1. EDUCATION

1994, UNIVERSITÉ DE MONTRÉAL, MONTRÉAL, QUÉBEC, CANADA.

Ph.D. in Geography. Thesis: "Transportation Corridors in East and Southeast Asian Urban Regions".

1992, UNIVERSITY OF BRITISH COLUMBIA, DEPARTMENT OF GEOGRAPHY AND ASIAN STUDIES CENTRE, VANCOUVER, BRITISH COLUMBIA, CANADA.

Doctoral Internship.

1991, UNIVERSITÉ DE MONTRÉAL, MONTRÉAL, QUÉBEC, CANADA.

M.Sc. in Geography. Memoir: "The Development of a Dynamic Spatial Interaction / Land Use Model: Application to Shanghai".

1989, UNIVERSITÉ DE MONTRÉAL, MONTRÉAL, QUÉBEC, CANADA.

B.Sc. in Geography. Memoir: "Transport Supply and Land Use Changes in Montreal between 1964 and 1983".

2. ACADEMIC POSITIONS

2022- TEXAS A&M UNIVERSITY – GALVESTON, USA.

Professor (2024-) Department of Maritime Business Administration

Distinguished Hagler Fellow, Hagler Institute for Advanced Study (2022-)

1999-2024 HOFSTRA UNIVERSITY, HEMPSTEAD, NEW YORK, USA.

Professor (2011-2023)

Associate Professor (2006-2011)

Assistant Professor (1999-2006)

Department of Global Studies & Geography (2008-2024)

Department of Economics & Geography (1999-2008)

1993-1998, UNIVERSITÉ DU QUÉBEC À TROIS-RIVIÈRES, TROIS-RIVIÈRES, QUÉBEC, CANADA.

Adjunct Lecturer, Department of Geography

1989-1998, UNIVERSITÉ DE MONTRÉAL, MONTRÉAL, QUÉBEC, CANADA.

Adjunct Lecturer and Teaching Assistant, Department of Geography

3. RESEARCH INTERESTS

Transportation and economics as they relate to logistics and global freight distribution. Specific topics cover ports, maritime transport systems and logistics, global supply chains and production networks, gateways, and transport corridors.

- **Maritime Shipping and Global Trade.** Vertical and horizontal integration in liner shipping, terminal operations, and logistics. Developments in seaport systems in light of shifting socioeconomic trends and capacity changes such as the expansion of the Panama Canal. The insertion of transshipment hubs in shipping networks.
- **The Migration, Relocation and Regionalization of Port Terminals.** Investigating the impacts of globalization processes on transport terminals, notably maritime and rail terminals and freight distribution centers. Involves the regionalization of hinterlands, economic cycles and international trade.
- **The Governance of Intermodal Transportation Assets.** Investigating public and private roles and strategies in the setting and operations of global freight distribution systems. The role of global equity firms, terminal operators, and shipping companies in global supply chains. The financing of global supply chains.
- **Logistics and Global Production Networks.** Investigating conceptual and empirical aspects behind the emerging geography of logistics and freight distribution. Particular issues involve global production networks, international/regional freight distribution, shifts in manufacturing, third-party logistics, location within complex multinational supply chains, green/reverse logistics and sustainability.
- **Gateways, Corridors and Inland Freight Distribution.** Investigating the relationships between major transport gateways and regional/urban freight distribution. Specific aspects involve inland terminals, rail transportation, chassis logistics, third-party logistics services providers, distribution centers and distribution clusters (logistics zones).
- **The Containerization of Commodities and Cold Chain Logistics.** The impacts of the containerization of the commodity sector, its niche market opportunities, and its effects on global and regional container flows. The emerging market of refrigerated containers supporting food trade (perishables) is also investigated.
- **Cruise Shipping.** Geographical aspects of the industry, including itineraries and ports of calls. Cruise markets, seasonality, and network configuration.
- **The Digitalization of Freight.** The integration of information technologies as a support to the management and operations of freight flows over modes, terminals, and distribution centers. This includes terminal and vehicle automation as well as transactional systems such as freight exchange platforms and blockchains.
- **City Logistics.** Issues related to the urban circulation of goods. Urban and suburban freight distribution. Urban logistics zones. Impacts of e-commerce and reverse logistics. Sustainable urban freight transport systems.

4. PROFESSIONAL ACTIVITIES

2023-, Transportation Research Board, National Academy of Sciences, Committee Member

- Best Practices for the Efficient Supply of Chassis for Transporting Intermodal Containers.

2021-, United Nations Conference on Trade and Development (UNCTAD), Lead Consultant

- African Port Task Force (APTF), the African Port Outlook 2023 (2023)
 - Building Capacity to Manage Risks and Enhance Resilience: A Guidebook for Ports (2022).
- 2022, Valencia Port Foundation
- The Maritime Economy in 2022.
- 2019-, Strategic Policy and Innovation Policy Group, Transport Canada, Senior Consultant
- A Review of Public Policy Responses to Supply Chain Pressures: An International Assessment.
 - The Expanded Panama Canal: Initial Impacts on North American Ports.
- 2016-, World Bank, Trade and Competitiveness Global Practice, Senior Consultant
- Global Value Chain Resilience project.
 - Global Trade Connectivity: Networks, Trade Costs and Market Opportunities.
- 2016-18, Organisation for Economic Co-operation and Development, Directorate for Financial and Enterprise Affairs, Senior Consultant
- Efficiency and Sustainability in Multi-Modal Supply Chains. Analysis of approaches in intermodal transportation and supply chain management balancing their efficiency with sustainability requirements.
 - Logistics policies and global value chains. Analysis of policies and strategies to promote the logistics sector within national economies.
- 2013, Organisation for Economic Co-operation and Development, Programme on Port-Cities, Senior Consultant
- Evaluation of the performance of the port of Durban. Analysis of the impact of the port on its hinterland and an assessment of related policies and governance.
- 2011, Inter-American Development Bank, Senior Consultant
- Blog contributor to the IDB Regional Observatory on Freight Transport and Logistics.
 - The benefits of logistics investments in Latin America and the Caribbean. Port characteristics and hinterland accessibility. Geographical context and facilities suitable to service national supply chains considering existing and developing transport systems. Policy recommendations in terms of infrastructure investments and the development of managerial capabilities.
- 2010-16, CPCS Transcom, Senior Consultant
- Short Sea Shipping Network Model for the Caribbean. Inter-American Development Bank (Project # RG-T2649).
 - Guidebook for Assessing Evolving International Container Chassis Supply Models. National Cooperative Freight Research Program (Project No. 43).
 - Analysis of Third-Party Logistics Providers (3PLs) Supply Chains. Study commissioned by Transport Canada. Influence on trade flows through Canada's gateways and corridors. Analysis of the supply chains of 30 3PLs operating in Canada and North America.
 - The planning of a logistic zone in Quebec. Developing the commercial and management plan, including site selection. Involved in the analysis of freight flows, the required services of the logistic zone and the interaction with North American intermodal transport systems.
- 2008-2009, Government of Quebec, Ministry of Economic Development, Innovation and Export Trade, Consultant
- The planning of a logistic zone in Quebec. Responsible for the analysis of the global trade environment, governance models of logistic clusters and the opportunity of using empty containers on backhaul trade flows.

2008-2009, Kiewit Construction Company

- Business cycles and commodity prices.

2006-2008, Mi-Jack Inc, Transport Consultant

- Intermodal transport issues. Market potential analysis of new intermodal technologies and operational designs, namely to improve the efficiency of freight distribution.
