therefore, students must not exceed 180 attempted credit hours in order to remain eligible for financial aid. Students that exceed 180 attempted credit hours are considered ineligible for financial aid based on Excessive Hours. The Excessive Hours policy does not apply to graduate students.

### **Financial Aid Available:**

**Grant Programs:** Grants are awarded based on financial need. Grants do not have to be repaid. TAMUG participates in these programs: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, State Student Incentive Grant, Texas Grant and Texas Public Education Grant.

**Scholarships:** Scholarships are generally based on academic achievement and leadership. The TAMUG Scholarship and Awards Committee evaluates applicants and makes awards in the spring for the following academic year. The committee uses the admission application for freshman awards. There is not a separate freshman scholarship application for TAMUG-awarded scholarships, except for designated awards. A limited number of non-resident students awarded a competitive TAMUG scholarship valued at \$1,000 or more are eligible to pay resident tuition. All students are encouraged to apply for scholarships offered in their hometowns or from national sources. Information regarding such sources is available from high school counselors and reference materials in public libraries.

**Part-Time Student Employment:** All students who are making satisfactory academic progress are eligible to work on campus without regard to financial need. The Human Resources Office coordinates on-campus employment. The Career Planning and Placement Office coordinates off-campus employment. Interested students may seek positions through the job listings posted with the Human Resources Office. Student employment is limited to 20 hours per week, there are no fringe benefits, and students must maintain a 2.0 GPR. A limited number of Federal and Texas Work-Study awards are made each year through the Financial Aid Office. Students awarded from either source still must seek their positions through the regular student employment process.

**Student Loan Programs:** TAMUG participates in these loan programs: Federal Stafford Student Loan, Federal Unsubsidized Stafford Student Loan and Federal Parent Loan for Undergraduate Students. All loans require an application and a promissory note. Credit reviews may be performed on Federal PLUS loans. New borrowers are required to attend entrance loan counseling before receiving the first disbursement of any loan. Students who have borrowed money through federal or state student loan programs are required to receive exit loan counseling when they graduate, withdraw, or drop below ½ time enrollment.

**Disposition of Student Aid Funds:** Students awarded grants or TAMUG scholarships will have funds credited to their accounts by the first day of class in Financial Management Services. Outside scholarship awards must be sent to the Financial Aid Office indicating the recipient and made payable to TAMUG. These will be credited to the student's account. Student employees are paid biweekly.

Student loan and parent loan (PLUS) proceeds are available for EFT. EFT is a system of electronic fund transfer, which credits the loan funds to the student's account. This eliminates standing in line for loan checks. Otherwise, student loan checks are made payable to the student and are available in Financial Management Services. Veteran's Benefits are paid directly to the student.

Enrollment is verified prior to the release of any financial aid. Fiscal refunds due to financial aid credits are made after the 12th class day.

Cadets on summer cruises are considered to be one-half time students for financial aid purposes since they are enrolled in only four credit hours.

Students should come to campus prepared to pay for deposits, books, supplies, sundries, and for Cadet uniforms (approximately \$1,440).

Emergency Tuition and Fee Loans are available through Financial Management Services for students needing assistance with fee payments. The loans are made on a first-come, first served basis.

## **Withdrawing from the University-Financial Aid**

Federal law specifies how Texas A&M University must determine the amount of Student Financial Aid program assistance that a student earns if he or she withdraws. This law requires that, when a student withdraws during a semester, the amount of Student Financial Aid program assistance that the student has earned up to that point is determined by a specific formula. If a student received (or Texas A&M University received on the student's behalf) less assistance than the amount the student earned, the student will be able to receive those additional funds. If the student or the parent on the student's behalf received more assistance than the student earned, the excess funds must be returned.

The amount of assistance that a student earns is determined on a pro-rata basis. That is, if the student completed 30 percent of the semester, the student earned 30 percent of the assistance he or she was scheduled to receive. Once the student has completed more than 60 percent of the semester, he or she is considered to have earned all of the assistance disbursed to him or her. (Adapted from the U.S. Department of Education's publication "The Student Guide".)

The specific formula takes into consideration the average institutional costs used to award students financial assistance. For example, the standard cost of attendance at Texas A&M University is based on 15 credit hours per semester for undergraduate students and 9 credit hours for graduate students. Therefore, if a student was registered for fewer credit hours a semester, he or she may be required to return the additional funds disbursed to him or her.

Students should also be aware that as a recipient of financial assistance compliance of the Satisfactory Academic Progress Policy must occur. By withdrawing, a student may not be eligible for financial assistance in the future from Texas A&M University because he or she did not complete a specified number of credit hours for which aid was disbursed. Information regarding this policy can be found on the Texas A&M University homepage at <http://financialaid.tamu.edu/>.

## **STUDENT SERVICES**

### **Veterans Benefits**

The Admissions and Records Office files claims for Veterans Benefits verifying a veteran's enrollment at TAMUG. Students are asked to submit the following documents to substantiate their claim: certified copy of their DD-214 showing an honorable discharge from service, a signed degree plan for their major indicating all of the courses necessary to receive that degree, VA form 22-1990 to establish eligibility or VA form 22-1995 to transfer their eligibility. Other documentation may be required. Enrollment is certified and claims are forwarded to the appropriate VA regional office. Adjudication may take four to six weeks; therefore, VA students should come to TAMUG ready to pay the initial costs of enrollment. Veterans are required to maintain a cumulative GPR of 2.0 or greater and successfully complete 24 credit hours per year to maintain eligibility. Students failing to meet the standard are placed on probation for one semester. Students who achieve a 2.5 GPR in the probationary semester and complete every class they start are eligible for a second probationary semester. A student who fails to meet the terms of their VA probation, or have not achieved a cumulative GPR of 2.0 after their second probationary semester, will be reported to the VA as making unsatisfactory progress.

Hazlewood Tuition Exemption: Texas residents who have fully exhausted all potential Veterans Benefits and are not eligible for any other federal or student grant benefits (including Pell, SEOG, and SSIG) should contact the Financial Aid Office to determine if they are eligible for a Hazlewood tuition exemption.

Inquiries regarding veterans benefits may be addressed to the Office of Admissions and Records, Texas A&M University at Galveston, P.O. Box 1675, Galveston, TX 77553-1675. Phone: 409-740-4416.

### **Health Services**

**Medical Clinic:** Texas A&M University at Galveston contracts with a local community clinic for health services for enrolled undergraduate students. Terms of the contract may vary from year to year, but generally office visits to the doctor are free of charge. Medications, inoculations, x-rays, physicals, and other services provided at the clinic are available at the student's expense. Hospitalization and emergency room visits are full-charge at the student's expense. Educational pamphlets concerning HIV/AIDS, meningitis and other health concerns are available to students from the Counseling Office.

**Group Insurance:** Since there are numerous health needs and costs which are not provided or paid for by the Campus Health Service, students are strongly encouraged to maintain medical insurance. A group plan is available to all students in the Texas A&M University System. Applications for this program will be distributed during new student orientation and are available from the student counseling office. Students and parents should give careful consideration prior to dropping any current health insurance.

**Summer Cruises:** Each year the T/S Texas Clipper is staffed with medical personnel to operate an onboard dispensary. All services provided on board are free of charge. Should a student require hospitalization ashore or evacuation, the student will be responsible for all costs incurred because of such hospitalization or evacuation.

## **Student Counseling**

The Office of Student Counseling provides free and confidential counseling assistance to students. Counseling services are designed to help students improve personal, academic and professional skills related to academic success. The counseling staff helps students meet these needs by providing short-term individual counseling sessions, seminars, workshops and small-group experiences. The following services and resources are available to TAMUG students: Individual counseling, academic skills training, career testing and counseling, community referrals drug/alcohol abuse prevention education. Computers, academic skill enhancement software, videos, tutor referrals and written information are available to students wanting academic and or personal assistance. The function of the Counseling Office is to provide the students of this college with wellness and counseling services aimed at maximizing the personal growth and development of its members. These services include a wide variety of preventive, curative, educational, and crisis management activities.

Our counseling philosophy is built on the assumption that counseling must address the whole person as a physical, rational, emotional, sexual, social, and spiritual being. Accordingly, we attempt to offer a variety of services relevant to an extended range of student concerns. Our clients are encouraged to grow in knowledge and understanding both generally and specifically regarding their presenting and underlying issues. As they pursue wholeness our aim is that they will gain an appreciation of personal worth and potential as individuals. We strive to help students:

- 1) Develop a more integrated sense of self
- 2) Work towards individual meaning and purpose for their lives
- 3) Develop respectful and enduring relationships with others
- 4) Evaluate their personal and career oriented strengths and weaknesses

These goals are sought in an atmosphere that is confidential as well as comfortable for all students regardless of race, gender, ethnic background, age, citizenship, disability or physical status.

Inquiries or appointments regarding counseling may be addressed to the Office of Student Counseling, P.O. Box 1675, Galveston, TX 77553-1675, call 409-740-4736.

## **Career Planning and Placement**

The Office of Career Planning and Placement provides career development and professional employment assistance to alumni and currently enrolled students. The Office provides individual and group career counseling; workshops on resume preparation, interviewing skills, and job search techniques; and a wide variety of vocational testing and interest assessments. The Office maintains a career resource room containing company and career information, as well as career development materials. Companies and organizations post job vacancy notices on a web-based job board and in the career resource room and visit the campus throughout the year to interview graduating students for full-time positions. Students and alumni may post their resumes on the job board and participate in the resume referral service. In addition, the Office hosts an annual Career Fair targeted to all students and alumni, providing an outstanding opportunity for career exploration and networking with prospective employers.

Students who wish to use the services provided by the Office of Career Planning and Placement should register with the office as early as their sophomore year and acquaint themselves with the available resources. Before participating in on-campus interviews, students are required to submit a professional resume. Appointments are required for individual counseling. All other services are available during regular office hours.

For further information contact the Office of Career Planning and Placement, TAMUG, P.O. Box 1675, Galveston, TX 77553-1675.

## **International Student Services**

The Office of Student Counseling serves as the liaison with the International Student Services Office at Texas A&M University in College Station. Personal counseling, financial planning, liaison with embassies and consulates, legal referrals, academic referrals, immigration matters, orientation programs, and advisement to groups, are among the services offered.

For more information regarding International Student Services, contact the Office of Student Counseling, P.O. Box 1675, Galveston, TX 77553-1675 or call 409-740-4587.

## **Disabled Student Services**

The Office of Student Counseling provides services to students with documented disabilities. The Office offers information on disabilities, campus services, and related resources. Persons with disabilities are encouraged to apply for services early and to request a meeting to discuss their individual needs prior to registration. Accommodations provided to students are based on individual need. Information regarding disabilities can be obtained through the Office of Student Counseling, P.O. Box 1675, Galveston, TX 77553-1675, call 409-740-4736.

# STUDENT LIFE

## Housing

The Office of Student Life coordinates on-campus housing in modern student residence halls. Rooms are double occupancy and furnished with beds, desks, chairs, wardrobes or closets, and dressers. Students are expected to furnish pillows, blankets, shower curtains, linens, and cleaning supplies. With limited exceptions, all students are required to live in campus housing and participate in the board plan if campus housing is available. Approximately 40 percent of the undergraduate students are housed on campus, and returning students are given priority in granting permission to live off campus. Campus residents accepting housing in the fall semester are required to sign a nine-month contract and are not permitted to move off campus for the spring semester. An application for campus housing, which is separate from the application for admission to the University, is available from the Office of Student Life. This application, along with the \$250 housing deposit, should be returned to Financial Management Services. Rooms are assigned in accordance with the date on which the housing application and room deposit are received in Financial Management Services. Housing applications may be forwarded prior to acceptance to the University, but housing assignments will be contingent upon admission to the University.

A waiver for the \$250 housing deposit may be submitted. To do so, the student should submit the housing application with an attached letter stating reasons for the waiver request. In order to be considered, the student must have a FAFSA submitted to TAMUG.

It is recommended that housing applications be submitted early. In the event that on-campus housing is not available, information concerning off-campus housing will be provided upon request. Since license-option students are required to live on campus, students will be able to pursue a license option only if campus housing is available for them. A failure to receive campus housing does not preclude students from enrolling in the degree program of their choice but simply restricts participation in license-option programs until campus housing is available. License-option students are housed separately from non-license-option students. Questions concerning license-option housing should be directed to the Office of Student Life.

## Student Activities

A wide variety of student activities are coordinated through the Office of Student Life in the Mary Moody Northen Student Center. The Northen Student Center contains dining facilities, counseling, student activities, graduate placement offices and other facilities. Adjacent to the Northen Student Center are the P. E. facility, swimming pool, tennis courts, and other outdoor recreational facilities..

Clubs on campus include the American Society of Mechanical Engineers, Sail Club, Dive Club, Propeller Club, Fine Arts Association, Future Students Club, Pre-Vet Society, Society of Naval Architects and Mechanical Engineers, the Drama Club, Circle K Service Organization, Residence Hall Association, several leadership organizations and many others.

The student government is the Student Government Association (SGA). The SGA serves as a direct link to the administration regarding student life. The SGA includes the Senate, the Executive Branch and the Student Judicial Board. Members are elected each year. Students also publish a newspaper (The Nautilus) and a literary publication (Seaspray).

## Athletics

The Recreational Sports Program provides each student with the opportunity to participate in regularly organized activities. Co-rec teams are organized in flag football, soccer, water polo, racquetball, tennis, basketball, softball and volleyball. Texas A&M University at Galveston also has soccer, and rugby teams which compete in local leagues. The Campus Sail Team and Rowing Club compete in intercollegiate competition and are varsity sports.

## Multicultural Services

The Department of Multicultural Services works with other programs on campus to support the cultural, educational, social and personal development of all students attending TAMUG. Departmental services include personal advising; a resource library including multicultural books, articles and video/audio tapes; and tutoring and mentoring services. Computers and skill enhancement software are also provided for incoming students wanting to review basic chemistry and calculus. Graduate school prep software including LSAT, GRE and GMAT is available for upperclassmen. Multicultural Services is also responsible for the Culture Club which is open to all persons seeking to gain valuable experience in promoting diversity through multicultural programming. For more information, call the Office of Student Life at 409-740-4582.

## Hazing

Anyone who participates in hazing is in violation of University rules as well as state law. Violators may be subject to University disciplinary action in addition to state criminal penalties. Hazing means any intentional, knowing, or reckless act occurring on or off the campus by one person, alone or acting with others, directed against a student that endangers the mental or physical health or safety of a student for the purpose of pledging, being initiated into, affiliating with, holding office in, or maintaining member-

ship in any organization whose members are (or include) students at the University. A complete definition of hazing is available in the Office of Student Life.

### **Office of Academic Enhancement**

The Office of Academic Enhancement provides support services to maximize the academic experience of all Texas A&M University at Galveston students. Services provided include academic advising, credit by exam, support for students in academic difficulty, freshman transition courses, academic excellence programs, tutoring, supplemental instruction, THEA testing, and developmental education. Students needing support for their courses are encouraged to visit the tutoring lab for one on one, or group support. Supplemental Instruction (SI) is also offered for selected courses and is facilitated by an SI leader who is an undergraduate that has already successfully completed the course. Each SI leader attends all lectures of the course again and conducts 2-3 one hour sessions per week outside of class where they employ a variety of techniques to increase student mastery of the material. Currently, SI support is provided for selected courses at the freshmen and sophomore level. Both tutoring support and the SI sessions are free of charge and available to all TAMUG students. To learn more about the services of the Office of Academic Enhancement, schedules for tutoring and SI sessions, please visit our web site at [www.tamug.edu/acen](http://www.tamug.edu/acen).

### **University Police**

The University Police are responsible for the protection of persons and property of Texas A&M University, and for the enforcement of the laws of the State of Texas and the rules and regulations of Texas A&M University as promulgated by the Texas Education Code. University police are commissioned peace officers involved in regular foot and vehicle patrol of campus, late-night security escorts, crime prevention programs for the campus community, and criminal investigations for the recovery of property and apprehension of criminals. Officers also provide regular security checks of buildings and property on campus. All University personnel are requested to cooperate with University police officers.

### **Student Right to Know and Campus Security Act**

In compliance with the Federal Right to Know and Campus Security Act of 1990, a brochure is available which includes information on campus security and safety resources, policies and procedures for safety (reporting crimes and emergencies, crime awareness and prevention, security of campus facilities and residence halls), alcohol, drugs and weapons, and crime information and statistics. This information is available from the University Police Office, BLDG. 3025, and can be reached at 409-740-4545.

## **CORPS OF CADETS**

Students pursuing a University degree program leading to a U. S. Coast Guard license as a Merchant Marine Officer are required to join the U.S. Maritime Service Corps of Cadets. Participation in the Corps provides Cadets with leadership and management training appropriate to the needs of a Merchant Marine Officer. The Corps is organized as a paramilitary unit and is subject to special Cadet discipline and performance requirements. Cadets are required to stand watches on the training ship and have muster, training, uniforms, room inspection and similar requirements. Uniforms are worn each day during the academic year and during the summer training cruises. Cadets are required to complete Basic Safety Training, Advanced Firefighting, Radar/Automated Radar Plotting Aids, Global Marine Distress Safety System (GMDSS), Bridge Resource Management and additional professional certifications. Many of these qualifications require payment of fees in excess of those paid by non-license option students. Courses in the curriculum that lead to required professional qualifications or earn sea service require a grade of 70% (75% for GMDSS) or better for licensing. The Cadet will be required to repeat the course until the minimum grade requirement is satisfied.

International students are permitted to join the Corps of Cadets and follow a curriculum leading to a license as a Merchant Marine Officer. However, only American citizens can be licensed. A foreign Cadet need not take and complete the license examination as a prerequisite to graduation. Questions about the Corps of Cadets should be directed to the Student Relations Office at (409) 740-4428.

### **Admission to a License-Option (LO) Curriculum**

Students who meet the admission criteria established by the U. S. Maritime Administration and the University may participate in the Corps of Cadets and a LO curriculum. Such participation is a privilege and not a right. Serious or excessive violation of Corps Rules may be considered as evidence for a lack of aptitude for the demanding responsibilities of a Merchant Marine Officer and warrant dismissal from the Corps of Cadets and a curriculum which prepares the students for a Merchant Marine Officer's license. Notification of acceptance to the University is not final approval for appointment to a LO program or acceptance into the Corps of Cadets. The application for admission into the Texas Maritime Academy Corps of Cadets is available from the Student Relations Office. Final review of a student's credentials cannot be completed until after enrollment and prospective cadets will not be sworn into the program until this review is completed. The initial enrollment of students in a LO curriculum must be at the beginning of a fall or spring semester. Students may not enter the program after the 12th class day of the semester.

License-option students are subject to alcohol and drug screening for admission to the program and to a continuing random drug-testing program while in the license-option program.

Among the criteria evaluated are:

1. Age. Entering students must be at least 17 years old. There are no maximum age limits for Cadets in the license-option program. Cadets accepted into the various U.S. Armed Forces and Coast Guard commissioning programs must comply with any age restrictions of the applicable program.
2. Physical Requirements. Strict physical requirements are specified for licensing as a merchant marine officer. Prior to entering a license program, prior to certification for licensing, and at any other time deemed appropriate by the University, students are required to furnish verification from a physician that they meet the specified physical requirements. Specific details of the required physical examinations are contained in the Title 46 U.S. Code of Federal Regulations part 10. Waivers cannot be granted by the University. These are summarized as follows:

Deck Cadet -Minimum vision 20/200 in each eye correctable to 20/40 in each eye. Vision beyond these parameters requires a waiver. Pass a Coast Guard approved color vision test.

Engineer Cadet -Minimum vision of 20/200 in each eye correctable to 20/50 in each eye. Vision beyond these parameters requires a waiver. Distinguish between red, blue, green, and yellow.

All Cadets-Epilepsy, insanity, badly impaired hearing, and mind-altering drug use are disqualifying conditions.

3. Background Investigation. All applicants for admission to license-option curricula and enrollment in the Corps of Cadets are subject to a federal background investigation. Adverse information revealed by the investigation may result in denial of license by the U.S. Coast Guard. The University will not accept a candidate into a license-option curriculum nor allow continued participation in the program when conduct infractions preclude license qualification.
4. Citizenship. Only United States citizens are eligible for officers' licenses in the U.S. Merchant Marine.
5. Drug Screening. All license-option cadets must participate in a drug testing program. All entering cadets will be required to pay for and take a drug screen test prior to entering the Corps. Periodic random tests are required and any serious marine incident will require drug testing. These tests/screenings will be performed at an approved DHHS laboratory, in accordance with 46 CFR 16.340. A positive test during initial screening may result in the student not being accepted into the LO program. A positive test during a periodic or other screening may result in dismissal from the Corps of Cadets and LO programs.

### **Fiscal Requirements**

The U.S. Coast Guard presently requires payment for all documents and tests that are required for license and graduation. Firefighting School must be completed prior to the cadet's first cruise and its costs are the cadet's responsibility. Cadets are required to have or have ordered, at their cost, all required Corps uniforms during orientation.

### **Examination Requirement as a Condition for Graduation**

While not a University academic requirement, in accordance with federal regulations and the University's participation agreement with the U.S. Maritime Administration, students who enter the U.S. Merchant Marine Licensing program will be required to meet all license requirements as administered by the Coast Guard for the issuance of a license as a condition of graduation from Texas A&M University. Students who are found to be not physically qualified for Coast Guard licensing just prior to graduation may be exempt from the requirement.

### **U. S. Coast Guard (USCG) License as a Merchant Marine Officer**

To qualify at graduation for certification by the University and for eligibility to take the USCG examinations for Third Mate or Third Assistant Engineer, students must complete all academic degree requirements and successfully complete three summer training cruises. Students must also meet physical qualifications at the time of graduation; and participate in the Corps of Cadets in a satisfactory manner every semester while enrolled in a LO program which will normally require eight long semesters and three summers. Participation in the Corps of Cadets will include the requirement to successfully complete mandatory non-credit training courses such as firefighting, first aid, CPR, and radar certification. USCG evaluation, examination, and issuance fees will be charged over and above fees specified in the University Catalog.

Students pursuing a license option will not be granted leaves of absence from the Corps of Cadets for any fall or spring semesters in which they are enrolled in the University. Students who are dropped from the Corps of Cadets for academic or disciplinary reasons, but are allowed to remain in the University, will normally be dis-enrolled from the LO program and will not be re-enrolled in a LO program except under very special circumstances and after a careful review by the professional staff of the

University. Under exceptional circumstances highly-qualified students may accelerate the program, but in no case will the program be completed in less than six long semesters and three summer cruises.

### **Student Incentive Payments (SIPs)**

Freshmen students who enroll in a LO program during their first semester may be eligible for SIPs of \$1,000 per calendar quarter (\$16,000 for four years) provided by the Maritime Administration to offset the costs of uniforms, textbooks and other requirements of Cadet life. SIPs are awarded to students based on competitive criteria that evaluate the student's potential for completing the degree program and license requirements and for a subsequent successful maritime career. If a SIP recipient is withdrawn from TAMUG, or found to be non-physically qualified, or found to not have an aptitude for naval service, the student will automatically be terminated from the SIP program and all payments will stop.

Enrollment in the SIP program requires the Cadet to accept an appointment as Midshipman, USNR and to agree to apply for and accept, if offered, a commission in the U.S. Naval Reserve, Merchant Marine Reserve (USNR/MMR). The Midshipman must meet the physical condition requirements for commissioning at the time of graduation.

The Department of Naval Science prepares eligible cadets for eventual commissioning in the United States Naval Reserve/Merchant Marine Reserve (USNR/MMR). Cadets under this program who pass a Navy physical examination become Navy Midshipmen. Upon completion of the Naval Science courses, graduation from TAMUG, and successful completion of the U.S. Coast Guard licensing exam, the Midshipman will be commissioned as a restricted line officer with a merchant marine designator and the rank of Ensign in the USNR/MMR. In addition, licensed graduates have the opportunity to obtain USNR/MMR commissions via the direct commissioning program. Applications may be initiated during the Cadet's final year prior to graduation. Individuals commissioned in the USNR/MMR must fulfill these obligations:

- Maintain the commission for eight years.
- Sail on their applicable license at sea for four months each consecutive two-year period for six years.
- Complete two weeks of active-duty training in the Navy every year for six years.
- Keep the Merchant Marine Reserve Program Office informed of any changes to address, phone or e-mail.
- Maintain a current/valid USCG unlimited license.
- Maintain a current Naval 5-year physical.
- Submit an annual report to the administrator of the USNR/MMR Program.

Active-duty service may be requested by the Midshipman under this program. This program provides Merchant Marine Officers who are familiar with Naval procedures to the merchant marine industry. It also provides the individual USNR/MMR officers, when on active duty, the benefits and pay normally provided U.S. Navy officers.

### **The U.S. Coast Guard Commission**

The U.S. Coast Guard MARGRAD program offers licensed graduates the opportunity to apply for direct reserve commissions involving extended active duty in the U.S. Coast Guard. Applications may be initiated during a cadet's final year prior to graduation in accordance with U.S. Coast Guard directives.

### **The Naval Reserve Officers Training Corps (NROTC) Program**

The Naval Reserve Officers Training Corps (NROTC) Program offers men and women an opportunity to qualify for a commission in the Navy while attending TAMUG. NROTC students are required to participate in the U.S. Maritime Service Corps of Cadets. Questions about the NROTC Program may be directed to [nrotc@tamug.edu](mailto:nrotc@tamug.edu) or at [www.tamug.edu/rotc](http://www.tamug.edu/rotc).

To become eligible for a commission, NROTC midshipmen must complete all requirements for a bachelor's degree as well as certain courses specified by the Navy. Scholarship students wear uniforms furnished by the Navy and participate in three 4-week summer training period onboard Navy ships and aircraft, if they are in a scholarship status.

Students may join the NROTC program as National Four Year Scholarship winners or as non-subsidized college program students. Applications for the National Four Year Scholarships can be obtained through a Navy recruiting office or at <https://www.nrotc.navy.mil> prior to the submission deadline of January 15 of the year for which the student is applying. College program midshipmen are eligible to compete for three and one half year, three year and two year NROTC scholarships.

All NROTC scholarships pay for full tuition, fees and uniforms. All scholarship midshipmen and junior and senior level college program midshipmen receive an allowance of \$300-400 per month, depending on class standing, and are paid during summer training periods. Scholarship midshipmen also receive a \$250 book stipend to offset the cost of textbook purchases.

Upon graduation, qualified NROTC midshipmen are commissioned as Ensigns in the Unrestricted Line and receive a reserve commission. Scholarship midshipmen and college program midshipmen incur a five-year active duty commitment.

The Naval Science staff advises and counsels midshipmen on academic, personal and naval career matters. Primary emphasis is placed on educational excellence to produce the highest quality Naval officers. Students wishing to discuss the NROTC program or any other officer commissioning program should contact the Naval Science Department at (409) 740-4594 or 740-4595 or 740-4597.

# ACADEMIC CURRICULA

## Curriculum in Marine Biology (MARB)

The Department of Marine Biology offers these three degree programs: Marine Biology (MARB), Marine Biology License Option (MARB/LO) and Marine Fisheries (MARF). These curricula are subject to the following rules and requirements:

The student shall have earned at least a grade of C in BIOL 111 and 112. Students may not advance to BIOL 112 until a grade of C or better is earned in 111.

Transfer students must have a minimum GPR of 2.25 or approval of the MARB Department Head to be admitted to the Department. Transfer students with the required courses who meet the criteria listed above may be admitted directly into the MARB, MARB/LO and MARF degree programs.

Preference for available seats in courses in the Department will be given to students who have been admitted to the degree program. If additional spaces are available, students from other departments for whom courses in the Department are on their program of study, and who meet the course prerequisites, may be enrolled.

It is the student's responsibility to satisfactorily complete prerequisite coursework before enrolling in more advanced courses.

The Marine Biology program provides an excellent education in the biological sciences through studies undertaken in a unique coastal environment. The curriculum offers broad training in general biology, while emphasizing the local flora and fauna in estuaries and the marine environment. Students receive hands-on field sampling experience as well as internship opportunities.

Through a partnership with the Texas A&M University College of Veterinary Medicine, students in the Marine Biology curriculum may pursue a Certificate in Biomedical Sciences.

Students majoring in Marine Biology can be eligible for a secondary teaching field in Life Sciences pending a passing score on the state certification test (ExCET). See the Teacher Certification section of this catalog.

**Total Curriculum Hours** 130

Note: All electives must be chosen in consultation with, and approved by, the student's academic advisor. See University Core Curriculum for a listing of course options for humanities and social sciences electives. The 6-hour University Core Curriculum requirement for international and cultural diversity may be met with courses used to satisfy other degree requirements. Up to 4 hours of MARB 485 and/or MARB 484 may be substituted for courses in your curriculum. Please consult with your academic advisor.

\* - Must be taken S/U.

†- Indicates required courses in the Marine Biology major. These courses will be used to compute the major GPR.

‡- Other calculus, or logic elective may be substituted with approval.

‡‡- The American history requirement may be fulfilled by American history courses offered at TAMUG, including HIST 370, 442 or 444. See Core Curriculum.

\*\* - MARB 430, which is offered in the Fall semester, can be substituted for MARB 408.

§- 20 credit hours of biology electives required. A minimum of 12 credit hours must be taken from the following: BIOL 351, MARB 311, MARB 330, MARB 400, MARB 410, MARB 430, MARB 466, MARS 360, MARS 361. For the remainder of the 20 hours of biology electives, students may take a maximum of two mammals courses (selected from MARB 400, MARB 401, MARB 403), one of the two MARB scientific diving courses (either 345 or 350), or any other MARB 300-400 level classes.

\*\*\*- The Earth Science elective may be chosen from GEOL 104, OCNG 251, METR 302 or courses approved by the student's academic advisor.

\*\*\*\*- Designated writing intensive course.

□-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

## Curriculum in Marine Biology with a License Option (MARB-LO)

The Marine Biology License Option program allows the marine biology student to prepare for a career as an officer aboard a sea-going vessel by participating in the U.S. Maritime Service Corps of Cadets. The curriculum provides the basics of marine biology as well as courses leading toward licensing as a Third Mate of any gross tonnage upon oceans, steam, or motor vessels, in the U.S. Merchant Marine.

The Marine Biology License Option curriculum is an abbreviated version of the Marine Biology curriculum and is oriented toward field activities consistent with service aboard research vessels. Students who wish to attend a biologically-oriented graduate program, or are interested in the medical professions, are advised to take additional coursework in developmental biology, genetics, biochemistry, and physiology.

Cadets who enroll in and apply to graduate under one of the license option curricula must complete the appropriate license examination for Third Mate or Third Assistant Engineer in order to graduate from Texas A&M University. Certain USCG courses require a minimum grade of C (70%).

Note: All electives must be chosen in consultation with, and approved by, the student’s academic advisor. See University Core Curriculum for a listing of course options for humanities and social sciences electives. The 6-hour University Core Curriculum requirement for international and cultural diversity may be met with courses used to satisfy other degree requirements. Please consult with your academic advisor.

†-Indicates required courses in the Marine Biology License Option major. These courses will be used to compute the major GPR.

‡‡-The American history requirement may be fulfilled by American history courses offered at TAMUG, including HIST 370, 442 or 444. See Core Curriculum.

\* - Indicates license courses leading to a USCG license endorsement or sea time credit accrual which require a minimum grade of C (70%) or better to earn the endorsement or accrual. Cadets will be required to repeat the course until they earn a grade of C (70%) or better. NAUT 307 requires a grade of 75% or better.

\*\* - Must be taken S/U.

\*\*\* - Select from CPSC 100-499.

□-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

## **Marine Biology/Biomedical Sciences Certificate Program**

This collaboration is intended to maximize the course offerings and resources of both the Biomedical Sciences program in College Station and the Marine Biology program in Galveston to provide students a greater wealth of opportunities.

The certificate program prepares the graduate for careers in aquatic animal health, seafood technology and various marine related disciplines as well as advanced studies in veterinary medicine, human medicine, allied health, biological oceanography and related biological disciplines. The program provides depth in an applied understanding of aquatic animal health and disease.

Because of limited resources the program will have a cap on the number of students admitted to the program. All courses in the program must be completed with a grade of C or better. The certificate will be awarded upon completion of a B.S. degree in Biomedical Sciences or Marine Biology.

Students desiring to obtain a certificate must have approval from the department granting the certificate. Students must have a cumulative 2.5 grade point ratio to be admitted to the certificate program and have completed BIOL 111, 112, CHEM 227 and 228.

Interested students should visit with an academic advisor in the department offering the certificate at least one semester prior to entry to discuss departmental requirements as well as to select coursework appropriate to his or her individual interests. Students should also consult an academic advisor in the major to determine how the certificate coursework will be applied to the degree. Students should seek additional advising if planning to pursue admission to medical school or veterinary medicine school.

### **Certificate in Biomedical Sciences (available to Marine Biology majors)**

---

Students will complete 15 semester credit hours in BIMS consisting of:

At least 2 of the courses listed specifically as VAPH 305, VTPP 423 and VTPB 405 for 8 to 9 semester credit hours.

VAPH 305 Biomedical Anatomy (4 sch).

VTPP 423 Biomedical Physiology I (4 sch).

VTPB 405 Biomedical Microbiology (5 sch).

2 to 3 additional courses selected from approved BIMS directed electives for 6 to 7 semester credit hours.

### **Certificate in Marine Biology (available to Biomedical Sciences majors)**

---

Students will complete 15 semester credit hours in MARB consisting of:

15 semester credit hours of approved marine biology electives (MARB prefix) chosen in consultation with an advisor.

### **Minor in Marine Biology**

Students in other majors may establish a minor field of study in Marine Biology through completing 16 credits in any 300 or 400 level MARB course selected in consultation with a Marine Biology advisor. The student must have earned a C or better in BIOL 111 and BIOL 112. Only one of the two MARB scientific diving courses (either 345 or 350) can be used for the minor.

## Curriculum in Marine Fisheries (MARF)

The curriculum in Marine Fisheries provides educational opportunities in the biological sciences, with emphasis on principles of marine fisheries management. Ecology, taxonomy, zoogeography, culture, and general biology of commercial species are emphasized. Course offerings are structured to provide not only a strong basis of formal academic instruction but also considerable hands-on field and collection experience by taking advantage of the coastal location of the University. A strong preparation in the sciences is recommended.

Marine Fisheries graduates are prepared to work as fishery managers or research biologists for state and federal agencies, ecological consulting firms, industry, and educational institutions. Qualified degree recipients may undertake postgraduate studies in resource management, mariculture, systematics, seafood technology, and fisheries economics.

† Indicates required courses in the Marine Fisheries major. These courses will be used to compute the major GPR.

Δ -The American history requirement may be fulfilled by American history courses offered at TAMUG, including HIST 370, 442 or 444. See Core Curriculum.

\* - Must be taken S/U.

‡ - Directed Elective must be selected from 300-400 level MARB courses or 200-300-400 level MATH or CPSC courses. Recommended elective courses include: Fish Physiology (MARB 335), Marine Parasitology (MARB 405), Aquatic Animal Nutrition (MARB 426), Introduction to Computing (CPSC 203), Biochemistry (MARS 360).

□-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

Note: The 6-hour University Core Curriculum requirement for international and cultural diversity may be met with courses used to satisfy other degree requirements. Please consult with your academic advisor.

## Curriculum in Marine Engineering Technology (MARR)

Texas A&M University at Galveston is a special purpose institution for teaching, research, and public service pertaining to marine and maritime studies in science, engineering, and business. The university is also the home of the Texas Maritime Academy. Within this context, the goal of the Department of Marine Engineering Technology is to prepare students for performing engineering work in the marine sector or marine-related shore-based industries involving the design, production, operation, maintenance, and management of engineering systems and projects. Opportunities for such work abound in the vicinity of the university, which is located just south of the fourth largest metropolis in the U.S. The Houston/Galveston area has extensive port facilities, considerable commercial, recreational, and military ship traffic, and ever-increasing offshore and onshore infrastructure associated with the oil industry. Career opportunities of various kinds (e.g. operational, management, leadership, etc.) are therefore available for these graduates who are ideally suited for working on ships, at port facilities, and at shore facilities, particularly in power generation, distribution, and concomitant auxiliary support systems. The program provides a license option and a non-license Option. The license option is intended for cadets of the US Maritime Service Corps who can then appear for the US Coast Guard's license examination, enabling them to serve as engineering officers aboard sea-going vessels.

Our goal is to provide students with a strong background in engineering fundamentals, mathematics, and analytical methods, which is reinforced by practical machine-shop and laboratory applications, including several on the training ship. The curriculum builds on a foundation of basic engineering topics such as fluid mechanics, thermodynamics, electricity, drafting, and materials science to develop inter-disciplinary skills required for the practice of marine engineering. In particular, the program's objectives are to produce students who: (1) Can practice engineering pertaining to marine and facilities power systems and associated auxiliary systems (e.g. propulsion, electrical power generation and distribution, refrigeration, and air conditioning) in support of the maritime sector (the Navy, Coast Guard, and companies operating sea-going vessels), the offshore oil and gas industry, and companies involved in facilities management or shore-based power systems; in particular, to plan, design, construct, operate, and maintain engineering systems intended to provide marine propulsion and electrical power; and (2) Are well-prepared to engage in lifelong education and professional development.

□-The total hours may be increased if the student is required to take remedial math, remedial English, computer science, foreign language or if the humanities or social science requirements do not fulfill the international and diverse cultures requirement.

## Curriculum in Marine Engineering Technology Non-License Option (MARR-NLO)

This program is designed to prepare the student for a career as an engineering technologist in the maritime profession. The program is available in a License Option version for students who want to serve as an engineering officer aboard seagoing vessels and in a Non-License Option for students who want an education in maritime-related applied engineering but do not plan to serve at sea. The MARE curriculum is a thermal power-oriented specialization of a classical Mechanical Engineering Technology program. A thorough preparation in mathematics, science, and basic engineering courses is the foundation for further study in ship propulsion plants and electrical power generation and distribution equipment. Marine Engineering Technology focuses on power cycles, principles, and methods used to convert the energy in fossil fuels into useful power, and the selection and operation of the major components and support systems in the power cycle. Courses in marine engineering are supplemented with studies in naval architecture and maritime application of electrical engineering fundamentals. The students' education is enhanced through the use of computer simulation of propulsion plants and direct operation of marine machinery aboard the University's training ship. This curriculum is pending approval.

□-The total hours may be increased if the student is required to take remedial math, remedial English, computer science, foreign language or if the humanities or social science requirements do not fulfill the international and diverse cultures requirement.

Δ-Must complete 6-hours of humanities and 3-hours of social and behavioral sciences of which two courses must be designated as international and cultural diversity. Suggested courses are given in parenthesis.

## Curriculum in Marine Sciences (MARS)

The Marine Sciences curriculum concentrates on the physical and chemical aspects of science of the marine, estuarine, and coastal environment. The coastal location of the campus enables students to acquire extensive hands-on field experience in addition to a solid base of academic instruction in chemistry, geology, physics, biology, and mathematics. Advanced work centers around four semesters of oceanography. Electives in the junior and senior year allow the student to obtain a broader background in ocean studies or to specialize, usually in the areas of environmental science, geology, or chemistry. The Marine Sciences graduate has a strong, well-rounded foundation in the quantitative physical sciences with considerable field and laboratory experience. With suitably chosen electives, graduates are qualified to enter M.S. or Ph.D. programs in Oceanography or related disciplines, or to move directly into jobs in environmental monitoring, oceanographic instrumentation, pollution control, the offshore oil industry and other fields.

Students majoring in Marine Sciences or Ocean and Coastal Resources can be eligible for a secondary teaching field in Physical Sciences, pending a passing score on the state certification test (ExCET). See the Teacher Certification section of this catalog.

Students may choose to pursue a minor in geology or chemistry through TAMU. To obtain a minor in geology you must choose a minimum of 16 hours of geology electives from the following: GEOL 104 (required), MARS 305, 306, 330, 340, 370, or 435. To obtain a minor in chemistry you must take CHEM 101/111, 102/112, 227, 228, 237, 238, 383, 316 and 318.

**Total Hours** 126

Note: All electives must be chosen in consultation with, and approved by, the student’s academic advisor. See University Core Curriculum of course options for humanities and social sciences electives. The 6-hour University Core Curriculum requirement for international and cultural diversity may be met with courses used to satisfy other degree requirements. Please consult with your academic advisor.

\* - Must be taken S/U.

†-Indicates required courses in the Marine Sciences major. These courses will be used to compute the major GPR. Also, if any upper level MARS or OCNG elective courses are taken, they will be used in the major GPR.

‡-The American history requirement may be fulfilled by American history courses offered at TAMUG, including HIST 370, 442 or 444. See Core Curriculum.

§-Professional Electives must be chosen from 300 or 400 level Science or Mathematics courses, except GEOL 301.

□-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

## Curriculum in Marine Sciences with a License Option (MARS-LO)

This program retains the basic physical science core of the Marine Sciences curriculum, and leads toward a license as a deck officer in the United States Merchant Marine. The student who successfully completes the license program will be qualified to sit for the U.S. Coast Guard examination as a Third Mate of any gross tonnage upon oceans, steam, or motor vessels. Students combine a broad base of courses in physical science and mathematics and practical instruction in seamanship and navigation with upper-level oceanography courses chosen by the student.

The objective of the program is to provide students with a sound intellectual and educational background to function in a scientifically and technologically advanced society, while also providing the practical hands-on training needed for employment in the maritime industry. Graduates are particularly well qualified to serve on research vessels where an understanding of the scientific purpose of the voyage is required. Students who wish to enter a physical science graduate program will need to take additional course work in science and mathematics.

Cadets who enroll in and apply to graduate under one of the license option curricula must complete the appropriate license examination for Third Mate or Third Assistant Engineer in order to graduate from Texas A&M University. Certain USCG courses require a minimum grade of C (70%).

§-MARS option courses must be chosen from MARS 410, 430, 440, or 450, or OCNG 420.

□-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

## Curriculum in Marine Transportation (MART)

This program combines studies in the humanities and sciences with instruction and training in maritime disciplines to provide the U. S. Maritime Service Cadet with a broad-based education. The student who successfully completes the license program will be qualified to sit for the U. S. Coast Guard license examination as a Third Mate of any gross tonnage upon oceans, steam, or motor vessels and issuance of Standards of Training, Certification and Watchkeeping (STCW) credentials. Cadets are also provided with solid fundamentals in business topics related to the maritime industry, ashore and afloat. Cadets who enroll in and apply to graduate in Marine Transportation must successfully complete the license examination for Third Mate in order to graduate from Texas A&M University. Courses earning USCG or STCW qualifications, sea time remission or STCW competency certification require a minimum grade of C (70%). In addition, all STCW proficiencies must be satisfactorily completed with a grade of 70% or better (See applicable course outlines available through the department).

§-To be chosen from MATH 166, any math course above the 151 level, or PHIL 240, 342. The student is advised to take MATH 161 if planning to attend graduate school.

□-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

## Curriculum in Maritime Administration (MARA)

This curriculum is designed to prepare the graduate for administrative work in marine and maritime industries and/or governmental organizations involved in coastal, marine and maritime activities. The curriculum provides a strong foundation in management, finance, business analysis, accounting, and economics. This business and administrative curriculum integrates courses that specialize in marine and maritime activities such as port operations, brokerage and chartering, maritime law and inland waterways.

Students may elect to choose courses to obtain a Financial Management or Operations Management track. A minor in economics may be obtained (see electives).

**Total Hours** 120

Note: All electives must be chosen in consultation with, and approved by, the student’s academic advisor. See University Core Curriculum for a listing of course options for humanities and social sciences electives. Students are advised that 6 credits in the degree must represent courses that satisfy University Core Curriculum requirements in international and cultural diversity. ENGL 222, ENGL 251, ENGL 339 and ENGL 374 may be taken in substitution for ENGL 203 (which is required in the curriculum) and also satisfies the international and cultural diversity requirement. All electives should be chosen in consultation with a student’s advisor.

\* - Must be taken S/U.

†-Indicates required courses in the Maritime Administration major. These courses will be used to compute the major GPR. At the time of graduation, a MARA major must have a GPR of ≥ 2.25 in their major. A MARA major must achieve a grade of “C” or better in ECON 202, ECON 203, ACCT 229, ACCT 230 and INFO 303 as a graduation requirement. These courses may be repeated as necessary to meet this requirement, and the requirement applies to courses taken at TAMUG or offered for transfer from other institutions.

‡-The American history requirement may be fulfilled by American history courses offered at TAMUG, including HIST 370, 442 or 444. See Core Curriculum.

§-Four credit hours in introductory biology, chemistry, physics, oceanography or geology, one credit hour which must be a laboratory.

⊖-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

∇ - MARA Electives: Students are required to complete 18 credit hours of MARA electives and may elect a financial management or operations management track:

Financial Management Track - Students electing a Financial Management Track should choose 6 from the following 7 courses: ACCT 315, ACCT 316, ECON 311, ECON 323, ECON 452, MARA 342 or MARA 424.

Operations Management Track - Students electing on Operations Management Track should register for all of the following 6 courses: INFO 336, MARA 401, MARA 402, MARA 416, MARA 450 and MARA 460. Students not interested in either track should choose any 6 courses from either track giving consideration to required prerequisites.

To earn the economics minor, the student's elective hours must include ECON 311, ECON 323 and ECON 452. For additional requirements of the economics minor, please see the section below.

**Minor in Economics**

Students may elect a major in Maritime Administration with an Economics minor. To receive the Economics minor, the student must earn a "C" or better in 15 credit hours of economic study. Courses available in the MARA curriculum that satisfy this requirement are ECON 202, ECON 203, ECON 311, ECON 323 and ECON 452.

## **Minor in Maritime Administration**

---

Students in other majors may establish a minor field of study in Maritime Administration through completing 18 credits in the following courses. A minimum GPR of 2.25 for the 18 credit hours is required.

Required Courses (total 9 required credits):

ACCT 229	Introduction to Accounting
MARA 363	Managerial Process
MARA 416	Port Operations, Administration and Economics

Elective Courses (total 9 required credits):

ACCT 230	Introduction to Accounting
ECON 452	International Trade Theory and Policy
FINC 341	Business Finance
INFO 336	Decision Support Systems
INFO 364	Operations Management
MARA 342	Managerial Maritime Finance
MARA 401	Brokerage and Chartering
MARA 402	Inland Waterways
MARA 424	Economics of Transportation
MARA 450	Maritime Supply Chain Management
MARA 460	Management Systems and Control
MARA 466	Strategic Management
MKTG 321	Marketing

Substitutions may be authorized by the Head, Department of Maritime Administration.

## Curriculum in Maritime Studies (MAST)

Maritime Studies, the only Bachelor of Arts program offered at TAMUG, offers students a unique opportunity to look at the ocean through a series of broad-based interdisciplinary courses. The principle objective of a liberal arts education is to achieve a fundamental knowledge of the forces that have shaped and continue to direct our cultural identity. Maritime Studies students have interests that are not restricted to science, business or technology. The program focuses on the human aspects of the coastal and maritime environment. Nearly half of the nation's population lives within 50 miles of a coastline; and within 10 years that percentage is expected to grow significantly.

Tracks are offered in Archaeology, Public Policy, Cultural Studies and General Studies. Students tailor the program to meet their interests by selecting advanced courses from the fields of tourism, environmental management and anthropology/archaeology. Graduates are prepared for fields of environmental management, tourism, public service, pre-law or graduate studies in related fields.

Courses are offered in ethics, public administration and politics, anthropology, nautical archaeology, literature, statistics, maritime law and the history of the sea.

Elective courses allow students to design an important part of their curriculum. They might pursue a minor, study abroad for a semester, enroll in an internship, participate in field studies or concentrate on a particular topic.

### **Degree Requirements (120 hours must be completed from the following):**

**Maritime Studies.** The student must complete 39 hours of courses in the major field as listed below. A grade of C or higher is required if the course is to be counted in the major field:

Credits	Course
3	ANTH 210 (Cultural Anthropology)
3	ANTH 316 (Nautical Archaeology)
3	ENGL 335 (Literature of the Sea)
3	HIST 232 (History of American Seapower)
3	MAST 411 (International Maritime Culture)
3	MAST 425 (Writing in Maritime Studies)
21	Selected from track sequences as defined below

Tracks (choose one of the following four tracks)

#### **Archaeology Track**

3	ANTH 202 (Introduction to Archaeology)
3	ANTH 318 (Nautical Archaeology of the Americas)
3	MAST 350 (History of Wooden Ship Building)
3	MAST 371 (Archaeology of the Pacific)
9	Directed Electives
	Minor in Anthropology

#### **Public Policy Track**

3	MARA 470 (Environmental Law)
3	PHIL 314 (Environmental Ethics)
3	POLS 331 (Introduction to World Politics)
3	POLS 347 (Politics of Energy and the Environment)
9	Directed Electives
	Minor in Economics, History or Maritime Administration

#### **Cultural Studies Track**

3	CLAS 371 (Homer and the Trojan War)
3	ENGL 415 (Studies in a Major Author)
3	MAST 320 (Introduction to Museums)
3	Philosophy (300- or 400-level, approved by advisor)
9	Directed Electives
	Minor in Anthropology, English or History

### General Studies Track

- 21 Directed Electives selected from below (no minor needed):  
ANTH 318, CLAS 371, MARA 470, MAST prefix courses 300-level  
and higher (no more than 3 hours of MAST 484 or 485);  
PHIL 314, POLS 331, POLS 347

### Directed Electives

- 3 ANTH 202 Introduction to Archaeology  
3 ANTH 318 Nautical Archaeology of the Americas  
3 ENGL 415 Studies in a Major Author  
3 MARA 470 Environmental Law  
3 MAST 320 Introduction to Museums  
3 MAST 350 History of Wooden Ship Building  
3 MAST 371 Archaeology of the Pacific  
1-6 MAST 484 Undergraduate Internship  
1-6 MAST 485 Independent Study\*  
1-4 MAST 489 Special Topics  
1-4 MAST 491 Undergraduate Research\*  
3 PHIL 314 Environmental Ethics  
3 POLS 331 World Politics  
3 POLS 347 Politics of Energy and the Environment

\* Only 3 hours of MAST 484-491 may be used to satisfy the requirements of the track sequence. Additional hours may be used to satisfy free electives.

### Core Curriculum and other Program Requirements

- | Credits | Course  |
|---------|---|
| 3       | ENGL 104 Composition and Rhetoric   |
| 3       | Communication (3 hours): To be selected from ENGL 203, 210, 301, 235, 236 or 241; COMM 203 or 243.  |
| 6       | Mathematics: MATH 131-467 (excluding 150, 165, 365, and 366).<br>Three hours also may be in logic (PHIL 240, 341, 342).   |
| 8       | Natural Sciences: Two or more courses which deal with the fundamental principles and in which a critical evaluation and analysis of data and processes are required. A minimum of one course shall include a corresponding laboratory. See approved list in the University Core Curriculum section of this catalog. |
| 9       | Humanities: To be selected from areas such as archaeology, history, philosophy, literature, the arts, culture, and language. See approved list in the University Core Curriculum section of this catalog.   |
| 3       | Social and Behavioral Sciences: To be selected from areas such as anthropology, economics, geography, psychology, and applied ethics. See approved list in the University Core Curriculum section in this catalog.  |
| 12      | U.S. History and Political Science: POLS 206 and 207. HIST 105 and 106 or other courses in American and Texas history, except that courses pertaining solely to Texas history may not comprise more than 3 hours.   |
| 2       | Kinesiology: KINE 198 Health and Fitness Activity and KINE 199 Required Physical Activity.  |
| 14      | Foreign Language: Four-course sequence in French, German, Russian, Spanish, Italian, Japanese, Greek, or Latin.   |
| (6)     | International and Cultural diversity: To be selected from approved list. These courses may also be used to satisfy other requirements.  |
| 21      | Free Electives: May be used to satisfy the Minor requirements.  |

## Curriculum in Maritime Systems Engineering (MASE)

Texas A&M University at Galveston is a special purpose institution engaged in teaching, research, and public service pertaining to the general field of marine resources. Within this context, the goal of the Department of Maritime Systems Engineering is to prepare students for performing engineering work and advanced study in the offshore and coastal realm. Opportunities for such work abound in the vicinity of the University, which is located just south of the fourth largest metropolis in the U.S. The Houston/Galveston area is regarded as the international focus of the oil industry. As this industry ventures into ever-increasing water depths, it presents a wide array of engineering challenges. Similarly, the exposure of its coastline to the extremely energetic climatic regime of the Gulf of Mexico, as well as the impacts of a high level of urbanization and industrialization in the area, call for novel sustainable engineering approaches to deal with widespread coastal erosion and various environmental issues. Finally, the extensive port facilities in Galveston and Houston and the recreational and ship traffic on navigable waterways, afford opportunities to design and maintain a variety of associated engineered structures.

The educational objectives of the program are to produce students who practice engineering pertaining to offshore and coastal structures and associated marine systems (e.g. platforms, pipelines, harbors, terminals, etc.) in support of local industry and government agencies, in particular, to plan, design, construct, and maintain engineering works intended to: advance the extraction and transport of oil and gas products, protect the coastal environment from natural hazards as well as human/industrial influences, and to develop facilities for marine transportation; and are well-prepared to engage in lifelong education and professional development, including advanced study.

The program is accredited by the Accreditation Board for Engineering and Technology (ABET).

### FRESHMAN YEAR

∇ - Indicated courses in which the student must achieve a grade of C or better.

†-Indicates required courses in the Maritime Systems Engineering major. These courses will be used to compute the major GPR.

‡-The American history requirement may be fulfilled by American history courses offered at TAMUG, including HIST 370, 442 or 444. See Core Curriculum.

⊖-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

§ - To be selected from MASE 319, MASE 485 and MASE 489.

§§ - To be selected from MASE 411, MASE 421, MASE 483, MASE 485 and MASE 489.

\* - Must be taken S/U.

\*\* - To be chosen from MARS 306, MARS 370, MARS 410, MARS 430, or MARS 435; or by approval of the MASE Department Head.

Note 1: All electives must be chosen in consultation with, and approved by, the student's academic advisor. See University Core Curriculum for a listing of course options for humanities and social sciences electives. The 6-hour University Core Curriculum requirement for international and cultural diversity may be met with courses used to satisfy other degree requirements. Please consult with your academic advisor.

Note 2: A grade of C or better will be required for the Common Body of Knowledge (CKB) Courses (MATH 151, MATH 152; PHYS 208, PHYS 218; CHEM 107; ENGL 104; ENGR 111 and 112). Failure to meet this requirement will prevent the student from continuing any sequence in which the course is a prerequisite.

Note 3: MASE students are required to earn a grade of C or better in ENGR 211/221, CVEN 311, CVEN 345, OCEN 300 and MATH 308. Failure to meet this requirement will prevent the student from continuing any sequence in which the course is a prerequisite.

Note 4: MASE students must complete all mathematics courses (MATH 151, 152, 251 and 308) before taking MASE 310 and MASE 405.

Note 5: MASE 407 cannot be taken prior to the last semester before graduation.

## Curriculum in Ocean and Coastal Resources (OCRE)

Ocean and Coastal Resources (OCRE) will educate students with regard to the economic, environmental and social issues related to the development of marine resources, while providing them with the scientific background needed to understand these issues. These resources include fisheries, oil and gas, ocean mining and others. The OCRE degree differs considerably in content from the Marine Sciences (MARS) curriculum through increased focus on geological and biological sciences, along with economics, political science and law. While the present MARS program is designed to produce well-rounded physical scientists, the OCRE curriculum is oriented more to societal and environmental impacts of ocean science.

Many of the resource development issues in today's world center around environmental pollution, sustainable development, biological diversity, fisheries and mariculture and oil and gas development. Every aspect of marine resources development is undergoing rapid growth. From fisheries management to ocean mining and offshore oil and gas development, the demand for trained entry-level personnel from both government and industry is extremely high. There is also a strong demand for individuals who understand and can use scientific information in the planning and management process, but who are not themselves bench or field scientists.

Student in OCRE may establish a minor field of study in Maritime Administration through completing 18 credits as outlined in the Maritime Administration curriculum pages. A minor in Ocean and Coastal Resources is available for students of other University disciplines.

Students majoring in Ocean and Coastal Resources can be eligible for a secondary teaching field in Physical Sciences, pending a passing score on the state certification test (ExCET). See the Teacher Certification section of this catalog.

\* - Must be taken S/U.

\*\* The American history requirement may be fulfilled by American history courses offered at TAMUG, including HIST 370, 442 or 444. See Core Curriculum.

†-Indicates required courses in the Ocean and Coastal Resources major. These courses will be used to compute the major GPR. Also, if any upper level MARS or OCNG elective courses are taken, they will be used in the major GPR.

‡ Recommended professional electives are:

- |   |  |
|---|--|
| CHEM 316 Quantitative Analysis . . . . .                        | CHEM 318 Quantitative Analysis Laboratory      |
| CHEM 383 Chemistry of Environmental Pollution . . . . .         | MARA 470 Environmental Law                     |
| MARB 320 Fisheries Techniques . . . . .                         | MARB 340 Tropical Marine Ecology               |
| MARB 345 Introduction to Scientific Diving . . . . .            | MARB 423 Mariculture                           |
| MARB 432 GIS Use in Coastal Resources. . . . .                  | MARB 438 Field Ornithology                     |
| MARB 445 Marine Fisheries Management . . . . .                  | MARS 305 Paleontology                          |
| MARS 325 Introduction to GIS for Marine Sciences . . . . .      | MARS 330 Petroleum Geology                     |
| MARS 370 Coastal Processes . . . . .                            | MARS 410 Introduction to Physical Oceanography |
| MARS 415 Remote Sensing Technology . . . . .                    | MARS 435 Exploration Geophysics                |
| MARS 440 Introduction to Chemical Oceanography . . . . .        | MARS 484 Undergraduate Internship              |
| MARS 485 Problems in Marine Sciences . . . . .                  |  |
| MARS 488 Writing Intensive Directed Studies in Marine Sciences. |  |

Note: For this elective credit both CHEM 316 and CHEM 318 are required.

§- Field Experience may also be met with MARB 300 plus one credit hour of a field oriented lab course.

□-The total hours may be increased if the student is required to take remedial math, remedial English, foreign language or international and diverse cultures courses.

∇ - Students may choose to take MARS 460 and gain credit for MARS 310 and one 3-hour Professional Elective.

Note: The 6-hour University Core Curriculum requirement for international and cultural diversity may be met with courses used to satisfy other degree requirements. Please consult with your academic advisor.

## **Minor in Ocean and Coastal Resources**

---

Students in other majors may establish a minor field of study in Ocean and Coastal Resources through the completion of at least 16 hours of the following courses:

Required Courses (total 7 required credits):

MARS 280	Coastal and Ocean Resources
GEOL 104	Physical Geology
or OCNG 251/252	Oceanography/Oceanography Laboratory

Select 3-6 hours from the following courses:

MARS 410	Introduction to Physical Oceanography
MARS 430	Introduction to Geological Oceanography
MARS 440	Introduction to Chemical Oceanography
OCNG 420	Introduction to Biological Oceanography

Select 3-6 hours from the following courses:

POLS 347	Politics of Energy and the Environment
PHIL 314	Environmental Ethics
MARA 470	Environmental Law

## Curriculum in University Studies

Students who are currently enrolled at Texas A&M University or Texas A&M University at Galveston may submit proposals to enroll as University Studies majors. The University Studies Degree format was created to provide students the flexibility to combine areas of study within either or both campuses that are of special interest.

The combination of courses may not be possible through existing degree plans. This flexibility may be attractive to students who have particular career paths or post-baccalaureate degree paths in mind.

All University Studies degree plans require at least 120 hours for completion. A University Studies Degree consists of a concentration of 21-24 hours and two minors of 15-18 hours each. Specific courses may be required for the completion of the hours in the concentrations and minors. Some concentrations and minors contain required courses that have additional prerequisites. One of the two minors must be completed in a college outside of the college that provides the concentration for the student's degree.

Students must submit a Proposed Course Form that lists the courses for the individual degree plan the student hopes to complete to the University Studies admissions committee. The application includes a required 2-3 page essay in which the student can explain how the degree will help the student meet the desired educational and personal goals. Once it is determined that the Proposed Course Form has been completed with appropriate information, it will be reviewed by the department that offers the concentration. Students must be in good academic standing, and they must have good academic standing in previous courses that count toward the area of concentration or minors.

A University Studies major will be considered a student in the department that offers the concentration. The student's diploma will list Bachelor of Arts or Bachelor of Science in the same place it is currently listed, and University Studies will be listed in the place the major is currently listed. The student's area of concentration and the two minors will be indicated on the student's transcript.

## Concentration in Marine Environmental Law and Policy

The student must complete a minimum of 6 hours at the 400-level and 36 hours of 300-400 level coursework in residence at Texas A&M University at Galveston.

- A. The student must select 21-24 hours from among the following courses for the area of concentration. If there will be more than 24 hours in the area of concentration, the student should include a justification.

Two approved writing courses will be required for the University Studies degree. The writing courses may be in the area of concentration or the minors. Please indicate writing courses in the area of concentration, if any, with a W following the course number (TAMU 400 W). If courses required for the area of concentration include a course or courses from outside the department of the area of concentration, please include a letter of support from the department(s) offering the course(s). Courses listed as part of the University Core Curriculum do not need a letter of support.

1. The following 15 hours of coursework are required:\*

MARA 212	Business Law . . . . .	3 credit hours
MARA 421	Admiralty Law . . . . .	3 credit hours
MARA 470	Environmental Law . . . . .	3 credit hours
PHIL 314	Environmental Ethics . . . . .	3 credit hours
POLS 347	Politics of Energy and the Environment . . . . .	3 credit hours

2. Select 6-9 hours from the following courses:\*

MARA 304	Ocean Transportation II. . . . .	3 credit hours
MARA 435	Labor Law and Policy. . . . .	3 credit hours
MARS 491	Research in Marine Sciences . . . . .	1-4 credit hours
MGMT 211 or MARA 363	Legal and Social Environment of Business or The Management Process . . . . .	3 credit hours
RPTS 340	Recreation, Parks and Diverse Populations . . . . .	3 credit hours
WFSC 303	Fish and Wildlife Laws and Administration . . . . .	3 credit hours
WFSC 420	Ecology for Teachers . . . . .	3 credit hours

\* If the area of concentration requires students to select courses from a list of pre-selected combinations, please duplicate this table; e.g. two courses from column A, two courses from column B.

- B. Students will select two minors (30-36 hours). One must be from outside the college offering the area of concentration.
- C. Free electives (17-26 hours). If there will be fewer than 17 hours of free electives, please include a justification in the preceding 2-3 page statement.

D. Courses in the University Core Curriculum will be required for this area of concentration (43 hours). There is a graduation requirement which includes 6 hours of international and cultural diversity courses. Refer to the International and Cultural Diversity table for a list of acceptable courses. A course satisfying a University Core Curriculum category, a college/departmental requirement, or a course used as a free elective may be used to satisfy this requirement.

E. Completion in high school of two units of the same foreign language or one year of college work is required for graduation.

## TEACHER CERTIFICATION OPTIONS

Students may now complete teacher certification while attending Texas A&M University at Galveston through a collaborative program with Texas A&M University. Education courses will be offered via distance education. Student teaching will be completed at a Galveston secondary school.

Students majoring in Marine Biology can be eligible for a secondary teaching field in Life Sciences and students majoring in Marine Sciences or Ocean and Coastal Resources can be eligible for a secondary teaching field in Physical Sciences, pending a passing score on the state certification test (ExCET).

Students may begin one of two teacher certification programs offered by Texas A&M University-College Station during their final year at Texas A&M University at Galveston. These options include:

1. Accelerate Online, a No Child Left Behind approach program, provides those pursuing science, mathematics, social science, and language arts related degrees a highly structured online program followed by entry into a paid teaching position (internship) in a secondary (grades 8 – 12) classroom. This continuing education program can be completed in 12 – 18 months. For additional information on Accelerate Online, please visit the website: <http://accelerate.tamu.edu>
2. The Secondary Graduate Certification Program leads to initial secondary (grades 8 – 12) certification in the areas of science, mathematics, social science, language arts (including modern languages), computer science, theater arts and communication. The potential for a paid internship and the opportunity to apply all course work toward the Master of Education degree in Curriculum & Instruction are unique features of this program. For additional information on the Secondary Graduate Certification Program, please visit the website: <http://post-bacc.coe.tamu.edu>

### **Master of Education in Curriculum and Instruction | Online**

Texas A&M University – College Station is offering a Master of Education in Curriculum and Instruction via Distance Education. This program will enable certification candidates in the Secondary Graduate Certification Program to complete their Master of Education degree at a distance.

This program enables educators in schools who cannot come to campus for classes, to complete their instruction while remaining employed. Because of the flexible degree program that the Master of Education in Curriculum and Instruction affords, this degree may be earned through residential courses, using a combination of residential and distance courses, or on-line distance education entirely.

This M.Ed. degree distance education option in Curriculum and Instruction provides a sound combination of theory, methodology, and a substantive content area, with some flexibility within the program emphasis, supporting areas. This 36-semester hour graduate degree option in Curriculum and Instruction is designed to assist teachers to develop effective teaching and research tools that increase educational opportunity and workplace access. For additional information contact Kerri Smith at [ksmith@coe.tamu.edu](mailto:ksmith@coe.tamu.edu)

# GRADUATE STUDIES

## **Texas A&M University System Graduate Faculty**

---

The Texas A&M University System has established a System Graduate Faculty which enables and facilitates the collaborative research and teaching among faculty members of the nine universities and the Health Science Center within the System. By acquiring status through the System Graduate Faculty, a member of the Texas A&M University System Graduate Faculty may teach graduate courses and serve as member or co-chair (but not as chair) with a member of the Texas A&M University Graduate Faculty.

## **System Graduate Faculty Guidelines**

---

I. Purpose. The Texas A&M University System Graduate Faculty has been developed for the following purposes:

- A. To facilitate participation in graduate education for a student in The Texas A&M University System.
- B. To provide a graduate student access to the expertise of faculty members throughout the System.
- C. To increase inter-institutional faculty collaboration throughout The Texas A&M University System.
- D. To promote the development of multi-disciplinary educational and research programs and the capacity to study complex scientific and social issues.

II. Membership Background

Membership on The Texas A&M University System Graduate Faculty provides the opportunity to participate in graduate education at The Texas A&M University System universities through serving on graduate committees, advising a graduate student, and teaching graduate courses.

- A. Appointment to membership on The Texas A&M University System Graduate Faculty is designed to assure rigor in the directing, counseling, and teaching of a graduate student.
- B. All of The Texas A&M University System Graduate Faculty members can serve as members of any graduate committee.
- C. The chair, or co-chair, of a graduate committee must be from the institution that is conferring the graduate degree.

III. Membership Qualifications. Consideration for membership on The Texas A&M University System Graduate Faculty requires meeting the following qualifications.

The individual must hold the terminal degree, usually an earned doctorate. Exceptions will be considered only if justified in accordance with the Commission on Colleges of the Southern Association of Colleges and Schools.

- A. The individual must be a tenured or a tenure-track faculty member of a Texas A&M University System university and hold a professorial rank.
- B. A person holding the title of instructor or lecturer may not be considered for membership on The Texas A&M University System Graduate Faculty.
- C. Individuals holding professorial rank at an agency of The Texas A&M University System are eligible for membership.
- D. The individual must be a member of the graduate faculty at his/her home institution.
- E. The individual must be an active participant in his/her graduate program through teaching, directing or administering graduate work.
- F. The individual must show evidence of active research and scholarly work within the past five years. This should include publication as primary author of scholarly works in peer-reviewed journals, publication of scholarly books, presentations at professional meetings, or creative works, such as performances, work in juried exhibitions, or other creative works appropriate to the individual's discipline.
- G. A graduate student at any Texas A&M University System institution may not be a member of The Texas A&M University System Graduate Faculty. Membership on The Texas A&M University System Graduate Faculty is forfeited upon a faculty or staff member's admission to a graduate program at any institution in The Texas A&M University System.

#### IV. Nomination, Appointment and Review Process

Nomination for membership to The Texas A&M University System Graduate Faculty is made by submission of an official application by a faculty member and an accompanying letter of endorsement from the individual's department head or chair and college dean. The application and letter of endorsement are sent to the graduate dean, who certifies institutional graduate faculty appointment status, and forwards the nomination to the Texas A&M University System Council of Graduate Deans for consideration and action.

A. The application from the faculty member must identify the institutional graduate faculty of which he or she is a member, specify the graduate degree(s) that he or she is qualified to supervise under the conditions of the institutional appointment, and specify the graduate program(s) in which he or she wishes to participate as a System graduate faculty member. The application should be accompanied by a current curriculum vitae.

B. TH. Council of Graduate Deans will appoint faculty from member institutions as needed to a Graduate Faculty Review Advisory Committee to consider applications and reappointments and to make recommendations to the Council of Graduate Deans.

C. A Graduate Faculty member of The Texas A&M University System is appointed for a five-year term. At the end of the five-year term, the member will be re-evaluated for reappointment by the Council of Graduate Deans. Failure to maintain membership criteria will result in removal from The Texas A&M University System Graduate Faculty. The Council of Graduate Deans will notify by letter a faculty member who is non-voluntarily removed from membership on The Texas A&M University System Graduate Faculty. The faculty member's department head, dean, provost and graduate dean will also receive notification.

V. Graduate Faculty Membership List. A list of the current membership of The Texas A&M System Graduate Faculty will be maintained in the Office of the Vice Chancellor for Academic and Student Affairs, the graduate office at each System university and on The Texas A&M University System Graduate Education website at [tamusystem.tamu.edu/graduate-education/graduate-faculty-membership](http://tamusystem.tamu.edu/graduate-education/graduate-faculty-membership).

## Master of Marine Resources Management (MARM)

The Master of Marine Resources Management (MARM) provides students with a broad understanding of coastal and ocean policy and management. The demand for graduates from this program in industry, government, academia and non-governmental organizations (NGO's) has never been stronger. Federal agencies employing graduates include the U.S. Coast Guard, the U.S. Army Corps of Engineers, and the Environmental Protection Agency. State agencies include the Texas General Land Office and the Texas Commission on Environmental Quality. Industries employing graduates include oil and natural gas, environmental consulting companies, ports, and tourism. These organizations have identified the need for a degree which focuses on national and international ocean resource law and policy; coastal zone management; physical and geochemical marine resources management strategies; and fisheries management. This degree program views marine natural resources management and policy development from both an ecological and policy perspective.

The degree may be viewed as a degree comparable to an MBA as an alternative terminal degree for people working in marine/ocean/coastal organizations. In addition, the degree program may address the needs of some public school science teachers seeking a degree outside the field of education.

Students interested in applying for admission to this program should visit the website [www.applytexas.org](http://www.applytexas.org) to obtain an online graduate admission application for Texas AM University at Galveston. Students interested in receiving additional information on this program should mail requests to Director of Graduate Programs, Research and Graduate Studies Office, Texas A&M University at Galveston, P. O. Box 1675, Galveston, Texas 77553-1675 or contact the Marine Sciences Graduate Advisor at 409-740-4518.

## Residence

In partial fulfillment of the residence requirement for the degree of Master of Marine Resources Management, the student must complete 9 resident credit hours during one regular semester, one 10-week summer semester or in combination during the two five-week summer sessions (e.g., 3 hours first session, 6 hours second session.). Upon recommendation of the student's advisory committee and with approval of the Office of Graduate Studies, a student may be granted exemption from this requirement. However, such a petition must be approved prior to the student's registration for the final 9 credit hours of required course work. Full-time staff members of the University or of closely affiliated organizations stationed at the campus at Galveston or College Station may fulfill total residence requirements by completion of less-than-full course loads. Specific authorization for such programs must be granted in advance by the employing agency. Employees should submit verification of their employment at the time they submit their degree plan.

## **Student's Advisory Committee**

---

After receiving admission to graduate studies and before enrolling for course work, the student will meet with the departmental graduate advisor regarding selecting a committee chair and developing the student's advisory committee. The student's advisory committee for the master's degree will consist of no fewer than three members and no more than five members of the graduate faculty representative of the student's fields of study and research. Two members must be members of the graduate faculty in Marine Sciences in Galveston, one of whom should be the chair of the student's advisory committee. At least one of the members must be from another department in Galveston or College Station. The chair, in consultation with the student, will select the remainder of the student's advisory committee. The chair will then notify the tentative members of the advisory committee, giving the student's name and field of study, and request that they consider serving on this student's advisory committee. The student will interview each prospective committee member to determine whether he or she is willing to serve. Only graduate faculty members may serve as chair of a student's advisory committee. The chair of the committee, who usually has immediate supervision of the student's degree program, has the responsibility for calling required meetings of the committee, and for calling meetings at any other time considered desirable.

If the chair of the student's advisory committee is unavailable for an extended time during any academic period during which the student is involved in activities relating to an internship or professional study and is registered for 684 or 693 courses, the student may request in writing that the program chair appoint an alternate advisory committee chair during the interim period. The duties of the student's advisory committee include responsibility for the proposed degree plan.

In addition, the committee as a group, and as individual members, is responsible for counseling the student on academic matters, and, in the case of academic deficiency, initiating recommendations to the Office of Graduate Studies. The committee members' signatures on the degree plan indicate their willingness to accept the responsibility for guiding and directing the entire academic program of the student and for initiating all academic actions concerning the student. Although individual committee members may be replaced by petition for valid reasons, a student's advisory committee cannot resign en masse.

## **Degree Plan**

---

The student's advisory committee, in consultation with the student, will develop the proposed degree plan. The degree plan must be completed and filed with the Office of Graduate Studies following the deadline imposed by the student's college, and no later than the date announced in the Office of Graduate Studies Calendar for the student's semester of graduation. No exceptions are allowed. This proposed degree plan must be typed and submitted on the official form as it appears on the website at <http://ogs.tamu.edu/OGS/currentForms.htm> with endorsements by the student's advisory committee and the head of the student's major department. Additional course work may be added to the approved degree plan by petition if it is deemed necessary by the advisory committee to correct deficiencies in the student's academic preparation.

## **Credit Requirement**

---

There is a credit requirement of a minimum of 36 credit hours of courses, as approved on the degree plan. Students may elect to pursue either a thesis or a non-thesis degree in Marine Resources Management. For the non-thesis degree 36 hours in the curriculum, 24 are required. The required courses include 6 hours of science, 8 hours of management, 2 hours of Geographic Information Systems (GIS) and 8 hours of law/policy courses. The student in the non-thesis option will choose electives for 12 credit hours, 3 hours of which will be additional science, and 3 hours of which will be additional law/policy/management. The remaining 6 hours can be in an appropriate supporting field, if desired. Students in the thesis-option degree will choose electives for 6 hours, 3 of which will be additional science and 3 hours of which will be additional law/policy/management. The remaining 6 hours will be in 691 research hours. Additional flexibility to replace required courses with courses targeted to their area of research is available to thesis option students upon recommendation and approval by their committee and the department.

## **Limitations on the Use of Transfer, Extension and Certain Other Courses**

---

Some departments may have more restrictive requirements for transfer work. If otherwise acceptable, certain courses may be used toward meeting credit-hour requirements for the master's degree under the following limitations.

1. A total of any combination of a and b below may not exceed the greater of either 12 hours or one-third (1/3) of the total hours on the degree plan.
  - a. The maximum number of credit hours which may be considered for transfer credit is the greater of 12 hours or one-third (1/3) of the total hours of a degree plan. The following restrictions apply. Courses taken in residence at an accredited U.S. institution, or approved international institution with a final grade of B or greater will be considered for transfer credit if, at the time the courses were completed, the student was in degree-seeking status at Texas A&M University, or the student was in degree-seeking status at the institution at which the courses were taken; and if the courses would be accepted for credit toward a similar degree for students in degree-seeking status at the host institution. Courses previously used for another degree are not acceptable for degree plan credit.
  - b. A maximum of 12 credit hours of 489 and/or 689 (Special Topics).
  - c. A total of any combination of a and b above may not exceed the greater of 12 hours or one-third (1/3) of the total hours on the degree plan.
2. A maximum of 8 hours of 691 (Research), 4 hours of 684 (Professional Internship), or 9 hours of 485 and/or 685 (Directed Studies), and up to 3 hours of 690 (Theory of Research) or 695 (Frontiers in Research)-any combination of 684, 685, 690, 691 and 695 may not exceed 25 percent of the total credit hour requirement shown on the individual degree plan.
3. A maximum of 2 hours of Seminar (481/681).
4. A maximum of 9 hours of advanced undergraduate courses (300- or 400-level).
5. No credit may be obtained by correspondence study.
6. For graduate courses of three weeks' duration or less, up to 1 hour of credit may be obtained for each five-day week of course work. Each week of course work must include at least 15 contact hours.
7. Continuing education courses may not be used for graduate credit.
8. Extension courses are not acceptable for credit.

Exceptions will be permitted only in unusual cases and when petitioned by the student's advisory committee and approved by the Office of Graduate Studies.

## **Transfer of Credit**

---

Students may transfer a maximum of 12 hours of courses or one-third of the total hours of the degree plan, whichever number is greater, from an approved institution upon the advice of their advisory committee. Courses taken in residence at an accredited U.S. institution or approved international institution with a final grade of B or better might be considered for transfer credit if, at the time the courses were completed, the student was in degree-seeking status at Texas A&M University at Galveston or at the institution at which the courses were taken, and if the courses would be accepted for credit toward a similar degree for students in degree-seeking status at the host institution.

Course work in which no formal grades are given or in which grades other than letter grades (A, B, C, etc.) are given (for example, CR, P, S, U, H, etc.) is not accepted for transfer credit. Courses appearing on the degree plan with grades of D, F or U may not be absorbed by transfer work. Credit for thesis research or the equivalent is not transferable. Credit for course work submitted for transfer from any college or university must be shown in semester credit hours or equated to semester credit hours. Students must have an official transcript sent directly from the university in which the transfer course work was taken to the Texas A&M at Galveston Office of Admissions and Records. Courses completed at other institutions are not included in computing the GPR.

## **Scholarship**

---

Graduate students must maintain a grade point ratio (GPR) of 3.000 (B average based on a 4.000 scale) for all courses which are listed on the degree plan and for all graded graduate and advanced undergraduate course work (300- and 400-level) completed at Texas A&M University at College Station and/or Texas A&M University at Galveston and eligible to be applied toward a graduate degree. Graduate students will not receive graduate degree credit for undergraduate courses taken on a satisfactory/unsatisfactory (S/U) basis. Graduate students may not receive grades other than satisfactory (S) or unsatisfactory (U) in graduate courses bearing the numbers 681, 684, 690, 691, 692, 693 and 695. Any other graduate course taken on an S/U basis may not be used on a graduate degree plan. Graduate courses not on the degree plan may be taken on an S/U basis. Only grades of A, B, C and S are acceptable for graduate credit. Grades of D, F or Unsatisfactory (U) for courses on the degree plan must be absolved by repeating the courses at Texas A&M University at College Station and/or Texas A&M University at Galveston and achieving grades of C or above or Satisfactory (S). A course in which the final grade is C or lower may be repeated for a higher grade. The original grade will remain on the student's permanent record, and the most recent grade will be used in computing the cumulative and degree plan GPRs. The cumulative GPR for a graduate student is computed by using all graded graduate (600-level) and advanced undergraduate (300- and 400-level) course work completed at Texas A&M University at College Station and/or Texas A&M University at Galveston and eligible to be applied toward a graduate degree. Semester credit hours to which grades of Withdraw Failing (WF) are assigned shall be included in computing the GPR. Those involving grades of Withdraw Passing (WP), Satisfactory (S), Unsatisfactory (U) and Q-drop (Q) shall be excluded. If either of a student's cumulative GPR or the GPR for courses listed on the degree plan falls below the minimum of 3.000, he or she will be considered to be scholastically deficient. If the minimum cumulative GPR is not attained in a reasonable length of time, the student may be dropped from graduate studies. The procedures for dismissal are explained in the Texas A&M University Student Rules. Departments or colleges may adopt specific guidelines pertaining to scholastic deficiency or dismissal.

## **Continuous Registration**

---

Students in the thesis option of the Master of Marine Resources Management program who have completed all course work on their degree plans other than 691 (Research) are required to be in continuous registration until all requirements for the degree have been completed. See Continuous Registration Requirements in the Texas A&M University-College Station Graduate Catalog.

## **Foreign Language**

---

There is no specific language requirement for the Master of Marine Resources Management degree.

## **Non-thesis option**

---

A thesis is not required for the Master of Marine Resources Management degree for students who select the non-thesis option program. Students pursuing the non-thesis option are not allowed to enroll in 691 (Research) for any reason and 691 may not be used for credit toward a non-thesis option Master of Marine Resources Management degree.

## **Thesis Proposal**

---

For the thesis option Master of Marine Resources Management degree, the student must prepare a thesis proposal for approval by the advisory committee and the head of the major department or chair of the intercollegiate faculty, if applicable. This proposal must be submitted to the Office of Graduate Studies at least 15 working days prior to the submission of the request for the final examination.

There are compliance issues that must be addressed if graduate students are performing research involving human subjects, animals, infectious biohazards and recombinant DNA. Students involved in these types of research must check with the Office of Research Compliance, Office of the Vice President for Research at (979) 845-8585 to ensure that they have met all compliance responsibilities. Additional information can also be obtained on the website [http://www.tamu.edu/admissions/catalogs/GRAD\\_catalog/degree\\_info](http://www.tamu.edu/admissions/catalogs/GRAD_catalog/degree_info).

## **Thesis Option**

---

The thesis option is designed to allow the student to demonstrate research capabilities through developing an independent and thorough investigation of a particular problem of interest. This would also prepare the student for further graduate studies.

An acceptable thesis is required for the Master of Marine Resources Management degree for students who select the thesis option program. The finished work must reflect a comprehensive understanding of the pertinent literature and express in clear English, the problem(s) for study, the method, significance and results of the student's original research. Guidelines for the preparation of the thesis are available in the Thesis Manual which is available online at <http://thesis.tamu.edu/thesismanual.php>.

After successful defense (or exemption therefrom) and approval by the student's advisory committee and the head of the student's major department, students must submit their thesis to the Thesis Office. Students must submit their thesis in electronic format as a single PDF file. The PDF file must be uploaded to the Thesis Office website <http://thesis.tamu.edu>. Additionally, a signed approval page must be brought or mailed to the Thesis Office. Both the PDF file and the signed approval page are required by the deadline day.

Deadline dates for submitting are announced each semester or summer term in the Office of Graduate Studies Calendar (see Time Limit statement).

Before a student can be "cleared" by the Thesis Office, a processing fee must be paid at Financial Management Services. After commencement, theses are digitally stored and made available through the Texas A&M Libraries.

A thesis that, because of excessive corrections, is deemed unacceptable by the Thesis Office, will be returned to the student's department head. The manuscript must be resubmitted as a new document, and the entire review process must begin anew. All original submittal deadlines must be met during the resubmittal process in order to graduate that semester.

No credit hours of 684 (Professional Internship) may be used for the thesis option Master of Marine Resources Management degree. A maximum of 8 credit hours of 691 (Research) or 485 and/or 685 (Directed Studies), and up to 3 credit hours of 690 (Theory of Research) or 695 (Frontiers in Research) may be used toward the thesis option Master of Marine Resources Management degree. In addition, any combination of 685, 690, 691 and 695 may not exceed 12 credit hours.

## **Time Limit**

---

All degree requirements for a master's degree must be completed within a period of seven consecutive years for the degree to be granted. A course will be considered valid until seven years after the end of the semester in which it is taken. Graduate credit for course work which is more than seven calendar years old may not be used to satisfy degree requirements.

## **Application for Degree**

---

Graduate degrees are conferred at the close of each regular semester and 10-week summer semester. Candidates for advanced degrees who expect to complete their work at the end of a given semester must apply for graduation by submitting the electronic application for a degree to the Admissions and Records Office and by paying the required graduation fee at Financial Management Services no later than the Friday of the second week of the fall or spring semester or the Friday of the first week of the first summer term. The electronic application for degree can be accessed via the website [degreeapp.tamu.edu](http://degreeapp.tamu.edu).

## **Thesis Defense/Final Examination**

---

The candidate must pass a final examination by dates announced each semester or summer term in the Office of Graduate Studies Calendar. To be eligible to take the final examination, a student's GPR must be at least 3.000 for courses on the degree plan and for all courses completed at Texas A&M which are eligible to be applied to a graduate degree, and there must be no unabsolved grades of D, F or U for any course listed on the degree plan.

To absolve a deficient grade, the student must have repeated the course at Texas A&M University and have achieved a grade of C or better. All course work on the degree plan must have been completed with the exception of those hours for which the student is registered. Additionally, all English Language Proficiency requirements must be satisfied prior to scheduling the examination. An approved thesis proposal must be on file in the Office of Graduate Studies according to published deadlines.

The final examination covers the thesis and all work taken on the degree plan and at the option of the committee may be written or oral or both. The final examination may not be administered before the thesis is available to all members of the student's advisory committee in substantially final form, and all members have had adequate time to review the document. The examination is conducted by the student's advisory committee as finally constituted. Thesis option students must be registered in the University in the semester or summer term in which the final examination is taken. Persons other than members of the graduate faculty may, with mutual consent of the candidate and the major professor, attend final examinations for advanced degrees. Upon completion of the questioning of the candidate, all visitors must excuse themselves from the proceedings. A positive vote by all members of the graduate committee with at most one dissension is required to pass a student on his or her exam. A department, or interdisciplinary degree program, may have a stricter requirement provided there is consistency within all degree programs within a department or interdisciplinary program.

A request for permission to hold and announce the final examination must be submitted to the Office of Graduate Studies a minimum of 10 working days in advance of the scheduled date for the examination. Examinations which are not completed and reported as satisfactory to the Office of Graduate Studies within 10 working days of the scheduled examination date will be recorded as failures. A student may be given only one opportunity to repeat the final examination for the master's degree and that must be within a time period that does not extend beyond the end of the next regular semester (summer terms are excluded).

Thesis option candidates may petition to be exempt from their final examination provided their degree plan GPR is 3.500 or greater and they have the approval of the advisory committee, the head of the student's major department, or intercollegiate faculty, if appropriate, and the Office of Graduate Studies. It is recommended that the petition for exemption be submitted the same semester the student intends to submit the thesis. Non-thesis option students cannot be exempted from their final examination. The Master of Science in Educational Human Resource Development, HRD option, and the Master of Science Program in the Mays Business School do not have final examination requirements.

### **Required Courses (24 hours required)**

---

MARS 625	GIS Based Modeling for Coastal Resources
MARS 615	Physical and Geochemical Marine Resources
MARS 635	Environmental Impact Statements and NRDA
MARS 676	Environmental Policy
MARA 604	Marine Natural Resource Economics
MARB 620	Marine Biological Resources
MARS 675	Environmental Mgmt Strategies for Scientists
MARS 680	Integrative Analyses in Marine Resources
MARS 652	Sustainable Management of Coastal Margins

### **Optional Courses (12 hours required)**

---

GEOG 666	Coastal Geomorphology*
MARS 610	Environmental Law
MARS 620	Int'l Env. Business Transactions
MARS 638	Avian Diversity and Habitats as Coastal Resources
MARS 640	Environmental Administrative Law
MARS 645	Wildlife Law and Ethics
MARS 650	Geochemical Marine Resources Management
MARS 655	Wetlands Management
MARS 660	Environmental Alternative Dispute Resolution
MARS 670	Eco-Environmental Modeling
MARS 684	Internship in Marine Resources Management
MARS 685	Directed Studies
MARS 689	Special Topics in Marine Resources Management
MARS 691	Research
OCNG 620	Biological Oceanography*
OCNG 627	Ecology of the Continental Shelf*
OCNG 630	Geological Oceanography*
OCNG 647	Chemical Contamination of the Marine Environment*
WFSC 628	Wetlands Ecology*
WFSC 640	Human Dimensions of Wildlife and Fisheries Management*

\*Courses offered by Texas A&M University. Please refer to the respective academic department for complete course descriptions. In general, these courses are offered by distance education for students based at Galveston.

# COURSE DESCRIPTIONS

All courses offered at the University are described on the following pages and are listed by disciplines, arranged alphabetically.

The course numbering scheme is as follows: 100 to 199, courses primarily open to freshmen; 200 to 299, courses primarily open to sophomores; 300 to 399, courses primarily open to juniors; 400 to 499, courses primarily open to seniors; and 600 to 699, courses limited to graduate students or undergraduate students with special approval.

Figures in parentheses following the number of the courses indicate the clock hours per week devoted to theory and practice, respectively. Theory includes recitations and lectures; practice includes work done in the laboratory, shop, drawing room, or field. The unit of credit is the semester hour, which involves one hour of theory, or from two to four hours of practice per week for one semester of 15 weeks.

When courses are cross-listed (e.g., offered as MARA 212 at TAMUG and MGMT 212 at TAMU), credit cannot be received for both courses.

Any course may be withdrawn from the semester or summer schedule if the number of registrants is too small to justify its being offered.

## **Accounting (ACCT)**

---

229. INTRODUCTORY ACCOUNTING. (3-0). Credit 3. (TCCNS ACCT 2301). Analysis, recording and reporting of business transactions; partnership and corporation accounting; analysis and use of financial statements.

230. INTRODUCTORY ACCOUNTING. (3-0). Credit 3. (TCCNS ACCT 2302). Continuation of ACCT 229. Use of budgets; introduction to cost accounting; cost control techniques and methods of measuring performance. Prerequisites: ACCT 229.

315. INTERMEDIATE ACCOUNTING FOR NON-ACCOUNTING MAJORS I. (3-0). Credit 3. Revenue recognition principles of asset valuation, and disclosure requirements for corporations; interpretation of financial statements, rather than their preparation. Prerequisites: ACCT 230. Junior or senior classification.

316. INTERMEDIATE ACCOUNTING FOR NON-ACCOUNTING MAJORS II. (3-0). Credit 3. Includes the measurement and disclosure requirements for liabilities and stockholders' equity, SEC registration statements, and cash flow reporting; focus on the analysis and interpretation of financial statements rather than their preparation. Does not qualify as a directed or free elective for accounting majors and does not count towards the accounting requirement for the CPA exam. Prerequisite: ACCT 315 or 327.

## **Agricultural Economics (AGEC)**

---

350. ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS. (3-0). Credit 3. Inspection of issues such as environmental degradation, population growth, recycling, water use and depletion, natural habitat protection, water and air pollution, acid deposition, fishery management, and global warming using economically derived principles and tools. Prerequisite: Junior or senior classification or approval of instructor.

## **Anthropology (ANTH)**

---

202. INTRODUCTION TO ARCHAEOLOGY. (3-0). Credit 3. (TCCNS ANTH 2302). An introduction to the study of the human past through the retrieval, analysis, and interpretation of material remains.

210. SOCIAL AND CULTURAL ANTHROPOLOGY. (3-0). Credit 3. (TCCNS ANTH 2351). Evolution of cultures; differences, similarities and effects of material and non-material culture on economic, social and political organization.

225. PHYSICAL ANTHROPOLOGY. (3-3). Credit 4. Human biology to include examination of evolutionary processes acting on human populations; human genetics; non-human primate anatomy, classification and ecology of primates; the primate paleontological record, and human variation and adaptation. Prerequisite: BIOL 111.

316. NAUTICAL ARCHAEOLOGY. (3-0). Credit 3. Underwater shipwrecks, sunken harbors, and other submerged evidence of human activities; relationship to cultural geography in general; problems of diving technology, surveying and preservation; relevance to modern problems. Prerequisite: Junior or senior classification.

318. NAUTICAL ARCHAEOLOGY OF THE AMERICAS. (3-0). Credit 3. Seafaring in the Americas from the 16th to the 20th centuries based on shipwreck archaeology; ship construction, exploration, commerce, naval warfare and related activity; influence of seafaring on the cultures, economics and history of the Western Hemisphere. Prerequisite: Junior or senior classification or approval of instructor.

350. ARCHAEOLOGY OF THE OLD WORLD. (3-0). Credit 3. Overview of archaeology and prehistory of Europe, Africa and Asia from the evolution of the hominids to the development of agriculture and the rise of civilization. Prerequisite: Junior or senior classification or approval of instructor.

351. CLASSICAL ARCHAEOLOGY. (3-0). Credit 3. Origins and spread of Western civilization through the material remains of Minoan, Mycenaean, Etruscan, and early Greek and Roman cultures. Prerequisite: Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit 1-9. Individual research in anthropology on subjects not included in established courses. Prerequisites: Approval of department head. Junior or senior classification or approval of instructor.

## **Biology (BIOL)**

---

111. INTRODUCTORY BIOLOGY I. (3-3). Credit 4. (TCCNS BIOL 1306 and TCCNS 1106). First half of an introductory two-semester survey of contemporary biology that covers the chemical basis of life, structure and biology of the cell, molecular biology and genetics.

112. INTRODUCTORY BIOLOGY II. (3-3). Credit 4. (TCCNS BIOL 1307 and TCCNS 1107). The second half of an introductory two-semester survey of contemporary biology that covers evolution, history of life, diversity and form and function of organisms. Prerequisite: BIOL 111.

351. FUNDAMENTALS OF MICROBIOLOGY. (3-4). Credit 4. Basic microbiology; comparative morphology, taxonomy, pathogenesis, ecology, variation and physiology of microorganisms. Prerequisites: CHEM 227, 237; three hours of biology; or approval of instructor. Junior or senior classification.

## **Center for Academic Enhancement (CAEN)**

101. APPLICATION OF LEARNING THEORY. (2-0). Credit 2. A seminar course designed to introduce students to the resources, skills, and strategies needed to succeed in college.

102. CAREER AWARENESS. (2-0). Credit 2. Introduction to the concepts of career planning, employment trends, and methods of researching and preparing for the job market.

## **Chemistry (CHEM)**

101. FUNDAMENTALS OF CHEMISTRY I. (3-0). Credit 3. (TCCNS CHEM 1311). Introduction to modern theories of atomic structure and chemical bonding; chemical reactions; stoichiometry; states of matter; solutions; equilibrium; acids and bases; coordination chemistry. Prerequisite: Concurrent registration in CHEM 111 is suggested.

102. FUNDAMENTALS OF CHEMISTRY II. (3-0). Credit 3. (TCCNS CHEM 1312). Theory and applications of oxidation-reduction systems; thermodynamics and kinetics; complex equilibria and solubility product; nuclear chemistry; descriptive inorganic and organic chemistry. Prerequisites: CHEM 101, CHEM 111 or their equivalent.

107. GENERAL CHEMISTRY FOR ENGINEERING STUDENTS. (3-3). Credit 4. Introduction to important concepts and principles of chemistry; emphasis on areas considered most relevant in an engineering context; practical applications of chemical principles in engineering and technology. Students completing CHEM 107 and changing majors to curricula requiring CHEM 101 and CHEM 102 may substitute CHEM 107 for CHEM 101 and/or CHEM 101 /111. Students may not receive credit for both CHEM 107 and CHEM 101 and/or CHEM 101/111.

111. FUNDAMENTALS OF CHEMISTRY LABORATORY I. (0-3). Credit 1. (TCCNS CHEM 1111). Introduction to methods and techniques of chemical experimentation; qualitative and semiquantitative procedures applied to investigative situations. Prerequisite: CHEM 101 or registration therein.

112. FUNDAMENTALS OF CHEMISTRY LABORATORY II. (0-3). Credit 1. (TCCNS CHEM 1112). Introduction to analytical and synthetic methods and to quantitative techniques to both inorganic and organic compounds. Prerequisites: CHEM 101, 111; CHEM 102 or registration therein.

227. ORGANIC CHEMISTRY I. (3-0). Credit 3. (TCCNS CHEM 2323). Introduction to chemistry of compounds of carbon. General principles and their application to industrial and biological processes. Concurrent registration in CHEM 237 is suggested. Prerequisite: CHEM 102/112 or 104.

228. ORGANIC CHEMISTRY II. (3-0). Credit 3. (TCCNS CHEM 2325). Continuation of CHEM 227. Concurrent registration in CHEM 238 is suggested. Prerequisite: CHEM 227.

237. ORGANIC CHEMISTRY LABORATORY. (0-3). Credit 1. (TCCNS CHEM 2123). Operations and techniques of elementary organic chemistry laboratory. Preparation, reactions and properties of representative organic compounds. Prerequisites: CHEM 112 or 114; CHEM 227 or concurrent registration.

238. ORGANIC CHEMISTRY LABORATORY. (0-3). Credit 1. (TCCNS CHEM 2125). Continuation of CHEM 237. Prerequisites: CHEM 237; CHEM 228 or registration therein.

285. DIRECTED STUDIES. Credit 1-4. Introduction to research, library, and laboratory work. Prerequisite: Approval of MARS department head.

316. QUANTITATIVE ANALYSIS. (2-0). Credit 2. Introduction to methods of chemical analysis. Chemical equilibrium. Prerequisites: CHEM 102/112 or 104. Junior or senior classification or approval of instructor.

318. QUANTITATIVE ANALYSIS LABORATORY. (0-3). Credit 1. Laboratory work consists of selected experiments in quantitative analysis designed to typify operations of general application; work is primarily volumetric with limited gravimetric experiments. Prerequisites: CHEM 102/112 or 114; CHEM 315 or 316 or concurrent registration. Junior or senior classification or approval of instructor.

383. CHEMISTRY OF ENVIRONMENTAL POLLUTION. (3-0). Credit 3. Chemical pollutants in the air, in water, and on land. Their generation, chemical reactivity, action on environment and disappearance through chemical mechanisms. Chemistry of existing pollution abatement. Prerequisites: CHEM 228 or equivalent. Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit 1-4. Introduction to research, library, and laboratory work. Prerequisites: Senior classification; approval of MARS department head.

## **Civil Engineering (CVEN)**

311. FLUID DYNAMICS. (3-0). Credit 3. Fluid properties; statics; kinematics; basic conservation principles of continuity, energy and momentum; similitude and hydraulic models; incompressible flow in pipes; fluid dynamic drag. Prerequisites: ENGR 211 or 221. Junior or senior classification or approval of instructor.

336. FLUID DYNAMICS LABORATORY. (0-2) Credit 1. Introduction to laboratory techniques; calibration principles, reports and fluid measurements; determination of fluid properties; visualization of types of flow; experiments in closed conduit flow of air, water and oil; fluid drag and turbomachinery tests; open channel and gravity wave demonstrations. Prerequisite: Junior or senior classification or approval of instructor.

344. REINFORCED CONCRETE STRUCTURES. (2-3). Credit 3. Analysis and design of reinforced concrete beams, columns, slabs, and footings using ultimate strength methods. Prerequisites: CVEN 345. Junior or senior classification or approval of instructor.

345. THEORY OF STRUCTURES. (3-0). Credit 3. Structural engineering-functions of structure, design loads, reactions and force systems. Analysis of statically determinate structures; including beams, trusses, and arches. Methods of determining deflections of structures. Influence lines and criteria for moving loads. Analysis of indeterminate structures; including continuous beams and frames. Prerequisites: ENGR 211 or 221, MASE 214. Junior or senior classification or approval of instructor.

365. INTRODUCTION TO GEOTECHNICAL ENGINEERING. (2-2). Credit 3. Physical properties of soils, classification systems, soil exploration, permeability, consolidation, compaction, and shear strength. Laboratory tests conducted to determine the physical and engineering soil properties needed for application in geotechnical engineering design. Prerequisites: ENGR 211 or 221. Junior or senior classification or approval of instructor.

446. STRUCTURAL STEEL DESIGN. (3-0). Credit 3. Design of structural steel elements found in bridges and building structures, including plate girders, other build-up members, composite beams and slender columns; frame stability, tubular members and connections. Prerequisites: CVEN 345. Junior or senior classification or approval of instructor. (pending approval)

483. ANALYSIS AND DESIGN OF STRUCTURES. (2-3). Credit 3. Overall procedure of analysis and design; including functions, loads, layouts of force systems; analysis, design drafting, specifications, cost comparisons, and maintenance as applied to typical simple bridge and building structures. Prerequisites: CVEN 344, 346, 365. Junior or senior classification or approval of instructor.

### **Classics (CLAS)**

---

371. IN SEARCH OF HOMER AND THE TROJAN WAR. (3-0). Credit 3. The nature, background, authorship, and historically of the Iliad and the Odyssey, Aegean culture in the Stone, Bronze, and early Iron ages; the value of Greek epics as historical documents; oral poetry; the Trojan War in Greek literature, readings in English. Prerequisites: Junior or senior classification or approval of instructor.

### **Communications (COMM)**

---

203. PUBLIC SPEAKING. (3-0). Credit 3. (TCCNS SPCH 1321). Training in speeches of social and technical interest designed to teach students to develop and illustrate ideas and information and to inform, stimulate, and persuade their audiences.

### **Computer Science (CPSC)**

---

203. INTRODUCTION TO COMPUTING. (3-0). Credit 3. (TCCNS COSC 2304). Algorithms, programs, and computers. Basic programming and program structure. Data representation. Computer solution of numerical and non-numerical problems using a high-level programming language, FORTRAN.

285. DIRECTED STUDIES. Credit 1-6. Permits work on special projects in computing science. Project must be approved by MARS department head.

485. DIRECTED STUDIES. Credit 1-6. Permits work on special projects in computing science. Project must be approved by MARS department head. Prerequisite: Senior classification.

### **Developmental Studies (CAEX)**

---

001. BASIC MATHEMATICAL SKILLS. Credit 0. Developmental instruction in mathematics; includes the integers and rational numbers and applications, exponents, polynomials, solution of equations, graphing, elementary geometry, and reasoning skills. May not be used for credit toward a degree.

002. BASIC WRITING SKILLS. Credit 0. Individualized instruction in English composition based on an analysis of the student's proof-reading, revision, and editing skills; a programmed sequence of study and practice designed for improvement of writing performance through mastery of basic skills at word, sentence, paragraph, and multiparagraph levels. May not be used for credit toward a degree.

003. BASIC READING SKILLS. Credit 0. Individualized instruction in reading based on an analysis of the student's reading comprehension skills; study and practice of reading strategies designed to increase reading comprehension skills. May not be used for credit toward a degree.

### **Economics (ECON)**

---

202. PRINCIPLES OF ECONOMICS. (3-0). Credit 3. (TCCNS ECON 2302). Elementary principles of economics; the economic problem and the price system; theory of demand, theory of production and the firm, theory of supply; the interaction of demand and supply.

203. PRINCIPLES OF ECONOMICS. (3-0). Credit 3. (TCCNS ECON 2301). Measurement and determination of national income, employment, and price; introduction to monetary and fiscal policy analysis; the effects of government deficits and debt, exchange rates and trade balances. Prerequisite: ECON 202.

311. MONEY AND BANKING. (3-0). Credit 3. Fundamental principles of money, credit, and banking; arbitrage conditions in domestic and international capital markets; theoretical and institutional analysis of money markets. Prerequisite: ECON 203.

322. APPLIED MICROECONOMIC THEORY. (3-0). Credit 3. Use of microeconomic theory in the analysis of problems that would face decision makers, not only in business but also in government, non-profit firms and other institutions. Prerequisite: ECON 202.

323. MICROECONOMIC THEORY. (3-0). Credit 3. Determination of prices and their role in directing consumption, production, and distribution under both competitive and non-competitive market situations. Prerequisites: ECON 202 and MATH 142.

412. PUBLIC FINANCE. (3-0). Credit 3. Economic role of governments; the choice of public sector output in a democracy and the effects of various taxes on resource allocation and income distribution. Prerequisite: ECON 322.

452. INTERNATIONAL TRADE THEORY AND POLICY. (3-0). Credit 3. Basis for trade; theory of comparative advantage; determination of product and factor prices; gains from international trade; commercial policy and its implications for income distribution; concept of effective protection; market distortions, policy generated distortions and the arguments for tariffs. Prerequisite: ECON 322.

485. DIRECTED STUDIES. Credit 1-3. Research and design of specific problem areas approved on an individual basis with the intention of promoting independent study and to supplement existing course offerings. Results of study presented in writing. Prerequisite: Cumulative GPA of 2.5 or higher or approval of MARA department head.

### **Engineering Design Graphics (ENDG)**

---

105. ENGINEERING GRAPHICS. (0-6). Credit 2. (TCCNS ENGR 1204). Graphical approach to the engineering design process as applied to products; methods of graphical communications, three-dimensional geometry, working drawings, data analysis, computer graphics, introduction to team dynamics, and creative problem solving.

106. ENGINEERING DESIGN GRAPHICS. (0-6). Credit 2. Introduction to engineering design; product development and team dynamics using graphical methods and descriptive geometry. Spatial analysis of geometric elements, vectors, data analysis, and graphical applications to a variety of engineering areas. Prerequisite: ENDG 105.

## **Engineering (ENGR)**

---

109. ENGINEERING PROBLEM SOLVING AND COMPUTING. (2-3). Credit 3. Professional ethics, registration, and disciplines in engineering; engineering problem-solving environments (economic, political, technical, social), requirements, and methodologies; FORTRAN programming on PCs, minis and mainframes. Prerequisites: Admission to engineering curriculum and background in trigonometry.

111. FOUNDATIONS OF ENGINEERING I. (1-3). Credit 2. Introduction to the engineering profession, ethics, and disciplines; development of skills in teamwork, problem solving and design. Other topics included, depending on the major, are: emphasis on computer applications and programming, visualization and CAD tools, introduction to electrical circuits, semiconductor devices, digital logic, communications and their applications in systems; Newton's laws, unit conversions, statistics, computers, Excel; basic graphics skills; visualization and orthographic drawings. Co-requisite: MATH 151.

112. FOUNDATIONS OF ENGINEERING II. (1-3). Credit 2. Continuation of ENGR 111. Topics include, depending on the major: emphasis on computer applications and programming and solids modeling using CAD tools or other software; fundamentals of engineering science. advanced graphic skills. Prerequisite: ENGR 111, MATH 151.

211. CONSERVATION PRINCIPLES IN ENGINEERING MECHANICS. (2-2) Credit 3. Conservation principles in engineering and their application to the modeling of mechanical systems and structures; equations of motion for particles and rigid bodies; fundamentals of engineering mechanics. Prerequisites: ENGR 112, MATH 251 or 253 or concurrent registration, PHYS 218.

212. CONSERVATION PRINCIPLES IN THERMAL SCIENCES. (2-2) Credit 3. Theory and application of energy methods in engineering; conservation principles to investigate "traditional" thermodynamics and internal flow fluids. Prerequisites: Upper division status in major; MATH 251 or MATH 253 or concurrent registration; ENGR 211 or concurrent registration.

221. STATICS AND PARTICLE DYNAMICS. (2-2). Credit 3. Application of the fundamental principles of Newtonian mechanics to the statics and dynamics of particles and the equilibrium of trusses, frames, beams and other rigid bodies. Prerequisites: Admission to a major sequence in engineering; ENGR 112 or instructor approval; MATH 251 or 253 or concurrent registration; PHYS 218.

## **English (ENGL)**

---

104. COMPOSITION AND RHETORIC. (3-0). Credit 3. (TCCNS ENGL 1301). Focus on referential and persuasive researched essays through the development of analytical reading ability, critical thinking and library research skills.

203. INTRODUCTION TO LITERATURE. (3-0). Credit 3. (TCCNS ENGL 1302). Exploration of literature by genre and/or theme; literary analysis and interpretation; intensive writing about literature. Prerequisite: ENGL 104.

212. SHAKESPEARE. (3-0). Credit 3. Exploration of selected works of Shakespeare. Prerequisite: ENGL 104.

222. WORLD LITERATURE. (3-0). Credit 3. (TCCNS ENGL 2333). Representative works in translation of major authors from A.D. 1500 to present from various cultures, including such authors as Cervantes, Molière, Goethe, Tolstoy, Mahfouz, Munif, Achebe, Tolstaya, Vargas Llosa, and Duras. Prerequisite: ENGL 104.

228. AMERICAN LITERATURE: CIVIL WAR TO PRESENT. (3-0). Credit 3. (TCCNS ENGL 2328). Expressions of the American experience in realism, regionalism and naturalism; varieties of modernist and contemporary writing; the rise of ethnic literature and experimental literary forms; includes such writers as Dickinson, Twain, James, Crane, Frost, Eliot, Fitzgerald, Hemingway, Faulkner, O'Neill, Baldwin, and Rich. Prerequisite: ENGL 104.

236. INTRODUCTION TO CREATIVE WRITING: POETRY. (3-0). Credit 3. (TCCNS ENGL 2308). Initiation into the craft of poetry writing; extensive reading in the genre; peer workshops. Prerequisite: ENGL 104.

251. THE LANGUAGE OF FILM. (2-2). Credit 3. Development of the language of film: major movements, representative works, theory and techniques; lecture/discussion following film screenings. Prerequisite: ENGL 104.

253. INTRODUCTION TO CULTURAL STUDIES AND POPULAR CULTURE. (3-0). Credit 3. An introduction to the history, theories and methods of contemporary cultural studies. The course will explore key concepts in cultural theory to examine specific aspects of popular culture as well as cultural sites and practices so as to expand upon the analytical and critical thinking skills learned in ENGL 104 and 203. Prerequisite: ENGL 104.

285. DIRECTED STUDIES. Credit 1-3. Readings selected for specific need of major or minor in English.

301. TECHNICAL WRITING (3-0). Credit 3. Advanced writing in technical, scientific, and business fields; reports, proposals, and other papers; correspondence. Prerequisites: ENGL 104. Junior or senior classification or approval of instructor.

330. ARTHURIAN LITERATURE. (3-0) Credit 3. Legend of King Arthur in English and American literature from its Medieval origins to the present. Prerequisites: ENGL 104. Junior or senior classification or approval of instructor.

334. SCIENCE FICTION PAST AND PRESENT. (3-0). Credit 3. Origins and development of the science fiction genre, including such authors as Wells, Lewis, Clarke, Miller, and Le Guin. Prerequisites: ENGL 104. Junior or senior classification or approval of instructor.

335. LITERATURE OF THE SEA. (3-0). Credit 3. Significance of the sea in fictional and factual accounts, such as novels, short stories, poems, and narratives of sailors and seafaring life. Prerequisites: Three credits of literature at 200 level or above. Junior or senior classification or approval of instructor.

338. AMERICAN ETHNIC LITERATURE. (3-0). Credit 3. Multi-ethnic study of American Literature, the writings of Black Americans, American Indians, Mexican-Americans, Jewish Americans, as well as Euro-American ethnic groups. Prerequisite: ENGL 104.

339. AFRICAN-AMERICAN LITERATURE POST 1930. (3-0). Credit 3. Major works of the African-American literary tradition studied in their cultural and historical context, including such authors as Douglass, Du Bois, Hurston, Wright and Morrison. Prerequisite: Three credits of literature at 200-level or above.

374. WOMEN WRITERS. (3-0). Credit 3. History of literature by women in English primarily from the 16th century to the present; emphasis on continuity of ideas and on literary contributions; study of poetry, essays, novels, short stories, with particular attention to characteristic themes and to racial, social, cultural diversity of women writing in English. Prerequisites: ENGL 104. Junior or senior classification or approval of instructor.

415. STUDIES IN A MAJOR AUTHOR. (3-0). Credit 3. Exploration of a major author as a vehicle for emphasizing intensive analysis, scholarship and literary criticism. Prerequisite: Three credits of literature at 300-level or above.

485. DIRECTED STUDIES. Credit 1-3. Readings selected for specific need of major or minor in English. Prerequisite: Junior or senior classification or approval of instructor.

### **Finance (FINC)**

---

341. BUSINESS FINANCE. (3-0). Credit 3. Financial practices and financial management of modern business corporations; cash flow, planning, procurement of funds, management of long-term funds and working capital. Prerequisites: ACCT 229. Junior or senior classification.

### **Galveston Study Abroad (GALV)**

---

301. TAMUG STUDY ABROAD. (1-18). For students in approved study abroad programs, may be repeated for credit.

### **Geography (GEOG)**

---

201. INTRODUCTION TO HUMAN GEOGRAPHY. (3-0). Credit 3. (TCCNS GEOG 1302). A survey of the major systems of man-land relations of the world and their dissimilar developments. The processes of innovation, diffusion, and adaptation stressed with regard to changing relationships between people and their environment.

202. GEOGRAPHY OF THE GLOBAL VILLAGE. (3-0). Credit 3. (TCCNS GEOG 1303). Uses of resources; identification of problems pertaining to poverty, hunger, overpopulation; relations between nations and races, environmental destruction and violence within the major geographic regions of the world.

301. GEOGRAPHY OF THE UNITED STATES. (3-0). Credit 3. Geographic personality (physical and cultural) of the United States. Note: To be used as a humanities elective for any degree program. Prerequisite: Junior or senior classification or approval of instructor.

### **Geology (GEOL)**

---

104. PHYSICAL GEOLOGY. (3-3). Credit 4. Earth materials, structures, external and internal characteristics; physical processes at work upon or within the planet. A working knowledge of high school chemistry and mathematics is required.

285. DIRECTED STUDIES. Credit (1-4) each semester. Individually supervised research or advanced study on restricted area not covered in regular courses.

301. MINERAL RESOURCES. (2-3) Credit 3. Origin, geologic relations, geographic distribution, reserves and uses of exhaustible mineral and energy resources. Not available to geology majors. Prerequisite: Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit (1-4) each semester. Individually supervised research or advanced study on restricted area not covered in regular courses. Prerequisite: Junior or senior classification or approval of instructor.

### **History (HIST)**

---

105. HISTORY OF THE UNITED STATES. (3-0). Credit 3. (TCCNS HIST 1301 ). Colonial Heritage; revolution; adoption of Constitution; growth of nationalism and sectionalism; Civil War; reconstruction.

106. HISTORY OF THE UNITED STATES. (3-0). Credit 3. (TCCNS HIST 1302). Since reconstruction; new social and industrial problems; rise of progressivism; U.S. emergence as a world power; World War I; reaction and New Deal; World War II; contemporary America.

226. HISTORY OF TEXAS. (3-0). Credit 3. (TCCNS HIST 2301). History of Texas from Spanish period to present day. Stress placed upon period of Anglo-American settlement, revolution, republic, and development of modern state.

232. HISTORY OF AMERICAN SEA POWER. (3-0). Credit 3. Development of American sea power from the 18th century to the present.

370. CIVIL WAR AND RECONSTRUCTION. (3-0). Credit 3. Survey of background and causes of the war; military, political, economic, and diplomatic aspects of the war; life behind the lines; reconstruction and post-war adjustments, 1861-1877. Prerequisite: Junior or senior classification or approval of instructor.

373. THE GREAT DEPRESSION AND WORLD WAR II. (3-0). Credit 3. The United States, 1929-1945; cultural, social, economic, and political developments in the nation; global diplomacy and military strategy. Prerequisite: Junior or senior classification or approval of instructor.

374. THE UNITED STATES AFTER WORLD WAR II. (3-0). Credit 3. The United States since World War II; political, economic, cultural, and social changes and role as a world leader. Prerequisite: Junior or senior classification or approval of instructor.

405. HISTORY OF THE HOLOCAUST. (3-0). Credit 3. History of the Nazi Holocaust; Third Reich; Jewish ghetto life and concentration camps; role of the military, S.S. and German business; lessons and legacies. Prerequisite: Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit 1-3. Selected fields of history not covered in depth by other courses. Reports and extensive reading required. Prerequisites: Approval of department head. Junior or senior classification or approval of instructor.

### **Information and Operations Management (INFO)**

---

303. STATISTICAL METHODS. (3-0). Credit 3. Collection, tabulation, and presentation of numerical data; sampling, estimation of averages and variation, probability and error, hypothesis testing, and correlation. Prerequisites: MATH 142. Junior or senior classification.

336. DECISION SUPPORT SYSTEMS. (3-0). Credit 3. Application of quantitative decision-making techniques to management decision problems. Planning, analysis, and control of operating systems in organizational settings. Prerequisite: INFO 364 or concurrent registration.

364. OPERATIONS MANAGEMENT. (3-0). Credit 3. Concepts, issues and techniques used to plan, analyze, and control systems of production; operational problems in producing goods and services. Prerequisite: INFO 303 or concurrent registration.

485. DIRECTED STUDIES. Credit 1-4 each semester. Directed study of selected problems in an area of business analysis not covered in other courses. Prerequisites: Cumulative GPA of 2.5 or higher. Approval of instructor and MARA department head.

### **Kinesiology (KINE)**

---

198. HEALTH AND FITNESS ACTIVITY. (0-2). Credit 1. Half lecture; half activity; student choice of designated fitness or strength related activities; lecture portion covers current health topics.

199. REQUIRED PHYSICAL ACTIVITY. (0-2). Credit 1. (TCCNS PHED 1151, 1152, 1164, 1251, 1252, 1253, 2155, 2255). Selection from a wide variety of activities designed to increase fitness and/or encourage the pursuit of lifetime activity.

## **Management (MGMT)**

105. INTRODUCTION TO BUSINESS. (3-0). Credit 3. (TCCNS BUSI 1301). Survey of economic systems, forms of business ownership and running the small business; organizing and managing businesses; managing human resources; managing production and information; managing marketing; introducing financial issues including accounting, money, and banking, securities markets; business issues and challenges including legal and regulatory environment, business ethics, and international business.

211. LEGAL AND SOCIAL ENVIRONMENT OF BUSINESS. (3-0) Credit 3. (TCCNS BUSI 2302). Role of government in business and society; analysis of social policy and legal institutions; ethical problems in management decisions; administrative law; antitrust law; employment and discrimination law; regulation of business transactions; protection of property rights; regulation of information in markets including securities and product safety; international business law. Prerequisite: Sophomore classification.

481. SEMINAR IN MANAGEMENT. (1-0). Credit 1. Discussions and observation of current management practice in the public and private sectors of the nation. Reading and discussion of current events and changes taking place in management theory and/or its application and practice in actual business and government situations. May be repeated for credit. Prerequisite: MARA 466 or concurrent registration. Senior classification.

## **Marine Biology (MARB)**

101. SUCCEEDING IN SCIENCE. (1-0). Credit 1. An orientation of the biological sciences including the nature of science, functions of scientists, and a better understanding of the fundamentals of science. Students receive hands-on experiences that provide opportunities to work with faculty, graduate and other undergraduate students.

200. INTRODUCTION TO MARINE BIOLOGY: THE SEA WORLD EXPERIENCE. (3-3). Credit 4. Exploration of marine organisms, survey topics in vertebrate marine biology, and introduction to the role that aquatic oriented parks play in education, research and conservation. Students will have hands-on experiences by participating in aspects of maintaining aquatic organisms in captivity including animal care and nutrition, physiology, behavior, animal training and water quality. Exposure to marine organismal taxonomy, natural history, anatomy and ecology. Prerequisites: BIOL 111 with a >C average; GPA >2.0; freshman or sophomore status or instructor permission.

285. DIRECTED STUDIES. Credit 1-6 per semester. Special topics and problems in field and/or laboratory work suited to analysis by individuals or small groups concerning aspects of marine biology. Usually requires a report describing techniques and results. Only 3 credit hours may be used in the degree plan curriculum. Prerequisites: 2.25 GPR, Approval of instructor.

289. SPECIAL TOPICS IN MARINE BIOLOGY. Credit 1-4. Study of selected topics in an identified area of marine biology. Prerequisite: Approval of instructor.

300. SCIENTIFIC METHODS IN MARINE BIOLOGY. (1-3). Credit 2. An introduction to field, laboratory and analytical methods, equipment and instruments. The field portion will include making proper observations, sampling techniques, and data recording. The laboratory portion will include sample analysis methods, use of instruments, introduction to data analysis including elementary statistics, introduction to scientific literature and report writing style. Prerequisites: BIOL 111 and 112. Curriculum sophomore, junior or senior classification or approval of instructor.

301. GENETICS. (3-3). Credit 4. Fundamental principles of genetics; physical basis of Mendelian inheritance; expression and interaction of genes, linkage, sex linkage, biochemical nature of genetic material, and mutation. Prerequisites: MARS 360; CHEM 227, 228, 237 and 238. Curriculum sophomore, junior or senior classification or approval of instructor.

303. BIOSTATISTICS. (2-2). Credit 3. Introduction to sampling, experimental design, analysis of data, and testing of hypotheses, with emphasis on methods applied to biological investigations. Parametric and non-parametric techniques. Descriptive statistics, analysis of variance, correlation and regression. Prerequisites: MATH 151, three credit hours of computer science. Curriculum sophomore, junior or senior classification or approval of instructor.

310. INTRODUCTION TO CELL BIOLOGY. (3-3). Credit 4. Cellular structure/function; procaryotic vs. eucaryotic cells. Examination of cellular membranes and membrane transport. Analysis of DNA replication, transcription, and protein translation (an extension of their treatment in MARB 301). Introduction to the components and genetics of immunology. Cell Biology should precede or be concurrent with enrollment in MARB 450. Prerequisites: BIOL 111, BIOL 112, CHEM 228, MARB 301, MARS 360. Junior or senior classification or approval of instructor.

311. ICHTHYOLOGY. (3-3). Credit 4. Freshwater and marine fishes. Subject will be mainly systematic, but evolution, ecology, life history, and economics of more important species will be treated. Prerequisites: BIOL 111, 112 and MARB 315. Curriculum sophomore, junior or senior classification or approval of instructor.

312. FIELD ICHTHYOLOGY. (3-3). Credit 4. Field and laboratory studies on identification and ecology of freshwater and marine fishes of Texas. Field trips required. Prerequisites: MARB 311. Curriculum sophomore, junior or senior classification or approval of instructor.

315. NATURAL HISTORY OF VERTEBRATES. (3-3). Credit 4. Natural history of fishes, amphibians, reptiles, birds, and mammals, with emphasis on coastal Texas vertebrates. Prerequisites: BIOL 111 and 112. Curriculum sophomore, junior or senior classification or approval of instructor.

320. FISHERIES TECHNIQUES. (3-3). Credit 4. An introduction to theory and techniques in fisheries biology and ecology. Experience with fisheries equipment and techniques will be provided in both field and laboratory. Practical sampling design, collection, and interpretation of data from estuarine, coastal and offshore environments will be addressed. Prerequisites: BIOL 111, 112, MARB 311. Junior or senior classification or approval of instructor.

325. BIOSPELEOLOGY. (3-3). Credit 4. A field-oriented introduction to the biology of aquatic and terrestrial cave organisms with discussions on the origin of caves, cave environment, cave fauna, and evolution. Field trips required. Prerequisites: BIOL 112, CHEM 101, GEOL 104. Junior or senior classification or approval of instructor.

330. PHYSIOLOGICAL ECOLOGY. (3-0). Credit 3. Examination of how ecological pressures dictate individual and interorganismal physiological processes that lead to individual and community adaptation. Discussion of the physiological interrelationships between members of an ecological community. Attention will be directed toward physiological systems of plants and animals. Prerequisites: BIOL 111 and 112. Junior or senior classification or approval of instructor.

334. BIOLOGY OF SEA TURTLES. (3-3). Credit 4. Living sea turtles of the world, with emphasis on species in the Atlantic, Gulf and Caribbean basins. Emphasis includes phylogeny, population biology, ecology, life history, behavior, social and economic aspects and their impact on sea turtle conservation and recovery. Prerequisites: BIOL 11 and 112, MARB 315 or instructor approval.

335. FISH PHYSIOLOGY. (3-0). Credit 3. Study of the basic physiology of fishes. Examination of fish cardiovascular, renal, digestive, locomotor, reproductive, and central/peripheral nervous systems. Discussion of physiological adaptations enhancing survival in a water medium. Prerequisites: BIOL 111 and 112 or MARB 311. Junior or senior classification or approval of instructor.

340. TROPICAL MARINE ECOLOGY. (1-9). Credit 4. This course provides for field-oriented experience in coral reef, mangrove, sea grass and other tropical marine ecosystems. Special emphasis will be placed on biodiversity, ecology and conservation issues specific to Yucatan Peninsula of Mexico. Prerequisites: BIOL 111, 112. All students who dive must either be a current AAUS scientific diver or present a current medical examination (which will be provided by the Diving Safety Officer or instructor) completed within the past 12 months and signed by a doctor, to the instructor before class participation in the pool will be allowed. Prior to using scuba equipment, all students must provide proof of open water certification or equivalent diving experience (advanced certification recommended). Permission of the instructor and the Diving Safety Officer is required before any pool activity takes place. Divers Alert Network insurance, or equivalent, is required.

345. INTRODUCTION TO SCIENTIFIC DIVING. (3-3). Credit 4. Prepare and qualify divers for entry into the TAMUG Scientific Diving Program. Students must pass medical, swimming, skin diving and scuba diving tests. Lectures include diving equipment, physics, physiology, medicine, regulations, environment, emergency and decompression procedures. Prerequisites: BIOL 111, PHYS 201, advanced scuba certification. Junior or senior classification or approval of instructor. All students must present a current medical examination (which will be provided by the Diving Safety Officer or instructor) completed within the past 12 months, to the instructor before class participation in the pool will be allowed. Prior to using scuba equipment, all students must provide proof of basic certification. Permission of the instructor and the Diving Safety Officer is required before any pool activity takes place. Divers Alert Network insurance, or equivalent, is required.

350. METHODS IN RESEARCH DIVING. (2-6). Credit 4. Survey of research methods and techniques using diving. Lecture and lab designed to train students in safe, efficient use of diving to collect and record data underwater for studies primarily in biology, geology, and archaeology. Prerequisites: MARB 345. Junior or senior classification or approval of instructor. All students must present a completed medical examination (Appendices 1-4 in the TAMUG diving manual) signed by a doctor, to the instructor before class participation in the pool will be allowed. Prior to using scuba equipment, all students must provide proof of advanced open water certification or equivalent diving experience. Permission of the instructor and the Diving Safety Officer is required before any pool activity takes place. Divers Alert Network insurance, or equivalent, is required.

360. MARINE CONSERVATION BIOLOGY. (3-3). Credit 4. Lectures and laboratories cover the major principles of conservation biology; a new synthetic field that applies concepts of ecology, systematics and evolution, biogeology, genetics, behavioral sciences, and social sciences to the conservation of marine fisheries resources. Lab exercises include morphometric and genetic variation, GIS, molecular systematics and phylogenetic inference. Prerequisite: Junior or senior classification or approval of instructor.

400. BIOLOGY OF MARINE MAMMALS. (3-3). Credit 4. A broad-spectrum course on the taxonomy, evolution, morphology behavior, and ecology of marine mammals, including sirenians, carnivores, baleen and toothed whales and dolphins. Prerequisite: BIOL 111 and 112, MARB 315, 410. Junior or senior classification or approval of instructor.

401. PHYSIOLOGICAL ECOLOGY OF MARINE MAMMALS. (3-0). Credit 3. Anatomy, taxonomy, phylogeny and physiological adaptations of marine mammals. Prerequisites: BIOL 111, 112, and MARB 315. Junior or senior classification or approval of instructor.

402. GENERAL MAMMALOLOGY. (2-3) Credit 3. Mammalian biology; evolution, classification, biogeography, reproduction, physiology, ecology, and behavior; focuses on basic concepts necessary for a foundation in both wildlife science and biology. Prerequisites: MARB 315. Junior or senior classification or approval of instructor.

403. CETACEAN BEHAVIOR AND BEHAVIORAL ECOLOGY. (3-3). Credit 4. This course consists of lecture of up to date descriptions of Cetacean behavior and ecology; and of labs that evaluate the literature of topics of present relevance. Prerequisite: MARB 315. Junior or senior classification or approval of instructor.

405. MARINE PARASITOLOGY. (3-3). Credit 4. Fundamentals of parasitology, with emphasis on marine applications. Survey of major parasites of marine animals and the diseases they cause, especially in ecologically and commercially-important host species. Prerequisites: BIOL 112. Junior or senior classification or approval of instructor.

408. MARINE BOTANY. (3-3). Credit 4. Morphology, systematics, ecology, and biochemistry of representative algae, fungi, and submarine grasses. Prerequisites: BIOL 112. Curriculum sophomore, junior or senior classification or approval of instructor.

410. ANIMAL BEHAVIOR. (2-3). Credit 3. Examination of ethological concepts. Discussion of the development, genetics, physiology, and evolution of animal behavior patterns involved in reproduction, territoriality, aggression, communication, population dispersion, sociality, and sociobiology of invertebrates and vertebrates. Prerequisites: BIOL 112. Curriculum sophomore, junior or senior classification or approval of instructor.

412. SOCIOBIOLOGY OF REPRODUCTION. (3-0). Credit 3. Application of sociobiological concepts to examine the evolution and adaptive significance of reproductive strategies utilized by marine and terrestrial animals. Strategy-influencing factors to be discussed include: mate selection and competition, sex roles, bonding, parental investment in offspring, and socialization. Prerequisites: BIOL 112, MARB 301 or equivalent, or concurrent registration. Curriculum sophomore, junior or senior classification or approval of instructor.

414. TOXICOLOGY (3-0). Credit 3. This course presents the history and scope of toxicology as it applies to mammals. Where possible, marine species will be used for examples and assigned papers. Prerequisites: BIOL 111, BIOL 112, CHEM 227, CHEM 228. (Pending approval).

420. COMPARATIVE ANIMAL PHYSIOLOGY. (3-3). Credit 4. Principles of animal physiology are examined using invertebrate and vertebrate model systems. Topics include osmoregulation in marine vs. freshwater vs. terrestrial organisms, excretion, fluid circulation, nervous system structure and function, muscle activity, sensory neurobiology, and endocrine mediation. Prerequisites: BIOL 112, CHEM 228, MARB 310, MARS 360. Junior or senior classification or approval of instructor.

423. MARICULTURE. (3-3). Credit 4. Study of factors determining the success of efforts to cultivate estuarine and marine species of economic importance. Mariculture practices used worldwide in the production of algae, mollusks, crustaceans, and fishes will be discussed. Prerequisite: Junior or senior classification or approval of instructor.

425. MARINE ECOLOGY. (3-3). Credit 4. Relationship between various marine environments and their inhabitants; intra- and interspecific relationships between organisms; structure and function among marine communities. Laboratory emphasis is placed on study of living material and natural habitats in the Gulf of Mexico. Prerequisites: MARB 315, 408, 435; ENGL 301; curriculum senior or approval of instructor.
426. AQUATIC ANIMAL NUTRITION. (3-0). Credit 3. Chemistry, digestion, absorption and intermediary metabolism of nutrient classes with special emphasis on their relationship to warmwater fish nutrition. Determination of nutrient requirements, feed evaluation, feed processing, ration formulation and feeding practices. Prerequisites: CHEM 227. Junior or senior classification or approval of instructor.
430. COASTAL PLANT ECOLOGY. (3-3). Credit 4. Study of the identification, distribution, production, and ecological importance of estuarine, coastal marsh, and dune vascular plants; the interaction of plants with their abiotic and biotic environments; and techniques of vegetation management and evaluation. Prerequisites: BIOL 112. Junior or senior classification or approval of instructor.
431. WETLANDS ECOLOGY, MONITORING, AND DELINEATION. (2-6). Credit 4. Study of the characteristics and importance of wetlands and methods for delineating, monitoring, and evaluating wetlands. Students will become knowledgeable in wetland soils, plants, ecological interactions of wetlands and other habitats and animals, and the laws pertaining to obtaining permits and managing wetlands of the U.S. Prerequisites: BIOL 111 and 112. Junior or senior classification or approval of instructor.
432. GIS USE IN COASTAL RESOURCES. (2-3). Credit 3. Basic concepts of design, planning, and integration of Geographical Information Systems in management of biological systems in coastal environments. Students are taught to input data into GIS, organize the data, and analyze, query, and manage data sets. Prerequisite: Junior or senior classification or approval of instructor.
435. MARINE INVERTEBRATE ZOOLOGY. (3-3). Credit 4. General biology of marine invertebrate animals; morphology, evolution, and systematics. Laboratory will stress studies of local fauna. Prerequisites: BIOL 111 and 112. Junior or senior classification or approval of instructor.
436. NON-VERTEBRATE FISHERIES. (3-3). Credit 4. A survey of the history and importance of harvesting commercially important algae and invertebrates, with an assessment of the current status, problems and prospects for each fishery. Identification, distribution and biology of commercially important species will also be addressed. Prerequisites: BIOL 111 and 112. Junior or senior classification or approval of instructor.
437. PATHOLOGY OF MARINE ANIMALS. (3-3). Credit 4. An introduction to the structural and functional changes in cells, tissues and organ systems of marine invertebrates and vertebrates as they relate to disease and/or injury. Mechanisms of disease and identification of lesions in common diseases and human-induced injuries will be included. Laboratory will consist of gross and microscopic aspects of pathology in both invertebrate and vertebrate animals. Prerequisites: MARB 315, 435, MICR 351. Junior or senior classification or approval of instructor.
438. COASTAL ORNITHOLOGY. (2-3). Credit 3. Field and laboratory studies on the identification, classification, distribution and ecology of birds with special emphasis on birds of the Texas Gulf Coast. Classroom lectures to include anatomy, physiology, behavior and migration. Field trips required. Prerequisites: MARB 315. Junior or senior classification or approval of instructor.
445. MARINE FISHERIES MANAGEMENT. (3-3). Credit 4. Basic knowledge from marine ichthyology, biology of fishes and biological oceanography related to applied aspects of marine fisheries sciences. Emphasis placed on management techniques applicable to tidal-influenced inland water, estuaries, and oceans. Prerequisite: Junior or senior classification or approval of instructor.
454. ORNAMENTAL FISH HEALTH MANAGEMENT. (3-0). Credit 3. Maintenance and health care of ornamental fish in closed recirculating systems; aquariology, anatomy and physiology, nutrition, immunology, infectious and noninfectious diseases, checklists, quarantine procedures and health maintenance of ornamental fish. Prerequisites: MICR 351 and MARS 360. Junior or senior classification or approval of instructor.
460. FISHERIES POPULATION DYNAMICS. (3-3). Credit 4. An introduction to the behavior of populations. Classical and recent population theories will be discussed in lecture. In lab, extant and programs written by students will be used to explore population behavior and interactions. Prerequisites: MATH 151. Senior classification or approval of instructor.
466. EVOLUTIONARY BIOLOGY. (3-0). Credit 3. A conceptual examination of evolutionary theory, not a survey of specific organismal evolutions. Evidence for the abiotic origin of life is presented, followed by a discussion of micro-evolutionary (including drift and natural selection) and macro-evolutionary (including evolutionary trends) mechanisms. The course concludes with application of these concepts to human evolution. Prerequisites: BIOL 111 and 112. Junior or senior classification or approval of instructor. MARB 301 is recommended but not required.
482. SEMINAR IN MARINE BIOLOGY. (1-0). Credit 1. Compilation of literature pertaining to topics in marine biology. Emphasis placed on preparation of a written report and presentation of a synopsis of that report. Prerequisite: Junior or senior classification or approval of instructor.
484. UNDERGRADUATE INTERNSHIP. Credit 1-9. Supervised study in a research or teaching laboratory remote from TAMUG. Student involvement is to consist of real-life learning or marine biological research, teaching, management, or a combination of these. Prerequisite: Junior or senior classification or approval of instructor.
485. DIRECTED STUDIES. Credit 1-6 per semester. Special topics and problems in field and/or laboratory work suited to analysis by individuals or small groups concerning aspects of marine biology. Usually requires a report describing techniques and results. Only 3 credit hours may be used in the degree plan curriculum. Prerequisites: 2.25 GPR. Curriculum sophomore, junior or senior classification or approval of instructor.
489. SPECIAL TOPICS IN MARINE BIOLOGY. Credit 1-4. Study of selected topics in an identified area of marine biology. Prerequisite: Junior or senior classification or approval of instructor.
491. RESEARCH IN MARINE BIOLOGY. Credit 1 to 4. Research conducted under the direction of faculty member in Marine Biology. May be repeated 2 times for credit. Please see academic advisor in department. Registration in multiple sections of this course is possible within a given semester provided that the per semester credit hour limit is not exceeded. Prerequisites: Junior or senior classification and approval of instructor.
606. ADVANCED CONCEPTS IN MARINE POPULATION BIOLOGY. (3-0). Credit 3. Novel Approaches and concepts employed studying factors affecting recruitment, determining trophic relationships (e.g., stable isotopes), and the consequences, at various levels, of changes in abundance of marine populations, including ecological (community), population (Allee effects) and genetic (effective population

size). Inference of population connectivity determined through the use of electronic tags and molecular techniques is also examined. Prerequisite: B.S. Marine Biology or Marine Science or approval of instructor

616. INTRODUCTION TO METHODS IN SCIENTIFIC DIVING. (2-3). Credit 3. This course prepares students to use SCUBA as a research tool for the marine sciences in compliance with University, American Academy of Underwater Sciences and Federal OSHA standards. Practical work in pool and open waters will complement academic experience and provide training towards scientific diver status. Prerequisite: Advanced scuba certification.

617. RESEARCH DIVING METHODS. (0-6). Credit 2. Field experience in a wide range of research diving environments stressing dive planning and safety, buoyancy control, equipment configuration and scientific methodology in biological, physical, chemical, archaeological and geological sciences. Students will design, supervise and conduct independently developed scientific diving projects. Prerequisite: MARB 616 or equivalent.

620. MARINE BIOLOGICAL RESOURCES. (3-0). Credit 3. An introduction to biological resources which can be recovered from the marine environment to provide food, biomass and materials, recreation, and employment to the coastal United States and other regions. With emphasis on fisheries and hatcheries, in: oceanic resources, coastal and estuarine resources, and mariculture. Natural and societal limitations to resource recovery are investigated, and environmental impacts are analyzed. Prerequisites: (at least 3 of these) CHEM 102, BIOL 112, GEOL 104 and/or OCNG 251; graduate status or special approval.

651. SHORE AND ESTUARINE FISHES OF THE GULF OF MEXICO. (2-6) Credit 4. Taxonomy, ecology and zoogeography of fishes inhabiting estuarine and marine ecosystems of the northwestern Gulf of Mexico. Particular emphasis on community structure and factors affecting spatial and temporal abundance of fishes found along the Texas coast. Prerequisites: MARB 311 or equivalent; approval of instructor.

654. COASTAL PLANT ECOLOGY. (3-3). Credit 4. Study of estuarine, coastal and dune plant communities and associated environmental factors affecting plants including the identification, distribution, ecological importance and management techniques of vascular plants in these communities. Prerequisites: Graduate standing; permission of instructor.

655. WETLANDS ECOLOGY, MONITORING AND DELINEATION. (2-3). Credit 4. Study of the characteristics and importance of wetlands, and methods of delineating, monitoring and evaluating wetlands. Students will learn wetland plants, soils, hydrology, ecology, inhabiting animals, delineation techniques, laws, permits required for impacts, mitigation and management techniques. Prerequisite: Graduate standing.

656. TROPICAL MARINE ECOLOGY. (1-6). Credit 3. Field oriented experience in coral reef, mangrove, sea grass, cave and other tropical marine ecosystems. Special emphasis will be placed on biodiversity, ecology and conservation issues specific to the Yucatan Peninsula of Mexico. This course will involve one week of course work in Galveston and a two-week field trip to Akumal on the Caribbean coast of Yucatan. Students will design, supervise and conduct an independently developed research project. Prerequisite: Scuba Certification.

662. BIOLOGY OF THE MOLLUSCA. (3-3). Credit 3. Survey of mollusks including their morphology, ecology, physiology and reproduction. Emphasis on marine species of ecological and commercial importance. Prerequisite: MARB 435 or MARB 665 or equivalent.

665. BIOLOGY OF INVERTEBRATES. (3-3). Credit 4. Morphology, biology and phylogeny of invertebrates. Topics may be either detailed discussions/dissections of specific organisms or comparative information on a process. Prerequisites: MARM 435 or ZOOL 335 or equivalent; approval of instructor.

667. BIOLOGY OF MARINE ANNELIDA. (3-3). Credit 4. Survey of Marine Annelids including their behavior, organ systems physiology and reproduction. Emphasis on morphology and taxonomy of polychaetous annelids to enable students to move more rapidly and accurately analyze benthic assemblage data. Prerequisites: MARM 435 or ZOOL 335 or equivalent; approval of instructor.

681. SEMINAR IN MARINE BIOLOGY. (1-0). Credit 1. Detailed reports on specific topics within the field of marine biology. Students may register in no more than two sections of this course in a given semester. Prerequisite: Graduate Standing.

684. PROFESSIONAL INTERNSHIP. Credit 1-9. On the job training in the field of marine biology. Prerequisites: Graduate standing; approval of instructor.

685. DIRECTED STUDIES. Credit 1-6. Limited investigations in fields other than those chosen for the thesis or dissertation topic. May be repeated for credit. Prerequisites: Graduate standing; approval of instructor.

689 SPECIAL TOPICS IN. Credit 1-3. Selected topics in an identified area of marine biology. Prerequisites: Graduate standing; approval of instructor.

691 RESEARCH FOR THESIS OR DISSERTATION. Credit 1-9. MARB 691 is the designated field and/or laboratory research leading to the M.S. or Ph.D. degree. MARB 691 may be offered by any faculty member in MARB and may be offered as many times as necessary in a given semester. MARB 691 may be repeated for credit by a student. Prerequisites: Graduate standing; approval of instructor.

### **Marine Engineering Technology (MARE)**

100. MARINE ENGINEERING FUNDAMENTALS. (2-3). Credit 3. A study of basic marine engineering systems, with emphasis on propulsion plants. Introduction to propulsion plant machinery, watchstanding organization and duties, shipboard safety practices and equipment.

102. INTRODUCTION TO MECHATRONICS. (0-6). Credit 2. Use of word processing, spreadsheet, CAD, and data acquisition. Engineering ethics. Presentation of engineering data. The design process; generation of ideas, analysis of alternatives, prototype construction, testing and presentation. Writing proposals and progress report. VI construction applied to marine engineering field. Voltage, current, power. Prerequisites: ENDG 105, MARE 100.

180. BASIC MACHINE SHOP TECHNIQUES. (0-3). Credit 1. Safety, care of machines and hand-tools, cutting speeds and feeds, measuring instruments, gauging, standard machine tool work in metals, layouts, drilling, tapping, threading, vertical and horizontal milling and shaving.

200. BASIC OPERATIONS. Credit 4. Practical application of student's classroom studies while at sea on training ship during sea-training period. Student required to complete several projects relating to engineering plant of ship. Prerequisite: NAUT 103.

203. DIESEL ENGINE TECHNOLOGY. (2-3). Credit 3. Basic principles of two- and four-stroke diesel engines; intake, scavenging and exhaust systems, injection systems; starting and reversing methods; cooling and lubricating systems; engine room layout in modern motor vessels.

205. ENGINEERING MECHANICS I. (3-0). Credit 3. Statics, basic vector operations, mechanics of particles and rigid bodies. Center of gravity, analysis of structures, friction, moments of inertia. Prerequisites: MATH 151, PHYS 218.

206. ENGINEERING MECHANICS II. (3-0). Credit 3. Dynamics; scalar and vector solutions of relative linear velocities and acceleration; kinetics; dynamics of translation and rotation; work; energy; impact; momentum. Prerequisite: MARE 205.

207. ELECTRICAL POWER I. (2-3). Credit 3. Application of circuit analysis principles to DC and AC circuits having sources and passive inductors, resistors and capacitors; electrical instrumentation; power and voltage/current phase relationships in AC circuits; balanced three-phase AC power circuits; cable sizing. Prerequisites: MATH 151 and PHYS 208.

209. MECHANICS OF MATERIALS. (2-3). Credit 3. Introduction to the study of stresses, strains, and deformation of a solid body which results when static forces are applied. Transformation of stresses and strains, torsion, beam deflection, and combined loadings are discussed. Prerequisite: MARE 205.

242. MANUFACTURING METHODS I. (0-3). Credit 1. Introduction to manufacturing methods used in marine industries emphasizing fabrication techniques including oxy-acetylene cutting and welding, brazing, arc welding, pipe welding and sheet metal fabrication. Laboratory exercises will develop the knowledge and skills needed to perform fabrication operations, routine maintenance and emergency repairs of marine engineering structures and systems. Prerequisite: None.

243. MANUFACTURING METHODS II. (1-3). Credit 2. Continued introduction to manufacturing methods used in marine industries including machine, foundry and forge work and other manufacturing technologies. Laboratory emphasizes machine shop practices including safety, use and care of machine and hand tools; measuring instruments, layout, gauging, cutting speeds and feeds, drilling, tapping, threading, turning and milling. Prerequisite: MARE 242.

261. ENGINEERING ANALYSIS. (3-0). Credit 3. Review of mathematical concepts previously studied (e.g., complex quantities, vectors and calculus), coupled with study of advanced concepts (e.g., differential equations, Laplace Transforms, statistics and numerical methods) with a view to emphasize applications in nuclear engineering, electrical engineering, thermodynamics, heat transfer and turbine theory. Prerequisite: MATH 152 or 161.

280. WELDING TECHNIQUES. (0-3). Credit 1. To introduce students to the materials, equipment and techniques of welding and brazing and to develop skills required by the marine engineer for this work in the engine room of commercial ships.

285. DIRECTED STUDIES. Credit 1-3 each semester. Special problems in marine engineering technology not covered by any other course in the curriculum. Work may be in either theory or laboratory. Prerequisite: Approval of department head.

289. SPECIAL TOPICS. Credit 1-4 each semester. Selected topics in an identified area of marine engineering technology. May be repeated for credit. Prerequisite: Approval of instructor..

295. ELECTROMECHANICAL SYSTEMS FOR MARINE TECHNOLOGISTS. (3-0). Credit 3. Practical solutions of physical models of electromechanical systems; steady state and transient response of linear electrical and mechanical systems; elements of periodic and random excitations and techniques for practical solutions; computer modeling of elementary continuous systems. Prerequisites: MATH 161 and PHYS 218; PHYS 208 or concurrent registration.

300. INTERMEDIATE OPERATIONS. Credit 4. Training program for second sea-training period. Sea project required of each student under supervision of officer-instructors. Lifeboat and safety training. Prerequisite: Junior or senior classification or approval of instructor.

303. MARINE THERMODYNAMICS. (3-0). Credit 3. Energy concepts. First and second law of thermodynamics. Carnot and Rankine principles and reversible heat cycles. Properties and processes of vapors, vapor-power cycles, and vapor refrigeration cycles. Prerequisites: MATH 161. Junior or senior classification or approval of instructor.

304. MARINE THERMODYNAMICS AND HEAT TRANSFER. (3-2). Credit 4. Advanced topics in gas dynamics: flow through nozzles and through compressor and turbine blades, compressible duct flow with friction. Study of gas mixtures and chemical combustion. Thermodynamics of propulsion systems, elements of heat transfer and heat exchanger analysis. Prerequisites: MASE 303. Junior or senior classification or approval of instructor.

305. FLUID MECHANICS THEORY. (3-3). Credit 4. Theory of incompressible and compressible fluid flow, introduction to fluid power systems and controls, and dynamics of turbomachinery. Mathematical analysis of piping systems to determine pump head, system resistance, and pipe sizing optimization. Topics include physical properties of fluids, continuity equation, Bernoulli's Equation, Darcy's Equation, series and parallel flow, relative roughness, friction factors, dimensional analysis, and laws of similitude. Prerequisite: Junior or senior classification or approval of instructor.

306. ELECTRICAL POWER II. (2-3). Credit 3. Electrical power generation and distribution; AC and DC rotating machinery; transformers; controllers and safety devices; operation, maintenance and repair procedures and practices; static converters AC/DC and DC/AC that are used in modern electric propulsion systems. Prerequisite: MARE 207.

307. MARINE ELECTRONICS. (2-3). Credit 3. Introduction to the theory of electronic circuits. Fundamentals and basic concepts of semiconductors; solid-state components; power supplies; amplifiers; inverters; rectifiers; oscillators; digital and analog integrated circuits. Application in automation, motor controllers, battery-charging systems, communications; and propulsion plant monitoring systems. Prerequisite: MARE 207.

309. MARINE CONSTRUCTION MATERIALS. (2-3). Credit 3. Introduction to materials science and engineering, structural, property relationships; advanced manufacturing techniques from the point of view of marine applications such as subsea pipelines, ship hulls, etc.; corrosion and biofouling. Laboratory includes experimental testing of materials properties, materials syntheses and heat treatment techniques. Prerequisite: MARE 209.

311. STEAM PROPULSION PLANTS. (2-3). Credit 3. Comprehensive study of fossil fuel steam generators, propulsion turbines and condensers, reduction gears, line shafting. Studies include internal fittings and fluid flow paths, automatic controls; regulatory requirements for safety device settings, and system tests and inspections. Additional topics include boiler water-feed water test and treatment, and turbine/reduction gear lubrication. Laboratory includes computer-aided heat balance and parametric analysis of plant performance. Prerequisites: MARE 303. Sophomore, junior or senior classification or approval of instructor.

312. DIESEL PROPULSION PLANTS. (2-3). Credit 3. Comprehensive study of diesel propulsion plants, including direct-drive low speed diesels, geared medium speed diesels, waste heat recovery systems, engine reversing methods, and heavy fuel processing. Laboratory includes computer-aided parametric analysis of engine performance and use of a low-speed diesel propulsion plant simulator. Prerequisites: MARE 304, 305. Junior or senior classification or approval of instructor.

313. HEAT TRANSFER. (2-3). Credit 3. Introduction to heat transfer; basic heat transfer modes and different solution techniques; introduction to 1-D and 2-D heat conduction in transient and steady state conditions; fundamentals of convection heat transfer under different flow conditions; forced convection in internal and external flows; analysis and selection of heat exchangers; introduction to thermal radiation heat transfer. Prerequisites: MARE 261 and MARE 305 or concurrent enrollment.

395. ELECTROMECHANICAL SYSTEMS FOR TECHNOLOGISTS. (3-0). Credit 3. Practical solutions of physical models of electro-mechanical systems; steady state and transient response of linear electrical and mechanical systems; elements of periodic and random excitations and techniques for practical solutions; computer modeling of elementary continuous systems. Prerequisites: MATH 161, PHYS 218, 219 or 208. Junior or senior classification or approval of instructor.

400. ADVANCED OPERATIONS. Credit 4. Training program for third sea-training period. At the end of this period each student will have achieved the knowledge and will have demonstrated the ability to take complete charge of a modern marine power plant while underway at sea. Prerequisite: Junior or senior classification or approval of instructor.

401. MARINE AUXILIARY SYSTEMS. (2-3). Credit 3. Study of the principal shipboard auxiliary systems, including: auxiliary fired-boilers, sea water service, ballast, freshwater service, lubricating oil, fuel oil storage and transfer, distilling, and steering systems. Major components, operation and maintenance, and interrelationship with other auxiliary systems are covered. Additional topics include steam turbine, gas turbine, and diesel-driven electric power generators and support systems, as well as propulsion train power take-off type electric power generation systems. Prerequisites: MARE 304, 305. Junior or senior classification or approval of instructor.

402. SHIPBOARD AUTOMATION AND CONTROL. (3-0). Credit 3. Study of automation in marine power plants; including electronic and pneumatic proportional, integral and derivative control elements; applications in boiler combustion and water level control; engine speed control; remote sensing and performance monitoring systems. Prerequisites: MARE 307, 311, 312. Junior or senior classification or approval of instructor.

403. MARINE TECHNOLOGY AND THE ENVIRONMENT. (3-0). Credit 3. Study of environmental protection requirements such as the Oil Pollution Act of 1990, Code of Federal Regulations, and international agreements and conventions addressing prevention of pollution of the seas by oil and sewage. In addition, atmospheric pollution from propulsion plant exhaust gas is addressed. Ships' structure and systems, operational requirements, and licensed-officer liabilities are discussed. Prerequisite: Junior or senior classification or approval of instructor.

404. MARINE AIR CONDITIONING & REFRIGERATION. (3-0). Credit 3. Study of refrigeration processes, refrigerants, psychometrics, air conditioning and refrigeration systems, and operation and maintenance of AC&R systems. Prerequisites: MARE 304. Junior or senior classification or approval of instructor.

405. FUNDAMENTALS OF NAVAL ARCHITECTURE. (3-0). Credit 3. Ship geometry and arrangement; ship-form calculations; intact and damaged stability; ships' structure; fundamentals of resistance and propulsion; ship motion, maneuverability, and control; introduction to ship design, construction, and overhaul. Prerequisites: Junior or senior classification or approval of instructor.

406. MARINE ENGINEERING TECHNOLOGY PROJECTS. (3-0). Credit 3. Team approach to analysis and design of basic marine industry-level projects, in particular marine propulsion plants including efficiency enhancement for conventional steam and diesel plants, regenerative and steam injected gas turbine propulsion plants, and combined cycle plants. Additional topics include transmission and drive systems, and propulsors; integration of concepts learned in previous required courses; capstone learning experience. Prerequisites: MARE 311, 312, and MARE 401. Junior or senior classification or approval of instructor.

441. ENGINEERING ECONOMICS AND PROJECT MANAGEMENT. (3-0). Credit 3. Analysis of engineering economics and management, using costs and benefits of various engineering options. Topics include time value of money, cash flows, analysis techniques, interests rates, inflation, depreciation, optimization, statistics, network analysis and critical path programming. Prerequisite: Junior or senior classification or advisor approval. (pending approval)

451. SENIOR DESIGN PROJECT I. (1-3). Credit 2. Introduction to design, modeling, testing and validation processes. Design of equipment, components or systems for marine and related power generation applications. Complete design process including: definition of the problem, research for existing designs and related technologies, conceptualization and evaluation of alternatives, development of preliminary design, refining and generation of final design and documents. Prerequisites: Senior status and approval of instructor. (pending approval)

452. SENIOR DESIGN PROJECT II. (1-3). Credit 2. This course is a continuation of MARE 451. Development of theoretical, computational or experimental models using the design developed in MARE 451. Formulation, construction and/or fabrication work. Refining, experimenting and testing of models considering alternatives. Analyzing results and preparing and submitting design documents including a project report. Prerequisite: MARE 451.

484. UNDERGRADUATE INTERNSHIP. Credit 1-6. Supervised study with an approved power generator, either electrical, mechanical, or thermal power. Alternatively, studies can be with a research, manufacturing or repair facility whose primary mission is to support power generation. Prerequisites: 2.5 GPR and completion of 300 level courses.

485. DIRECTED STUDIES. Credit 1-3 each semester. Special problems in marine engineering technology not covered by any other course in the curriculum. Work may be in either theory or laboratory. Prerequisites: Approval of department head. Junior or senior classification or approval of instructor.

489. SPECIAL TOPICS. Credit 1-4 each semester. Selected topics in an identified area of marine engineering technology. May be repeated for credit. Prerequisites: Junior or senior classification or approval of instructor.

491. RESEARCH IN MARINE ENGINEERING TECHNOLOGY. Credit 1 to 4. Research conducted under the direction of faculty member in Marine Engineering Technology. May be repeated 2 times for credit. Please see academic advisor in department. Registration in multiple sections of this course is possible within a given semester provided that the per semester credit hour limit is not exceeded. Prerequisites: Junior or senior classification and approval of instructor.

## **Marine Sciences (MARS)**

101. INTRODUCTION TO MARINE SCIENCES. (1-0). Credit 1. A non-technical introduction to the field of marine sciences, including biology, ocean activities, and marine industries. Course includes lectures, seminars, outside speakers, and industrial contacts.

210. MARINE GEOGRAPHY. (3-0). Credit 3. Introduction to the physical and cultural patterns of the coastal zones of the world. Interrelationships between the physical forms and processes and the cultural patterns are used to analyze human use and abuse of the sea.

250. COMPUTER APPLICATIONS. (2-2). Credit 3. Introduction to microcomputer business and data applications. Fundamental concepts of information technology and algorithm development. Use of integrated word processing, spreadsheet and database applications software to solve science and/or business problems.
280. COASTAL AND OCEAN RESOURCES. (3-0). Credit 3. Resources from the ocean including food, minerals, transportation and recreation. Methods of recovery and utilization of resources from the ocean, efficiency and cost effectiveness. Provides a foundation for understanding the wealth of resources available from the ocean and its margins, to include the impact of human activity on these resources.
281. SOPHOMORE SEMINAR IN MARINE SCIENCES. (1-0). Credit 1. Compilation and discussions of literature pertaining to topics in marine sciences. Emphasis placed upon preparation and presentation of a written report. Prerequisite: Sophomore standing or approval of instructor.
285. DIRECTED STUDIES. Credit 1-6 each semester. Special topics and problems suited to analysis by individuals or small groups concerning special aspects of marine sciences. Prerequisite: Approval of department head.
289. SPECIAL TOPICS IN MARINE SCIENCES. Credit 1-4. Study of selected topics in an identified area of marine sciences. Prerequisite: Approval of instructor.
303. INTRODUCTION TO COMPUTING AND DATA DISPLAY. (2-2). Credit 3. The purpose of this course is to introduce the student to the elements of computer programming and data display primarily through the MATLAB computing environment. Students will also be exposed to the FORTRAN programming language and the UNIX operating system. Prerequisite: Junior or senior classification or approval of instructor.
305. PALEONTOLOGY. (2-3). Credit 3. Analysis of history of life and processes controlling it; study of groups of organisms important in the marine fossil record; application of paleontology to geologic problems. Field trips required. Prerequisites: GEOL 104. Junior or senior classification or approval of instructor.
306. COASTAL SEDIMENTARY GEOLOGY. (3-3). Credit 4. A survey of modern coastal sedimentary systems, including principles of sedimentology and sediment analysis. The laboratory includes a large group field projects. Local field trips required. Prerequisites: GEOL 104. Junior or senior classification or approval of instructor.
310. FIELD METHODS IN MARINE SCIENCES. (1-6). Credit 3. Techniques of documenting collected materials, the methods of reconnaissance and the mapping of traverses in the major coastal environments. Sampling and recording techniques, interview procedures, and the use of maps and remotely sensed imagery will be introduced. Prerequisites: CHEM 102, PHYS 202 or PHYS 208, GEOL 104. Junior or senior classification or approval of instructor.
325. INTRODUCTION TO GIS FOR MARINE SCIENCES. (2-2). Credit 3. Geographic Information Systems (GIS) are introduced for marine sciences and management. Basic use of software including creation of GIS models is covered. Creating, editing and querying GIS shape files is treated utilizing one of the standard GIS software packages such as ArcGis. Prerequisite: Junior or senior classification or approval of instructor.
330. PETROLEUM GEOLOGY. (3-0). Credit 3. Origin, migration and accumulation of petroleum. Reservoir rock, traps, accumulation and conditions, and subsurface methods. Prerequisites: GEOL 104. Junior or senior classification or approval of instructor.
340. GEOCHEMISTRY. (3-0). Credit 3. Chemical principles and processes that govern the behavior of geologic materials. Silica and carbonate low temperature equilibrium and kinetics. Prerequisites: CHEM 102, GEOL 104. Junior or senior classification or approval of instructor.
360. BIOCHEMISTRY. (3-0). Credit 3. General introductory biochemistry; structures of lipids, saccharides and nucleotides; amino acids and protein structure; relationship of protein structure to biochemical reactivity; kinetics (and inhibition) of enzyme-catalyzed reactions; membrane phospholipids and glycoproteins and the structure and function of membranes; catabolic reaction pathways of monosaccharides and fatty acids; oxidative phosphorylation. Prerequisites: BIOL 112, CHEM 228. Junior or senior classification or approval of instructor.
361. MARINE BIOCHEMISTRY LABORATORY. (0-3). Credit 1. Selected methods used to characterize, purify, identify and isolate biomolecules. The laboratory is designed to complement the MARS 360 lecture. Prerequisite: MARS 360 or concurrent enrollment.
370. COASTAL PROCESSES. (3-0). Credit 3. Introduction to the coastal system, waves and wave dominated coasts, shoreline morphodynamics, tidal and lake coasts, long term coastal development, sea level changes, subtidal and beach ecosystems, coastal dunes and wetlands, structures and organizations, coastal management and coastal hazards. Cross-listed with GEOG 370.
375. SCIENCE OF FLUIDS. (3-0). Credit 3. Classical fluid mechanics; fundamental physical principles. Fluid statics, principles of fluid motion, frictionless flow, surface waves, viscous flows, turbulence, molecular basis of fluid mechanics. Prerequisites: MATH 251, PHYS 218. Junior or senior classification or approval of instructor.
376. INTRODUCTION TO UNIX AND C. (3-0). Credit 3. Introduction to the Unix operating system and C-Language programming in a multi-user networked environment. Prerequisite: Junior or senior classification or approval of instructor.
380. INTRODUCTION TO PHYSICAL CHEMISTRY. (3-0). Credit 3. Classical thermodynamics with applications to gases, liquids, solutions, and phase equilibria. Kinetics and transport properties of gases. Statistical mechanics, spectroscopy, instrumentation, and quantum theory at the survey level. Prerequisites: CHEM 102, MATH 151. Junior or senior classification or approval of instructor.
405. WATERBORNE TRANSPORTATION OF HAZARDOUS CHEMICALS. (3-0). Credit 3. Basic concepts associated with the transportation of hazardous chemicals in congested port areas, along the nation's inland waterways, and at sea. Special emphasis on the hazards of fire, health, air and water pollution and chemical reactivity. Promulgation of safe operating practices by industry, the USCG and IMO. Prerequisites: CHEM 101. Junior or senior classification or approval of instructor.
410. INTRODUCTION TO PHYSICAL OCEANOGRAPHY. (3-0). Credit 3. Introduction to elements of the physics of the ocean; descriptive aspects and theoretical explanations of circulation, characteristic structure, and waves. Prerequisites: MATH 251, PHYS 208. Junior or senior classification or approval of instructor.
415. REMOTE SENSING TECHNOLOGY. (3-0). Credit 3. An introduction to the uses of remote sensing technology in the marine sciences, including electromagnetic, acoustic, and seismic methods. Generation, transmission, and reception methods. Active and passive systems, multispectral techniques, and signal analysis systems. Prerequisites: PHYS 202 or 208, BIOL 112. Junior or senior classification or approval of instructor.
430. INTRODUCTION TO GEOLOGICAL OCEANOGRAPHY. (3-0). Credit 3. Introduction to geological processes in the marine system: Physiographic provinces, origin and evolution of basins, shelves, slopes, and beaches. Geological sampling and geophysical methods; coastal beach and estuarine processes. Prerequisites: GEOL 104. Junior or senior classification or approval of instructor.

435. EXPLORATION GEOPHYSICS. (3-0). Credit 3. Physiomechanical properties of rocks and sediments. Seismic reflection and refraction principles applicable to offshore, coastal and onshore exploration. Determination of media velocity and stratigraphy from reflection and refraction studies in both marine and non-marine systems. Prerequisites: PHYS 202 or PHYS 208, GEOL 104, MATH 151. Junior or senior classification or approval of instructor.

440. INTRODUCTION TO CHEMICAL OCEANOGRAPHY. (3-0). Credit 3. Introduction to chemical processes in the marine environment. Composition of sea salt, chemical specification of dissolved material in the ocean. Biogeochemistry of oxygen, major elements, nutrient elements, and some trace metals in the surface and deep ocean. Formation, chemical composition, and alterations of detrital material and marine sediments. Simple models which relate ocean chemistry to the circulation of identifiable masses of water. Radioisotopes and stable isotopes in chemical oceanography. Prerequisites: CHEM 102. Junior or senior classification or approval of instructor.

450. PRINCIPLES OF MARINE INSTRUMENTAL ANALYSIS. (2-3). Credit 3. Fundamental principles and practical applications for state-of-the-art analytical instrumentation applied to marine and environmental science. Topics include atomic and molecular spectroscopy, gas and liquid chromatography, radiochemistry, x-ray spectroscopy, mass spectrometry and field instrumentation. Students work with instruments and make presentation on them to the class. Prerequisites: CHEM 102 and 228, PHYS 202, MATH 131 or 151. Junior or senior classification or approval of instructor.

460. MODERN OCEANOGRAPHIC METHODS. (3-9). Credit 6. This course will provide students with hands-on experience with modern oceanographic observational tools and data analysis techniques. Focus is on the four major oceanographic disciplines, i.e. geology, chemistry, physics and biology. Students will receive the necessary theoretical background, collect and analyze their own data and learn how to prepare scientific reports summarizing their work. Prerequisite: Junior or senior classification or approval of instructor.

470. ECO-ENVIRONMENTAL MODELING. (3-0). Credit 3. Biological components are in chemical and physical environments which are influenced by the bio-system and flows of energy, water and chemical species. Coupling to the complex atmospheric, aquatic and terrestrial systems is important. Modeling entails mathematical tools and the underlying science, focusing on scientific models, from the simplest to the elaborate. Prerequisites: CHEM 102, BIOL 112 and MATH 151 or approval of instructor.

481. SEMINAR. (1-0). Credit 1. Problem-oriented discussion session. Topics and reports selected for current relevance. May be repeated once only for credit. Prerequisite: Junior or senior classification or approval of instructor.

484. UNDERGRADUATE INTERNSHIP. Credit 1-6. Supervised study in a research or teaching laboratory within or outside of the Texas A&M University System. Student involvement is to consist of real-life learning or marine sciences research, teaching, management or a combination of these. Prerequisites: Junior or senior classification or approval of instructor. Approval of the department head.

485. DIRECTED STUDIES. Credit 1-6 each semester. Special topics and problems suited to analysis by individuals or small groups concerning special aspects of marine sciences. Prerequisites: Junior or senior classification or approval of instructor. Approval of department head.

488. WRITING INTENSIVE DIRECTED STUDIES IN MARINE SCIENCES. Credit 1 to 6. A writing-intensive course leading to the equivalent of a mini thesis in an area of interest to the faculty and student; introduces students to the rigors of writing for publication in professional journals in their major. Prerequisite: Junior or senior classification.

489. SPECIAL TOPICS IN MARINE SCIENCES. Credit 1-4. Study of selected topics in an identified area of marine sciences. Prerequisite: Junior or senior classification or approval of instructor.

491. RESEARCH IN MARINE SCIENCES. Credit 1 to 4. Research conducted under the direction of faculty member in Marine Sciences. May be repeated 2 times for credit. Please see academic advisor in department. Registration in multiple sections of this course is possible within a given semester provided that the per semester credit hour limit is not exceeded. Prerequisites: Junior or senior classification and approval of instructor.

601. TEACHING ENVIRONMENTAL SCIENCES. (2-4). Credit 3. This course will concentrate on the basic principles of environmental education using a hands-on approach to learn environmental principles and how to teach them. This course will have a special emphasis on coastal issues. Prerequisite: Graduate status or approval of instructor.

610. ENVIRONMENTAL LAW. (3-0) Credit 3. This course is designed to provide a broad overview of basic environmental laws including statutes, regulations, and cases. It also focuses on the both economic and ethical issues within the context of environmental law and policy. Prerequisite: Approval of instructor; graduate status or special approval.

615. PHYSICAL AND GEOCHEMICAL MARINE RESOURCES. (3-0). Credit 3. Location, identification, extraction and exploitation of non-fisheries marine resources, including: water, salt, hydrocarbons, minerals, energy from the thermal, wave, tidal, current and wind fields, chemical compounds, pharmaceuticals, and construction materials in estuarine, coastal and open ocean areas. Prerequisites: CHEM 102, GEOL 104, OCNG 251 or equivalent. Graduate status or approval of instructor.

620. INTERNATIONAL ENVIRONMENTAL BUSINESS TRANSACTIONS. (3-0) Credit 3. This course is designed to provide an overview of those laws, regulations, and regimes involved in international environmental business transactions; and to identify those environmental regimes which are triggered when business is conducted internationally. The course includes topics in international law, regional law, and U.S. federal law. Prerequisite: Approval of instructor; graduate status or special approval.

625. GIS USE IN COASTAL RESOURCES. (1-3). Credit 2. Basic concepts of design, planning, and implementation of Geographical Information Systems; computer hardware and software evaluation; practical experience in data entry, analysis and update of spatial and characteristic data; use of maps and remotely sensed data as data. Prerequisite: Any computer science course or equivalent; graduate status or special approval.

635. ENVIRONMENTAL IMPACT STATEMENTS AND NATURAL RESOURCE DAMAGE ASSESSMENT. (3-0). Credit 3. The course presents an overview of: a) environmental impact statements (EIS) under the National Environmental Policy Act (NEPA); and b) natural resource damage assessment (NRDA) under the Oil Pollution Act of 1990 (OPA 90) and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). It is designed to cover requirements for a wide variety of EISs. NRDA hypothetical cases will be presented in which students are asked to calculate assessments. Prerequisite: Approval of instructor; graduate status or special approval.

638. AVIAN DIVERSITY AND HABITATS AS COASTAL RESOURCES. (2-3). Credit 3. The lecture and readings will emphasize field identification, habitat requirements for native and migrant species and birds as bioindicators of habitat health and environmental stress. We will apply the study of bird diversity to environmental monitoring of coastal ecosystems and migrant stopover habitats. Labs will be conducted primarily in the field. Prerequisites: BIOL 112, MARM 315 or WFSC 302 or ZOO 318 or approval of instructor; graduate status.

640. ENVIRONMENTAL ADMINISTRATIVE LAW. (3-0) Credit 3. Environmental law is governed, in large part, by administrative law. This course covers the processes involved in administrative environmental law. The primary focus of this course will be on: the Environmental Protection Agency, the U.S. Coast Guard, the Corps of Engineer; and NOAA. A review of international administrative bodies will also be included. Prerequisites: Approval of instructor; graduate status or special approval.

645. WILDLIFE LAW AND ETHICS. (3-0) Credit 3. This course provides an overview of the basic wildlife laws including international regimes, bilateral and multilateral treaties, conventions, and cases dealing with conservation, preservation, and management of non-Homo sapien species; federal law, regulations, and cases; and a sampling of state law. It also focuses on the ethical issues of species management. Prerequisites: Approval of instructor; graduate status or special approval.

650. GEOCHEMICAL MARINE RESOURCES MANAGEMENT. (3-0) Credit 3. The purpose of this course is to provide an overview of the issues involved in geochemical marine resources management. This course explores the management of exploration, production, and protection of the geochemical marine resources of the earth and the interface of the many players. Prerequisites: Approval of instructor; graduate status or special approval.

652. SUSTAINABLE MANAGEMENT OF COASTAL MARGINS. (3-0). Credit 3. The class will study federal, state, and local laws, regulations, ordinances and programs pertaining to management of coastal margins, visit the Texas General Land Office, attend meetings of the Coastal Coordinating Council, the Texas Legislature when a coastal-related bill is being debated, or attend the Galveston County Commissioner's Court or Galveston City Council when a coastal ordinance is being considered. Prerequisite: Approval of Instructor.

655. WETLANDS MANAGEMENT. (3-3). Credit 4. This course surveys the interrelationship of chemistry, physics, geology and biology of coastal wetland systems and explores and defines the context of wetlands sustainability and management. Field exercises are an integral component providing students "hands on" experiences. Guest lectures, seminars and field trips lead by agency personnel who are experts in these fields of research are included. Prerequisite: Background in chemistry, physics, geology and biology.

660. ENVIRONMENTAL ALTERNATIVE DISPUTE RESOLUTION. (3-0) Credit 3. Because environmental issues and law were born and raised in the arena of adversarial combat, the traditional adversarial litigative process is far from ideal. This course first explores the traditional method of settling disputes: the court system. It then reviews the increasingly visible dispute resolution alternatives. Finally, it provides certification in mediation. Prerequisites: Approval of instructor; graduate status or special approval.

670. ECO-ENVIRONMENTAL MODELING. (3-0). Credit 3. Biological organisms are surrounded by chemical and physical environments which are influenced by the bio-system and flows of energy, water, and chemical species. Coupling to atmospheric, aquatic, and terrestrial systems is important. Modeling entails both mathematical tools and the underlying science. This course focuses on scientific models, from the simplest to more elaborate. Prerequisites: BIOL 111, 112; CHEM. 101, 102; MATH 151, and 161 or 166; graduate status or special approval.

675. ENVIRONMENTAL MANAGEMENT STRATEGIES FOR SCIENTISTS. (2-0). Credit 2. The course is designed to provide a scientist with EMS strategies' skills. This includes knowing: what environmental laws may be triggered by activities; the fundamental structure of an EMS; EMS alternatives; concepts in an audit; Alternative Dispute Resolution; and how an effective EMS can reduce costs and increase profits. Prerequisite: Approval of instructor; graduate status or special approval.

676. ENVIRONMENTAL POLICY. (3-0). Credit 3. This course will provide a general introduction to the basic concepts and mechanisms of international and U.S. federal environmental law and policy. It will survey the field and its development as well as focus on case studies that illustrate the basic types of environmental problems. Prerequisites: Approval of instructor; graduate status or special approval.

680. INTEGRATIVE ANALYSES IN MARINE RESOURCES. (2-0). Credit 2. Review of public policy change mechanisms in marine resources management, including Congressional testimony, agency recommendations and structure, and NGO reports. Students propose and defend a public policy change with detailed documentation and an oral presentation demonstrating a professional understanding of marine resources issues within the context of current law. Prerequisites: 24 hours of MARM course credits completed, or in concurrent enrollment, approval of instructor.

681. SEMINAR. (1-0). Credit 1. Presentation of recent research by students, faculty and visiting faculty. Prerequisite: None.

684. INTERNSHIP IN MARINE RESOURCES MANAGEMENT. Credit 1-9. This is a faculty supervised study with an agency or other position within or outside the Texas A&M University System. Student involvement consists of real-life learning of marine resources management issues. It is a full-immersion course that provides students with hands-on experience in marine resources management. Prerequisites: Approval of faculty sponsor; graduate status or special approval.

685. DIRECTED STUDIES. Credit 1-6. Selected Topics in an identified area of science, law policy or management of marine natural resources not covered in any other courses in the curriculum. Prerequisite: Approval of instructor.

689. SPECIAL TOPICS IN MARINE RESOURCES MANAGEMENT. Credit 1-4. Selected topics in an identified area of marine resources management. May be repeated for credit. Prerequisites: Approval of instructor; graduate status or special approval.

691. Research in Marine Sciences. Credit 1 or more each semester. For thesis or dissertation.

### **Marine Transportation (MART)**

---

285. DIRECTED STUDIES. Credit 1-4. Directed study in problems in marine transportation not covered by other courses in the department. Prerequisite: Approval of department head.

289. SPECIAL TOPICS IN MARINE TRANSPORTATION. Credit 1-3. Study of selected topics in an identified area of marine transportation or nautical science. Prerequisite: Approval of department head.

302. MARINE CARGO OPERATIONS I. (3-3). Credit 4. Objectives and problems with break-bulk cargo handling during loading, discharging, and in-transit carriage. Requirements of special refrigerated and dangerous cargoes. Heavy lift operations with conventional cargo gear and its restraints. Cargo loss prevention, safety and related documentation, as well as log book entries, modern cargo concepts-containerization, roll-on roll-off, lash, and others. Maximum cargo efficiency with relation to space, cargo gear, crew and labor costs. Practical cargo gear use and cargo observations during lab periods. Prerequisites: NAUT 200, 202, 301 or concurrent registration. Junior or senior classification or approval of instructor.

321. MARITIME LAW I. (2-0). Credit 2. Basic laws governing vessel navigation; International and U.S. Inland Rules for the prevention of collision at sea, and the safety of life at sea convention. Prerequisites: NAUT 200. Junior or senior classification or approval of instructor.

406. MARINE CARGO OPERATIONS II. (3-2). Credit 4. Principles and practice of bulk liquid, gas handling, and carriage by water craft. Theoretical and practical problems involved in loading, stowing and discharging of petroleum, chemical, elevated temperature and cryo-

genic cargoes. Marine pollution abatement, personnel safety, and firefighting techniques and systems. Prerequisites: MART 302, NAUT 300. Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit 1-4. Directed study in problems in marine transportation not covered by other courses in the department. Prerequisite: Senior classification or approval of department head.

489. SPECIAL TOPICS IN MARINE TRANSPORTATION. Credit 1-4. Study of selected topics in an identified area of marine transportation or nautical science. Prerequisites: Approval of MART department head. Junior or senior classification or approval of instructor.

491. RESEARCH IN MARINE TRANSPORTATION. Credit 1 to 4. Research conducted under the direction of faculty member in Marine Transportation. May be repeated 2 times for credit. Please see academic advisor in department. Registration in multiple sections of this course is possible within a given semester provided that the per semester credit hour limit is not exceeded. Prerequisites: Junior or senior classification and approval of instructor.

### **Maritime Administration (MARA)**

205. INTRODUCTION TO SHIPS AND SHIPPING. (3-2). Credit 4. Introduction to the maritime industry and ships used in transportation of goods and services. Shipboard nomenclature, types and missions of merchant ships, shipbuilding nomenclature and dimensions, shipbuilding materials and methods, modes of cargo handling and their impact on ship design.

212. BUSINESS LAW. (3-0). Credit 3. Legal principles of business, legal reasoning, dispute resolution and procedure, contract law, bankruptcy law, property law, Uniform Commercial Code sections concerning contracts, security interests, negotiable instruments and sales. Prerequisite: Sophomore classification.

250. MANAGEMENT INFORMATION SYSTEMS. (2-0). Credit 2. Introduction to the concepts and applications of management information systems, including information technology concepts, computer hardware, common business software, software selection and development, management information systems (MIS), decision support systems (DSS), and working in a digital world.

281. SEMINAR IN UNDERGRADUATE RESEARCH METHODS. (1-0). Credit 1. An introduction to necessary undergraduate research methods in economics and business, to prepare students for investigative writing requirements in upper division courses in maritime business administration. Prerequisite: Sophomore standing.

285. DIRECTED STUDIES. Credit 1-4. Directed study on selected problems in the area of maritime administration not covered in other courses. Prerequisite: Approval of MARA department head.

289. SPECIAL TOPICS. Credit 1-3. Study of selected topics in an identified area of maritime administration. Prerequisite: Approval of MARA department head.

301. OCEAN TRANSPORTATION I. (3-0). Credit 3. Examination of theory and practice in the management of transportation logistics, labor, rate-making, role of government, international conventions and treaties. Exposure to current trends and developments in shipping. Prerequisites: MART Students - NAUT 103, ECON 202 or ECON 203. MARA students - MARA 205, ECON 202 or ECON 203.

304. OCEAN TRANSPORTATION II. (3-0). Credit 3. Marine insurance problems and cases and how they relate directly to a ship's officer. Hull, cargo, and personal injury cases are examined from the officers' and insurers' points of view. Introduction to Admiralty Law and the court process for seamen's rights and ship owners' privileges. Actual hearings and trials are observed to complete the background. Prerequisite for MART and MARA students: MARA 301.

342. MANAGERIAL MARITIME FINANCE. (3-0). Credit 3. Continuation of topics introduced in Business Finance (FINC 341) including risk and return, investment valuation, the selection of risky investment projects, capital structure, dividend policy, and methods of raising long-term capital; applications to the maritime industry are made where appropriate. Prerequisite: FINC 341.

363. THE MANAGEMENT PROCESS. (3-0). Credit 3. Management as an academic discipline; goal setting; planning, controlling and decision-making; models for thinking about organizations; organization design; organization change; models for understanding individual behavior; job performance and job satisfaction; interpersonal behavior, motivation and leadership, behavior in work groups; careers in management, ethics and international management. Prerequisite: Junior or senior classification.

373. HUMAN RESOURCE MANAGEMENT. (3-0). Credit 3. Strategic issues in managing human resources; shared responsibilities of line managers and human resource staff for developing and implementing human resource policies and procedures; human resource planning; job design, analysis and evaluation; staffing; compensation; performance appraisal; training and development career management; labor relations; legal, ethical and international issues. Prerequisite: MARA 363.

401. BROKERAGE AND CHARTERING. (3-0). Credit 3. Operational and legal environment of ship brokerage and chartering; responsibilities of owner and charterer under various charter forms; American, British and Canadian acts governing charters and bills of lading; rules and regulations concerning loading and discharging. Prerequisites: MARA 205, MARA 301. Senior classification.

402. INLAND WATERWAYS. (3-0). Credit 3. Development of inland waterways of the U.S. and federal policies relating to them. Port and terminal development, competition with other transportation forms, manpower, rates, environmental concerns and the impact of waterway systems on regional economies. Prerequisites: ECON 203. Senior classification.

416. PORT OPERATIONS, ADMINISTRATION AND ECONOMICS. (3-0). Credit 3. Concepts of the port and methods of intermodal transfer. Port functions divided and analyzed along business lines: economics, management, finance, accounting, and marketing. Cost studies. Prerequisites: MARA 301. Junior or senior classification.

421. ADMIRALTY LAW. (3-0). Credit 3. Essential principles of admiralty, general maritime, and international law as applicable to the marine industry and ocean shipping. Evolution and state of the law concerning maritime liens, ship mortgages, rights of seamen and harbor workers, limitation of liability, bills of lading and cargo carriage, collision liability, general average, marine salvage, charter parties, and international rights and responsibilities of ships and shipping. Prerequisites: MARA 301, MARA 304.

424. ECONOMICS OF TRANSPORTATION. (3-0). Credit 3. Historical development, structure, function, and regulation of highway, rail, water, pipeline, and air transportation systems. Application of economic concepts and principles to transportation development and operations. Prerequisites: ECON 203 and senior classification.

435. LABOR LAW AND POLICY. (3-0). Credit 3. Federal and state public policy and laws regulating human resource management including National Labor Relations Act, Railway Labor Act, Fair Labor Standards Act, employment discrimination statutes, statutes regarding public sector unionization, and other relevant legal authorities; various forms of dispute settlement including litigation, mediation, fact finding and arbitration; legal ramifications of strategic human resource management decision making. Prerequisites: MARA 363. Senior classification.

440. Global Economy and Enterprise Management. (3-0). Credit 3. Introduction to the economic, political, social and ethical environments of international business including the determinants of trade and investment patterns and the logic of government interventions in both trade and capital markets; also discussed are the structure, strategy and operations of the international firm. Prerequisites: ECON 203. Junior or senior classification.

450. Maritime Supply Chain Management. (3-0). Credit 3. Introduction to the concepts involved in supply chain management (SCM); SCM encompasses the functional areas of procurement, operations management, inbound/outbound transportation, customer service, and information technologies; emphasizes how these functional areas are integrated to achieve the firm's overall objectives. Prerequisites: INFO 303 and INFO 364.

460. MANAGEMENT SYSTEMS AND CONTROL. (3-0). Credit 3 Application of management processes to complex interdisciplinary organizational environments through the study of program and project management. Adoptions of traditional management theories to the project environment. Student will be expected to master typical project management microcomputer software for project planning; resource allocation; project budgeting; and control of project cost, schedule and performance. Prerequisites: INFO 364, MARA 363. Junior classification.

466. STRATEGIC MANAGEMENT. (3-0). Credit 3. Strategic issues facing organizations, including top management decision making and social responsibility; environmental and industry analysis; establishing organizational mission and objectives; corporate, business and functional level strategy formulation; global and multidomestic strategies; strategic implementation and control; integrating operations, finance, marketing and human resource strategies; case analysis. Prerequisites: MARA 363, MKTG 321, INFO 364, FINC 341, and senior classification.

470. ENVIRONMENTAL LAW. (3-0). Credit 3. Designed to provide a broad background of basic statutes, regulations, and cases dealing with the major issues in international and federal environmental law. Specifically, the course will focus on pragmatic training in statutory, regulatory, and treaty reading and interpretation; analysis of administrative and legislative intent for law. Prerequisites: MARA 212, MARA 421. Senior classification.

484. MANAGEMENT INTERNSHIP. Credit 3-4. Internship in management; staffing, planning, organizing, leading and controlling. Enrollment is limited to those who have managerial responsibilities for the resources used by a business, non-profit, or other organization. Prerequisites: ACCT 229, ACCT 230, FINC 341, MKTG 321, MARA 363. Approval of department head.

485. DIRECTED STUDIES. Credit 1-4. Directed study on selected problems in the area of maritime administration not covered in other courses. Prerequisites: Cumulative GPA of 2.5 or higher. Approval of instructor and MARA department head.

489. SPECIAL TOPICS. Credit 1-3. Study of selected topics in an identified area of maritime administration. Prerequisite: Approval of instructor.

491. RESEARCH IN MARITIME ADMINISTRATION. Credit 1 to 4. Research conducted under the direction of faculty member in Maritime Administration. May be repeated 2 times for credit. Please see academic advisor in department. Registration in multiple sections of this course is possible within a given semester provided that the per semester credit hour limit is not exceeded. Prerequisites: Junior or senior classification and approval of instructor.

604. MARINE NATURAL RESOURCE ECONOMICS. (3-0) Credit 3. Critical evaluation of policies and procedures in the development and use of natural resources relevant to marine and maritime markets; identification of problems in resource exploration, development, and transportation; the political/economic decision-making processes; analytical tools used to make economic decisions in resource markets. Prerequisite: Graduate status or special approval.

689. SPECIAL TOPICS IN MARITIME ADMINISTRATION. (4-0). Credit 4. Selected topics in identified area of Marine Administration. Prerequisites: Graduate classification and instructor permission. (pending approval)

### **Maritime Systems Engineering (MASE)**

---

210. PROPERTIES OF ENGINEERING MATERIALS. (0-3). Credit 1. Atomic and crystalline structures of materials; mechanical properties, failure, corrosion and thermal processes of metallic materials; tensile, hardness, impact and torsion testing of metal alloys. Prerequisites: ENGR 211, 212 and PHYS 208.

212. ENGINEERING SCIENCE IN THERMODYNAMICS. (2-3). Credit 3. Theory and application of thermodynamics as an engineering science; applications of the laws of thermodynamics and energy equations to heat transfer and flow. Prerequisites: ENGR 221 and MATH 251 or concurrent enrollment.

213. PRINCIPLES OF MATERIALS ENGINEERING. (2-2) Credit 3. Description of properties of materials using a unified approach; discussion of the chemical structure, crystalline structure, microstructure, interface structure, and phase diagrams for materials; develop bulk properties and characteristics of metals, polymers, and ceramics; mechanical, electrical, magnetic, thermal, and optical properties for these materials. Prerequisites: ENGR 211, 212; PHYS 208; MATH 308 or concurrent registration.

214. MECHANICS OF DEFORMABLE BODIES. (3-0). Credit 3. Concepts of stress, strain and deformation. Factor of safety. Stress-strain relationships and material properties. Stress concentrations. Area moments of inertia. Axially loaded members, torsionally loaded members, bending of beams. Shear and moment diagrams. Stresses due to combined loading. Thin-walled pressure vessels. Transformation of stress including Mohr's circle. Beam deflections and buckling stability. Prerequisites: ENGR 221; MATH 308 or concurrent registration.

215. PRINCIPLES OF ELECTRICAL ENGINEERING (2-2). Credit 3. Fundamentals of electric circuit analysis, AC power, and electronics; intended as a terminal course in these areas for most engineering disciplines. Prerequisites: ENGR 211, 212; PHYS 208, MATH 308 or concurrent registration.

285. DIRECTED STUDIES. Credit 1-8. Directed study on selected current problems in the ocean and/or maritime industry. Offered to enable individuals or groups to undertake and complete with credit some specialized investigation not covered by other courses. Prerequisite: Approval of department head.

301. HYDRODYNAMICS OF OFFSHORE STRUCTURES. (3-0). Credit 3. Introduction to offshore structures, wave force formulation; wave forces on small structures, floating structure dynamics, modeling dynamics systems of rigid body motion, structure response statistics. Prerequisites: CVEN 345; MASE 310; OCEN 300 or concurrent registration. Junior or senior classification or approval of instructor.

310. ENGINEERING ANALYSIS. (3-0). Credit 3. Application of numerical methods to ocean-related engineering problems; development, evaluation, and comparison of various techniques for root finding, curve fitting, numerical integration, simultaneous linear algebraic

equations, matrix methods, probability and statistics, and ordinary differential equations in ocean-related engineering applications. Prerequisites: ENGR 111, 112 and MATH 308. Junior or senior classification or approval of instructor.

319. NAVAL ARCHITECTURE DESIGN I. (2-3). Credit 3. Introduction to Naval Architecture. Terminology. Hydrostatics and hydrostatic stability. Processes of the design of ships, semi-submersibles and underwater vehicles including layout, arrangements, construction and construction techniques. Hull design of ships, underwater vehicles and mobile offshore drilling units (MODUs). Prerequisites: CVEN 311, 345, ENGR 214, 221. Junior or senior classification or approval of instructor.

336. FLOW MEASUREMENT FUNDAMENTALS. (2-2). Credit 3. Introduction to fundamental principles of measuring fluctuating fluid velocities in open channels, simple pipe flow systems and surface waves. Laboratory includes experimental investigation of classic fluid dynamics and introduction to PIV systems. Prerequisites: PHYS 208, CVEN 311 or concurrent registration. Junior or senior classification or approval of instructor.

344. REINFORCED CONCRETE STRUCTURES. (2-3). Credit 3. Analysis and design of reinforced concrete beams, columns, slabs and footings using ultimate strength methods. Prerequisite: CVEN 345.

400. INTRODUCTION TO COASTAL ENGINEERING. (3-0). Credit 3. Mechanics of shallow water wave motion; wave diffraction, refraction and reflection; wave forecasting; water level fluctuations; coastal processes and geomorphology; erosion control and shoreline stabilization; coastal structures; beach nourishment; dredging; introduction to physical and computer models and modeling techniques; design in coastal engineering. Prerequisites: OCEN 300; senior classification or approval of instructor.

401. UNDERWATER ACOUSTICS. (3-0). Credit 3. Fundamentals of underwater acoustics, SONAR equations, propagation of underwater sound, acoustic transducers and arrays, noise in the ocean environment, design and prediction of SONAR systems, ocean engineering applications of underwater sound. Prerequisites: CVEN 311, MASE 336. Junior or senior classification or approval of instructor.

405. FINITE ELEMENT ANALYSIS IN ENGINEERING DESIGN. (3-0). Credit 3. Introduction to the fundamental theory and techniques; direct approach and energy formulation; element equations, assembly and solution schemes; computer implementation, design considerations; applications to field problems; original computer project required. Prerequisites: CVEN 345, 346, ENGR 214, MASE 310. Junior or senior classification or approval of instructor.

406. CAPSTONE DESIGN I. (1-0). Credit 1. Part one of a two-course sequence; development and presentation of detailed proposals for offshore or coastal engineering projects, which will form the basis for MASE 407 design projects; includes formulation of project objectives, design constraints, delineation of alternatives, scheduling and analysis of economic and environmental impact. Prerequisites: ENGL 301 or concurrent enrollment. Students must have successfully completed all required junior-level MASE courses and be in their final academic year prior to graduation.

407. CAPSTONE DESIGN II. (0-6). Credit 3. Design of a major engineered system based on a proposal developed in MASE 406 completed as a group project; realistic application of engineering skills and tools, experience managing a significant engineering-design effort. This is a writing-intensive course including a major report and weekly one-page written reports. Prerequisites: ENGL 301, MASE 406.

410. MEASUREMENTS IN THE OCEAN LABORATORY. (0-3). Credit 1. Fundamental techniques and instrumentation for field and laboratory measurements pertaining to coastal and ocean engineering (e.g., currents, wave height, wave/sediment interaction, mass transport, surveying, etc.); experiment planning; data analysis and presentation; written reports on methodology, analysis, and results of experiments. Prerequisites: OCEN 300, MASE 400. Junior or senior classification or approval of instructor.

411. ENVIRONMENTAL NEARSHORE HYDRODYNAMICS. (3-0). Credit 3. Fundamentals of current and shallow water wave motions. Beach response to nearshore processes. Coastal sediment and pollutant transport including nearshore currents, longshore onshore-offshore transport and shoreline configuration; facilities for shoreline stabilization, backshore protection and inlet stabilization. Environmentally conscious coastal engineering design is emphasized. Prerequisites: OCEN 300. Junior or senior classification or approval of instructor.

415. OFFSHORE STRUCTURE DESIGN. (3-0). Credit 3. Design of large structures using diffraction analysis. Design project: Design of a fixed offshore structure including dynamics effects. Prerequisites: MASE 301. Junior or senior classification or approval of instructor.

421. NAVAL ARCHITECTURE DESIGN II. (2-3). Credit 3. Ship motion and mooring. Theory and practice of naval architecture, basic principles and design calculations. Hull structural design considerations, ship resistance and propulsion power prediction, propeller selection concepts, dynamic positioning systems, mobile offshore drilling unit (MODU) design considerations, practical design work on a vessel or MODU of the student's choosing under the guidance of the instructor. Prerequisites: MASE 319, CVEN 346, OCEN 462. Junior or senior classification or approval of instructor.

459. MECHANICAL VIBRATIONS. (3-0). Credit 3. Basic theory of vibrating systems with single and multiple degrees of freedom and principles of transmission and isolation of vibrations. Prerequisites: MASE 214, 221, 310. Junior or senior classification or approval of instructor.

461. OCEAN INSTRUMENTATION AND CONTROL THEORY. (3-0). Credit 3. Electrical systems components; analog and digital filters-amplifiers; network analysis; instrument behavior and displacement, velocity, acceleration, force, and flow measurements; simple feedback and control theory for linear electromechanical systems; digital data acquisition. Prerequisites: PHYS 208 and ENGR 215. Junior or senior classification or approval of instructor.

482. SEMINAR. (1-0). Credit 1. State of technology topics in ocean engineering; professional ethics, membership in professional societies and professional registrations; case studies and lectures presented by staff and practicing engineers. Prerequisite: Junior or senior classification or approval of instructor.

483. MARINE FOUNDATION ANALYSIS AND DESIGN. (2-3). Credit 3. Design of foundations for onshore, alongshore, and offshore structures, including prediction of settlement and the bearing capacity of shallow and deep foundations; determination of earth pressure acting on retaining structures and design of steel and concrete bulkheads; design of pile foundations; and design of cofferdams and caissons. Laboratory tests conducted to determine the physical and engineering properties needed for application in geotechnical engineering design. Prerequisites: CVEN 345, 346, 365. Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit 1-8. Directed study on selected current problems in the ocean and/or maritime industry. Offered to enable individuals or groups to undertake and complete with credit some specialized investigation not covered by other courses. Prerequisites: Approval of department head. Junior or senior classification or approval of instructor.

489. SPECIAL TOPICS. Credit (1-4). Selected topics in a identified area of maritime systems engineering. May be repeated for credit. Prerequisite: Junior or senior classification or approval of instructor.

491. RESEARCH IN MARITIME SYSTEMS ENGINEERING. Credit 1 to 4. Research conducted under the direction of faculty member in Maritime Systems Engineering. May be repeated 2 times for credit. Please see academic advisor in department. Registration in multiple sections of this course is possible within a given semester provided that the per semester credit hour limit is not exceeded. Prerequisites: Junior or senior classification and approval of instructor.

### **Maritime Studies (MAST)**

---

285. DIRECTED STUDIES. Credit (1-6). Individually supervised research or advanced study on restricted area not covered in regular courses.

289. SPECIAL TOPICS. Credit (1-4). Selected topics in a identified area of maritime studies. May be repeated for credit.

320. INTRODUCTION TO MUSEUMS AND CONSERVATION. (2-3). Credit 3. Introduction to basic issues related to the conservation, curation, management and presentation of museum collections. Emphasis placed on archaeology and historical collections, or other collections with cultural significance. Basic conservation techniques for materials as well as proper care and store of collections. Museum planning and exhibit design will be discussed. Prerequisite: Junior or senior classification or approval of instructor.

350. A HISTORY OF WOODEN SHIP CONSTRUCTION. (3-0). Credit 3. This course is designed to give undergraduate students an overview of ship construction and possible cultural factors that may influence how a shipwright builds a vessel. Prerequisite: Junior or senior classification or approval of instructor.

371. ARCHAEOLOGY OF THE PACIFIC. (3-0). Credit 3. Overview of the archaeology, history and cultures of the Pacific Rim; emphasizing the cultures of Polynesia, Melanesia, and Micronesia. Prerequisite: Junior or senior classification or approval of instructor.

411. INTERNATIONAL MARITIME CULTURE. (3-0) Credit 3. Strategies used in the exploitation of marine, coastal, and island habitats throughout human evolutionary history and the variety and complexity of adaptations in such environments. Classes will be devoted to lectures and group discussions with occasional slide or movie presentations. Prerequisites: ANTH 210 or GEOG 201. Junior or senior classification or approval of instructor.

425. THESIS AND TECHNICAL WRITING. (3-0). Credit 3. Rhetorical techniques for professional expository prose; intertextual argumentation and analysis. Prerequisite: Junior classification.

481. SEMINAR IN MARITIME STUDIES. (1-0). Credit 1. This course is intended to provide students with the opportunity to conduct in-depth research on a particular issue, event, period, or people in maritime studies. Prerequisite: This one-credit hour course is open to senior maritime studies majors or approval of instructor.

484. UNDERGRADUATE INTERNSHIP. Credit 1-6. Supervised study in a research or teaching laboratory remote from TAMUG. Student involvement is to consist of real-life learning or research, teaching, management, or a combination of these. Prerequisite: Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit (1-6). Individually supervised research or advanced study on restricted area not covered in regular courses. Prerequisite: Junior or senior classification or approval of instructor.

489. SPECIAL TOPICS. Credit (1-4). Selected topics in a identified area of maritime studies. May be repeated for credit. Prerequisite: Junior or senior classification or approval of instructor.

491. RESEARCH IN MARITIME STUDIES. Credit 1 to 4. Research conducted under the direction of faculty member in Maritime Studies. May be repeated 2 times for credit. Please see academic advisor in department. Registration in multiple sections of this course is possible within a given semester provided that the per semester credit hour limit is not exceeded. Prerequisites: Junior or senior classification and approval of instructor.

### **Marketing (MKTG)**

---

321. MARKETING. (3-0). Credit 3. Institutions, processes, and problems involved in transferring goods from producers to consumers; economic and social aspects. Prerequisite: Junior or senior classification.

### **Mathematics (MATH)**

---

102. ALGEBRA. (3-0). Credit 3. (TCCNS MATH 1314). Sets, structure of number system. Absolute values, solution sets of equations of second and higher degree, systems of equations, and inequalities. Relations and functions, graphical representations, variation, progressions, mathematical induction, determinants. (Must be concurrently enrolled in CAEX 001.)

106. PLANE AND SPHERICAL TRIGONOMETRY. (4-0). Credit 4. Definitions of trigonometric functions; evaluation of functions of special angles, fundamental relations; solution of triangles; trigonometric reductions; angular measure; functions of composite angles; logarithms, inverse trigonometric functions; trigonometric equations; basic ideas and formulas of spherical trigonometry; solution of spherical triangles, application to terrestrial and astronomical triangles.

141. BUSINESS MATHEMATICS I. (3-0). Credit 3. (TCCNS MATH 1324). Linear equations and applications, systems of linear equations, matrix algebra and applications, linear programming (graphical and simplex methods), probability and applications, statistics. Prerequisites: High school algebra I and II and geometry. Credit will not be given for more than one of MATH 141 and 166.

142. BUSINESS MATHEMATICS II. (3-0). Credit 3. (TCCNS MATH 1325). Derivatives, curve sketching and optimization, techniques of derivatives, logarithms and exponential functions with applications, integrals, techniques and applications of integrals, multivariate calculus. Prerequisites: High school algebra I and II and geometry or satisfactory performance on a qualifying examination. Credit will not be given for more than one of MATH 131, 142, 151 and 171.

150. FUNCTIONS, TRIGONOMETRY, AND LINEAR SYSTEMS. (3-2). Credit 4. (TCCNS MATH 2412). Graphs, functions, college algebra and trigonometry, linear systems and vectors.

151. ENGINEERING MATHEMATICS I. (3-2). Credit 4. (TCCNS MATH 2413). Rectangular coordinates, analytical geometry, functions, limits, derivatives of functions, applications, integration, areas and volumes by integration. Prerequisites: High school algebra, trigonometry and geometry or satisfactory performance on qualifying exam. Credit will not be given for more than one of MATH 121, 131 142, 151, and 171.

152. ENGINEERING MATHEMATICS II. (3-2). Credit 4. (TCCNS MATH 2414). Differentiation and integration techniques and their applications (area, volumes, work), improper integrals, approximate integration, analytic geometry, vectors, infinite series, power series, Taylor series, computer algebra (Maple). Prerequisite: MATH 151 or equivalent. Credit will not be given for both MATH 152 and 172.

161. ENGINEERING MATHEMATICS II. (3-0). Credit 3. Differentiation and integration techniques and their applications, improper integrals, approximate integration, analytical geometry, infinite series, power series, Taylor series. Prerequisite: MATH 151 or equivalent.

166. TOPICS IN CONTEMPORARY MATHEMATICS II. (3-0). Credit 3. Finite mathematics, matrix theory, probability theory, game theory. Prerequisites: High school algebra I, algebra II and geometry. Credit will not be given for more than one of MATH 141 and 166.

251. ENGINEERING MATHEMATICS III. (3-0). Credit 3. Vector calculus, calculus of functions of several variables, partial derivatives, directional derivatives, gradient, multiple integration, line integrals, Stoke's theorems. Prerequisite: MATH 152 or 161 or equivalent.

285. DIRECTED STUDIES. Credit 1 or more. Special problems in mathematics not covered by any other course in the curriculum. Work may be in either theory or laboratory. Prerequisite: Approval of department head.

308. DIFFERENTIAL EQUATIONS. (3-0). Credit 3. Linear ordinary differential equations, solutions in series, solutions using Laplace transforms, systems of differential equations. Prerequisite: MATH 251 or equivalent. Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit 1 or more. Special problems in mathematics not covered by any other course in the curriculum. Work may be in either theory or laboratory. Prerequisites: Approval of department head. Junior or senior classification or approval of instructor.

### **Mechanical Engineering (MEEN)**

---

363. DYNAMICS AND VIBRATION. (2-2). Credit 3. Application of Newtonian and energy methods to model dynamic systems (particles and rigid bodies) with ordinary differential equations; solutions of models using analytical and numerical approaches; interpreting solutions; linear vibrations. Prerequisites: ENGR 211, MATH 308. Junior or senior classification or approval of instructor.

### **Meteorology (METR)**

---

302. WEATHER REPORTS AND FORECASTING. (3-0). Credit 3. Basic description of atmospheric characteristics and processes relevant to the understanding of weather patterns and atmospheric principles. Prerequisite: Junior or senior classification or approval of instructor.

### **Nautical Science (NAUT)**

---

103. MARITIME ORIENTATION AND LIFESAVING. (2-3). Credit 3. Introduction to the maritime industry, the ships, the seaman, and the purpose of the U.S. Merchant Marine. Shipboard nomenclature, cargoes, and recent trends in the marine industry. Practical lifeboat and life-saving training for certification as Lifeboatman by the U.S. Coast Guard.

200. BASIC COMMUNICATIONS, NAVIGATION AND SEAMANSHIP. Credit 4. Practical application of student's classroom studies aboard training ship during first training cruise. Student completes basic projects in communications, navigation, seamanship and rules of the road. Prerequisites: NAUT 103, 203, 204 or permission of MART department head.

201. NAVAL ARCHITECTURE I. (3-2). Credit 4. Description of ship as self-sustaining unit. Shipbuilding nomenclature and dimensions, types of construction, and classification of merchant ships. Classification societies, shipbuilding materials and methods, and structural components of ships. Prerequisite: NAUT 103.

202. NAVAL ARCHITECTURE II. (3-0). Credit 3. Ship's lines drawing and form calculations; principles of flotation and buoyancy; inclining experiments, free liquids, transverse stability; motion of ships in waves, seaway and dynamic loads, ship structure tests. Prerequisite: NAUT 201.

203. SEAMANSHIP I. (2-3). Credit 3. Intermediate lifeboat, lifesaving and firefighting procedures. Practical use in lab of manila lines, wire, splicing, knots, block and tackle, cargo gear, anchoring, mooring, and steering gear operations. Introduction to the international rules of the road. Projects aboard merchant, research and offshore oil vessels in the ports of Galveston and Texas City. Prerequisite: NAUT 103 or concurrent registration.

204. TERRESTRIAL NAVIGATION. (2-2). Credit 3. Fundamentals of piloting, chart construction and development, aids to navigation, useful publications, principles of magnetism and the magnetic compass, great circle, Mercator and middle latitude sailing. Prerequisites: Algebra and trigonometry recommended.

300. INTERMEDIATE COMMUNICATIONS, NAVIGATION AND SEAMANSHIP. Credit 4. Practical application of student's classroom studies aboard training ship during second training cruise. Student completes intermediate projects in communications, navigation, seamanship, and rules of the road. Thorough study made of U.S. Public Health requirements in first aid. Prerequisites: METR 302, NAUT 200, 301, 303 or permission of MART department head. Junior or senior classification or approval of instructor.

301. SEAMANSHIP II. (2-3). Credit 3. Mechanical appliances aboard ship, accident prevention, vessel sanitation, marine inspection laws and regulations, search and rescue procedures, communications. Prerequisites: NAUT 203 or concurrent registration. Junior or senior classification or approval of instructor.

302. SEAMANSHIP III. (1-3). Credit 2. Principles and methods of propulsion and steering of ships. Ship handling in narrow channels and heavy seas, docking, undocking, mooring and towing. Prerequisites: NAUT 202, 301 or concurrent registration. Junior or senior classification or approval of instructor.

303. CELESTIAL NAVIGATION. (2-3). Credit 3. Full range of celestial navigation. Survey of nautical astronomy, sight reduction, sextants, compass error determination, and solutions of the navigational triangle by various methods. Prerequisites: NAUT 200, 204 or permission of MART department head. Junior or senior classification or approval of instructor.

304. ELECTRONIC NAVIGATION. (2-2). Credit 3. Theory, operation and application of marine electronic navigation aids and systems; marine gyro compass, radio direction finder, Loran, Omega, Decca, satellite, echo sounder, Doppler and integrated navigation systems. Marine radar theory, operation and interpretation. Student examined for U.S. Coast Guard Certification as "Radar Observer" following completion of course. Prerequisites: NAUT 303. Junior or senior classification or approval of instructor.

305. SHIP CONSTRUCTION AND STABILITY. (3-3). Credit 4. Shipbuilding nomenclature, dimensions, construction and classification. Classification societies, shipbuilding materials and methods, structural components. Ship's line drawing and form calculations; principles of flotation and buoyancy; inclining experiments; free liquids; transverse stability; trim and longitudinal stability; motion of ship in waves, seaway and dynamic loads; ship's structure tests and propulsion. Prerequisites: NAUT 103, PHYS 201 or 218. Junior or senior classification or approval of instructor.

306. RADAR/ARPA. (3-3). Credit 4. Introduction to the theory, operation and interpretation of marine radar and automatic radar plotting aids (ARPA). Student examined for U.S. Coast Guard Certification as "RADAR Observer" and for Standards of Training and Certification and

Watchkeeping (STCW) Radar and ARPA endorsements. Minimum grade of 70% required for USCG and STCW endorsements. Prerequisites: NAUT 200, PHYS 202 or approval of instructor. Junior or senior classification.

307. GLOBAL MARITIME DISTRESS SAFETY SYSTEM. (3-3). Credit 4. Requirements, regulations, equipment, principles and hands-on operating procedures of each Global Maritime Distress Safety System subsystem, including: SARTS, EPIRBs NAVTEX, INMARSAT, SAFETYNET, VHF Survival Craft Transceivers, DSC, and HF Radiotelephone. USCG and FCC certification as GMDSS Operator and Maintainer (USCG/FCC fees required to sit for certification examinations). Minimum passing grade 75%. Prerequisites: NAUT 300, PHYS 202 or 208. Junior or senior classification or approval of instructor.

400. ADVANCED COMMUNICATIONS, NAVIGATION AND SEAMANSHIP. Credit 4. Practical application of student's classroom studies aboard training ship during third training cruise. Student completes advanced projects in communications, navigation, seamanship and rules of the road. Prerequisites: NAUT 200, 300, 302, 304; MART 321, 406. Junior or senior classification or approval of instructor.

404. THE NAVIGATOR. (2-3). Credit 3. Intensive, in-depth review of the principles of electronic, celestial, and terrestrial navigation in preparation for the U.S. Coast Guard examination for Third Mate. Prerequisites: NAUT 204, 304, 400. Junior or senior classification or approval of instructor.

406. BRIDGE WATCHSTANDING. (1-3). Credit 2. Bridge Watchstanding (simulator-based training) is a Bridge Resource Management (BRM) capstone course designed to enhance the third mate candidate's decision-making skills as they apply to ship traffic and voyage planning situations. Practical application of the Nautical rules of the road and correct bridge procedures. Day and night open sea, coastal transit and harbor conditions will be simulated. Prerequisites: NAUT 304, 306, 400. MART 321. Junior or senior classification or approval of instructor.

### **Naval Science (NVSC)**

---

101. INTRODUCTION TO NAVAL SCIENCE. (2-1). Credit 2. Seapower and the naval service; mission, organization, regulations, and broad warfare components of the Navy; overview of officer and enlisted rank and rating structures, procurement and recruitment, training and education, promotion and advancement, and retirement policies. Basic tenets of naval courtesy and customs, discipline, naval leadership, and ship's nomenclature. Major challenges facing naval officers; areas of equal opportunity and drug/alcohol abuse. Prerequisite: Approval of department head.

102. LEADERSHIP AND MANAGEMENT I. (3-1). Credit 3. Principles of leadership and management and their application to the duties and responsibilities of a junior naval officer; management theory, professional responsibility and human resource system programs; skills in leadership, goal setting and communication developed through guided participation in case studies and situational problems. Prerequisite: NVSC 101 or approval of department head.

200. NAVAL SCIENCE FOR THE MERCHANT MARINE OFFICER. (3-0). Credit 3. Organization of the U.S. Navy (including the U.S. Navy Control of Shipping Organization) with discussion of the Merchant Marine Naval Reserve commission in order to provide a sound basis for liaison between the U.S. Navy and the Merchant Marine. Seapower will be analyzed and naval damage control procedures and underway replenishment procedures will be introduced.

201. NAVAL SHIP SYSTEMS I. (3-0). Credit 3. Introduction to naval ship systems. Types, structure, and purpose of naval ships; ship propulsion systems; auxiliary power systems; interior communication and damage control; elements of ship design and stability characteristics. Prerequisite: NVSC 101 or approval of department head.

285. DIRECTED STUDIES. Credit 1-3. Directed study in problems in the field of naval science not covered by other courses in department. Prerequisites: Senior classification and approval of department head.

302. NAVIGATION AND NAVAL OPERATIONS II. (2-2). Credit 3. Duties and responsibilities of the OOD (u/w), navigator/bridge watch team during routine and special at sea evolutions; relative motion, formations tactics, internationals and inland rules of the nautical road and applied aspects of ship handling; familiarization with naval communications and messages. Prerequisites: NVSC 301. Junior or senior classification or approval of instructor.

401. NAVAL SHIP SYSTEMS II. (3-0). Credit 3. Theory and principles of operation of naval weapons systems; types of weapons and fire control systems, capabilities and limitations, theory of target acquisition, identification and tracking, trajectory principles, and basics of naval ordnance. Prerequisites: NVSC 102 or approval of department head. Junior or senior classification or approval of instructor.

402. LEADERSHIP AND ETHICS. (3-1). Credit 3. Practical applications of leadership and management as an academic discipline; interpersonal behavior and performance evaluation; skills in leadership, control, direction, planning, communication, counseling and discipline developed through guided participation in case studies and situational problems. Prerequisites: NVSC 102 or approval of department head. Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit 1-3. Directed study in problems in the field of naval science not covered by other courses in department. Prerequisites: Senior classification and approval of department head.

### **Ocean Engineering (OCEN)**

---

300. OCEAN ENGINEERING WAVE MECHANICS. (3-0). Credit 3. Physical and mathematical fundamentals of ocean wave behavior. Mechanics of wave motion. Use of statistics and probability to develop design wave criteria. Prerequisite: CVEN 311. Junior or senior classification or approval of instructor.

400. BASIC COASTAL ENGINEERING. (3-0). Credit 3. Mechanics of wave motion. Wave refraction, diffraction, and reflection. Wave forecasting. Shore processes. Planning of coastal engineering projects. Design of seawalls, breakwaters, and fixed offshore installations. Offshore pipelines. dredging. control of oil spills in estuaries and at sea. Prerequisites: CVEN 311; OCEN 300. Junior or senior classification or approval of instructor.

462. HYDROMECHANICS. (3-0). Credit 3. Kinematics of fluids, incompressible, irrotational and turbulent flow. Navier-Stokes equations, flow of viscous fluids. Prerequisites: CVEN 311; MATH 308. Junior or senior classification or approval of instructor.

### **Oceanography (OCNG)**

---

251. OCEANOGRAPHY. (3-0). Credit 3. Overview of the ocean environment; interrelation of the subdisciplines of ocean sciences; importance of the oceans to human beings; human impact on the oceans. Prerequisite: Concurrent registration in ONCG 252 if necessary for meeting the 8 credit hour science core curriculum requirement.

252. OCEANOGRAPHY LABORATORY. (0-3). Credit 1. Practical laboratory experiments and exercises demonstrating principles of ocean sciences. May include weekend field trips. Prerequisite: OCNG 251 or concurrent registration.

285. DIRECTED STUDIES. Credit 1-4. Individually supervised research or advanced study on restricted area not covered in regular courses.

401. INTRODUCTION TO OCEANOGRAPHY. (3-0). Credit 3. Quantitative survey of interdisciplinary relationship between biological, chemical, geological, geophysical, and physical aspects of the ocean. Prerequisites: MATH 131 or equivalent and CHEM 101. Junior or senior classification or approval of instructor.

420. INTRODUCTION TO BIOLOGICAL OCEANOGRAPHY. (3-0). Credit 3. Biological aspects of the marine environment. Use of the sea and problems of productivity, pollution, fouling and boring organisms. Prerequisites: BIOL 112. Junior or senior classification or approval of instructor.

485. DIRECTED STUDIES. Credit 1-4. Individually supervised research or advanced study on restricted area not covered in regular courses. Prerequisite: Junior or senior classification or approval of instructor.

### **Ocean and Coastal Resources (OCRE)**

---

491. RESEARCH IN OCEAN AND COASTAL RESOURCES. Credit 1 to 4. Research conducted under the direction of faculty member in Ocean and Coastal Resources. May be repeated 2 times for credit. Please see academic advisor in department. Registration in multiple sections of this course is possible within a given semester provided that the per semester credit hour limit is not exceeded. Prerequisites: Junior or senior classification and approval of instructor.

### **Philosophy (PHIL)**

---

240. INTRODUCTION TO LOGIC. (3-0). Credit 3. (TCCNS PHIL 2303). Methods and principles used to distinguish between correct and incorrect reasoning; uses of language, informal and formal fallacies, Venn diagrams, truth-tables, symbolic notation, formal deductive proof, induction.

314. ENVIRONMENTAL ETHICS. (3-0). Credit 3. Moral basis of duties to preserve or protect plants, animals and environmental systems; foundations of environmental law and policy; the idea of nature in philosophy; critique of social and economic analyses of environmental values. Prerequisite: Sophomore, junior or senior classification or approval of instructor.

### **Physics (PHYS)**

---

201. COLLEGE PHYSICS. (3-3). Credit 4. (TCCNS PHYS 1401). Fundamentals of classical mechanics, heat, and sound. Prerequisite: MATH 103 or equivalent.

202. COLLEGE PHYSICS. (3-3). Credit 4. (TCCNS PHYS 1402). Continuation of PHYS 201. Fundamentals of classical electricity and light; introduction to contemporary physics. Prerequisite: PHYS 201.

208. ELECTRICITY AND OPTICS. (3-3). Credit 4. Continuation of PHYS 218. Electricity, magnetism and introduction to optics. Primarily for engineering students. Prerequisites: PHYS 218; MATH 152 or 172 or registration therein.

218. MECHANICS. (3-3). Credit 4. (TCCNS PHYS 2545). Mechanics for students in science and engineering. Prerequisite: MATH 151 or concurrent registration.

219. ELECTRICITY. (3-3). Credit 4. Continuation of PHYS 218. (TCCNS PHYS 2426). Electricity, magnetism and introduction to optics. Prerequisites: MATH 161 or equivalent; PHYS 218.

285. DIRECTED STUDIES. Credit 1-4. Special work in laboratory or theory to meet individual requirements in cases not covered by regular curriculum. Prerequisite: Approval of department head.

485. DIRECTED STUDIES. Credit 1-4. Special work in laboratory or theory to meet individual requirements in cases not covered by regular curriculum. Prerequisites: Approval of department head. Junior or senior classification or approval of instructor.

### **Political Science (POLS)**

---

206. AMERICAN NATIONAL GOVERNMENT. (3-0). Credit 3. (TCCNS GOVT 2305). Survey of American national government, politics, and constitutional development.

207. STATE AND LOCAL GOVERNMENT. (3-0). Credit 3. (TCCNS GOVT 2306). Survey of state and local government and politics with special reference to the constitution and politics of Texas.

331. INTRODUCTION TO WORLD POLITICS. (3-0). Credit 3. Analysis of contemporary world from point of view of nation-state; political problems, factors involved in foreign policies and relations of nations. Prerequisites: POLS 206 or approval of department head. Junior or senior classification or approval of instructor.

340. INTRODUCTION TO PUBLIC ADMINISTRATION. (3-0). Credit 3. American public administration; development of public service; theories of organization and management, executive leadership and policy formation, bureaucratic politics, administrative accountability, and personnel practices. Prerequisites: POLS 206 or approval of department head. Junior or senior classification or approval of instructor.

347. POLITICS OF ENERGY AND THE ENVIRONMENT. (3-0). Credit 3. U.S. energy and environmental problems and politics and the political, legal, and institutional factors influencing their development and implementation. Prerequisites: POLS 206 or approval of department head. Junior or senior classification or approval of instructor.

366. POLITICAL CONFLICTS OF THE MIDDLE EAST. (3-0). Credit 3. This course seeks to provide students with an understanding of the internal, regional and international politics of the Middle East; with a focus on selected political conflicts and the influence of the region's cultures, religions and natural resources, as well as outside political forces. Prerequisites: POLS 206. Junior or senior classification or approval of instructor.

### **Psychology (PSYC)**

---

107. INTRODUCTION TO PSYCHOLOGY. (3-0). Credit 3. (TCCNS PSYC 2301). Introductory course dealing with elementary principles of human behavior.

306. ABNORMAL PSYCHOLOGY. (3-0) Credit 3. Survey of behavior pathology; functional and organic psychoses, psychoneurosis, character disorders, psychophysiological disorders, alcohol and drug addiction and mental retardation; therapeutic and diagnostic methods. Prerequisites: PSYC 203 and 204. Junior or senior classification or approval of instructor.

### **Recreation, Park and Tourism Sciences (RPTS)**

---

301. LEISURE AND OUTDOOR RECREATION. (3-0) Credit 3. Development and administration of recreational facilities in natural and indoor settings. Development of community, land and water resources to provide recreational opportunities in which environmental factors play major roles. Fundamental concepts of recreation and leisure and their roles in modern American culture. Prerequisite: Junior or senior classification or approval of instructor.

340. RECREATION, PARKS AND DIVERSE POPULATIONS. (3-0). Credit 3. Review of major judicial decisions and civil rights laws on provision and distribution of recreation and park services in society; the influence of age, disability, ethnicity, national origin, race, religion and gender on individual's preferences for particular recreation opportunities and experiences; implications of individual differences for the provision of recreation services. Prerequisite: Junior or senior classification or approval of instructor.

### **Spanish (SPAN)**

---

101. BEGINNING SPANISH I. (3-2). Credit 4. (TCCNS SPAN 1411). Elementary language study with oral, written and reading practice. Preparation for conversation. Part of class preparation will be done in language laboratory. Students with prior instruction are required to take the Spanish Placement Test before enrolling for the first time in college Spanish course.

102. BEGINNING SPANISH II. (3-2). Credit 4. (TCCNS SPAN 1412). Continuation of SPAN 101. Part of class preparation will be done in language laboratory. Prerequisite: SPAN 101. Students with prior instruction in Spanish are required to take the Spanish Placement Test before enrolling the first time in a college Spanish course.

201. INTERMEDIATE SPANISH I. (3-0). Credit 3. (TCCNS SPAN 2311). Readings of average difficulty. Review of grammar; practice in conversation and composition. Prerequisite: SPAN 102. Students with prior instruction in Spanish are required to take the Spanish Placement Test before enrolling for the first time in a college Spanish course.

202. INTERMEDIATE SPANISH II. (3-0). Credit 3. (TCCNS SPAN 2312). Continuation of SPAN 201 with more advanced material. Prerequisite: SPAN 201. Students with prior instruction in Spanish are required to take the Spanish Placement Test before enrolling for the first time in a college Spanish course.

### **Statistics (STAT)**

---

201. ELEMENTARY STATISTICAL INFERENCE. (3-0). (TCCNS STAT 1342). Credit 3. Data collection, tabulation and presentation. Elementary description of the tools of statistical inference; probability, sampling and hypothesis testing. Applications of statistical techniques to practical problems. May not be taken for credit after any other course in statistics or BANA 303 has been taken.

### **Veterinary Pathobiology (VTPB)**

---

409. INTRODUCTION TO IMMUNOLOGY. (3-0) Credit 3. Diverse concepts relative to immunologic mechanisms inherent to domestic and laboratory animals. Prerequisites: VTPB 405 or junior or senior classification or approval of instructor.

### **Wildlife and Fisheries Science (WFSC)**

---

420. ECOLOGY FOR TEACHERS. (3-0). Credit 3. Lectures, discussions, and readings in principles of ecology and their application in today's problems in environmental conservation. Prerequisites: Junior or senior classification or approval of instructor.

# THE FACULTY

The faculty and administrative positions are current as of Spring, 2007. Figures in parentheses indicate date of first appointment at the University and date of appointment to present positions, respectively. An asterisk indicates a graduate faculty appointment. Two asterisks indicates a pending graduate faculty appointment.

- Acero-Schertzer, Carmen, Lecturer in Marine Sciences (2005). B.S., U.N.M. San Marcos, Lima, Peru, 1978; M.S., Drexel University, 1984; M.S., University of Miami, 1990; Ph.D., University of Miami, 1996.
- Alexander, Erin M., Lecturer in Maritime Administration (2004). B.A., Business Administration, University of St. Thomas, 1977; B.A., Economics, University of St. Thomas, 1977; M.B.A., Southern Methodist University, 1978.
- Alexander, William B., Lecturer in Maritime Administration (2003). B.A., University of St. Thomas, 1976; M.A., University of Notre Dame, 1977.
- Alvarado-Bremer, Jaime R., Associate Professor of Marine Biology, Wildlife and Fisheries Sciences\* and Marine Sciences\*(1999). B.S., Universidad, Autonoma Metropolitana, Mexico, 1985; M.S., University of Toronto, 1988; Ph.D., University of Toronto, 1994.
- Amon, Rainer, Associate Professor of Marine Sciences\* and Oceanography\* (2003, 2007). B.S., University of Vienna, Austria, 1986; M.S., University of Vienna, Austria, 1990; Ph.D., University of Texas, Austin, 1995.
- Anis, Ayal, Associate Professor of Marine Sciences\* and Oceanography\* (2000, 2007). B.S., Tel-Aviv University, 1982; M.S., Hebrew University, 1984; Ph.D., Oregon State University, 1993.
- Armitage Chan, Anna R., Assistant Professor of Marine Biology, Marine Sciences\*, and Rangeland Ecology and Management (2006) (2007). B.S., University of California, Los Angeles, 1995; Ph.D., University of California, Los Angeles, 2003.
- Atchley, James D., Lecturer in General Academics (Competitive Sailing) (2004). B.B.A., Southern Methodist University, 1958; Master of Banking, Southern Methodist University, 1966.
- Baker, Robert K., Lecturer in Maritime Administration (1983) (2002). B.S., Texas A&M University, 1977; M.B.A., University of Houston, 1983. Master of Steam and Motor Vessels of Not More Than 1600 Gross Tons Upon Oceans.
- Balaban, Alexandru, Professor of Marine Sciences\* (2000). Diploma, Radiochemist, Ph.D., Polytecnic University, Bucharest, Romania, 1953, 1957, 1959.
- Baldwin, Janetta, Senior Lecturer in General Academics (Kinesiology) (1980, 1994). B.S., University of Texas, 1969; M.S., Texas A&M University, 1980.
- Barousse, Candice U., Lecturer in General Academics (Kinesiology) (2003). B.S., University of Houston at Clear Lake, 2000.
- Bateman, Craig A., Lecturer in Maritime Systems Engineering (2000). B.S., University of Michigan, 1979; M.S., Naval Postgraduate School, 1993.
- Bell, Janice S., Lecturer in General Academics (Spanish) (2002). B.A., University of Houston, 1970; M.A., University of Northern Iowa, 1995.
- Bodson, Bruce, Lecturer in Marine Sciences (2002). B.S., University of Arizona, 1980; M.S., University of Texas at Dallas, 1987; J.D., South Texas College of Law, 1993.
- Boudreaux, Lowell A., Lecturer in Maritime Administration (2003). B.B.A., Lamar University, 1993; M.B.A., Lamar University, 1996.
- Brinkmeyer, Robin L., Assistant Professor of Marine Sciences\* (2003, 2006). B.S., University of Texas, 1988; B.S., University of Texas, 1988; M.A., University of Texas, 1993; Ph.D., University of Bremen, Germany, 2003.
- Brown, Philip R., Associate Professor of General Academics, (Mathematics) (2001, 2007). B.S., University of Witwatersrand, Johannesburg, South Africa, 1991; M.S., University of Witwatersrand, Johannesburg, South Africa, 1993; Ph.D., Texas A&M University, 2000.
- Brumbaugh, Fred R., Lecturer in Marine Sciences (2002). B.S., Shippensburg University, 1972; M.S., University of Houston at Clear Lake, 1978.
- Buch, Kevin, Lecturer in General Academics (Scuba Diving) (2005). B.S., University of Texas at Arlington, 1998; M.S., University of Texas at Arlington, 2000.
- Calvert, Jeffrey A., Lecturer in Maritime Administration (2006). B.S., Ashland University, 1963; M.S., University of Washington, 1970.
- Carhart, John W., Senior Lecturer in General Academics (Political Science) and Assistant Department Head (1988) (2002). B.A., Southwest Texas State University, 1981; M.A., Southwest Texas State University, 1988.
- Carlson, Janet F., Professor of General Academics (Psychology) (2002). B.S., Union College, 1979; M.A., Fordham University, 1982; Ph.D., Fordham University, 1987.
- Chang, Tyne-hsien (Ted), P.E., Associate Professor of Maritime Systems Engineering (1981). B.S., National Chen-kung University, 1974; M.S., University of Florida, 1978; Ph.D., University of Florida, 1981.

Ciminello Jr., Vito J., C.P.A., Senior Lecturer in Maritime Administration (1994). B.A., Brown University, 1977; M.S., Northwestern University, 1979.

Cole, Collier M., Lecturer in General Academics (Psychology) (1983). B.A., University of California at Los Angeles, 1971; M.A., University of Houston, 1973; Ph.D., University of Houston, 1976.

Coleman Jr., Charles H., Senior Lecturer in Marine Sciences and Director of the Geology Laboratory (1981, 1992). B.S., Texas A&M University, 1975; M.S., University of Houston at Clear Lake, 1986.

Coleman, Cheryl L., Lecturer in General Academics (Kinesiology) (1997). B.S., United States Naval Academy, 1984; J.D., Northwestern University, 1993.

Coleman, Gerard T., P.E., Senior Lecturer in Marine Engineering Technology (1996). B.S., U.S. Naval Academy, 1980; M.S., George Washington University, 1996.

Conway, Steven M., Senior Lecturer in Maritime Administration (2007). B.S., U.S. Coast Guard Academy, 1975; M.S., University of Bridgeport, 1980; M.P.P.M., Yale School of Management, 1982.

Curley, Stephen J., Professor of General Academics (English) (1973, 1996). B.A., Fordham University, 1968; Ph.D., Rice University, 1974.

Daigle, David A., Lecturer in Naval Science (2006). B.S., Old Dominion University, 2002.

Davis, Carol A. Bunch, Lecturer in General Academics (English) (2003). B.A., Trinity University, 1990; M.A., University of Houston at Clear Lake, 1998.

Davis, Randall W., Professor of Marine Biology and Wildlife and Fisheries Sciences\* (1990, 1994). B.S., University of California, Riverside, 1974; Ph.D., University of California, San Diego, 1980.

Davison, Don F., C.P.A., Lecturer in Maritime Administration (2002). B.S., Southern Methodist University, 1975; M.A., University of Texas, 1977; M.B.A., Southern Methodist University, 1989.

Dellapenna, Timothy M., Assistant Professor of Marine Sciences\* and Oceanography\* (Geology) (1999). B.S., Michigan State University, 1986; M.S. Western Michigan University, 1993; Ph.D., College of William and Mary, 1999.

Edwards, Patricia, Lecturer in Marine Biology (2005). B.S., Texas A&M University at Galveston, 2001; MARM, Texas A&M University at Galveston, 2004.

English, Thomas T., Lecturer in General Academics (Mathematics) (2005). B.S., Penn State University, 1986; M.S., University of New Hampshire, 1991; M.S., University of Houston, 2000.

Estes III, Ernest L., Professor and Interim Department Head of Marine Sciences\* (1976, 1987, 2006). B.S., Lawrence University, 1965; M.A., Duke University, 1967; Ph.D., University of North Carolina, 1971.

Estrada, Joselito K., Assistant Professor of Maritime Administration (2005). B.A., Ateneo de Manila University, Philippines, 1985; M.A., Fordham University, 1988; Ph.D., Mississippi State University, 1992.

Fieglein, J. Michael, Lecturer in Maritime Administration (1999). B.S.M.E., University of Houston, 1970; J.D., Villanova School of Law, 1974.

Fieglein, Susan A., Lecturer in General Academics (Mathematics) (1999). B.A., College of William and Mary, 1964.

Fitzhugh III, Thomas C., Lecturer in Maritime Administration (1996). B.S., Texas A&M University, 1971; J.D., University of Texas, 1976.

Fleming, Kevin S., Lecturer in General Academics (English) (2002). B.A., Southwest Texas State University, 1976; M.A., University of Texas at Austin, 1984; Ph.D., University of Houston, 1999.

Folden, Charles A., Lecturer in Marine Sciences (1980). B.S., California State University, Long Beach, 1975; M.A., Governors State University, 1979.

Fredrickson, Henry W., Lecturer in Marine Engineering Technology (2005). B.S., Texas A&M University at Galveston, 1968.

Gilbertson, Michelle L., Lecturer in Marine Sciences (2004). B.S., Valparaiso University, 1990; M.S., Northwestern University, 1992; Ph.D., Northwestern University, 1994.

Glenn Jr., William P., Lecturer in Maritime Administration and Marine Transportation (1997). B.S., Texas A&M University, 1981; J.D., Franklin Pierce Law Center, 1992.

Gonzales, Raquel, Lecturer in General Academics (Spanish) (2004). B.S., University of Houston, 1968; M.A., University of Houston at Clear Lake, 1977.

Gracia, Pete A., Lecturer in General Academics (Mathematics) (1993). B.S., Lamar University, 1959; M.S., University of Houston at Clear Lake, 1991.

Griffin, Lawrence L., Professor of Marine Sciences\* and Oceanography\* (1976, 2007). B.A., University of Texas, 1962; M.S., University of Texas, 1965; Ph.D., University of Texas, 1972.

Hall, Christopher P., Lecturer in Marine Biology (2005). B.A. (Geology), B.A. (Environmental Science), University of North Carolina at Wilmington, 1997; MMR, Texas A&M University at Galveston, 2003.

Hark, John F., Lecturer in Maritime Administration (2002). B.S., Texas A&M University, 1989.

Haupt, Karl H., Lecturer in Marine Transportation (1995). B.S., Texas A&M University, 1981. Master of Steam and Motor Vessels of Any Gross Tons Upon Oceans.

Haymes, William E., Lecturer in Marine Sciences and Director of the Physics Laboratory (1989, 1992). B.S., University of Missouri-Rolla, 1964; M.S., University of Missouri-Rolla, 1971; Ph.D., University of Manchester, England, 1976.

Hickey, Curtis M., Lecturer in General Academics (Kinesiology) (2005). B.S., University of Houston, 1996; M.A., University of Houston at Clear Lake, 2002.

Hite, Gerald E., Professor of Marine Sciences\* (1980, 1998). B.S., Case Western Reserve, 1962; M.S., University of Illinois, 1965; Ph.D., University of Illinois, 1967; Habilitation, Universitat Kaiserslautern, 1974.

Hufton, Amie J., Lecturer in General Academics (Kinesiology) (2006). B.S., Texas A&M University at Galveston, 2002.

Illiffe, Thomas M., Professor of Marine Biology, Wildlife and Fisheries Sciences\* and Oceanography\* (1989, 1997). B.S., Penn State University, 1970; M.S., Florida State University, 1973; Ph.D., University of Texas Medical Branch, 1977.

Ingle, Sudeep P., Lecturer in Marine Engineering Technology (2005). B.E., Nagpur University, Nagpur, India, 1999; M.E., Indian Institute of Science, Bangalore, India, 2001; Ph.D., Texas A&M University, 2005.

Jin, Jun, Assistant Professor of Maritime Systems Engineering and Civil Engineering\* (2003). B.S., Harbin Engineering University, Harbin, China, 1991; M.S., Tianjin University, Tianjin, China, 1994; Ph.D., University of Central Florida, 2002.

Johnson, Thomas S., Associate Professor of General Academics (English) (1974, 1981). B.A., Loyola University of Los Angeles, 1966; M.A., University of California at Los Angeles, 1968; Ph.D., University of Texas, 1973.

Jones, Glenn A., Professor of Marine Sciences\* and Oceanography\* (1996). B.A., University of Rhode Island, 1977; M.S., Columbia University, 1979; Ph.D., Columbia University, 1983.

Jones, Victoria L., Lecturer in Maritime Systems Engineering, (1993). B.S., Texas A&M University, 1991; M.S., University of Florida, 1993.

Kang, Cong X., Lecturer in General Academics (Mathematics) (2004). B.S., Carnegie Mellon University, 1992; Ph.D., University of Texas, 1999.

Kanz, James E., Associate Professor of Marine Biology and Biology\* (1978, 1985). B.A., University of Washington, 1966; Ph.D., Tufts University, 1973.

Klein, Douglas J., Professor of Marine Sciences\* and Oceanography\* (1979, 1987). B.S., Oregon State University, 1965; M.A., University of Texas, 1967; Ph.D., University of Texas, 1969.

Knock, Susan L., Senior Lecturer in Marine Sciences\* and Director of Chemistry Laboratories (1996, 2003). B.A., Colorado State College, 1975; Ph.D., University of Texas Medical Branch, 1988.

Knox, Kris J., C.P.A., Senior Lecturer in Maritime Administration (1984). B.B.A, University of Houston, 1979; M.B.A., University of Houston, 1984; Ph.D., University of Texas Health Science Center at Houston, 1992.

Ko, Jae-Young, Assistant Professor of Marine Sciences\* (2005). B.A., Hankuk University, Seoul, Korea, 1983; M.A., Hankuk University, Seoul, Korea, 1987; M.A., Syracuse University, 1994; Ph.D., State University of New York, 2000.

Landry Jr., André M., Professor of Marine Biology, Wildlife and Fisheries Sciences\* and Marine Sciences\* (1977, 1991). B.S., Tulane University, 1968; M.S., Texas A&M University, 1971; Ph.D., Texas A&M University, 1977.

Lane, John M., Lecturer in Maritime Administration (2002). B.S., State University of New York Maritime College, 1965; M.S., University of Houston at Clear Lake, 1978. Master of Steam and Motor Vessels of Any Gross Tons Upon Oceans. First Class Pilot of Vessels of Any Gross Tons (Houston, Bolivar, Texas City).

Lang, Donna C., Lecturer in Maritime Administration, Assistant Vice President for Academic Affairs (1996, 2007). B.S., Texas A&M University, 1988; M.A. University of Houston at Clear Lake, 1992; Ed.D., University of Houston, 2000.

Lang Jr., Victor J., Lecturer in General Academics (Speech) (1997). B.A., University of Texas, 1960.

Lawhon, David R., Lecturer in General Academics (History) (2003). B.A., University of Houston at Clear Lake, 1995; M.A., University of Houston at Clear Lake, 2000.

Lesko, Melanie J., Senior Lecturer in Marine Sciences\* and Associate Department Head (Chemistry) (1983, 1996). Associate Department Head (1996). B.S., Lamar University, 1972; Ph.D., University of Houston, 1977.

Li, Dongcheng, Lecturer in Marine Engineering Technology (2006). B.S., Central South University, Changsha, China, 1995; M.S., New Jersey Institute of Technology, 2002; M.S., University of Maine, 2002.

Linton, Thomas L., Senior Lecturer in Marine Sciences\* and Wildlife and Fisheries Sciences\*. (1981, 1989) B.S., Lamar University, 1959; M.S., University of Oklahoma, 1961; Ph.D., University of Michigan, 1965.

- Loftin, R. Bowen, Professor of Maritime Systems Engineering, Vice President and Chief Executive Officer (2005). B.S., Texas A&M University, 1970; M.A., Rice University, 1973; Ph.D., Rice University, 1975.
- Louchouart, Patrick, Associate Professor of Marine Sciences\* (2006). B.S., McGill University, Montreal, Quebec, Canada, 1989; M.S., Université du Québec à Montréal, 1992; Ph.D., Université du Québec à Montréal, 1997.
- Luxemburg, Leon A., Assistant Professor of General Academics (Mathematics) (1990, 2005). M.S., The Mari State Teacher's Training Institute (MGPI), Russia, 1973; M.S., University of Kentucky, 1983; Ph.D., Texas A&M University, 1987.
- Macco, Debra A., Senior Lecturer in General Academics (Kinesiology) (1994, 2003). B.S., Lamar University, 1975; M.A., University of Houston, 1995.
- Mark, Samuel E., Associate Professor of General Academics (Anthropology\*/Archeology) (2001, 2006). B.S., Ball State University, 1980; M.A., Texas A&M University, 1993; Ph.D., Texas A&M University, 2000.
- Marshall, Christopher D., Assistant Professor of Marine Biology and Wildlife and Fisheries Science\* (2001). B.S., Virginia Polytechnic Institute and State University, 1990; M.S., Nova Southeast University Oceanographic Center, 1992; Ph.D., University of Florida, 1997.
- Martinez, Rudy D., P.E., Lecturer in Marine Engineering Technology (2006). B.B.A., Sam Houston State University, 1972; B.S., Lamar University, 1984; M.S., University of South Carolina, 1996; Ph.D., University of South Carolina, 2004.
- McCloy, James M., Professor of Marine Sciences,\* Maritime Administration and Geography\* (1971, 1984). B.A., State College at Los Angeles, 1961; Ph.D., Louisiana State University, 1969.
- McGonagle, W. Brad, Lecturer in Maritime Administration (2001). B.B.A. Texas A&M University, 1990; B.B.A., Texas A&M University, 1992; M.S., Texas A&M University, 1993; Ph.D., Texas A&M University, 1996.
- McMullen, Peggy L., Lecturer and Library Archivist (2004). B.Mus., St. Olaf College, 1963; M.Mus., University of Houston, 1979; M.S.L.S., Long Island University, 1987.
- McMullen, William T., Professor and Department Head of Maritime Administration, Professor of Marine Sciences\* and Interim Department Head of Marine Transportation, (1995, 2000). B.S., State University of New York Maritime College, 1964; M.B.A., University of Houston, 1973; Ph.D., University of Wales, 1993. Master of Steam and Motor Vessels of Any Gross Tons Upon Oceans.
- Merrell, Jr., William J., Professor of Marine Sciences,\* (1987, 1992), B.S., Sam Houston State University, 1965; M.A., Sam Houston State University, 1967; Ph.D. Texas A&M University, 1971.
- Metz, Tasha L., Lecturer in Marine Biology (2006). B.S., Texas Christian University, 1995; M.S., Texas Christian University, 1997; Ph.D., Texas A&M University, 2004.
- Mileski, Joan P., C.P.A., Associate Professor of Maritime Administration and Marine Sciences\* (2004). B.B.A., University of Notre Dame, 1979; M.S., Pace University, 1983; Ph.D., University of Texas at Dallas, 2000.
- Miller, Michael B., Lecturer in Marine Transportation (2001). B.S. Texas A&M University, 1981. Master of Steam and Motor Vessels of Any Gross Tons Upon Oceans. First Class Pilot of Vessels of Any Gross Tons (Freeport).
- Mohler, Robert R., Lecturer in Marine Sciences (2001). B.S., University of Toledo, 1975; M.A., University of Toledo, 1977; M.S. University of Nevada at Reno, 1979; M.S., University of Houston at Clear Lake, 1981; Ph.D., Texas A&M University, 1994.
- Oertling, Thomas J., Lecturer in General Academics (Nautical Archaeology) (2000). B.S., Tulane University, 1977; M.A., Texas A&M University, 1984.
- O'Neal, Clifford C., Lecturer in Marine Biology (2007). B.S., Texas A&M University at Galveston, 1996; M.S., Louisiana State University, 2000; Ph.D., Southern Illinois University at Carbondale, 2005.
- Panchang, Vijaykumar G., Department Head and Professor of Maritime Systems Engineering. Department Head of Marine Engineering Technology. Professor of Civil Engineering.\* (2002). B.S., University of Poona, India, 1980; M.S., University of Maine, 1982; Ph.D., University of Maine, 1985.
- Pearl, Frederic B., Associate Professor of General Academics and Marine Sciences\* (Anthropology) (2000, 2007). B.A., San Diego State University, 1991; M.A., Texas A&M University, 1997; Ph.D., Texas A&M University, 2001.
- Penuel, Victor B., Lecturer in General Academics (English) (1994). B.A., University of Houston at Clear Lake, 1989; M.A., University of Houston at Clear Lake, 1994.
- Quigg, Antonietta S., Assistant Professor of Marine Biology and Oceanography,\* (2003). B.S., Chemistry, La Trobe University, Australia, 1989; B.S., Biochemistry, La Trobe University, Australia, 1990; Ph.D., Monash University, Australia, 2000.
- Radford, Melisa, Lecturer in General Academics (English) (2006). B.A., University of Houston at Clear Lake, 2004; M.A., University of Houston at Clear Lake, 2004.
- Ravandi, Ali, Lecturer in General Academics (Mathematics) (2004), B.E., Pahlavi International University, Iran, 1978; M.S., Mississippi State University, 1981; Ph.D., Mississippi State University, 1983.
- Ravens, Thomas M., Assistant Professor of Maritime Systems Engineering and Civil Engineering\* (1999). B.E., B.A., M.B., Dartmouth College, 1983; M.A., University of Massachusetts, 1990; Ph.D., Massachusetts Institute of Technology, 1997.

- Ray, Sammy M., Professor Emeritus of Marine Biology and Wildlife and Fisheries Sciences\* (1959)(1990). B.S., Louisiana State University, 1942; M.S., Rice University, 1952; Ph.D., Rice University, 1954.
- Rooker, Jay R., Associate Professor of Marine Biology, Wildlife and Fisheries Sciences\* and Marine Sciences\* (1998). B.A., Gustavus Adolphus College, 1985; M.S., University of Puerto Rico, 1991; Ph.D., University of Texas, 1997.
- Roth, Augusta D., Lecturer in Marine Transportation (2000). B.S., Texas A&M University, 1996. Master of Steam and Motor Vessels of Any Gross Tons Upon Oceans.
- Rowe, Gilbert T., Professor of Marine Biology and Oceanography\* and Department Head of Marine Biology (2003). B.S., Texas A&M University, 1964; M.S., Texas A&M University, 1966; Ph.D., Duke University, 1968.
- Ryan, James G., Professor of General Academics (History) (1990, 1996). B.A., University of Delaware, 1970; M.A., University of Delaware, 1973; M.A., University of Notre Dame, 1975; Ph.D., University of Notre Dame, 1981.
- Santschi, Peter H., Professor of Marine Sciences\* and Oceanography\*(1988). B.S., Gymnasium Berne, Switzerland, Matura, 1963; M.S., University of Berne, 1971; Ph.D., University of Berne, 1975; Privatdozent, Switzerland Federal Institute of Technology, 1984.
- Schlemmer II, Frederick C., Associate Professor of Marine Sciences\* and Oceanography\* (1978, 1985). B.S., U.S. Naval Academy, 1965; M.A., University of South Florida, 1971; Ph.D., Texas A&M University, 1978.
- Schmalz, Thomas G., Professor of Marine Sciences\* and Oceanography\* (1981, 1996). B.S., Montana State University, 1970; Ph.D., University of Illinois, 1975.
- Schulze, Anja, Assistant Professor of Marine Biology (2006). Diplom, University of Bielefeld, Germany, 1995; Ph.D., University of Victoria, Canada, 2001.
- Schwarz, John R., Professor of Marine Biology and Oceanography\* (1976, 1986). B.S., Rensselaer Polytechnic Institute, 1967; Ph.D., Rensselaer Polytechnic Institute, 1972.
- Seitz, William A., Professor of Marine Sciences\* and Oceanography\* (1977, 2002), Associate Vice President for Research and Graduate Studies (2006), Interim Associate Vice President for Academic Affairs (2007). B.A., Rice University, 1970; Ph.D., University of Texas at Austin, 1973.
- Shannon, Roderick, Lecturer in Naval Science (2004), B.B.A., East Texas State University, 1986; M.B.A., University of Dallas, 2002.
- Shepherd, Beth, Lecturer in General Academics (Kinesiology) (2005). B.S., Slippery Rock University, 1982; M.A., Southwest Texas State University, 1989.
- Sindylek, Robert A., Lecturer in General Academics (Psychology) (2006). B.S., Excelsior College-The University of the State of New York, 1993; M.A., University of Houston at Clear Lake, 1995; Ed.D., Argosy-University of Sarasota, 2000.
- Slatton, Katie, J., Lecturer in General Academics (Kinesiology) (2003). B.S., University of Montevallo, 1999; M.A., University of Montevallo, 2003.
- Smith, Jack H., Senior Lecturer in Marine Transportation (2003). B.S., Texas A&M University at Galveston, 1966. Master of Steam and Motor Vessels of Any Gross Tons Upon Oceans. First Class Pilot of Vessels of Any Gross Tons (Houston, Bolivar, Texas City).
- Suen, Ching Y., Professor of General Academics (Mathematics) (1984, 1998). M.S., Tsing Hua University, 1978; Ph.D., University of Houston, 1983.
- Sweetman, John A., P.E., Assistant Professor of Maritime Systems Engineering and Civil Engineering\* (2003). B.S., University of Michigan, 1986; M.E., Texas A&M University, 1987; Ph.D., Stanford University, 2001.
- Szucs, Joseph M., Professor and Interim Department Head of General Academics (Mathematics) (1980, 1991, 2006). M.S., Szeged University, 1965; Ph.D., Szeged University, 1967.
- Theis, William D., Lecturer in General Academics (English) (2005). B.A., University of Texas, 1978; M.A., University of Houston, 1988.
- Thraikill, Robert L., Lecturer in Marine Transportation (2006). B.S., Texas A&M University at Galveston, 1969. Master of Steam and Motor Vessels of Any Gross Tons Upon Oceans.
- Townsend, Grace L., Senior Lecturer in Marine Sciences (2001). B.S., Texas A&M University, 1981; M.S., University of Houston at Clear Lake, 1983.
- Traber, Daniel S., Associate Professor of General Academics, (English) (2001, 2007). B.A., University of Texas, Austin, 1991; M.A., University of Texas, El Paso, 1995, Ph.D., University of Houston, 2000.
- Treglia, Vincent A., P.E., Lecturer in Marine Engineering Technology (2001). B.S., State University of New York Maritime College, 1966. First Assistant Engineer of Steam Vessels of Any Horsepower.
- Turner, Elizabeth A., Lecturer in General Academics (CAEX Courses) (1997). B.S., University of Houston, Clear Lake, 1992.
- von Zharen, Wyndlyn M., Professor of Maritime Administration and Marine Sciences\*, Wildlife and Fisheries Sciences\* and Oceanography\* (1990, 2000). B.A., University of Florida, 1970; M.Ed., University of Florida, 1971; Ed.D., University of Florida, 1976; J.D., University of South Carolina Law School, 1987; L.L.M., University of Texas, 1998.
- Waddell Jr., Mathis T., Lecturer in General Academics (Political Science) (1995). B.A., University of Texas, 1962; M.A., University of Texas, 1963.

- Wade, Beth, Lecturer in General Academics (English) (1999). B.A., University of Texas, 1984; M.P.A., University of Texas, 1986; M.L.A., University of St. Thomas, 1997.
- Wardle, William J., Lecturer in Marine Biology (1973, 2003). B.S., Lynchburg College, 1963; M.S., Texas A&M University, 1970; Ph.D., Texas A&M University, 1974.
- Warnakulasuriya, Frank S. K., Senior Lecturer in Marine Engineering Technology (2003). B.S., University of Moratuwa, Sri Lanka, 1987; M.S., University of Illinois at Chicago, 1997; Ph.D., University of Illinois at Chicago, 1999.
- Wickliffe, Jeffrey K., Lecturer in General Academics (Philosophy) (2004). B.S., Texas A&M University, 1991; M.S., Texas A&M University, 1997; Ph.D., Texas Tech University, 2002.
- Wiest, Natalie H., Lecturer and Library Director (1982). B.A., Pennsylvania State University, 1971; M.S., Drexel University, 1973; M.S., University of Tennessee, 1980.
- Willett, Donald E., Associate Professor of General Academics (History) (1985, 1993). B.A., St. Edward's University, 1972; M.A., Stephen F. Austin University, 1976; Ph.D., Texas A&M University, 1985.
- Withoff, Alan B., Lecturer and Public Services Librarian (2003). B.A., Southern Methodist University, 1979; M.L.S., University of North Texas, 1989.
- Wursig, Bernd G., Professor of Marine Biology and Wildlife and Fisheries Sciences\* (1989). B.A., College of New Rochelle, 1969; B.S., Ohio State University, 1971; Ph.D., State University of New York, Stony Brook, 1978.
- Yi, Eunjeong, Assistant Professor in General Academics (Mathematics) (2003, 2006). B.S., Pusan National University, Pusan, South Korea, 1995; M.S., University of Houston, 2000; Ph.D., University of Houston, 2003.

## Texas Common Course Numbering System

The Texas Common Course Numbering System (TCCNS) has been designed for the purpose of aiding students in the transfer of general academic courses between colleges and universities throughout Texas. Common courses are freshman and sophomore academic credit courses that have been identified as common by institutions that are members of the common course numbering system. The system ensures that if the student takes the courses that the receiving institution designates as common, then the courses will be accepted in transfer and the credit will be treated as if the courses had actually been taken on the receiving institution's campus.

The table below lists the courses Texas A&M University at Galveston has identified as common and their TCCNS equivalents, correct as of Spring 2007. Before using this table students should be sure that the institution they attend employs the TCCNS.

This information can be researched at  
<http://www.tccns.org/matrix/index.htm>.

TCCNS Course	Texas A&M Course
ACCT 2301 . . . . .	ACCT 229
