Preparing for Galveston Gateway

Read each item in this packet; they will also be available in the “Gateway Resources” section on the Galveston Gateway website, tamug.edu/slc/gateway.

Before course registration can be done, you must complete all steps preceding the course registration step on the “Galveston Gateway Prep List” page.

If you have questions about the TSI & MPE, Gateway courses, or academic advising please email the Seibel Learning Center at SLC@tamug.edu, or call us at (409) 741-4343.

For important program dates, please refer to the “New Student Conference & Program Dates” document.

During Galveston Gateway

Galveston Gateway students take courses during the Summer II term, which is July 2nd-August 7th. Final exams are scheduled for August 6th and 7th.

Students will be advised and registered for Fall courses after arriving on campus and beginning the Gateway Program. Students who are unsuccessful in completing Galveston Gateway will have the Fall courses automatically dropped from their schedules.

Towards the end of the program, successful students will coordinate directly with Residence Life about procedures for moving into Fall housing.

The Office of Residence Life will answer all housing questions (deposit, roommate, what to bring, etc.). This is their website: tamug.edu/reslife.

After Successfully Completing Galveston Gateway

After the successful completion of Galveston Gateway, students will continue on at Texas A&M University at Galveston for the Fall Term. This constitutes full admission to the Galveston campus.

We hope that you will graduate from TAMUG. Students interested in pursuing majors offered at the College Station campus must meet Change of Curriculum requirements for their intended majors. These are the Change of Curriculum procedures: tamug.edu/admissions/Change_of_Curriculum.html

For additional information, please contact an admissions counselor: tamug.edu/admissions/MeetTheStaff.html
