# Best Practices - How to import and publish the TAMUG student resources on your Canvas course

In this tutorial, you will learn best practices for publishing the TAMUG Student Resources page to your Canvas course. The Fall 2021 Canvas template has TAMU resources for College Station students. This tutorial aims to replace that page and include the information for Texas A&M at Galveston students.

 Sign into Canvas with the web link <u>https://canvas.tamu.edu/</u> or <u>https://howdy.tamu.edu/</u> and select "*Canvas*" icon. Remember to log in using your TAMU credentials.

2. Once logged into Canvas, click the "*Commons*" icon in the left side menu.

- 11. The home page template is designed for students in college Station and has misleading information for our Galveston students. As the Faculty, it is your choice to edit and update this home page template to include Galveston's students' information. A second option is to choose your "*Module*" section as the new home page.
  - **Option A.** Follow this video to learn how to modify your Home Page template. <u>Adding & Editing Homepage template</u>
  - **Option B.** If you decide to choose your "Module" section as your new home page, go to Home on the left side menu of your course and select the "*Choose Homepage*" option on the right side menu. Then, select "*Course Modules*" from the list and press "*Save*".
